

2021 Market Share Reports for Property/Casualty Groups and Companies By State and Countrywide

2022 Edition

The NAIC is the authoritative source for insurance industry information. Our expert solutions support the efforts of regulators, insurers and researchers by providing detailed and comprehensive insurance information. The NAIC offers a wide range of publications in the following categories:

Accounting & Reporting

Information about statutory accounting principles and the procedures necessary for filing financial annual statements and conducting risk-based capital calculations.

Consumer Information

Important answers to common questions about auto, home, health and life insurance — as well as buyer's guides on annuities, long-term care insurance and Medicare supplement plans.

Financial Regulation

Useful handbooks, compliance guides and reports on financial analysis, company licensing, state audit requirements and receiverships.

Legal

Comprehensive collection of NAIC model laws, regulations and guidelines; state laws on insurance topics; and other regulatory guidance on antifraud and consumer privacy.

Market Regulation

Regulatory and industry guidance on market-related issues, including antifraud, product filing requirements, producer licensing and market analysis.

NAIC Activities

NAIC member directories, in-depth reporting of state regulatory activities and official historical records of NAIC national meetings and other activities.

Special Studies

Studies, reports, handbooks and regulatory research conducted by NAIC members on a variety of insurance related topics.

Statistical Reports

Valuable and in-demand insurance industry-wide statistical data for various lines of business, including auto, home, health and life insurance.

Supplementary Products

Guidance manuals, handbooks, surveys and research on a wide variety of issues.

Capital Markets & Investment Analysis

Information regarding portfolio values and procedures for complying with NAIC reporting requirements.

White Papers

Relevant studies, guidance and NAIC policy positions on a variety of insurance topics.

INTRODUCTION

These *2021 Market Share Reports for Property/Casualty Groups and Companies by State and Countrywide* are intended to make property/casualty (P/C) market share information more readily available. Direct Written Premiums are taken from the “Exhibit of Premiums and Losses” (page 19–Statutory page 14) in the NAIC P/C annual statement. In the Workers’ Compensation and Total All Lines sections of this report, Direct Written Premiums includes prior-year state fund premium data reported directly to the NAIC for the following states: North Dakota, Ohio, South Carolina, Washington and Wyoming. In the Fire, Homeowners, Allied and Total All Lines sections of this report, Direct Written Premiums includes estimated 2021 premium data reported directly to the NAIC from the Louisiana state-run property insurer of last resort.

Insurance groups are made up of insurance companies that are related by ownership. The market share reports show data by group for those insurers that are members of a group. This allows the report to more accurately reflect the number of distinct entities that are competing against one another for business in the market. An index listing the individual insurers within a group is included at the end of the report. Insurers merge, change names, and buy and sell companies; however, the index gives a “snapshot” view of group structures as filed with the NAIC on May 26, 2022, the date this report was generated.

Market shares for 33 lines of business are included in this report, plus Aggregate Write-ins for Other Lines of Business and the Total for All Lines. By state, the report is limited to the top 10 groups and companies in order to keep the publication to a manageable size. However, the top 125 groups and companies are shown for each line of business for the following countrywide aggregations:

- States, U.S. Territories, Canada and Aggregate Other Alien
- States and U.S. Territories

Accident and health insurance data are reported to the NAIC on three annual statements: P/C, life/health and health. Market shares for the individual accident and health lines of business are not included in this report. A separate publication, *Market Share Reports for the Top 125 Accident and Health Insurance Companies and Groups by State and Countrywide*, combines data from all three statements to provide complete market share information for that line. (**Note:** The “Total All Lines” market share in this publication represents Total Line 35 as reported on annual statement Page 19 and, therefore, *will* include accident and health data.)

Commercial Multi-Peril (CMP) is shown in total only, as the distinction between the property and liability portions of CMP are meaningful for analysis of loss development, but less so for analysis of market share. No Fault and Liability coverages are combined for both private passenger and commercial auto due to inconsistent reporting of No Fault data among the various companies and states.

This report provides cumulative market share data for the top 10 writers by state, and for the top 125 writers countrywide. This is one indicator of the degree of market concentration in a line of business. The report also provides the countrywide and by-state direct loss ratios for the top writers in each line of business, as well as a countrywide and by-state “total industry” loss ratio. Tables displaying the direct loss ratios for each line of business on a countrywide basis follow this introduction. These figures include only data taken from the “Exhibit of Premiums and Losses” (page 19–Statutory page 14) in the NAIC P/C annual statement.

The loss ratios in this report reflect a simple calendar-year result. **While these loss ratios provide some information about results for that year, they should not be considered as measures of overall profitability.** Many other factors, including expenses and investment income, are used in developing profitability measures. Many property lines—such as earthquake, homeowners, allied lines and inland

marine—are subject to extreme fluctuations in results, due, in particular, to the occurrence of major catastrophes such as tornadoes, earthquakes and civil disturbances.

For further analysis of the profitability of lines of business, refer to the NAIC *Report on Profitability by Line by State*. That report is also on a calendar-year basis, but it includes a 10-year aggregation of results. For lines not specifically included in the *Report on Profitability by Line by State*, the NAIC *Statistical Compilation of Annual Statement Information for Property/Casualty Insurance Companies* contains a countrywide, calendar-year industry aggregation of the Insurance Expense Exhibit (IEE).

Please send any questions regarding this report to researchrequest@naic.org. Links to this report or other NAIC reports can be found on the NAIC website at: [NAIC Publications](#).

PROPERTY/CASUALTY MARKET SHARE REPORT APPLICATIONS

The Property/Casualty Market Share Report will help a user:

- ✓ Assess an insurer's competitive position
- ✓ Create benchmarks to compare companies
- ✓ Identify the top writers
- ✓ Analyze the overall size of the market
- ✓ Identify premium volume trends
- ✓ Evaluate market penetration potential
- ✓ Evaluate post-merger market implications

The Property/Casualty Market Share Report provides fundamental market information that can be used by regulators, insurers and others interested in analyzing the insurance industry. This report gives users an understanding of the overall size of the market by providing data at a state and national level. Included in this report are several charts and graphs that illustrate premium growth over the past 10 years. These charts can be used to identify nationwide premium volume trends. This is pertinent information for anyone attempting to evaluate an insurer's market penetration or growth potential.

The Property/Casualty Market Share Report serves as an important tool for insurance regulators and can help them identify the top P/C writers in their jurisdiction. Knowing this allows them to quickly and effectively target insurance department resources. This is important when responding to market or financial conditions in their jurisdiction. Many states have antitrust laws that prevent insurers from merging or combining with other insurers if the post-merger impact stifles competition within the state. Insurance regulators can assess any proposed merger transaction by evaluating the combined market share percentage of the participating insurers.

The data contained in this report can be used for financial or market analysis. Significant changes in an insurer's market share ranking can be an indication of competitiveness, financial or market health, or structural changes. For instance, steady market share growth allows an insurer to gain greater economies of scale and retain more in its bottom line. However, rapid market share increases can indicate that an insurer is growing too fast and should be examined for solvency stability and rate inadequacy. Rapid market share increases could also be the result of a merger. In contrast, rapid market decreases could indicate that the insurer is reducing its exposure, has ceased writing due to financial difficulty or is encountering market conduct issues.

Utilizing this report allows insurers to identify their competitors and comparative market share. This allows insurers to easily assess their competitive position and assist in establishing strategic objectives, such as premium growth goals or benchmark targets.

* Loss Ratio = [(Incurred Losses / Earned Premiums) * 100]

These loss ratios represent the results for a calendar year and should not be considered as measures of overall profitability of a line of insurance.

26	Burglary and Theft
27	Boiler and Machinery
28	Credit
30	Warranty
34	Aggregate Write-Ins for Other Lines of Business

General

Only companies reporting positive written premiums are displayed in this report. While companies reporting negative written premiums are not listed, the negative written premium amounts along with any reported earned premiums, incurred losses, and incurred loss and cost containment expenses are included in the total calculations. Due to the addition of negative premiums to the total written premium, the cumulative market share is capped at 100%.

Loss Ratio

Direct Loss to Premium Earned Ratio = $[(\text{Direct Losses Incurred}/\text{Direct Premiums Earned}) * 100]$.

Direct Loss and Direct Defense and Cost Containment Loss to Premium Earned Ratio = $[(\text{Direct Losses Incurred} + \text{Direct Defense and Cost Containment Expenses Incurred}) / (\text{Direct Premiums Earned}) * 100]$.

If earned premiums are zero or negative, or direct losses are negative, then Loss Ratio = N/A.

Market Share

Market Share = $[(\text{Company or Group's direct premiums written}/\text{total direct premiums written}) * 100]$. Depending on the report, the total premiums are either countrywide or by state/territory.

Cumulative Market Share is the running total of the individual Company or Group market shares.

Workers' Compensation and Other State Funds

Data for certain state funds/residual market mechanisms is provided directly to the NAIC. It should be noted that the year-end for many of these funds is June 30 instead of Dec. 31. Additionally, the direct premium written figure for Louisiana Citizens Property Insurance Corporation is unaudited, and, therefore, subject to restatement. For 2021, the state funds/residual market mechanisms reporting directly to the NAIC used loss adjustment expenses (LAE) in lieu of direct defense and cost-containment expenses.

The funds are as follow:

State	Name	Direct Premiums Written	Direct Premiums Earned	Direct Losses Incurred	Direct Defense and Cost Containment Expenses Incurred
ND	Workforce Safety and Insurance	194,236,191	202,212,727	94,292,679	4,749,967
OH	Ohio Bureau of Workers' Compensation	1,198,066,000	1,198,066,000	347,965,000	178,293,000
SC	South Carolina State Accident Fund	56,419,440	56,419,440	72,939,462	3,501,430
WA	Washington State Fund	1,615,275,000	1,615,275,000	2,375,849,000	261,173,000
WY	Wyoming State Fund	190,834,852	159,943,056	203,255,748	5,082,208
LA	Louisiana Citizens Property Insurance Corporation	75,859,017	63,200,731	460,728,576	9,350,982
