EDITOR'S NOTE:

Some statement pages and items are considered self-explanatory and have no instructions other than what appears on the printed statement blank.

INSTRUCTIONS

For Completing Health Annual Statement Blank

FOREWORD

Line titles and column headings of the various statement items and lines are in general self-explanatory and as such constitute instructions. Specific instructions are prescribed for items and lines about which there might be question as to content. Make any entry for which no specific instruction appears in accordance with sound insurance accounting principles and in a manner consistent with related items and lines covered by specific instructions. The NAIC *Accounting Practices and Procedures Manual* is one reference for guidance concerning statutory accounting principles.

The format of the annual statement facilitates data capture. Therefore, do not change the captions for pre-printed items, lines, or columns and do not insert write-ins between pre-printed items, lines or columns (however, these requirements do not apply to the signature lines on the Jurat Page). An entry for which no specific pre-printed line title appears (for example, Deferred option income) should be included in the appropriate write-in line for each schedule or applicable page. Include an identifying title with each entry. Report the write-in lines in descending order. The statement provides a limited number of lines for write-ins in each applicable section. Do not modify these pre-printed write-in detail schedules. If there is insufficient room in a write-in detail schedule to accommodate all write-ins to be reported therein, report the write-in detail overflow on pages sequentially numbered beginning with Page 45 (overflow page) followed by 45.1, 45.2, etc. In such instances, carry the summary of write-in overflow lines from this page to the prescribed line in the write-in detail schedule.

Each overflow write-in section should adhere to the following example:

Page 2

ASSETS

2501.	Write-in caption aaaa	\$	500,000
2502.	Write-in caption bbbb		350,000
2503.	Write-in caption cccc		250,000
2598.	Summary of remaining write-ins for Line 25 from Overflow page		300,000
2599.	TOTAL (Lines 2501 through 2503 plus 2598) (Page 2, Line 25)	\$	1,400,000

2509.	Write-in caption iiii		5,000
2597.	Summary of remaining write-ins for Line 25 (Lines 2504 through 2596) (Page 2, Line 2598)	\$	300,000

More than one detail overflow section may appear on one page. However, the items should remain in page number order. Notwithstanding the prohibition against changing the captions of pre-printed items or columns and against inserting write-ins between pre-printed lines or columns, certain portions of the annual statement may require more lines than are provided. When additional lines are required within any of these statement areas, companies shall continue the sequence of either the pre-printed line number range, or the line number range described in the appropriate instruction area.

When the use of such additional lines requires more room than exists on the pre-printed page, the continuation should be presented on a page, inserted immediately following the pre-printed page, designated as page n.1, n.2, etc. For instance, if Schedule BA, Part 1, Other Long-Term Invested Assets requires more lines, the continuation would be presented on Page E07.1, E07.2, etc. Adequately caption all such additional pages to enable ready identification.

Pre-printed subtotal, total, and grand total lines have specific line numbers assigned. The prescribed subtotal line numbers are set forth in the instructions for the respective annual statement page or part thereof, to which they pertain.

In most instances, the information appearing in the various sections of the statement will be sufficient to meet examination needs. However, each company must maintain adequate records and work papers to support the detail of all accounting transactions, enabling verification of the year-end statement values. Company management should perform a periodic review to determine that these records are accurate, sufficiently detailed, and retained in orderly, safe storage with appropriate retention periods.

GENERAL

The annual statement is to be completed in accordance with the *Annual Statement Instructions* and *Accounting Practices and Procedures Manual* except to the extent that state law, rules or regulations are in conflict with these publications. In cases of conflict, the health annual statement will be filed pursuant to such state's filing requirements. The domiciliary state's insurance regulatory authority shall maintain full discretion in determining which NAIC annual statement blank must be filed. The annual statement blank filed with the domiciliary state shall be the blank submitted to, and maintained by, the NAIC, and barring conflict as described above, should be filed with all jurisdictions in which the reporting entity is licensed.

1. **Health Statement Test:**

If a reporting entity completes the health annual statement for the reporting year, the reporting entity must complete the Health Statement Test.

The Health Statement Test is designed to determine whether a reporting entity reports predominantly health lines of business. Health lines include hospital or medical policies or certificates, comprehensive major medical expense insurance and managed care contracts and exclude other health coverage such as credit insurance, disability income coverage, automobile medical coverage, workers' compensation, accidental death and dismemberment policies and long-term care policies.

Passing the Test:

A reporting entity is deemed to have passed the Health Statement Test if the values for the premium and reserve ratios in the Health Statement Test equal or exceed 95% for both the reporting and prior year and will continue to report on the Health Statement

Failing the Test:

If a reporting entity, licensed as a life, accident and health or property and casualty insurer in its domiciliary state, is required to file the health annual statement for the reporting year and does not pass the Health Statement Test in the reporting year, it will revert to the annual statement form and risk-based capital report associated with the type of license held in its domestic state in the first quarter of the second year following the reporting year. For example, if the reporting entity reports a premium or reserve ratio below 95% in 20X1, the reporting entity is deemed to have not passed the Health Statement Test. Therefore, the reporting entity would revert to the annual statement form and risk-based capital report associated with the type of license held in its domestic state in the first quarter of 20X3. However, if the reporting entity reports premium and reserve ratios of 95% or greater in 20X2, it should work with its domiciliary regulator to determine the appropriate blank to file on to avoid movement back and forth between blanks. (As noted above, the domiciliary state regulator maintains full discretion in determining which annual statement blank must be filed and when the reporting entity is to move.)

If a reporting entity, licensed as a health insurer in its domiciliary state, is required to file the health annual statement for the reporting year and does not pass the Health Statement Test in the reporting year, it should continue to file the health annual statement.

Variances from following these instructions:

If a reporting entity's domestic regulator requires the reporting entity to complete an annual statement form and risk-based capital report that differs from these instructions, the domestic regulator shall notify the reporting entity in writing by June 1 of the year following the reporting year in which a Health Statement Test is submitted.

2. **Date of filing:**

The statement is required to be filed on or before March 1, unless otherwise provided.

3. Companies are required to file the quarterly statement 45 days after the end of the quarter and the annual statement on or before March 1 for the preceding calendar year, unless otherwise required.
4. The reporting date and the legal name of the company must be plainly written or stamped at the top of all pages, exhibits and schedules (and duplicate schedules) and also upon all inserted schedules and loose sheets. Where permitted, the assumed name can accompany the legal name.
5. It is the responsibility of the company to prepare and utilize the barcodes correctly. See the Appendix within these instructions for use of specific barcodes.
6. Printed statements or copies produced by some duplicating process on the actual blanks required by this Department, will be accepted if:
 - a. Bound in covers similar in color to the blanks required by this Department;
 - b. Printed or duplicated by a process resulting in permanent black characters on a good grade of paper of light color; and
 - c. Such statements and all supporting schedules contain all the information required, with the same headings and footnotes, and are of the same size and arrangement, page for page, column for column, and line for line, as in the blanks required by this Department, unless the company is otherwise instructed.

State insurance departments, other than the state of domicile, must choose to receive certain detailed investment schedules (as listed below) in hardcopy. The state filing instructions will serve as notice regarding the requirements. However, even if the detailed investment schedules are required by a state other than where the reporting entity is domiciled, those detailed pages may be included in a separate bound statement, provided some reference to the fact is included with the regular filing and in the location where those pages would be included.

The following schedules are to be filed in paper copy with the state of domicile only, unless specifically requested by other admitted states. The state filing checklist and instructions will serve as notice regarding the paper filing requirements.

- Schedule A
- Schedule B
- Schedule BA
- Schedule D, Parts 1 – 6 (excluding Part 1A)
- Schedule DA, Part 1
- Schedule DB, Parts A–E
- Schedule DL, Parts 1 and 2
- Schedule E, Parts 1, 2 and 3
- Long-Term Care Experience Reporting Forms
- Medicare Supplement Insurance Experience Exhibit

If the reporting entity is filing with the NAIC, that filing shall be via the Internet only.

Photocopied or faxed pages are not acceptable.

Printing Standards

- a. Commercial printers must be furnished with original laser printer output generated at appropriate laser settings to give the highest print quality (no photocopied or faxed pages).
- b. No font smaller than 6-point type for the annual statement may be used. Ornate fonts may not be used.
- c. Present numbers in non-bold, non-italic type.
- d. Numbers must be non-proportionally spaced.
- e. The annual and quarterly statements must be printed at 9 lines per inch.
- f. Unobtrusive dotted leader lines shall be printed across the page to guide the eye to the reported figures. They should not touch the reported figures.
- g. Slashed zeros (Ø) shall not be used.
- h. The number of detail write-in lines printed in any detail write-in section shall be three (3). Remaining detail write-in lines, if any, shall be reported on the overflow page.

These rules do not apply to pre-printed line captions, column headings, or footnotes.

If a reporting entity utilizes a software package other than the annual statement vendors' package for producing variable line schedules, the reporting entity is responsible for ensuring that such package(s) meet all of the aforementioned printing standards.

All annual and quarterly statements and all filing forms associated with the annual and quarterly statement filings are to be 8 ½" x 14" unless otherwise specified by state(s).

7. Blank schedules will not be considered properly filed. If no entries are to be made, write "None" or "Nothing" across the schedule in question or complete the appropriate interrogatory of the Supplemental Exhibits and Schedules Interrogatories page of the annual statement blank. If a reporting entity chooses not to file allowable investment schedule detail, the schedule must be stamped, "Details filed with the state of domicile, state of commercial domicile and the NAIC." Companies should account for every page of the annual statement in consecutive page number order. If several consecutive pages are "None", (or in the case of some investment schedules that are not filed in hard copy in all states), the appropriate page numbers with exhibit or schedule headings may be listed on one page. Insert that page in the appropriate location in the annual statement.
8. If additional supporting statements or schedules are added in connection with answering interrogatories or providing information on the financial statement, the additions should be properly keyed to the item being answered.
9. Any item that cannot be readily classified under one of the printed items must be reported with an identifying title (for example, Deferred option income) in the appropriate write-in section for each applicable page, or section thereof. The statement provides a limited number of lines for write-ins, but companies may add as many lines as necessary.
10. The "include" and "exclude" are examples only and are not intended to be all-inclusive.
11. If this report does not contain the information asked for in the blanks or is not prepared in accordance with these instructions, it will not be considered filed.
12. Report all amounts in whole dollars only, except for designated schedules where 000's are omitted. Companies may elect to report the amounts to the nearest dollar or may truncate digits below a dollar. (Examples: \$602,543.52 may be reported as \$602,544 by rounding or as \$602,543 by truncation.) It is expected that the failure of items to add to the summary totals will reflect this treatment.
13. Report all amounts in U.S. dollars only, except for nominal information included in description fields that may be expressed in a foreign currency. Refer to *SSAP No. 23—Foreign Currency Transactions and Translations* for accounting guidance.

14. Effective 01/01/2001, all dates must be reported in the format of MM/DD/YYYY. For investments purchased prior to 01/01/2001 (or where complete dates are not available for activities prior to 01/01/2001), and the company does not have sufficient information to report month or day, 01/01 should be used.
15. The company should not change the page numbers designated in the association blank. If extra pages are needed, for other than sections entitled “Details of Write-Ins” use decimals after the page number, like 37.1, 37.2, etc. For example, General Interrogatories, Part 1 – Common Interrogatories 27, 27.1, 27.2 etc., and Part 2 – Health Interrogatories 28, 28.1, 28.2, etc.

If pages are doubled up, double up the page numbers also. For example, if Pages 37, 38 and 39 are shown on the same page, show all three page numbers at the bottom of the page like 37, 38 and 39 or 37-39.

16. Unless otherwise specified, report all alphabetic code and YES/NO responses to interrogatories, exhibits and schedules in solid capital letters.
17. While there are instances where the filing of an amended annual statement may be necessary (in which case all related filings including electronic filing are resubmitted), the restatement of prior years’ results is generally prohibited. The reporting entity should submit such changes with a new Jurat Page, completed in all respects, along with an amended annual statement.
18. Assets and liabilities shall be offset and reported net only when a valid right of setoff exists and if not prohibited by specific statements of statutory accounting principles. Refer to *SSAP No. 64—Offsetting and Netting of Assets and Liabilities* for accounting guidance.
19. Except in situations where a merger has occurred, amounts reported for assets, liabilities, surplus, revenues, and expenses for prior years in the current year’s annual statement must be identical to the amounts that were reported in the annual statement of the prior year. However, amounts reported in prior years may need to be adjusted in the current year as a result of the following:

Changes in accounting principles or practices or changes in the methods of applying accounting principles or practices.

Changes in accounting estimates as a result of new events or new information.

Corrections of errors in previously filed information.

A merger.

If changes are required for amounts reported in prior years, such changes are included in the amounts reported for the current year. Report the effects of such changes as follows, unless these Instructions or the NAIC *Accounting Practices and Procedures Manual* specifically provide for a different treatment:

- A. The cumulative effect of a change in accounting principles or practices or a change in the method of applying accounting principles or practices should be reported on Page 5, Line 43 Cumulative Effect of Changes in Accounting Principles. The cumulative effect of changing to a new accounting principle is the difference between the amount of net worth at the beginning of the year and the amount of net worth that would have been reported at that date, if the new accounting principle had been applied retroactively for all prior periods. An example of a change in accounting principles would be a change in the method of accounting for pensions or other post-employment benefits.
- B. The effects of changes in accounting estimates are included in income and expenses in the Statement of Revenue and Expenses for the current year. For example, a change in the estimate of loss reserves for losses related to prior years are included in the Statement of Revenue and Expenses in losses incurred for the current year.
- C. The effects of changes resulting from corrections of errors in previously filed information (for example, mathematical mistakes, misapplication of accounting principles, or oversight or misuse of facts) should be reported as an adjustment to surplus in the current year. Report such adjustments to surplus with an appropriate identifying title as a write-in item for the Aggregate Write-ins for Gains or (Losses) in Surplus line.

- D. In the case of a merger, prior year's amounts reported for assets, liabilities, surplus, revenues and expenses and those amounts reflected in supporting annual statement schedules, are reported on a merged basis consistent with the current year's post-merger reporting basis.
 - E. Changes that do not affect assets, liabilities, revenues, expenses, or surplus, but that materially affect historical information in the financial statement schedules (e.g., Underwriting and Investment Exhibit – Part 2A) are reflected in the current year's schedules with appropriate notations made directly to the affected schedules and in the Notes to Financial Statements.
- 20. Related parties are defined in *SSAP No. 25—Affiliates and Other Related Parties* as entities that have common interests as a result of ownership, control, affiliation or by contract. Refer to SSAP No. 25 for accounting principles and disclosure requirements for related party transactions.
 - 21. A “person” is an individual, corporation, partnership, joint venture or any other legal entity. A “parent” is any person that, directly or indirectly, owns or controls the reporting entity. A “subsidiary” is any person that is, directly or indirectly, owned or controlled by the reporting entity. An “affiliate” is any person that is, directly or indirectly, owned or controlled by the same person or by the same group of persons that, directly or indirectly, own or control the reporting entity. The term “affiliate” includes parent and subsidiaries. Control shall be presumed to exist if a person, directly or indirectly, owns, controls, holds with the power to vote or holds proxies, representing 10% or more of the voting securities of any other person.
 - 22. All reported amounts less than zero shall be represented by the use of parentheses. Parentheses shall also be used to denote those instances in which the reported figure is contrary to what normally would be expected.
 - 23. The Notes to Financial Statements are provided to disclose pertinent information, including comments on items or transactions that are unusual or not self-explanatory or that might otherwise be misunderstood.

ACTUARIAL OPINION

1. There is to be included on or attached to Page 1 of the annual statement, the statement of the appointed actuary setting forth his or her opinion relating to claim reserves and any other actuarial items. The appointed actuary must be a qualified health actuary appointed by the board of directors, or its equivalent, or by a committee of the board, by December 31 of the calendar year for which the opinion is rendered. Within five business days of the appointment, the company shall notify the domiciliary commissioner of the name, title (and, in the case of a consulting actuary, the name of the firm) and manner of appointment or retention of each person appointed or retained by the company as an appointed actuary and shall state in the notice that the person meets the requirements of a qualified health actuary. Once these notices are furnished, no further notice is required with respect to this person unless the actuary ceases to be appointed or retained or ceases to meet the requirements of a qualified health actuary. “Qualified health actuary,” as used herein means a member in good standing of the American Academy of Actuaries, or a person recognized by the American Academy of Actuaries as qualified for such actuarial valuation.

If an actuary who was the appointed actuary is replaced, the insurer shall within five business days notify the insurance department of the state of domicile of this event. The insurer shall also furnish the domiciliary commissioner with a separate letter within 10 business days of the above notification stating whether in the 24 months preceding such event there were any disagreements with the former appointed actuary regarding the content of the opinion on matters of the risk of material adverse deviation, required disclosures, scopes, procedure, or data quality. The disagreements required to be reported in response to this paragraph include both those resolved to the former actuary’s satisfaction and those not resolved to the former actuary’s satisfaction. The insurer shall also in writing request such former actuary to furnish a letter addressed to the insurer stating whether the actuary agrees with the statements contained in the insurer’s letter and, if not, stating the reasons he does not agree; and the insurer shall furnish such responsive letter from the former actuary to the domiciliary commissioner together with its own.

The Appointed Actuary must report to the Board of Directors or the Audit Committee each year on the items within the scope of the Actuarial Opinion. The Actuarial Opinion and the Actuarial Memorandum must be made available to the Board of Directors. The minutes of the Board of Directors should indicate that the Appointed Actuary has presented such information to the Board of Directors or the Audit Committee and that the Actuarial Opinion and the Actuarial Memorandum were made available. A separate Actuarial Opinion is required for each company filing an Annual Statement.

The Actuarial Opinion and the supporting Actuarial Memorandum and work papers must conform to the appropriate Actuarial Standards of Practice (ASOPs), as promulgated by the Actuarial Standards Board.

1A. Definitions

“Insurer” means an entity authorized to write accident and health contracts under the laws of any state and which files on the Health Blank.

“Actuarial Memorandum” means a document or other presentation prepared as a formal means of conveying the appointed actuary’s professional conclusions and recommendations, of recording and communicating the methods and procedures, of assuring that the parties addressed are aware of the significance of the appointed actuary’s opinion or findings and that documents the analysis underlying the opinion. The expected content of the memorandum is further described in Section 1C.

“Actuarial asset” means an actuarial item presented as an asset in the annual statement and included in the scope of the Statement of Actuarial Opinion.

“Actuarial liability” means an actuarial item presented as a liability in the annual statement and included in the scope of the Statement of Actuarial Opinion.

1B. Exemptions

An insurer who intends to file for one of the exemptions under this Section must submit a letter of intent to its domiciliary commissioner no later than December 1 of the calendar year for which the exemption is to be claimed. The commissioner may deny the exemption prior to December 31 of the same year if he or she deems the exemption inappropriate.

A copy of the approved exemption must be provided in lieu of the Actuarial Opinion with the Annual Statement in all jurisdictions in which the company is authorized.

Exemption for Small Companies

An insurer that has less than \$1,000,000 total direct plus assumed written premiums during a calendar year, and less than \$1,000,000 total direct plus assumed loss and loss adjustment expense reserves at year-end, in lieu of the Actuarial Opinion required for the calendar year, may submit an affidavit under oath of an officer of the insurer that specifies the amounts of direct plus assumed written premiums and direct plus assumed loss and loss adjustment reserves.

Exemption for Insurers under Supervision or Conservatorship

Unless ordered by the domiciliary commissioner, an insurer that is under supervision or conservatorship pursuant to statutory provision is exempt from the filing requirements contained herein.

Exemption for Nature of Business

An insurer otherwise subject to the requirement and not eligible for an exemption as enumerated above may apply to its domiciliary commissioner for an exemption based on the nature of business written.

Financial Hardship Exemption

An insurer otherwise subject to this requirement and not eligible for an exemption as enumerated above may apply to the commissioner for a financial hardship exemption. Financial hardship is presumed to exist if the projected reasonable cost of the Actuarial Opinion would exceed the lesser of:

- (i) One percent of the insurer's capital and surplus reflected in the insurer's latest quarterly statement for the calendar year for which the exemption is sought; or
- (ii) Three percent of the insurer's direct plus assumed premiums written during the calendar year for which the exemption is sought as projected from the insurer's latest quarterly statements filed with its domiciliary commissioner.

1C. The Actuarial Memorandum and underlying actuarial work papers supporting the Actuarial Opinion will be available for regulatory examination for seven years.

The Actuarial Memorandum contains significant proprietary information. It is expected that the Memorandum will be held confidential and is not intended for public inspection. The Memorandum must be available by May 1 of the year following the year-end for which the opinion was rendered or within two weeks after a request from an individual state commissioner.

The Actuarial Memorandum should conform to the documentation and disclosure requirements of the Standards of Practice as promulgated from time to time by the Actuarial Standards Board. The Actuarial Memorandum should contain both narrative and technical components. The narrative component should provide sufficient detail to clearly explain to company management, the regulator, or other authority the findings, recommendations and conclusions, as well as their significance. The technical component should provide sufficient documentation and disclosure for another actuary practicing in the same field to evaluate the work. This technical component must show the analysis from the basic data, (e.g., claim lags) to the conclusions.

The Memorandum must also include:

- An exhibit which ties to the Annual Statement and compares the actuary’s conclusions to the carried amounts;
- Documentation of the required reconciliation from the data used for analysis to the Underwriting and Investment Exhibit, Part 2B;
- Any other follow-up studies documenting the prior year’s claim liability and claim reserve run-off as considered necessary by the actuary; and
- Documentation of the assumptions used for contract reserves and any material changes to those assumptions from the assumptions used in the previous memorandum. Such documentation should address any studies which support the adequacy of any margin in such reserves.

2. The Actuarial Opinion must consist of the following sections:

- A TABLE of KEY INDICATORS – alerts the reader to the type of opinion and any changes from the prescribed language;
- IDENTIFICATION section – identifies the appointed actuary;
- SCOPE section – identifies the subjects on which an opinion is to be expressed and describes the scope of the appointed actuary’s work;
- RELIANCE section – identifies anyone the actuary has relied upon for the underlying records and/or summaries;
- OPINION section – expresses the appointed actuary’s opinion with respect to the subjects identified in the Scope section; and
- RELEVANT COMMENTS section.

Each section must be clearly designated. There is prescribed wording for each section. If the appointed actuary changes this wording or adds additional wording for clarification, the appropriate box in the TABLE of KEY INDICATORS must be appropriately checked. The prescribed wording should be modified only if needed to meet the circumstances of a particular case, and the actuary should, in any case, use language that clearly expresses his or her professional judgment.

3. The TABLE of KEY INDICATORS is to be at the top of the Opinion and the appropriate boxes are to be checked consistent with the remainder of the opinion. The only options are those presented below:

4. The IDENTIFICATION section should specifically indicate the appointed actuary's relationship to the company, qualifications for acting as appointed actuary, date of appointment, and should specify that the appointment was made by the Board of Directors, or its equivalent or by a committee of the Board.

A person who is not a Member of the American Academy of Actuaries but is recognized by the Academy as qualified must attach, each year, a copy of the approval letter from the Academy.

This section should contain only one of the following:

For a Member of the American Academy of Actuaries who is an employee of the organization, the opening paragraph of the opinion should contain all the following sentences if the appointed actuary is using the prescribed wording:

"I, (name and title of actuary), am an employee of (named organization) and a member of the American Academy of Actuaries. I was appointed on [date of appointment] in accordance with the requirements of the annual statement instructions. I meet the Academy qualification standards for rendering the opinion."

For a consultant who is a Member of the American Academy of Actuaries, the opening paragraph of the opinion should contain all the following sentences if the appointed actuary is using the prescribed wording:

"I, (name and title of consultant), am associated with the firm of (name of firm). I am a member of the American Academy of Actuaries and have been retained by the (name of organization) to render an opinion with regard to loss reserves, actuarial liabilities, actuarial assets and related items. I was appointed on [date of appointment] in accordance with the requirements of the annual statement instructions. I meet the Academy qualification standards for rendering the opinion."

For an employee other than a member of the American Academy of Actuaries, the opening paragraph of the opinion should contain both the following sentences if the appointed actuary is using the prescribed wording:

"I, (name and title), am an employee of (name of organization) and am recognized by the American Academy of Actuaries as qualified to perform actuarial valuations for organizations of this kind. I was appointed on [date of appointment] in accordance with the requirements of the annual statement instructions."

For a consultant other than a member of the American Academy of Actuaries, the opening paragraph of the opinion should contain all the following sentences if the appointed actuary is using the prescribed wording:

"I, (name and title of consultant), am associated with the firm of (name of firm). I am recognized by the American Academy of Actuaries as qualified to perform actuarial valuations for organizations of this kind and have been retained by the (name of organization) with regard to such valuation. I was appointed on [date of appointment] in accordance with the requirements of the annual statement instructions."

5. The SCOPE section should contain only the following statement (including all specified lines even if the value is zero) if the appointed actuary is using the prescribed wording:

"I have examined the assumptions and methods used in determining loss reserves, actuarial liabilities, actuarial assets, and related items listed below, as shown in the annual statement of the organization as prepared for filing with state regulatory officials, as of December 31, 20__.

- A. Claims unpaid (Page 3, Line 1);
- B. Accrued medical incentive pool and bonus payments (Page 3, Line 2);
- C. Unpaid claims adjustment expenses (Page 3, Line 3);
- D. Aggregate health policy reserves (Page 3, Line 4) including unearned premium reserves, premium deficiency reserves and additional policy reserves from the Underwriting and Investment Exhibit, Part 2D;

- E. Aggregate life policy reserves (Page 3, Line 5);
- F. Property/casualty unearned premium reserves (Page 3, Line 6);
- G. Aggregate health claim reserves (Page 3, Line 7);
- H. Any other loss reserves, actuarial liabilities, or related items presented as liabilities in the annual statement; and
- I. Specified actuarial items presented as assets in the annual statement.”

Items H and I are not intended to include the liabilities and assets associated with benefits provided to employees of the organization, or the organization’s directors or trustees, except to the extent that such benefits are provided through insurance or annuity contracts of a type that the organization is authorized to issue in the ordinary course of its business. For example, liabilities for employee pensions generally would not be within the scope of the Actuarial Opinion. However, if the organization is licensed to issue life insurance, then liabilities arising from life insurance policies or certificates issued by the organization to its employees would be within the scope of the Actuarial Opinion just as would the comparable liabilities arising from policies or contracts issued to unrelated parties.

If there are any items included in items H or I, they should be listed using appropriate annual statement captions and line references. The phrase “Not Applicable” should be placed under the item description for either item H or I if there is nothing to be listed. Any listings under items H and I do not constitute either “additional wording” or “revised wording” for purposes of the Table of Key Indicators.

If for either item H or item I there is more than one line item to be listed, the line items under the general H or I heading should be numbered sequentially.

The amounts of any assets listed under item I should be the gross amount of the asset (Page 2, Column 1 of the Annual Statement), not the net admitted amount (Page 2, Column 3).

For items A through G listed in the SCOPE section and each sub-line for items H and I, the item label should be followed by the amount of that item as reported in the annual statement. These stated amounts do not constitute either “additional wording” or “revised wording” for purposes of the Table of Key Indicators. Where the phrase “Not Applicable” is used in item H or item I, it means that there are no such items to be included in the Opinion, so there should be no value shown as a stated amount.

For example:

- I. Specified actuarial items presented as assets in the annual statement, as follows:
 - 1. Accrued retrospective premiums (Page 2, line 15.3, column 1)
6. The RELIANCE section should contain only one of the following if the appointed actuary is using the prescribed wording:

If the appointed actuary has examined the liability records, the reliance section should include only the following statement:

“My examination included such review of the actuarial assumptions and actuarial methods and of the underlying basic liability records and such tests of the actuarial calculations as I considered necessary. I also reconciled the underlying basic liability records to the Underwriting and Investment Exhibit, Part 2B of the company’s current annual statement.”

If the appointed actuary has not examined the underlying records, but has relied upon data (e.g., asset or liability records) prepared by the company, the reliance section should include only the following statement:

“In forming my opinion on [specify types of reserves] I relied upon data prepared by [name and title of company officer certifying liability records or other data] as certified in the attached statements. I evaluated that data for reasonableness and consistency. I also reconciled that data to the Underwriting and Investment Exhibit, Part 2B of the company’s current annual statement. In other respects, my examination included review of the actuarial assumptions and actuarial methods used and tests of the calculations I considered necessary.”

Attached to the appointed actuary’s opinion should be a statement by each person relied upon and a precise identification of the items subject to reliance. In addition, the persons on whom the appointed actuary relies shall each provide a certification that precisely identifies the items on which the person is providing information and a statement as to the accuracy, completeness or reasonableness, as applicable, of the items. This certification shall include the signature, title, company, address and telephone number of the person rendering the certification, as well as the date on which it is signed.

7. The OPINION section should include only the following statement if the appointed actuary is using the prescribed wording:

“In my opinion, the amounts carried in the balance sheet on account of the items identified above:

- A. Are in accordance with accepted actuarial standards consistently applied and are fairly stated in accordance with sound actuarial principles;
- B. Are based on actuarial assumptions relevant to contract provisions and appropriate to the purpose for which the statement was prepared;
- C. Meet the requirements of the Insurance Laws and regulations of the state of [state of domicile] and:

(Use of one the following phrases, as appropriate, is considered prescribed wording. Replacing “[list states]” with an actual list of states in parentheses is also considered prescribed wording.)

the loss reserves and actuarial liabilities are at least as great as the minimum aggregate amounts required by any state,

or

the loss reserves and actuarial liabilities are at least as great as the minimum aggregate amounts required by any state with the exception of the following states [list states]. For each listed state a separate statement of actuarial opinion was submitted to that state that complies with the requirements of that state;

- D. Make a good and sufficient provision for all unpaid claims and other actuarial liabilities of the organization under the terms of its contracts and agreements;
- E. Make a reasonable provision for all actuarial assets of the organization under the terms of its contracts and agreements;
- F. On a combined basis, make a reasonable provision for all actuarial assets and actuarial liabilities of the organization under moderately adverse conditions;
- G. Are computed on the basis of assumptions and methods consistent with those used in computing the corresponding items in the annual statement of the preceding year-end; and
- H. Include appropriate provision for all actuarial items that ought to be established.

The Underwriting and Investment Exhibit, Part 2B was reviewed for reasonableness and consistency with the applicable Actuarial Standards of Practice.

Actuarial methods, considerations, and analyses used in forming my opinion conform to the relevant Standards of Practice as promulgated from time to time by the Actuarial Standards Board, which standards form the basis of this statement of opinion.”

- 8. The opinion may include a RELEVANT COMMENTS section if the actuary so desires. For example, if there has been any material change in the assumptions and/or methods from those previously employed, a portion of this section can describe that change in the statement of opinion by including a description of the changes such as:

“A material change in assumptions (and/or methods) was made during the past year but such change accords with accepted actuarial standards.” A brief description of the change should follow. A more detailed analysis should be contained in the Actuarial Memorandum.

The adoption of new coverages requiring underlying assumptions that differ from assumptions used for prior coverages is not a change in assumption within the meaning of this paragraph.

One or more additional paragraphs may be needed in individual cases to:

- Address topics of regulatory importance;
- State a qualification of his or her opinion, if the actuary considers it necessary; or
- Explain some aspect of the annual statement that is not already sufficiently explained.

- 9. If the appointed actuary is able to form an opinion that is not qualified, adverse or inconclusive as those terms are defined below, he or she should issue a statement of unqualified opinion. If the opinion is adverse, qualified or inconclusive, the appointed actuary should issue an adverse, qualified or inconclusive opinion explicitly stating the reason(s) for such opinion. In all circumstances the category of opinion should be explicitly identified in the TABLE of KEY INDICATORS section of the Actuarial Opinion.

An adverse opinion is an actuarial opinion in which the appointed actuary determines that the reserves and liabilities are not good and sufficient, actuarial assets are not reasonable, or the actuarial assets and actuarial liabilities on a combined basis are not reasonable under moderately adverse conditions. (An adverse opinion does not meet one or more of items D, E, or F of Section 7.)

When, in the actuary’s opinion, the reserves or actuarial assets included in the scope of the opinion for a certain item or items are in question because they cannot be reasonably estimated or the actuary is unable to render an opinion on those items, the actuary should issue a qualified opinion. Such a qualified opinion should state whether the stated reserve amount makes a good and sufficient provision for the actuarial liabilities associated with the specified reserves, actuarial assets are reasonable, and combined actuarial assets and actuarial liabilities are reasonable under moderately adverse conditions except for the item or items to which the qualification relates. The actuary is not required to issue a qualified opinion if the actuary reasonably believes that the item or items in question are not likely to be material. (A qualified opinion does not meet one or more of the items A, B, C or H of Section 7.)

The actuary’s ability to give an opinion is dependent upon data, analyses, assumptions and related information that are sufficient to support a conclusion. If the actuary cannot reach a conclusion due to deficiencies or limitations in the data, analyses, assumptions or related information, then the actuary should issue an inconclusive opinion. An inconclusive opinion shall include a description of the reasons a conclusion could not be reached.

- 10. The Actuarial Opinion should conclude with the signature of the appointed actuary responsible for providing the Actuarial Opinion and the date when the opinion was rendered. The signature and date should appear in the following format:

Signature of Actuary

Printed Name of Actuary

Address of Actuary

Telephone number of Actuary

Date Opinion was Rendered

ANNUAL AUDITED FINANCIAL REPORTS

All states have a statute or regulation that requires an annual audit of their insurance companies by an independent certified public accountant based on the NAIC *Annual Financial Reporting Model Regulation* (#205). For guidance regarding this model, see Appendix G of the NAIC *Accounting Practices and Procedures Manual*.

MANAGEMENT'S DISCUSSION AND ANALYSIS¹

Reporting entities are required to file a supplement to the annual statement titled "Management's Discussion and Analysis" (MD&A) by April 1 each year.

MD&A Requirements:

Discuss the reporting entity's financial condition, changes in financial condition and results of operations. The discussion shall provide information as specified in paragraphs that follow and also shall provide such other information that the reporting entity believes to be necessary for an understanding of its financial condition, changes in financial condition and results of operations. Discussions of liquidity and capital resources may be combined whenever the two topics are interrelated.

Introduction

1. The MD&A requirements are intended to provide, in one section, material historical and prospective textual disclosure enabling regulators to assess the financial condition and results of operations of the reporting entity. There is a need for a narrative explanation of the financial statements, because a numerical presentation and brief accompanying footnotes alone may be insufficient for regulators to judge the quality of earnings and the likelihood that past performance is indicative of future performance. The MD&A is intended to give the regulator an opportunity to look at the reporting entity through the eyes of management by providing both a short-term and long-term analysis of the business of the reporting entity.
2. The MD&A shall be of the financial statements and of other statistical data that the reporting entity believes will enhance a regulator's understanding of its financial condition, changes in financial condition and results of operations. Generally, the discussion shall cover the two-year period covered by the financial statements and shall use year-to-year comparisons or any other formats that in the reporting entity's judgment enhance a regulator's understanding. However, where trend information is relevant, reference to the five-year selected financial data schedule may be necessary.
3. The purpose of the MD&A shall be to provide regulators with information relevant to an assessment of the financial condition and results of operations of the reporting entity as determined by evaluating the amounts and certainty of cash flows from operations and from outside sources. The information provided pursuant to this MD&A need only include that which is available to the reporting entity without undue effort or expense and which does not clearly appear in the reporting entity's financial statements.
4. Management should ensure that disclosure in MD&A is balanced and fully responsive. To enhance regulator understanding of the financial statements, entities are encouraged to explain in the MD&A the effects of the critical accounting policies applied, the judgments made in their application, and any subsequent changes in assumptions or conditions which would have resulted in materially different reported results. Analytical discussion of significant accounting policies in the MD&A should not include information already reported in the significant accounting policies section of the notes to the financial statement.
5. The discussion and analysis shall focus specifically on material events and uncertainties known to management that would cause reported financial information not to be necessarily indicative of future operating results or of future financial condition. This would include descriptions and amounts of (a) matters that would have an impact on future operations and have not had an impact in the past, and (b) matters that have had an impact on reported operations and are not expected to have an impact upon future operations.

¹ These requirements have been developed, in part, based upon the requirements set forth in Title 17--Commodity and Securities Exchanges, Chapter II--Securities and Exchange Commission (SEC), Part 229--Standard Instructions for Filing Forms Under Securities Act of 1933, Securities Exchange Act of 1934 and Energy Policy and Conservation Act of 1975, Regulation S-K, Section 229.303 (Item 303) Management's Discussion and Analysis of Financial Condition and Results of Operations. These requirements have also incorporated certain interpretative guidance as set forth in Release No. 33-6835, *SEC Interpretation: Management's Discussion and Analysis of Financial Condition and Results of Operations; Certain Investment Company Disclosures* (issued May 18, 1989), Release No. 33-8040, *Cautionary Advice Regarding Disclosure About Critical Accounting Policies* (issued December 12, 2001) and Release No. 33-8056, *Commission Statement about Management's Discussion and Analysis of Financial Condition and Results of Operations* (issued January 22, 2002).

6. Reporting entities are required to prepare the MD&A on a non-consolidated basis, unless the following conditions are met:
 - a. The entity is part of a consolidated group of insurers that utilizes a pooling arrangement or one hundred percent reinsurance agreement that affects the solvency and integrity of the entity's reserves and such entity ceded substantially all of its direct and assumed business to the pool. An entity is deemed to have ceded substantially all of its direct and assumed business to a pool if the entity has less than \$1,000,000 total direct plus assumed written premiums during a calendar year that are not subject to a pooling arrangement and the net income of the business not subject to the pooling arrangement represents less than 5% of the company's capital and surplus.

Or

 - b. The entity's state of domicile permits audited consolidated financial statements.

If a group of insurance companies prepares the MD&A on a consolidated basis, the discussion should identify and discuss significant differences between reporting entities (e.g., investment mix, leverage, liquidity, etc.).

Results of Operations

7. Reporting entities should describe any unusual or infrequent events or transactions or any significant economic changes that materially affected the amount of reported net income or other gains/losses in surplus and, in each case, indicate the extent to which net income or surplus was so affected. In addition, describe any other significant components of income that, in the reporting entity's judgment, should be described in order to understand the reporting entity's results of operations.
8. Reporting entities should describe any known trends or uncertainties that have had or are reasonably probable to have a material favorable or unfavorable impact on premiums, net income or other gains/losses in surplus. If the reporting entity knows of events that will cause a material change in the relationship between expenses and premium, the change in the relationship shall be disclosed.
9. To the extent that the financial statements disclose material increases in premium, reporting entities should provide a narrative discussion of the extent to which such increases are attributable to increases in prices or to increases in the volume or amount of existing products being sold or to the introduction of new products.

Prospective Information

10. Reporting entities are encouraged to supply forward-looking information. The MD&A may include discussions of "known trends or any known demands, commitments, events or uncertainties that will result in or that are reasonably likely to result in the reporting entity's liquidity increasing or decreasing in any material way." Further, descriptions of known material trends in the reporting entity's capital resources and expected changes in the mix and cost of such resources should be included. Disclosure of known trends or uncertainties that the reporting entity reasonably expects will have a material impact on premium, net income or other gains/losses in surplus is also encouraged.
11. In the event that a reporting entity does supply forward-looking information, the reporting entity may disclaim any responsibility for the accuracy of such information and condition the delivery of such information upon a waiver of any claim under any theory of law based on the inaccuracy of such information, provided that the reporting entity supplied such information in good faith.

Material Changes

12. Reporting entities are required to provide adequate disclosure of the reasons for material year-to-year changes in line items, or discussion and quantification of the contribution of two or more factors to such material changes. An analysis of changes in line items is required where material and where the changes diverge from changes in related line items of the financial statements, where identification and quantification of the extent of contribution of each of two or more factors is necessary to an understanding of a material change, or where there are material increases or decreases in net premium.

13. Repetition and line-by-line analysis is not required or generally appropriate when the causes for a change in one line item also relate to other line items. The discussion need not recite amounts of changes readily computable from the financial statements and shall not merely repeat numerical data contained in such statements. However, quantification should otherwise be as precise, including use of dollar amounts or percentages, as reasonably practicable.

Liquidity, Asset/Liability Matching and Capital Resources

14. The term "liquidity" as used in this MD&A refers to the ability of the reporting entity to generate adequate amounts of cash to meet the reporting entity's needs for cash. Except where it is otherwise clear from the discussion, the reporting entity shall indicate those balance sheet conditions or income or cash flow items, which the reporting entity believes, may be indicators of its liquidity condition. Liquidity generally shall be discussed on both a long-term and short-term basis. The issue of liquidity shall be discussed in the context of the reporting entity's own business or businesses.
15. The discussion of liquidity shall include a discussion of the nature and extent of restrictions on the ability of subsidiaries to transfer funds to the reporting entity in the form of cash dividends, loans or advances and the impact such restrictions may, if any, have on the ability of the reporting entity to meet its cash obligations.
16. Generally, short-term liquidity and short-term capital resources cover cash needs up to 12 months into the future. These cash needs and the sources of funds to meet such needs relate to the day-to-day operating expenses of the reporting entity and material commitments coming due during that 12-month period.
17. The discussion of long-term liquidity and long-term capital resources must address material expenditures, significant balloon payments or other payments due on long-term obligations, and other demands or commitments, including any off-balance sheet items, to be incurred beyond the next 12 months, as well as the proposed sources of funding required to satisfy such obligations.
18. Reporting entities should identify any known trends or any known demands, commitments, events or uncertainties that will result in or that are reasonably likely to result in the reporting entity's liquidity increasing or decreasing in any material way. If a material decline in liquidity is identified, indicate the course of action that the reporting entity has taken or proposes to take to remedy the decline. Also identify and separately describe internal and external sources of liquidity, and briefly discuss any material unused sources of liquid assets.
19. Reporting entities should describe any known material trends, favorable or unfavorable, in the reporting entity's capital resources. Indicate any expected material changes in the mix and relative cost of such resources. The discussion shall consider changes between equity, debt and any off-balance sheet financing arrangements.
20. Reporting entities are expected to use the statement of cash flows, and other appropriate indicators, in analyzing their liquidity, and to present a balanced discussion dealing with cash flows from investing and financing activities as well as from operations. This discussion should address those matters that have materially affected the most recent period presented but are not expected to have short-term or long-term implications, and those matters that have not materially affected the most recent period presented but are expected materially to affect future periods. Examples of such matters include:
 - a. Discretionary operating expenses such as expenses relating to advertising;
 - b. Debt refinancings or redemptions;
 - c. Dividend requirements to the reporting entity's parent to fund the parent's operations or debt service; or
 - d. Future potential sources of capital, such as a parent entity's planned investment in the reporting entity, and the form of that investment.

21. MD&A disclosures should not be overly general. For example, disclosure that the reporting entity has sufficient short-term funding to meet its liquidity needs for the next year provides little useful information. Instead, reporting entities should consider describing the sources of short-term funding and the circumstances that are reasonably likely to affect those sources of liquidity. The discussion should be limited to material risks, and, as with the MD&A generally, should be sufficiently detailed and tailored to the entity's individual circumstances, rather than "boilerplate."
22. If the reporting entity's liquidity is dependent on the use of off-balance sheet financing arrangements, such as securitization of receivables or obtaining access to assets through special purpose entities, the reporting entity should consider disclosure of the factors that are reasonably likely to affect its ability to continue using those off-balance sheet financing arrangements. Reporting entities also should make informative disclosures about matters that could affect the extent of funds required within management's short- and long-term planning horizons.
23. Reporting entities are reminded that identification of circumstances that could materially affect liquidity is necessary if they are "reasonably likely" to occur. This disclosure threshold is lower than "more likely than not." (See guidance provided in *SSAP No. 5R—Liabilities, Contingencies and Impairments of Assets*.) Market price changes, economic downturns, defaults on guarantees, or contractions of operations that have material consequences for the reporting entity's financial position or operating results can be reasonably likely to occur under some conditions. Material effects on liquidity as a result of any reasonably likely changes should be disclosed.
24. To identify trends, demands, commitments, events and uncertainties that require disclosure, management should consider the following:
 - a. Provisions in financial guarantees or commitments, debt agreements or other arrangements that could trigger a requirement for an early payment, additional collateral support, changes in terms, acceleration of maturity, or the creation of an additional financial obligation, such as adverse changes in the reporting entity's credit rating, financial ratios, earnings, cash flows, stock price or changes in the value of underlying, linked or indexed assets;
 - b. Circumstances that could impair the reporting entity's ability to continue to engage in transactions that have been integral to historical operations or are financially or operationally essential, or that could render that activity commercially impracticable, such as the inability to maintain a specified claims paying ability or investment grade credit rating, level of earnings, earnings per share, financial ratios, or collateral; and
 - c. Factors specific to the reporting entity and its markets that the reporting entity expects to be given significant weight in the determination of the reporting entity's credit rating or will otherwise affect the reporting entity's ability to raise short-term and long-term financing.

Loss Reserves (Property & Casualty Companies only)

25. The MD&A should include a discussion of those items that affect the reporting entity's volatility of loss reserves, including a description of those risks that contribute to the volatility.

Off-Balance Sheet Arrangements

26. Reporting entities should consider the need to provide disclosures concerning transactions, arrangements and other relationships with entities or other persons that are reasonably likely to affect materially liquidity or the availability of or requirements for capital resources. Specific disclosure may be necessary regarding relationships with entities that are contractually limited to narrow activities that facilitate the reporting entity's transfer of or access to assets. These entities are often referred to as structured finance or special purpose entities. These entities may be in the form of corporations, partnerships or limited liability companies, or trusts.

27. Material sources of liquidity and financing, including off-balance sheet arrangements and transactions with limited purpose entities should be discussed. The extent of the reporting entity's reliance on off-balance sheet arrangements should be described fully and clearly where those entities provide financing, liquidity, market or credit risk support for the reporting entity; engage in leasing or hedging services with the reporting entity; or expose the reporting entity to liability that is not reflected on the face of the financial statements. Where contingencies inherent in the arrangements are reasonably likely to affect the continued availability of a material historical source of liquidity and finance, reporting entities must disclose those uncertainties and their effects.
28. Reporting entities should consider the need to include information about the off-balance sheet arrangements such as: their business purposes and activities; their economic substance; the key terms and conditions of any commitments; the initial and ongoing relationships with the reporting entity and its affiliates; and the reporting entity's potential risk exposures resulting from its contractual or other commitments involving the off-balance sheet arrangements.
29. For example, a reporting entity may be economically or legally required or reasonably likely to fund losses of a limited purpose entity, provide it with additional funding, issue securities pursuant to a call option held by that entity, purchase the entity's capital stock or assets, or the reporting entity otherwise may be financially affected by the performance or non-performance of an entity or counterparty to a transaction or arrangement. In those circumstances, the reporting entity may need to include information about the arrangements and exposures resulting from contractual or other commitments to provide investors with a clear understanding of the reporting entity's business activities, financial arrangements, and financial statements. Other disclosures that reporting entities should consider to explain the effects and risks of off-balance sheet arrangements include:
 - a. Total amount of assets and obligations of the off-balance sheet entity, with a description of the nature of its assets and obligations, and identification of the class and amount of any debt or equity securities issued by the reporting entity;
 - b. The effects of the entity's termination if it has a finite life or it is reasonably likely that the reporting entity's arrangements with the entity may be discontinued in the foreseeable future;
 - c. Amounts receivable or payable, and revenues, expenses and cash flows resulting from the arrangements;
 - d. Extended payment terms of receivables, loans, and debt securities resulting from the arrangements, and any uncertainties as to realization, including repayment that is contingent upon the future operations or performance of any party;
 - e. The amounts and key terms and conditions of purchase and sale agreements between the reporting entity and the counterparties in any such arrangements; and
 - f. The amounts of any guarantees, lines of credit, standby letters of credit or commitments or take or pay contracts or other similar types of arrangements, including tolling, capacity, or leasing arrangements, that could require the reporting entity to provide funding of any obligations under the arrangements, including guarantees of repayment of obligors of parties to the arrangements, make whole agreements, or value guarantees.
30. Although disclosure regarding similar arrangements can be aggregated, important distinctions in terms and effects should not be lost in that process. The relative significance to the reporting entity's financial position and results of the arrangements with unconsolidated, non-independent, limited purpose entities should be clear from the disclosures to the extent material. While legal opinions regarding "true sale" issues or other issues relating to whether a reporting entity has contingent, residual or other liability can play an important role in transactions involving such entities, they do not obviate the need for the reporting entity to consider whether disclosure is required. In addition, disclosure of these matters should be clear and individually tailored to describe the risks to the reporting entity and should not consist merely of recitation of the transactions' legal terms or the relationships between the parties or similar boilerplate.

Participation in High Yield Financings, Highly Leveraged Transactions or Non-Investment Grade Loans and Investments

31. A reporting entity, consistent with its domiciliary state's law, may participate in several ways, directly or indirectly, in high yield financings, or highly leveraged transactions or make non-investment grade loans or investments relating to corporate restructurings such as leveraged buyouts, recapitalizations including significant stock buybacks and cash dividends, and acquisitions or mergers. A reporting entity may participate in the financing of such a transaction either as originator, syndicator, lender, purchaser of secured senior debt, or as an investor in other debt instruments (often unsecured or subordinated), redeemable preferred stock or other equity securities. Participation in high yield or highly leveraged transactions, as well as investment in non-investment grade securities, generally involves greater returns, in the form of higher fees and higher average yields or potential market gains. Participation in such transactions may involve greater risks, often related to credit worthiness, solvency, relative liquidity of the secondary trading market, potential market losses, and vulnerability to rising interest rates and economic downturns.
32. In view of these potentially greater returns and potentially greater risks, disclosure of the nature and extent of a reporting entity's involvement with high yield or highly leveraged transactions and non-investment grade loans and investments may be required, if such participation or involvement has had or is reasonably likely to have a material effect on financial condition or results of operations. For each such participation or involvement or grouping thereof, there shall be identification, consistent with the Annual Statement schedules or detail; description of the risks added to the reporting entity; associated fees recognized or deferred; amount, if any, of loss recognized; the reporting entity's judgment whether there has been material negative effect on the entity's financial condition; and the reporting entity's judgment whether there will be material negative effect on the entity's financial condition in subsequent reporting periods.

Preliminary Merger/Acquisition Negotiations

33. While the MD&A requirements could be read to impose a duty to disclose otherwise nondisclosed preliminary merger or acquisition negotiations, as known events or uncertainties reasonably likely to have material effects on future financial condition or results of operations, the NAIC does not intend to apply the MD&A in this manner. Where disclosure is not otherwise required, and has not otherwise been made, the MD&A need not contain a discussion of the impact of preliminary merger negotiations where, in the reporting entity's view, inclusion of such information would jeopardize completion of the transaction. Where disclosure is otherwise required or has otherwise been made by or on behalf of the reporting entity, the interests in avoiding premature disclosure no longer exist. In such case, the negotiations would be subject to the same disclosure standards under the MD&A as any other known trend, demand, commitment, event or uncertainty. These policy determinations also would extend to preliminary negotiations for the acquisition or disposition of assets not in the ordinary course of business.

Conclusion

34. In preparing the MD&A disclosure, reporting entities should be guided by the general purpose of the MD&A requirements: to give regulators an opportunity to look at the reporting entity through the eyes of management by providing a historical and prospective analysis of the reporting entity's financial condition and results of operations, with particular emphasis on the reporting entity's prospects for the future. The MD&A requirements are intentionally flexible and general. Because no two reporting entities are identical, good MD&A disclosure for one reporting entity is not necessarily good MD&A disclosure for another. The same is true for MD&A disclosure of the same reporting entity in different years. The flexibility of MD&A creates a framework for providing regulators with appropriate information concerning the reporting entity's financial condition, changes in financial condition and results of operations.

ASSETS

The value for real estate, bonds, stocks, and the amount loaned on mortgages must, in all cases, prove with corresponding values and admitted assets supported by the corresponding schedules.

Refer to the *Accounting Practices and Procedures Manual* for accounting guidance on these topics.

Companies should refer to the *Purposes and Procedures Manual of the NAIC Investment Analysis Office* to determine the filing requirements and the procedures for valuation of bonds and stocks owned or held as collateral for loans.

The Notes to Financial Statements are an integral part of this statement. Certain Notes are required regarding the valuation of invested assets. See instructions herein for Notes to Financial Statements.

Assets owned at the end of the current period that were not under the exclusive control of the reporting entity, including assets loaned to others as shown in the General Interrogatories, are to be individually identified in the investment schedules by placing the codes found in the Investment Schedules General Instructions in the Code Column of the appropriate investment schedule.

For statements with Separate Accounts, Segregated Accounts or Protected Cell Accounts: Exclude receivables from the Separate Accounts Statement, Segregated Accounts or Protected Cell Accounts from the assets of the General Account Statement. This eliminates the need for consolidating adjustments. Report such receivables as a negative liability and net the receivables against payables to the appropriate account as required elsewhere in these instructions.

The development of admitted assets is illustrated in two columns.

- | | | | |
|---------------|---|-------------------------------------|--|
| Column 1 | – | Assets | |
| | | | Record the amount by category, from the reporting entity’s financial records, less any valuation allowance. |
| Column 2 | – | Nonadmitted Assets | |
| | | | Include: Amounts for which the state does not allow the reporting entity to take credit. |
| | | | Refer to the Annual Statement Instructions, Exhibit of Nonadmitted Assets. |
| Column 3 | – | Net Admitted Assets | |
| | | | The amount in Column 3 equals Column 1 minus Column 2. The amounts reported in Column 3 should agree to the appropriate schedules. |
| Column 4 | – | Prior Year Net Admitted Assets | |
| | | | Amounts contained in Column 3 of the prior year Annual Statement. |
| Inside amount | – | Report net admitted assets amounts. | |

| | | | Record bond acquisitions or disposals on the trade date, not the settlement date. Record private placements on the funding date. |
| | | | Exclude: Interest due and accrued. |

Line 2 – Stocks

The amount reported in Column 3 for common stocks and preferred stocks is the value in accordance with guidance set forth in *SSAP No. 30R—Unaffiliated Common Stock*; *SSAP No. 32R—Preferred Stock*; and *SSAP No. 97—Investments in Subsidiary, Controlled, and Affiliated Entities*.

Line 3 – Mortgage Loans on Real Estate

Include: Foreclosed liens subject to redemption.

The amount reported in Column 3 is the Book Value/Recorded Investment reduced by any valuation allowance and nonadmitted amounts. Mortgage loans are valued and reported in accordance with the guidance set forth in *SSAP No. 37—Mortgage Loans*.

Line 4 – Real Estate

Refer to *SSAP No. 40R—Real Estate Investments*, *SSAP No. 44—Capitalization of Interest* and *SSAP No. 90—Impairment or Disposal of Real Estate Investments* for accounting guidance.

The amount reported in Column 3 for properties occupied by the reporting entity (home office real estate), properties held for production of income and properties held for sale must not exceed actual cost, plus capitalized improvements, less normal depreciation. This formula shall apply whether the reporting entity holds the property directly or indirectly.

Report amounts net of encumbrances. The sum of all encumbrances reported in the inset lines should agree with the total of Schedule A, Part 1, Column 8.

Exclude: Income due and accrued.

Include in Column 2, the excess of deposits in suspended depositories over the estimated amount recoverable.

The amount in Column 1 should agree with the sum of Schedule E, Part 1, Column 6, Schedule E, Part 2, Column 7 and Schedule DA, Part 1, Column 7. The amount in Column 1 should agree with Cash Flow, line 19.2. The prior year's Column 1 amount should agree with Cash Flow, line 19.1.

CASH FLOW

The Statement of Cash Flow is prepared using the direct method consistent with the Statement of Revenue and Expenses, excluding the effect of current and prior year accruals. All revenue, expenditures, purchase and sale transactions involving cash should be entered gross. Pursuant to *SSAP No. 69—Statement of Cash Flow* for purposes of the Cash Flow Statement, cash is defined to include cash, cash equivalents and short-term investments. Refer to SSAP No. 69 for accounting guidance regarding the disclosure of non-cash operating, investing and financing transactions.

The following worksheets are provided to facilitate completion of the Cash Flow Statement. The format reflects common reporting practices. Reporting entities may need to make adjustments to various lines consistent with their operations. For example, changes in the asset for foreign exchange rates is typically associated with the investment portfolio and shown as an adjustment to investment income. Alternatively, the adjustment could be made to insurance operations if appropriate. The Worksheets exclude certain non-cash activities; (e.g., change in nonadmitted assets and change in Asset Valuation Reserve for life and fraternal companies), since the offset is to surplus and has no effect on cash, but adjustments are needed to remove other non-cash transactions. While the worksheets do not take into account the cumulative effect of changes in accounting principles, the appropriate lines of the Cash Flow Statement need to be adjusted for this change. Note that the Worksheets are designed to take into account all lines of the Assets and Liabilities, Capital and Surplus pages, as well as the Statement of Revenue and Expenses.

Amounts generally described as restricted cash or restricted cash equivalents shall be included in the beginning and ending balance in the cash flow statement beginning with Dec. 31, 2019 reporting. Early adoption is allowed. Transfers between cash, cash equivalents, amounts generally described as restricted cash or restricted cash equivalents, and short-term investments are not part of the entity’s operating, investing and financing activities, and details of those transfers are not reported as cash flow activities in the statement of cash flows.

PART 2B – ANALYSIS OF CLAIMS UNPAID – PRIOR YEAR – NET OF REINSURANCE

Claims are to include amounts paid or accrued for capitation, and any other means of payment, for medical or other health care services including, under other medical costs, amounts for occupancy, depreciation and amortization as it relates to medical and hospital expenses.

Incentive pool, withhold, and bonus amounts are defined as: amounts to be paid to providers by the Health entity as an incentive to achieve goals such as effective management of care. Some arrangements involve paying an agreed-on amount for each claim, and then paying a bonus at the end of the contract period. Other arrangements involve a set amount to be withheld from each claim, and then paying a portion (which could be none or all) of the withheld amount at the end of the contract period.

For arrangements involving amounts withheld, the claim payments should be recorded net of the withhold, and the unpaid withholds should be held as an additional liability until paid or formally retained. The amount due should be supported by signed agreements and the basis for establishing the liability should be documented when determining the amount of this liability.

Refer to *SSAP No. 84—Health Care and Government Insured Plan Receivables* for accounting guidance.

Include in Columns 1 and 2, Line 14, the portion of current health care receivables balance relating to claims paid in the current year on insured plans. This would not include those health care receivables, such as loans or advances to non-related party hospitals, established as prepaid assets that are not expensed until the related claims have been received from the provider as the claims have not been paid as of the statement date. Show cumulative paid claims by year paid and year incurred. Claims incurred prior to the year shown on Line 2 should be included in the appropriate column on Line 1.

NOTE: The “XXX” fields are intentional and are not in error, even though it appears that numbers should be shown.

As an example, Column 2, Line 2 should be the claims incurred in 2020 and paid in 2020 and 2021.

On Line 1, do not include claims paid prior to the year shown on Line 2. Line 1, Column 1 should include any claims incurred prior to the year shown on Line 2 that were paid in the year shown in Column 1. For example, for the current reporting year, Line 1, Column 1 should include 2018 incurred claims paid in 2020, and 2019 incurred claims paid in 2020.

Line 1, Column 2 should include any claims incurred prior to the year shown on Line 2 that were paid in the year shown in Columns 1 and 2. PART 2C – SECTION C
INCURRED YEAR HEALTH CLAIMS AND
CLAIMS ADJUSTMENT EXPENSE RATIO

This section is designed to show the effects of claim adjustment expenses in relationship to claims and premiums earned. This section will provide a guide for reporting entities in collecting and using the claims adjustment expense data and provide incurred year combined ratio results.

Earned premium reported in Column 1 is on a calendar year basis. Premiums earned, once entered in Column 1 of each part will become “frozen.” No retrospective adjustments are to be made for experience-rated contracts.

Claims incurred should be assigned to the year in which the event occurred that triggered coverage under the contract.

Column 7 is to equal the aggregate claims unpaid, claims reserve and medical incentive pool and bonus amounts unpaid pertaining to the five incurral years presented in Lines 1 through 5. The sum of claims unpaid, Column 7 is expected to represent the ultimate amounts to be paid, including anticipated inflation, and in total is to agree with claims unpaid on Page 3, Line 1 + 2 + 7, Column 3 divided by 1000 (excluding Life and Property/Casualty business).

The sum of unpaid claims adjustment expense, Column 8 in total to agree with unpaid claims adjustment expenses on Page 3, Line 3, Column 3 divided by 1000 (excluding Life and Property/Casualty business).

Claim and claim adjustment expense payments are to be maintained on a cumulative basis.

Include in Columns 3 and 8 claims adjustment expenses meeting the definition set forth in the instructions for Page 3, Line 3 and Page 4, Line 20 of the Annual Statement. The claim adjustment expense payments paid during the most recent calendar year should be distributed to the various years in which claims were incurred as follows: (1) 50% of the most recent year, (2) 10% to the next most recent year, and (3) the balance to all years, including the most recent, in proportion to the amount of loss payment paid for each year during the most recent calendar year.

An example of the type of benefit for which a reserve must be carried is the coverage for hospital confinement after the termination of an employee’s certificate but prior to the expiration of a stated period. PART 3 – ANALYSIS OF EXPENSES

Administrative Services Contracts (ASC) and Administrative Services Only (ASO) commissions, expenses and taxes paid by the administrator to administer such plan shall be reported on a gross basis by type of expense. General expense items must be itemized and entered in sufficient detail to indicate their precise nature. Whenever personnel or facilities are used in common by two or more companies, or whenever the personnel or facilities of one company are used in the activities of two or more companies, each company shall assign its share of the expense to the same expense classification as if it had incurred the entire expense. This latter requirement shall not apply to activities such as administration of jointly underwritten group contracts and joint mortality and morbidity studies.

Costs for managed care activities must be allocated between claim adjustment expenses and general administrative expenses. Claim adjustment expenses should be allocated to either cost containment expenses, Column 1 or other claim adjustment expenses, Column 2, in accordance with *SSAP No. 55—Unpaid Claims, Losses and Loss Adjustment Expenses*.

A reporting entity that pays any non-affiliated entity (including a managing general agent) for the management, administration, or service of all or part of its business or operations shall allocate these costs to the appropriate expense classification items as follows:

- a. If the total payments for claims handling or adjustment services equals or exceeds 10 percent of the “Total Claim Adjustment Expenses Incurred,” allocate these costs to the appropriate expense classification items as if these costs had been borne directly by the reporting entity.
- b. Allocate payments for services other than claims handling or adjustment services to the appropriate expense classifications as if these costs had been borne directly by the company, if the total of such fees paid to the non-affiliate(s) equals or exceeds 10 percent of Column 3, Line 26. Total line should equal the inset amount on Line 24 of the Asset Page.

EXHIBIT 3A – ANALYSIS OF HEALTH CARE RECEIVABLES

The purpose of this exhibit is to analyze health care receivables collected and accrued for the current year compared to the prior year.

This exhibit is based on the gross health care receivable, not just the admitted portion.

Report the total asset (health care receivable) in this exhibit not just the admitted portion. Amounts are gross of reinsurance.

Refer to *SSAP No. 84—Health Care and Government Insured Plan Receivables* for accounting guidance. (See reporting guidance at https://content.naic.org/cmte_e_app_blanks.htm.)

In this exhibit, the term “accrued” is analogous to the term “incurred” on the U&I Exhibit, Part 2B. Accrued pertains to the health care receivable asset, whereas incurred pertains to the claim liability.

Columns 1 and 2:

Enter separately in Columns 1 and 2, Lines 1 through 6, all amounts collected or offset during the year accrued prior to the current year and accrued during the current year. Record only those amounts actually collected including offsets, that meet the offset conditions of *SSAP No. 64—Offsetting and Netting of Assets and Liabilities*.

Line 3 includes amounts charged against those gross health care receivables, such as loans or advances to non-related party hospitals, established as prepaid assets that are not expensed until the related claims have been received from the provider as the claims have not been paid as of the statement date.

All amounts collected, including offsets, related to prior year receivables accrued should be reported in Column 1. All amounts collected, including offsets, related to current year receivables accrued should be reported in Column 2.

Columns 3 and 4:

Enter separately in Columns 3 and 4 the gross health care receivables accrual amount between those accrued prior to the current year and those accrued during the year. All amounts accrued related to prior year receivables accrued should be reported in Column 3. All amounts accrued related to current year receivables accrued should be reported in Column 4.

For each of Lines 1 through 7, the sum of Columns 3 through 4 should agree to Exhibit 3, Health Care Receivables, sum of Columns 6 and 7, for each type of health care receivable and in total.

Column 5:

Enter the sum of Columns 1 and 3. This is the amount collected or offset during the current year on health care receivables that were accrued prior to the current year, plus amounts still accrued at the end of the current year, related to the health care receivable accrued at the end of the prior year.

Column 6:

Column 6 reports the amounts of prior year-end accounting accrual for gross health care receivables.

The comparison between Columns 5 and 6 is to the total receivables, not just the portion that is an admitted asset.

EXHIBIT 4 – CLAIMS UNPAID AND INCENTIVE POOL, WITHHOLD AND BONUS
(REPORTED AND UNREPORTED)

AGING ANALYSIS OF UNPAID CLAIMS

Aggregate the total of all other payables and enter on Lines 0299999 or 0399999, as applicable. Begin aging claims payable from date of receipt of claim by the reporting entity. In the case of capitation and other non-fee-for-service claim expenses, aging begins the date payment is required under contract or the date a bill for amounts due is received by the reporting entity.

Indicate in Column 1 the type of payable as follows:

Individually list the greater of any amounts (excluding reinsurance) due from Parent, Subsidiaries and Affiliates with balances greater than \$10,000 or those that are 10% of gross receivables. Use Lines 0100001 through 0199996, as needed. Aggregate the amounts not individually listed on Line 0299999. The assets reported in this exhibit must be reported gross of any corresponding liabilities although these amounts may be netted on the balance sheet.

Exhibit 5, Column 7 plus Column 8 less Exhibit 6, Column 3 equals the difference between Page 2, Line 23 and Page 3, Line 15.

Include: In Column 7, those amounts advanced that the reporting entity expects to receive within one year.

1. Summary of Significant Accounting Policies and Going Concern

Instruction:

Refer to *SSAP No. 1—Accounting Policies, Risks & Uncertainties, and Other Disclosures* for accounting guidance regarding disclosure requirements. The major disclosure requirements are as follows:

- A. This note (**including a table reconciling income and surplus between the state basis and SAP basis**) is required to be completed, even if there are no prescribed practices or permitted practices to report.

Indicate that the statement has been completed in accordance with the *Accounting Practices and Procedures Manual*. If a reporting entity employs accounting practices that depart from the *Accounting Practices and Procedures Manual*, including different practices required by state law, disclose the following information about those accounting practices.

Include:

- A description of the accounting practice;
- A statement that the accounting practice differs from NAIC statutory accounting practices and procedures (NAIC SAP) identifying whether the practice is a departure from NAIC SAP or from a state prescribed practice and include the financial statement reporting lines predominantly impacted by the permitted or prescribed practice. (Although most practices impact net income or surplus, direct reference to those lines should be avoided. The intent is to capture the financial statement lines reflecting the practice which ultimately impacts net income or statutory surplus.);
- The monetary effect on net income and statutory surplus of using an accounting practice that differs from NAIC statutory accounting practices and procedures; and
- If an insurance enterprise’s risk-based capital would have triggered a regulatory event had it not used a prescribed or permitted practice, that fact should be disclosed in the financial statements.

In addition, disclose the following information about accounting practices when NAIC statutory accounting practices and procedures do not address the accounting for the transaction:

- A description of the transaction and of the accounting practice used; and
- A statement that the NAIC statutory accounting practices and procedures do not address the accounting for the transaction.

A table reconciling income and surplus between the state basis and NAIC SAP basis for the current reporting period and the prior year-end shall be provided. The reconciliation table is required even if the reporting entity does not have any permitted or prescribed practices to report.

The reconciliation shall include:

Brief description of the prescribed or permitted practice.

SSAP # Enter the SSAP numbers to which the permitted or prescribed practice primarily pertains.

For example, use “43R” for SSAP No. 43R or “19” for SSAP No. 19. If multiple SSAPs are needed for the prescribed or permitted practice, separate with a comma (19,43R).

For permitted practices from state regulations, use “00”.

If multiple SSAPs are needed for the prescribed or permitted practice, separate with a comma (19,43R,00).

Financial statement pages (F/S pages) primarily impacted by the permitted or prescribed practice.

Only the following pages should be referenced.

2 – Assets

3 – Liabilities, Capital and Surplus

4 – Statement of Revenue and Expenses

6 – Cash Flow

Use “N/A” for permitted or prescribed practices that do not impact the financial statements pages above.

If multiple pages are needed for the prescribed or permitted practice, separate with a comma (3,4).

Financial statement reporting lines (F/S lines) of the key financial statement page primarily impacted by the permitted or prescribed practice.

(References to the financial statement reporting line for net income or statutory surplus should be avoided. The intent is to capture the financial statement line reflecting the practice which ultimately impacts net income or statutory surplus.)

If “N/A” was used for the F/S page, use “N/A” for the F/S line.

If multiple lines are needed for the prescribed or permitted practice, separate with a comma (2.1,8).

Below are examples of permitted and prescribed practices the reporting entity may or may not be using which could be disclosed. The reporting entity may have others not shown below.

Differences in the accounting and reporting of:

- Goodwill
- Admission of Fixed Assets
- Value of Home Office Property

NOTE: Amounts reported in other notes to the financial statements shall reference Note 1 if impacted by prescribed or permitted practices. The following is an example of inserting a statement within applicable notes:

The transaction was accounted for as a statutory purchase and reflects the following:

1 Purchased entity	2 Acquisition date	3 Cost of acquired entity	4 Original amount of admitted goodwill	5 Admitted goodwill as of the reporting date	6 Amount of goodwill amortized during the reporting period	7 Admitted goodwill as a % of SCA BACV, gross of admitted goodwill
.....	\$	\$	\$	\$ %
.....	\$	\$	\$	\$ %
.....	\$	\$	\$	\$ %
.....	\$	\$	\$	\$ %

* For Columns 5 and 6, these amounts reflect prescribed or permitted practices that depart from the *NAIC Accounting Practices and Procedures Manual*, See Note 1, Summary of Significant Accounting Policies for additional information.

- B. Include an explanation that the preparation of financial statements is in conformity with the *Annual Statement Instructions* and *Accounting Practices and Procedures Manual* requires the use of management’s estimates.

Amortization method for bonds and mandatory convertible securities and if elected by the reporting entity, the approach for determining the systematic value for SVO-Identified securities per SSAP No. 26R. If utilizing the systematic value measurement method approach for SVO-Identified investments, the reporting entity must include the following information:

- Whether the reporting entity consistently utilizes the same measurement method for all SVO-Identified investments (e.g., fair value or systematic value). If different measurement methods are used, information on why the reporting entity has elected to use fair value for some SVO-Identified investments and systematic value for others.
- Whether SVO-Identified investments are being reported at a different measurement method from what was used in an earlier current-year interim and/or in a prior annual statement. (For example, if reported at systematic value prior to the sale, and then reacquired and reported at fair value.) This disclosure is required in all interim reporting periods and in the year-end financial statements for the year in which an SVO-Identified investment has been reacquired and reported using a different measurement method from what was previously used for the investment. (This disclosure is required regardless of the length of time between the sale/reacquisition of the investments but is only required in the year in which the investment is reacquired.)

- Identification of securities still held that no longer qualify for the systematic value method. This should separately identify those securities that are still within scope of SSAP No. 26R and those that are being reported under a different SSAP.
- (3) Basis at which the common stocks are stated.

 - (13) The method used to estimate pharmaceutical rebate receivables.

D. Going Concern

The reporting entity shall provide the following going concern disclosures after management's evaluation of the reporting entity's ability to continue as a going concern and consideration of management's plans to alleviate any substantial doubt about the entity's ability to continue as a going concern.

- (1) If after considering management's plans, substantial doubt about an entity's ability to continue as a going concern is alleviated, the reporting entity shall disclose in the notes to the financial statements the following information:
 - a. Principal conditions and events that raised substantial doubt about the entity's ability to continue as a going concern (before consideration of management's plans).
 - b. Management's evaluation of the significance of those conditions or events in relation to the entity's ability to meet its obligations.
 - c. Management's plans that alleviated substantial doubt about the entity's ability to continue as a going concern.
- (2) If after considering management's plans, substantial doubt about an entity's ability to continue as a going concern is not alleviated, the entity shall include a statement in the notes to the financial statements indicating that there is substantial doubt about the entity's ability to continue as a going concern within one year after the date that the financial statements are issued. Additionally, the reporting entity shall disclose the information in paragraphs 1D(1)a and 1D(1)b, as well as the management plans that are intended to mitigate the conditions or events that raise substantial doubt about the entity's ability to continue as a going concern.

- (3) The going concern evaluation and going concern disclosures discussed in Accounting Policies, Risks & Uncertainties, and Other Disclosures, are required for both interim and annual financial statements. If substantial doubt was determined, and the conditions or events continue to raise substantial doubt about an entity's ability to continue as a going concern in subsequent annual or interim reporting periods, the entity shall continue to provide the disclosures in each subsequent reporting period. In these subsequent periods, the disclosures should become more extensive as additional information becomes available about the relevant conditions or events and about management's plans. The entity shall provide appropriate context and continuity in explaining how conditions or events have changed between reporting periods.
- (4) For the period in which substantial doubt no longer exists (before or after consideration of management plans), an entity shall disclose how the relevant conditions or events that raised substantial doubt were resolved.

A. Accounting Practices

The financial statements of XYZ Company are presented on the basis of accounting practices prescribed or permitted by the ABC Insurance Department.

The ABC Insurance Department recognizes only statutory accounting practices prescribed or permitted by the State of ABC for determining and reporting the financial condition and results of operations of an insurance company, for determining its solvency under the ABC Insurance Law. The National Association of Insurance Commissioners' (NAIC) *Accounting Practices and Procedures Manual* (NAIC SAP) has been adopted as a component of prescribed or permitted practices by the state of ABC. The state has adopted certain prescribed accounting practices that differ from those found in NAIC SAP. Specifically, 1) goodwill arising from the purchase of a subsidiary, controlled or affiliated entity is written off directly to surplus in the year it originates by ABC domiciled companies. In NAIC SAP, goodwill in amounts not to exceed 10% of a reporting entity's capital and surplus may be capitalized and all amounts of goodwill are amortized to unrealized gains and losses on investments over periods not to exceed 10 years, and 2) 100% of all fixed assets are admitted by ABC domiciled companies. In NAIC SAP, fixed assets are not admitted. The Commissioner of Insurance has the right to permit other specific practices that deviate from prescribed practices.

The Company, with the explicit permission of the Commissioner of Insurance of the State of ABC, records the value of its home office building at fair value instead of at depreciated cost required by the NAIC SAP. If the home office building were carried at depreciated cost, home office property and statutory surplus would be decreased by \$_____ and \$_____ as of December 31, 20__ and 20__, respectively. Additionally, net income would be increased by \$_____ and \$_____ respectively, for the years then ended. Finally, if the Company had not been permitted to record the value of its home office building at fair value, the Company's risk-based capital would have triggered a regulatory event.

A reconciliation of the Company's net income and capital and surplus between NAIC SAP and practices prescribed and permitted by the State of ABC is shown below:

THIS EXACT FORMAT MUST BE USED IN THE PREPARATION OF THIS NOTE FOR THE TABLE BELOW. REPORTING ENTITIES ARE NOT PRECLUDED FROM PROVIDING CLARIFYING DISCLOSURE BEFORE OR AFTER THIS ILLUSTRATION.

B. Use of Estimates in the Preparation of the Financial Statements

The preparation of financial statements in conformity with Statutory Accounting Principles requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities. It also requires disclosure of contingent assets and liabilities at the date of the financial statements and the reported amounts of revenue and expenses during the period. Actual results could differ from those estimates.

C. Accounting Policy

Life premiums are recognized as income over the premium-paying period of the related policies. Annuity considerations are recognized as revenue when received. Health premiums are earned ratably over the terms of the related insurance and reinsurance contracts or policies. Expenses incurred in connection with acquiring new insurance business, including acquisition costs such as sales commissions, are charged to operations as incurred.

The amount of dividends to be paid to policyholders is determined annually by the Company’s Board of Directors. The aggregate amount of policyholders’ dividends is related to actual interest, mortality, morbidity, and expense experience for the year and judgment as to the appropriate level of statutory surplus to be retained by the Company.

In addition, the company uses the following accounting policies:

- (1) Short-term investments are stated at amortized cost.
- (2) Bonds not backed by other loans are stated at amortized cost using the interest method.

The company holds three (3) SVO-Identified bond ETFs reported on Schedule D-1. Two of these ETFs are reported at fair value, and the company has made an irrevocable decision to hold one of the ETFs at systematic value. The company has elected to utilize different measurement methods for the SVO-Identified bond ETFs for the following reasons:

The company previously utilized systematic value for the reporting of an SVO-Identified bond ETF reported on Schedule D-1. On June 1, XX, the company sold all interests in the SVO-Identified bond ETF (entire CUSIP). On October 30, XX, the reporting entity reacquired the SVO-Identified bond ETF (same CUSIP) and did not elect to utilize the systematic value for this SVO-Identified bond ETF. Pursuant to the guidance in SSAP No. 26R, a different measurement method is permitted as the reacquisition occurred 90-days after the sale of the SVO-Identified investment.

The Company previously utilized systematic value for the reporting of an SVO-Identified bond ETF reported on Schedule D-1. As of Dec. 31, XX, the SVO-Identified bond ETF was no longer included on the SVO listing an SVO-Identified bond ETF. Therefore, this ETF was no longer captured within the scope of SSAP No. 26R and permitted to be reported on Schedule D-1. Pursuant to the statutory accounting guidance, this ETF is now captured within scope of SSAP No. 30R and is reported at fair value on Schedule D-2-2.

The company previously utilized systematic value for the reporting of an SVO-Identified bond ETF reported on Schedule D-1. As of Dec. 31, XX, the SVO-Identified bond ETF had an NAIC designation of 3. Pursuant to the guidance in SSAP No. 26R, a non-AVR reporting entity is only permitted to utilize systematic value for SVO-Identified bond ETFs with an NAIC designation of 1 or 2. As this ETF no longer qualifies for systematic value but is still on the SVO-Identified list, it is captured within scope of SSAP No. 26R, reported on Schedule D-1, but is now reported at fair value.

- (3) Common Stocks are stated at market except those investments in stocks of uncombined subsidiaries and affiliates in which the Company has an interest of 20% or more are carried on the equity basis.
- (4) Preferred stocks are stated in accordance with the guidance provided in *SSAP No. 32R—Preferred Stock*.
- (5) Mortgage loans on real estate are stated at the aggregate carrying value less accrued interest.
- (6) Loan-backed securities are stated at either amortized cost or the lower of amortized cost or fair value. The retrospective adjustment method is used to value all securities, except for interest only securities or securities where the yield had become negative, that are valued using the prospective method.
- (7) The Company carries ABC Non-insurance company at GAAP equity plus the remaining Goodwill balance of \$ ____.
- (8) The company has minor ownership interests in joint ventures. The company carries these interests based on the underlying audited GAAP equity of the investee.
- (9) All derivatives are stated at fair value.
- (10) The Company anticipates investment income as a factor in the premium deficiency calculation, in accordance with *SSAP No. 54R—Individual and Group Accident and Health Contracts*.

- (11) Unpaid losses and loss adjustment expenses include an amount determined from individual case estimates and loss reports and an amount, based on past experience, for losses incurred but not reported. Such liabilities are necessarily based on assumptions and estimates and while management believes the amount is adequate, the ultimate liability may be in excess of or less than the amount provided. The methods for making such estimates and for establishing the resulting liabilities are continually reviewed and any adjustments are reflected in the period determined.
- (12) The Company has not modified its capitalization policy from the prior period.

2. Accounting Changes and Corrections of Errors

Instruction:

Describe material changes in accounting principles and/or correction of errors. Include:

- A brief description of the change, encompassing a general disclosure of the reason and justification for the change or correction.

- The effect on net income of the current period for a change in estimate that affects several future periods, such as a change in the service lives of depreciable assets or actuarial assumptions affecting pensions costs. Disclosure of the effect on those income statement amounts is not necessary for estimates made each period in the ordinary course of accounts for items such as uncollectible accounts. However, disclosure is recommended if the effect of a change in the estimate is material.
- Changes in accounting that are changes in reserve valuation basis as described in *SSAP No. 51R—Life Contracts* which have elected phase-in provided for in the Valuation Manual section VM-21, shall also include in the change in accounting disclosures information regarding the application of any phase-in as provided for in *SSAP No. 51R*.

- When subsequent financial statements are issued containing comparative restated results as a result of the filing of an amended financial statement, the reporting entity shall disclose that the prior period has been restated and the nature and amount of such restatement.

Illustration:

During the current year's financial statement preparation, the Company discovered an error in the compiling and reporting of investment income from an affiliate for the prior year. In the prior year, common stocks (Assets Page, Line _____) and investment income earned from affiliates (included in Statement of Revenue and Expenses, Line _____) were understated by \$ _____. Line ____ on the Assets Page and Line ____ on the Gains and Losses section of the Statement of Revenue and Expenses have been adjusted in the current year to correct for this error.

In 2020, the Company elected a phase-in period of three years of a change in reserve valuation basis as described in *SSAP No. 51R—Life Contracts* for its variable annuity reserves. This change in valuation basis, which impacts annuities reserves written from 1981 to 2019 is permitted under the revisions to the Commissioners Annuity Reserve Valuation Method (CARVM) adopted in *Valuation Manual Requirements for Principle-Based Reserves for Variable Annuities (VM-21)*, and Actuarial Guideline 43 CARVM for variable annuities (AG 43). There have been no adjustments to the phase-in period. The amount of phase-in, which has been recognized in unassigned funds is \$ _____. The remaining amount to be phased-in is \$ _____.

- B. The total amount excluded.
- C. The gross, nonadmitted and admitted amounts for interest income due and accrued.

Some investments allow for interest payments to be deferred past the originally scheduled payment date without being considered past due under the agreement terms. Include the amount of interest reported as due and accrued for which the reporting entity has not received within 90 days of the originally scheduled payment date, that has not been nonadmitted under *SSAP No. 34 – Investment Income Due and Accrued*. For the avoidance of doubt, this should also include all accrued interest for investments that pay interest in full less frequently than annually per the agreement terms.

- E. The cumulative amounts of paid-in-kind (PIK) interest included in the current principal balance.

Include the amount of reported interest in which the terms of the investment permit paid-in-kind (PIK) instead of cash. The amount captured shall reflect the cumulative amount of PIK interest included in the current principal balance.

Illustration:

- A. Due and accrued income was excluded from surplus on the following bases:

All investment income due and accrued with amounts that are over 90 days past due with the exception of mortgage loans in default.

- B. The total amount excluded was \$_____.

Instruction:

Disclose the following information by category of derivative financial instrument:

- A. Derivatives under *SSAP No. 86—Derivatives*

Disclose the following information by category of derivative financial instrument:

- (1) A discussion of the market risk, credit risk and cash requirements of the derivative.
- (2) A description of the reporting entity’s objectives for using derivatives, i.e., hedging, income generation or replication, as well as a description of the context needed to understand those objectives and its strategies for achieving those objectives, including the identification of the category, e.g. fair value hedges, cash flow hedges, or foreign currency hedges, and for all objectives, the type of instrument(s) used.
- (3) A description of the accounting policies for recognizing (or reasons for not recognizing) and measuring the derivatives used, and when recognized and where those instruments and related gains and losses are reported.
- (4) Identification of whether the reporting entity has derivative contracts with financing premiums. (For purposes of this term, this includes scenarios in which the premium cost is paid at the end of the derivative contract or throughout the derivative contract.)
- (5) The net gain or loss recognized in unrealized gains or losses during the reporting period representing the component of the derivative instruments’ gain or loss, if any, excluded from the assessment of hedge effectiveness.
- (6) The net gain or loss recognized in unrealized gains or losses during the reporting period resulting from derivatives that no longer qualify for hedge accounting.
- (7) For derivatives accounted for as cash flow hedges of a forecasted transaction, disclose:
 - a. The maximum length of time over which the entity is hedging its exposure to the variability in future cash flows for forecasted transactions excluding those forecasted transactions related to the payment of variable interest on existing financial instruments; and
 - b. The amount of gains and losses classified in unrealized gains/losses related to cash flow hedges that have been discontinued because it was no longer probable that the original forecasted transactions would occur by the end of the originally specified time period or within 2 months of that date.
- (8) Disclose the aggregate, non-discounted total premium cost for these contracts and the premium cost due in each of the following four years, and thereafter. Also disclose the aggregate fair value of derivative instruments with financing premiums, excluding the impact of the deferred or financing premiums.

- (9) Disclose information on the aggregate excluded components by category: Time Value, Volatility Value, Cross Currency Basis Spread and Forward Points. The aggregate amounts reported should include the following (as applicable): current fair value, recognized unrealized gain/loss, the fair value reflected in Book/Adjusted Carry Value, the aggregate amount owed at maturity, current year amortization, and remaining amortization.
- Current Fair Value – The fair value of the excluded component at the reporting date regardless how the excluded component is reported.
 - Recognized Unrealized Gain (Loss) – This represents the change in fair value reported as an unrealized gain (loss). Where the reporting entity does not have a specific excluded component or the excluded component is not required to be held at fair value, an amount of \$0 may be input.
 - Fair Value Reflected in BACV – The fair value of the excluded component that is reflected in the reported book/adjusted carry value. Not applicable for foreign currency forwards and currency swaps where the forward points or cross-currency basis, respectively, are the excluded component.
 - Aggregate Amount Owed at Maturity – The total value of forward points (premium) at trade inception.
 - Current Year Amortization – The forward point (premium) amortization year to date.
 - Remaining Amortization – The forward point (premium) for outstanding trades as of reporting date.

B. Derivatives under *SSAP No. 108—Derivative Hedging Variable Annuity Guarantees (Life/Fraternal Only)*

- (1) Discussion of hedged item/hedging instruments and hedging strategy:
- Discussion of hedged item, including information on the guarantees sensitive to interest rate risk, along with information on the designated hedging instruments being used to hedge the risk.
 - Discussion of the hedging instruments shall identify whether a hedging instrument is a single instrument or portfolio, as well as information on the hedging strategy (including whether there have been changes in strategy from the prior reporting period, along with detailed information on the changes), and assessment of hedging effectiveness and compliance with the “Clearly Defined Hedging Strategy” of VM-21.
 - Identification shall occur on whether the hedged item is intended to be fully hedged under the hedging strategy, or if the strategy is only focused on a portion of the liability characteristics or a portion of the interest rate sensitivity.
 - Hedging strategies shall be identified as highly effective or not highly effective.
 - If the strategy for a particular hedging relationship excludes a specific component of the gain or loss, or related cash flows, from the assessment of hedge effectiveness, details on the excluded components shall be disclosed.

Note: The narrative discussion for this disclosure shall incorporate a unique identifier for each hedging strategy referenced. Use the same identifier as used for Schedule DB, Part E.

(2) Recognition of gains/losses and deferred assets and liabilities

Provide the following:

Schedule showing the current period amortization, including any accelerated amortization elected by the reporting entity, and the future scheduled amortization of the deferred assets and deferred liabilities.

Information on derivative instruments that were originally captured in SSAP No. 108 and repurposed to be within scope of SSAP No. 86 (or vice versa). If the reporting entity has repurposed derivatives, information on the derivative to reconcile the fair value (realized/unrealized gains or losses) is required. (These disclosures should only be included if open derivatives were reclassified between SSAP No. 86 and SSAP No. 108. It is expected to be uncommon.)

The amortization of deferred assets and liabilities shall be completed on an annual basis only. Quarterly changes (resulting in new amortization projections) from the recognition of new deferred assets/liabilities shall be shown in the quarterly completion of Schedule DB, Part E.

(3) Hedging strategies identified as no longer highly effective

Disclose for hedging strategies no longer identified as highly effective previously captured within scope of SSAP No. 108:

- a. Information on the determination of ineffectiveness, including variations from prior assessments resulting in the change from classification as a highly effective hedge.
- b. Identification of outstanding hedging instruments previously captured within scope of this standard and subsequently identified as no longer part of a highly effective hedging strategy. (Open derivative transactions no longer captured within the special accounting provision would be subject to the accounting and reporting guidance within SSAP No. 86.) This disclosure shall identify the date in which the domiciliary state was notified that the hedging strategy had been identified by the reporting entity as no longer highly effective.
- c. Deferred assets and deferred liabilities previously recognized when the program was highly effective, with a schedule that shows the amortization that would have occurred if the program had remained highly effective, as well as a schedule that details the amortization that will occur as the program is no longer highly effective (maximum five-year time frame).
- d. Disclosure on whether the reporting entity is electing to accelerate amortization (in advance of the remaining scheduled amortization or the maximum five-year time frame), along with amounts immediately recognized to unrealized gains/losses, and how the election impacts the scheduled amortization.

(4) Hedging strategies terminated

Disclose for situations in which the reporting entity has elected to terminate the hedging strategy and/or discontinue the special accounting provisions permitted within SSAP No. 108:

- a. The key elements in the reporting entity's decision to terminate, identifying changes in the reporting entity's objectives or perspectives from initial application.
- b. Identification of outstanding hedging instruments previously captured within scope of this standard and the accounting impact as a result of the termination/discontinuation. (Open derivative transactions no longer captured within the special accounting provision would be subject to the accounting and reporting guidance within SSAP No. 86.) This disclosure shall identify the date in which the domiciliary state was notified that the hedging strategy or the election to use the special accounting provision in this SSAP had been terminated.

- c. Deferred assets and deferred liabilities previously recognized under the hedging strategy and/or program, with a schedule that shows the amortization that would have occurred if the strategy and/or program had remained highly effective, as well as a schedule that details the amortization that will occur with the termination of the strategy and/or program (maximum five-year time frame).
- d. Disclosure on whether the reporting entity is electing to accelerate amortization (in advance of the remaining scheduled amortization or the maximum five-year time frame), along with amounts immediately recognized to unrealized gains/losses, and the resulting impact to the scheduled amortization.

B. Derivatives under SSAP No. 108—Derivative Hedging Variable Annuity Guarantees

- (1) Discussion of hedged item/hedging instruments and hedging strategy:

CDHS #1 - Rider Claims Less Rider Fees in VA Contracts - 50% Rho - 10 Year SL Amortization:

The hedged obligation consists of guaranteed benefits on variable annuity contracts and resembles a long dated put option where claim payment is made whenever account value is less than a guaranteed amount, adjusted for applicable fees. Changes in interest rates impact the present value of future product cash flows (discount rate), as well as the value of investments comprising the account value to be assessed against the guarantee. Under this VM-21 compliant clearly defined hedging strategy (CDHS), interest rate risk may be hedged by a duration matched portfolio of interest sensitive derivatives, such as Treasury bond forwards, Treasury futures, interest rate swaps, interest rate swaptions or Treasury future options. The hedging strategy is unchanged from the prior reporting period, and the total return on the designated portfolio of derivatives has been highly effective in covering the established target of 50% of the interest rate risk (rho) of the hedged obligation. Hedge effectiveness is measured in accordance with the requirements outlined under SSAP No. 108 and entails assessment of the total return on the designated portfolio of derivatives against changes in the fair value of the hedged obligation due to interest rate movements on a cumulative basis.

 1. The amount of adjusted gross DTAs, expected to be realized within the applicable period following the balance sheet date, by tax character (ordinary and capital). Refer to the applicable Realization Threshold Limitation Table in *SSAP No. 101—Income Taxes* to determine the applicable period.
 2. The amount of the applicable percentage of statutory capital and surplus as required to be shown on the statutory balance sheet of the reporting entity for the current reporting period's statement filed with the domiciliary state commissioner adjusted to exclude any net DTAs, EDP equipment and operating system software and any net positive goodwill. Refer to *SSAP No. 101—Income Taxes* to determine the applicable percentage to be applied.

- (4) Disclose the impact of tax-planning strategies:
- a. On the determination of adjusted gross deferred tax assets and net admitted deferred tax assets, by tax character as a percentage of total. The disclosure should provide the following information for current year, prior year and change between years.

 - b. State whether the tax-planning strategies include the use of reinsurance-related tax-planning strategies.

Refer to *SSAP No. 101—Income Taxes*, Exhibit A – Implementation Questions and Answers, Question No. 13, for guidance on tax-planning strategies.

- B. To the extent that DTLs are not recognized for amounts described in paragraph 31 of FAS 109, disclose the following:
- (1) A description of the types of temporary differences for which a DTL has not been recognized and the types of events that would cause those temporary differences to become taxable;
 - (2) The cumulative amount of each type of temporary difference;
 - (3) The amount of the unrecognized DTL for temporary differences related to investments in foreign subsidiaries and foreign corporate joint ventures that are essentially permanent in duration, if determination of that liability is practicable, or a statement that determination is not practicable; and

NOTE: The illustration below for this disclosure reflects the setup for the data capture of the electronic notes.

- D. To the extent that the sum of a reporting entity's income tax incurred and the change in its DTAs and DTLs is different from the result obtained by applying the federal statutory rate to its pretax net income, a reporting entity should disclose the nature of the significant reconciling items.

(These disclosures shall be made on an accrual basis beginning in the 2018 year-end statutory financial statements and continuing through the year-end statutory reporting period in which the AMT credit is fully utilized/received.)

The disclosures required for this Note shall be aggregated for all of a reporting entity’s defined benefit pension plans and for all of a reporting entity’s other defined benefit postretirement plans unless disaggregating in groups is considered to provide useful information or is otherwise required by *SSAP No. 92—Postretirement Benefits Other Than Pensions* or *SSAP No. 102—Pensions*. Disclosures shall be as of the date of each statement of financial position presented. Disclosures about pension plans with assets in excess of the accumulated benefit obligation generally may be aggregated with disclosures about pension plans with accumulated benefit obligations in excess of assets. The same aggregation is permitted for other postretirement benefit plans. If aggregate disclosures are presented, a reporting entity shall disclose:

- The aggregate benefit obligation and aggregate fair value of plan assets for plans with benefit obligations in excess of plan assets as of the measurement date of each statement of financial position presented.
- The aggregate pension accumulated benefit obligation and aggregate fair value of plan assets for pension plans with accumulated benefit obligations in excess of plan assets.

Refer to *SSAP No. 11—Postemployment Benefits and Compensated Absences*, *SSAP No. 92—Postretirement Benefits Other Than Pensions* and *SSAP No. 102—Pensions* for additional guidance.

- (17) Reporting entities are required to disclose the accumulated postretirement and pension benefit obligation and the fair value of plan assets for defined postretirement and pension benefit plans in the first reporting period after the effective date of this standard and in each subsequent reporting period. This disclosure shall specifically note the funded/underfunded status of the postretirement benefit plan. Reporting entities shall also specifically note the surplus impact necessary, at each reporting date, to reflect the full benefit obligation within the financial statements.
- (18) Reporting entities electing to apply the transition guidance set forth in *SSAP No. 102—Pensions* and *SSAP No. 92—Postretirement Benefits Other Than Pensions* must disclose the full transition surplus impact calculated from applying guidance in the first quarter statutory financial statements after the transition date and each reporting period thereafter. This disclosure shall include the initial “transition liability” calculated under guidance and the annual amortization amount of the “unrecognized items” into net periodic benefit cost. This disclosure shall include a schedule of the entity’s anticipated recognition of the remaining surplus impact over the transition period.
- See *SSAP No. 102—Pensions* and *SSAP No. 92—Postretirement Benefits Other Than Pensions* for details of the transition guidance.

Information about plan assets:

The objectives of the disclosures about postretirement benefit plan assets are to provide users of financial statements with an understanding of:

- How investment allocation decisions are made, including the factors that are pertinent to an understanding of investment policies and strategies.
- The classes of plan assets.
- The inputs and valuation techniques used to measure the fair value of plan assets.
- The effect of fair value measurements using significant unobservable inputs (Level 3) on changes in plan assets for the period.
- Significant concentrations of risk within plan assets.

A reporting entity shall consider those overall objectives in providing the following information about plan assets:

- B. A narrative description of investment policies and strategies, including target allocation percentages or range of percentages considering the classes of plan assets disclosed pursuant to “C” below, as of the latest statement of financial position presented (on a weighted-average basis for reporting entities with more than one plan), and other factors that are pertinent to an understanding of those policies and strategies such as investment goals, risk management practices, permitted and prohibited investments including the use of derivatives, diversification, and the relationship between plan assets and benefit obligations. For investment funds disclosed as classes as described in “C” below, a description of the significant investment strategies of those funds shall be provided.

- C. The fair value of each class of plan assets as of each date for which a statement of financial position is presented. Asset classes shall be based on the nature and risks of assets in a reporting entity's plan(s).

Examples of classes of assets include, but are not limited to, the following:

- Cash and cash equivalents
- Equity securities (segregated by industry type, company size, or investment objective)
- Debt securities, issued by national, state, and local governments
- Corporate debt securities
- Asset-backed securities
- Structured debt
- Derivatives on a gross basis (segregated by type of underlying risk in the contract, for example):
 - ❖ Interest rate contracts
 - ❖ Foreign exchange contracts
 - ❖ Equity contracts
 - ❖ Commodity contracts
 - ❖ Credit contracts
 - ❖ Other contracts
- Investment funds (segregated by type of fund)
- Real estate.

These examples are not meant to be all inclusive. A reporting entity should consider the overall objectives in determining whether additional classes of plan assets or further disaggregation of classes should be disclosed.

The disclosure should include information that enables users of financial statements to assess the inputs and valuation techniques used to develop fair value measurements of plan assets at the reporting date. For fair value measurements using significant unobservable inputs, a reporting entity shall disclose the effect of the measurements on changes in plan assets for the period. To meet those objectives, the reporting entity shall disclose the following information for each class of plan assets disclosed above for each annual period:

- (1) The level within the fair value hierarchy in which the fair value measurements falls in their entirety, segregating fair value measurements using quoted prices in active markets for identical assets or liabilities (Level 1), significant other observable inputs (Level 2), and significant unobservable inputs (Level 3).

NOTE: In some cases, the inputs used to measure fair value might fall in different levels of the fair value hierarchy. The level in the fair value hierarchy within which the fair value measurement falls in its entirety shall be determined based on the lowest level input that is significant to the fair value measurement in its entirety. Assessing the significance of a particular input to the fair value measurement in its entirety requires judgment, considering factors specific to the asset or liability.

- (2) Information about the valuation technique(s) and inputs used to measure fair value and a discussion of changes in valuation techniques and inputs, if any, during the period.

D. A narrative description of the basis used to determine the overall expected long-term rate-of-return-on-assets assumption, such as the general approach used, the extent to which the overall rate-of-return-on-assets assumption was based on historical returns, the extent to which adjustments were made to those historical returns in order to reflect expectations of future returns, and how those adjustments were determined. The description should consider the classes of assets described in “C” above, as appropriate.

E. Defined Contribution Plans

A reporting entity shall disclose the amount of cost recognized for defined contribution pension and other defined contribution postretirement benefit plans for all periods presented separately from the amount of cost recognized for defined benefit plans. The disclosures shall include a description of the nature and effect of any significant changes during the period affecting comparability, such as a change in the rate of reporting entity contributions, a business combination, or a divestiture.

F. Multiemployer Plans

Disclose the amount of reporting entity contributions to multiemployer plans for each annual period for which a statement of income is presented. A reporting entity may disclose total contributions to the multiemployer plan without desegregating the amounts attributable to pensions and other postretirement benefits. Disclose a description of the nature and effect of any changes affecting comparability, such as a change in the rate of reporting entity contributions, a business combination, or a divestiture. Disclose whether the contributions represent more than 5 percent of total contributions to the plan as indicated in the plan’s most recently available annual report.

In addition to the requirements of paragraph above, the following information shall be disclosed:

- Whether a funding improvement plan or rehabilitation plan has been implemented or is pending.
- Whether the reporting entity paid a surcharge to the plan.
- A description of minimum contributions required for future periods, if applicable.
- A qualitative description of the extent to which the employer could be responsible for the obligations of the plan, including benefits earned by employees during employment with another employer.

G. Consolidated/Holding Company Plans

A reporting entity shall disclose that its employees participate in a plan sponsored by the parent company or holding company for which the reporting entity has no legal obligation for benefits under the plan. The amount of pension, postretirement other than pension, postemployment and compensated absence expense incurred and the allocation methodology utilized by the provider of such benefits shall also be disclosed.

H. Postemployment Benefits and Compensated Absences

If an obligation for postemployment benefits or compensated absences is not accrued in accordance with *SSAP No. 11—Postemployment Benefits and Compensated Absences* because the amount cannot be reasonably estimated that fact and the reasons thereof shall be disclosed.

The nature and effect of significant nonroutine events, such as amendments, combinations, divestitures, curtailments and settlements.

I. Impact of Medicare Modernization Act on Postretirement Benefits (INT 04-17)

- (1) Until an employer is able to determine whether benefits provided by its plan are actuarially equivalent, it shall disclose the following in financial statements for interim or annual periods:
 - a. The existence of the Act.
 - b. The fact that measures of the APBO or net periodic postretirement benefit cost do not reflect any amount associated with the subsidy because the employer is unable to conclude whether the benefits provided by the plan are actuarially equivalent to Medicare Part D under the Act.
- (2) In the interim and annual financial statements for the first period in which an employer includes the effects of the subsidy in measuring the net postretirement benefit cost, it shall disclose the following:
 - a. The reduction in the net postretirement benefit cost for the subsidy related to benefits attributed to former employees.
 - b. The effect of the subsidy on the measurement of net periodic postretirement benefit cost for the current period. That effect includes (1) any amortization of the actuarial experience gain in “a.” above as a component of the net amortization called for by *SSAP No. 92—Postretirement Benefits Other Than Pensions*, (2) the reduction in current period service cost due to the subsidy, and (3) the resulting reduction in interest cost on the net postretirement benefit cost as a result of the subsidy.
 - c. Any other disclosures required by *SSAP No. 92—Postretirement Benefits Other Than Pensions* which requires disclosure of “An explanation of any significant change in the benefit obligation or plan assets not otherwise apparent in the other disclosures required by this statement.”
- (3) An employer shall disclose gross benefit payments (paid and expected, respectively), including prescription drug benefits, and separately the gross amount of the subsidy receipts (received and expected, respectively).

E. Defined Contribution Plan

Insurance company employees are covered by a qualified defined contribution pension plan sponsored by the insurance company.

Contributions of ___ percent of each employee’s compensation are made each year. The Company’s contribution for the plan was \$_____ million and \$_____ million for 20__ and 20__, respectively. At December 31, 20___, the fair value of plan assets was \$_____ million.

F. Multiemployer Plans

The Company participates in a qualified, noncontributory defined benefit pension plan sponsored by ABC Union. In addition, the Company provides certain other postretirement benefits to retired employees through a plan sponsored by ABC Union. The Company's share of net expense for the qualified pension plan was \$_____ million and \$_____ million for 20__ and 20__, respectively and for other postretirement benefit plans was \$_____ million and \$_____ million for 20__ and 20__, respectively. Beginning January 1, 20__, the Company's other postretirement benefit plans were amended to restrict benefit eligibility to retirees and certain retiree-eligible employees. Previously covered employees could become eligible for postretirement benefits if they reached retirement age while working for the Company. The Company's contributions to the pension plan and postretirement benefit plans was less than 5 percent of each plan's assets. There are no funding improvement or rehabilitation plans implemented or pending for any of the pension and postretirement benefit plans the Company participates in. The Company did not pay any surcharges during the reporting period ended December 31, 20__. The Company is not responsible for the underfunded status of the plan because the plan operates in a jurisdiction that does not require withdrawing participants to pay a withdrawal liability or other penalty. The collective-bargaining agreement requires contributions on the basis of hours worked. The agreement also has a minimum contribution requirement of \$1,000,000 each year.

G. Consolidated/Holding Company Plans

The Company participates in a qualified, noncontributory defined benefit pension plan sponsored by XYZ Holding Company, an affiliate. In addition, the Company provides certain other postretirement benefits to retired employees through a plan sponsored by XYZ Holding Company. The Company has no legal obligation for benefits under these plans. XYZ Holding Company allocates amounts to the Company based on salary ratios. The Company's share of net expense for the qualified pension plan was \$_____ million and \$_____ million for 20__ and 20__, respectively and for other postretirement benefit plans was \$_____ million and \$_____ million for 20__ and 20__, respectively. Beginning January 1, 20__, the Company's other postretirement benefit plans were amended to restrict benefit eligibility to retirees and certain retiree-eligible employees. Previously, covered employees could become eligible for postretirement benefits if they reached retirement age while working for the Company.

I. Impact of Medicare Modernization Act on Postretirement Benefits (INT 04-17)

(1) Recognition of the existence of the Act

The Medicare Prescription Drug, Improvement and Modernization Act of 2003 (the Act) was signed into law in December of 2003. The Act includes the following two new features to Medicare Part D that could affect the measurement of the accumulated postretirement benefit obligation (APBO) and net periodic postretirement cost for the Plan:

- A federal subsidy (based on 28% of an individual beneficiary's annual prescription drug costs between \$250 and \$5,000), which is not taxable, to sponsors of retiree health care benefit plans that provide a prescription drug benefit that is at least actuarially equivalent to Medicare Part D; and
- The opportunity for a retiree to obtain a prescription drug benefit under Medicare.

The Company is unable to conclude whether the benefits provided by the Plan are actuarially equivalent to Medicare Part D under the Act. As a result, the effects of the Act on accumulated postretirement benefit obligation are not reflected in the financial statement or the accompanying notes.

(2) Effects of the Subsidy in Measuring the Net Postretirement Benefit Cost

The Medicare Prescription Drug, Improvement and Modernization Act of 2003 (the Act) was signed into law in December of 2003. The Act includes the following two new features to Medicare Part D that could affect the measurement of the accumulated postretirement benefit obligation (APBO) and net periodic postretirement cost for the Plan:

- A federal subsidy (based on 28% of an individual beneficiary's annual prescription drug costs between \$250 and \$5,000), which is not taxable, to sponsors of retiree health care benefit plans that provide a prescription drug benefit that is at least actuarially equivalent to Medicare Part D; and
- The opportunity for a retiree to obtain a prescription drug benefit under Medicare.

The effect of the Act was a \$_____ reduction in the Company's net postretirement benefit cost for the subsidy related to benefits attributed to former employees. The Act also had the following effects on the net postretirement benefit cost; a \$_____ decrease as a result of an actuarial gain; a decrease to the current period service cost \$_____ due to the subsidy; and \$_____ decrease to the interest cost.

(3) Disclosure of Gross Benefit Payments

The Company's gross benefit payments for 20__ were \$_____ including the prescription drug benefit and estimates future payments to be \$_____ annually. The Company's subsidy related to The Medicare Prescription Drug, Improvement and Modernization Act of 2003 was \$_____ for 20__ and estimates future subsidies to be \$_____ annually.

14. Liabilities, Contingencies and Assessments

Instruction:

For disclosures related to *SSAP No. 5R—Liabilities, Contingencies and Impairment of Assets*, *SSAP No. 35R—Guaranty Fund and Other Assessments*, *SSAP No. 97—Investments in Subsidiary, Controlled and Affiliated Entities* and *SSAP No. 48—Joint Ventures, Partnerships and Limited Liability Companies*, describe the nature of any material contingencies in accordance with *SSAP No. 5R* and report total contingent liabilities.

A. Contingent Commitments

- (1) Disclose any commitment or contingent commitment to an SCA entity, joint venture, partnership, or limited liability company (e.g., guarantees or commitments to provide additional capital contributions).

Include any commitment or contingent commitment (e.g., guarantees or commitments to provide additional capital contributions) including the amount of equity contributions that are contingent commitments related to LIHTC properties investments and the year(s) that contingent commitments are expected to be paid. Refer to *SSAP No. 93—Low-Income Housing Tax Credit Property Investments* for accounting guidance.

- (2) A guarantor shall disclose the following information about each guarantee, or each group or similar guarantees (except product warranties), even if the likelihood of the guarantor’s having to make any payments under the guarantee is remote. In addition, the nature of the relationship to the beneficiary of the guarantee or undertaking (affiliated or unaffiliated) shall also be disclosed:
 - a. The nature of the guarantee, including the approximate term of the guarantee, how the guarantee arose, and the events and circumstances that would require the guarantor to perform under the guarantee, the ultimate impact to the financial statements (specific financial statement line item) if action under the guarantee was required (e.g., increase to investment, dividends to stockholders, etc.) and the current status (that is, as of the date of the statement of financial position) of the payment/performance risk of the guarantee. For example, the current status of the payment/performance risk of a credit-risk-related guarantee could be based on either recently issued external credit ratings or current internal groupings used by the guarantor to manage its risk. An entity that uses internal groupings shall disclose how those groupings are determined and used for managing risk.

- b. The potential amount of future payments (undiscounted) the guarantor could be required to make under the guarantee. That maximum potential amount of future payments shall not be reduced by the effect of any amounts that may possibly be recovered under recourse or collateralization provisions in the guarantee (which are addressed under 2c below). If the terms of the guarantee provide for no limitation to the maximum potential future payments under the guarantee, that fact shall be disclosed. If the guarantor is unable to develop an estimate of the maximum potential amount of future payments under its guarantee, the guarantor shall disclose the reasons why it cannot estimate the maximum potential amount.
 - c. The nature of (1) any recourse provisions that would enable the guarantor to recover from third parties any of the amounts paid under the guarantee; and (2) any assets held either as collateral or by third parties that, upon the occurrence of any triggering event or condition under the guarantee, the guarantor can obtain and liquidate to recover all or a portion of the amounts paid under the guarantee. The guarantor shall indicate, if estimable, the approximate extent to which the proceeds from liquidation of those assets would be expected to cover the maximum potential amount of future payments under the guarantee
 - d. The current carrying amount of the liability, if any, for the guarantor's obligations under the guarantee (including the amount, if any, recognized under *SSAP No. 5R—Liabilities, Contingencies and Impairments of Assets*), regardless of whether the guarantee is freestanding or embedded in another contract.
- (3) An aggregate compilation of guarantee obligations shall include the maximum potential of future payments of all guarantees (undiscounted), the current liability (contingent and noncontingent) reported in the financial statements and the ultimate financial statement impact based on maximum potential payments (undiscounted) if performance under those guarantees had been triggered.

B. Assessments

Describe the nature of any assessments that could have a material financial effect, by type of assessment, and state the estimate of the liability, identifying whether the corresponding liability has been recognized under *SSAP No. 35R—Guaranty Fund and Other Assessments*, a liability has not been recognized as the obligating event has not yet occurred, or indicate that an estimate cannot be made.

For assessments with liabilities recognized under *SSAP No. 35R—Guaranty Fund and Other Assessments*, disclose the amounts of the recognized liabilities, any related asset for premium tax credits or policy surcharges, the periods over which the assessments are expected to be paid, and the period over which the recorded premium tax offsets or policy surcharges are expected to be realized.

Disclose assets recognized from paid and accrued premium tax offsets and policy surcharges and include a reconciliation of assets recognized within the previous year's annual statement to the assets recognized in the current year's annual statement. The reconciliation shall reflect, in aggregate, each component of the increase and decrease in paid and accrued premium tax offsets and policy surcharges, including the amount charged off.

The financial statements shall disclose the following related to guaranty fund liabilities and assets related to assessments from insolvencies of entities that wrote long-term care contracts.

- The discount rate applied as of the current reporting date (determined in accordance with *SSAP No. 35R—Guaranty Fund and Other Assessments*);
- The following disclosures shall be by insolvency:
 - ❖ The undiscounted and discounted amount of the guaranty fund assessments and related assets;
 - ❖ The number of jurisdictions for which the long-term care guaranty fund assessments payables were discounted and the number of jurisdictions for which asset recoverables were discounted;
 - ❖ Identify the ranges of years used to discount the assets and the range of years used to discount the liabilities (e.g., 2-10, 5-20);
 - ❖ The weighted average numbers of years of the discounting time period for long-term care guaranty fund assessment liabilities; and
 - ❖ The weighted average number of years of the discounting time period for the asset recoverables.

Disclosures shall be made in accordance with *SSAP No. 5R—Liabilities, Contingencies and Impairments of Assets* when there is at least a reasonable possibility that the impairment of an asset from premium tax offsets or policy surcharges may have been incurred.

C. Gain Contingencies

Describe the nature of any gain contingencies. Gain contingencies are not recognized in a reporting entity’s financial statements except as provided under *SSAP No. 5R—Liabilities, Contingencies and Impairments of Assets*. If subsequent to the balance sheet date but prior to the issuance of financial statements, the gain is realized, disclose the nature of the gain contingency.

D. Claims Related Extra Contractual Obligation and Bad Faith Losses Stemming from Lawsuits

B. Assessments

(1)

Where Amount is Unknown

The company has received notification of the insolvency of XYZ Insurance Company. It is expected that the insolvency will result in a guaranty fund assessment against the company at some future date. At this time, the company is unable to estimate the possible amounts, if any, of such assessments. Accordingly, the company is unable to determine the impact, if any, such assessments may have on the company’s financial position or results of operations.

Where Amount is Known (Retrospective Example)

On _____, 20____, the company received notification of the insolvency of XYZ Insurance Company. It is expected that the insolvency will result in a retrospective premium-based guaranty fund assessment against the company of \$_____ that has been charged to operations in the current period and the liability recognized.

Where Amount is Known (Prospective Example)

On _____, 20____, the company received notification of the insolvency of XYZ Insurance Company. It is expected that the insolvency will result in a prospective-based guaranty fund assessment against the company. A liability for this guaranty fund assessment has yet to be recognized as the conditions in paragraph 4 have not been met. (Pursuant to paragraph 4.b. of SSAP No. 35R—*Guaranty Fund and Other Assessments*, the event obligating the entity has not yet occurred.) For premium-based assessments, the event that obligates the entity is writing the premiums or being obligated to write or renew the premiums on which the assessments are expected to be based. There is no state law that requires the entity to remain liable for assessments, even though the insurance entity discontinues the writing of premiums. As such, a liability will be recognized once this condition has been met. As no liability has yet to be recognized for this notification of insolvency, no premium tax offsets or policy surcharges assets have been recognized for this notification. Pursuant to SSAP No. 35R, the accrual of prospective premium-based assessments is based on and limited in the same manner for which the liability is recognized.

16. Information About Financial Instruments With Off-Balance-Sheet Risk And Financial Instruments With Concentrations of Credit Risk

Refer to *SSAP No. 27—Off-Balance-Sheet and Credit Risk Disclosures* for accounting guidance.

Instruction:

For financial instruments with off-balance-sheet risk, a reporting entity shall disclose in the financial statements the following information by class of financial instrument:

- (1) The face or contract amount (or notional principal amount if there is no face or contract amount).
- (2) The nature and terms, including, at a minimum, a discussion of (i) the credit and market risk of those instruments, (ii) the cash requirements of those instruments, and (iii) the related accounting policy pursuant to the requirements of APB Opinion No. 22, Disclosure of Accounting Policies.
- (3) The amount of accounting loss the entity would incur if any party to the financial instrument failed completely to perform according to the terms of the contract and the collateral or other security, if any, for the amount due proved to be of no value to the entity.
- (4) The entity’s policy of requiring collateral or other security to support financial instruments subject to credit risk, information about the entity’s access to that collateral or other security, and the nature and a brief description of the collateral or other security supporting those financial instruments.

Illustration:

THIS EXACT FORMAT MUST BE USED IN THE PREPARATION OF THIS NOTE FOR THE TABLE BELOW. REPORTING ENTITIES ARE NOT PRECLUDED FROM PROVIDING CLARIFYING DISCLOSURE BEFORE OR AFTER THIS ILLUSTRATION.

(NOTE: THIS DOES NOT INCLUDE THE ENDING NARRATIVE.)

- (1) The table below summarizes the face amount of the Company’s financial instruments with off-balance-sheet risk.

	<u>Assets</u>		<u>Liabilities</u>	
	20__	20__	20__	20__
a. Swaps	\$ _____	\$ _____	\$ _____	\$ _____
b. Futures	\$ _____	\$ _____	\$ _____	\$ _____
c. Options	\$ _____	\$ _____	\$ _____	\$ _____
d. Total (a+b+c)	\$ _____	\$ _____	\$ _____	\$ _____

See Schedule DB of the Company’s annual statement for additional detail.

- (2) The Company uses interest rate swaps to reduce market risks from changes in interest rates and to alter interest rate exposures arising from mismatches between assets and liabilities. Under interest rate swaps, the Company agrees with other parties to exchange, at specified intervals, the difference between fixed-rate and floating-rate interest amounts calculated by reference to an agreed notional principal amount. Generally, no cash is exchanged at the outset of the contract and either party makes no principal payments. These transactions are entered into pursuant to master agreements that provide for a single net payment to be made by one counterparty at each due date.

Under exchange-traded currency futures and options, the Company agrees to purchase a specified number of contracts with other parties and to post variation margin on a daily basis in an amount equal to the difference in the daily fair values of those contracts. The parties with whom the Company enters into exchange-traded futures and options are regulated futures commissions merchants who are members of a trading exchange.

- (3) The Company is exposed to credit-related losses in the event of nonperformance by counterparties to financial instruments, but it does not expect any counterparties to fail to meet their obligations given their high credit ratings. The credit exposure of interest rate swaps and currency swaps is represented by the fair value (market value) of contracts with a positive fair value (market value) at the reporting date. Because exchange-traded futures and options are affected through a regulated exchange and positions are marked to market on a daily basis, the Company has little exposure to credit-related losses in the event of nonperformance by counterparties to such financial instruments.
- (4) The Company is required to put up collateral for any futures contracts that are entered. The amount of collateral that is required is determined by the exchange on which it is traded. The Company currently puts up cash and U.S. Treasury Bonds to satisfy this collateral requirement.

The current credit exposure of the Company's derivative contracts is limited to the fair value at the reporting date. Credit risk is managed by entering into transactions with creditworthy counterparties and obtaining collateral where appropriate and customary. The Company also attempts to minimize its exposure to credit risk through the use of various credit monitoring techniques. Approximately ___% of the net credit exposure for the Company from derivative contracts is with investment-grade counterparties.

17. Sale, Transfer and Servicing of Financial Assets and Extinguishments of Liabilities

- (1) Description of any loaned securities, including the fair value, a description of, and the policy for, requiring collateral, whether or not the collateral is restricted and the amount of collateral for transactions that extend beyond one year from the reporting date.

Include separately, the amount of any loaned securities within the separate account and if the policy and procedures for the separate account differ from the general account.

- (2) For all servicing assets and servicing liabilities:
- a. A description of the risks inherent in servicing assets and servicing liabilities and, if applicable, the instruments used to mitigate the income statement effect of changes in fair value to the servicing assets and servicing liabilities. (Disclosure of quantitative information about the instruments used to manage the risks inherent in servicing assets and servicing liabilities is encouraged but not required.)
 - b. The amount of **contractually specified servicing fees**, late fees and ancillary fees earned for each period for which results of operations are presented, including a description of where each amount is reported in the statement of income.
 - c. Quantitative and qualitative information about the assumptions used to estimate the fair value (for example, discount rates, anticipated credit losses and prepayment speeds). An entity that provides quantitative information about the instruments used to manage the risks inherent in the servicing assets and servicing liabilities, as encouraged by *SSAP No. 103R—Transfers and Servicing of Financial Assets and Extinguishments of Liabilities*, also is encouraged but not required to disclose the quantitative and qualitative information about the assumptions used to estimate the fair value of those instruments.

- (3) When servicing assets and servicing liabilities are subsequently measured at fair value:

For each class of servicing assets and servicing liabilities, the activity in the balance of servicing assets and the activity in the balance of servicing liabilities (including a description of where changes in fair value are reported in the statement of income for each period for which results of operations are presented), including, but not limited to, the following:

 - d. Changes in fair value during the period resulting from (i) changes in valuation inputs or assumptions used in the valuation model and (ii) other changes in fair value and a description of those changes.
 - e. Other changes that affect the balance and a description of those changes.

- a. For each income statement presented:
 1. The characteristics of the transfer including a description of the transferor's continuing involvement with the transferred financial assets, the nature and initial fair value of the assets obtained as proceeds and the liabilities incurred in the transfer, and the gain or loss from the sale of transferred financial assets. For initial fair value measurements of assets obtained and liabilities incurred in the transfer, the following information:
 - (a) The level within the fair value hierarchy in which the fair value measurements in their entirety fall, segregating fair value measurements using quoted prices in active markets for identical assets or liabilities (Level 1), significant other observable inputs (Level 2) and significant unobservable inputs (Level 3).

- (b) The key inputs and assumptions used in measuring the fair value of assets obtained and liabilities incurred as a result of the sale that relate to the transferor's continuing involvement (including, at a minimum, but not limited to, and if applicable, quantitative information about discount rates; expected prepayments, including the expected weighted-average life of prepayable financial assets; and anticipated credit losses, including expected static pool losses)
- If an entity has aggregated multiple transfers during a period, it may disclose the range of assumptions.
 - The weighted-average life of prepayable assets in periods (for example, months or years) can be calculated by multiplying the principal collections expected in each future period by the number of periods until that future period, summing those products, and dividing the sum by the initial principal balance.
 - Expected static pool losses can be calculated by summing the actual and projected future credit losses and dividing the sum by the original balance of the pool of assets.
2. Cash flows between a transferor and transferee, including proceeds from new transfers, proceeds from collections reinvested in revolving-period transfers, purchases of previously transferred financial assets, servicing fees and cash flows received from a transferor's beneficial interests.
- b. For each statement of financial position presented, regardless of when the transfer occurred:
1. Qualitative and quantitative information about the transferor's continuing involvement with transferred financial assets that provides financial statement users with sufficient information to assess the reasons for the continuing involvement and the risks related to the transferred financial assets to which the transferor continues to be exposed after the transfer and the extent that the transferor's risk profile has changed as a result of the transfer (including, but not limited to, credit risk, interest rate risk and other risks), including:
 - (a) The total principal amount outstanding (BACV), the amount that has been derecognized and the amount that continues to be recognized in the statement of financial position. The amount recognized (allocated fair value) by the reporting entity for the acquired participation in the transferred assets. The reporting schedules of both the transferred and reacquired assets. The percentage of beneficial interests from the reporting entity's transferred assets acquired by affiliated entities.

The purpose of the table illustrated below is to provide for data capture of certain disclosures required in *SSAP No. 103R—Transfers and Servicing of Financial Assets and Extinguishments of Liabilities*, paragraph 28g. As detailed in paragraph 28.g.ii, disclosure is required for each statement of financial position presented, regardless of when the transfer occurred. Determination of continuing involvement shall be applied in accordance with the definition reflected in SSAP No. 103R, Appendix A.

Columns requesting information that results in a null result (i.e., if column 5 results in a zero balance as 100% of the asset was transferred), shall indicate zero (0). In the event a column is not applicable, (i.e., if affiliated entities did not acquire an interest in the transferred asset), the column shall be referenced as zero (0).

In circumstances where an entity has multiple assets associated with a sale (i.e., several limited partnerships are sold as a single transaction), the assets should be aggregated and reported as a single transaction.

Column 1	Identification of Transaction	Identification of each material transaction. Identification should be consistent across reporting periods so that the circumstances for each item are adequately associated with the applicable transaction.
Column 2	BACV Prior to Transfer	The aggregate book value, at the time of transfer, of all assets associated with the transaction.
Column 3	Original Reporting Schedule of the Transferred Assets	The investment schedule(s) in which the transferred assets were reported, immediately prior to the transfer. If the transferred assets were reported on multiple schedules, all reporting schedules shall be identified. (For example, input BA-1 for Schedule BA-Part 1)
Column 4	Amount Derecognized from Sale Transaction	The aggregate book value derecognized from the investment schedules as a result of the transfer. If the assets were transferred in their entirety, Column 4 will equal Column 2.
Column 5	Amount That Continues to be Recognized in the Statement of Financial Position	The amount that continues to be recognized in the statement of financial position. This should equal Column 2 less Column 4.
Column 6	BACV of Acquired Interests in Transferred Assets	The original BACV reported for acquired beneficial interests (or any other interest) in the previously transferred asset. (BACV for these transactions is often the allocated fair value associated with the transaction.)
Column 7	Reporting Schedule of Acquired Interests	The reporting schedule of the acquired beneficial interest reported in Column 6. (For example, input D-1 for Schedule D, Part 1)
Column 8	Percentage of Interests of a Reporting Entity's Transferred Assets Acquired by Affiliated Entities	The percentage of interest of a reporting entity's transferred assets acquired by an affiliate as defined in <i>SSAP No. 25—Affiliates and Other Related Parties</i> .

- (b) The terms of any arrangements that could require the transferor to provide financial support (for example, liquidity arrangements and obligations to purchase assets) to the transferee or its beneficial interest holders, including a description of any events or circumstances that could expose the transferor to loss and the amount of the maximum exposure to loss.

- (c) Whether the transferor has provided financial or other support during the periods presented that it was not previously contractually required to provide to the transferee or its beneficial interest holders, including when the transferor assisted the transferee or its beneficial interest holders in obtaining support, including:
 - The type and amount of support.
 - The primary reasons for providing the support.
 - (d) Information is encouraged about any liquidity arrangements, guarantees and/or other commitments provided by third parties related to the transferred financial assets that may affect the transferor's exposure to loss or risk of the related transferor's interest.
2. The entity's accounting policies for subsequently measuring assets and liabilities that relate to the continuing involvement with the transferred financial assets.
 3. The key inputs and assumptions used in measuring the fair value of assets or liabilities that relate to the transferor's continuing involvement (including, at a minimum, but not limited to, and if applicable, quantitative information about discount rates; expected prepayments, including the expected weighted-average life of pre-payable financial assets; and anticipated credit losses, including expected static pool losses).
 4. For the transferor's interests in the transferred financial assets, a sensitivity analysis or stress test showing the hypothetical effect on the fair value of those interests (including any servicing assets or servicing liabilities) of two or more unfavorable variations from the expected levels for each key assumption that is reported per *SSAP No. 103R—Transfers and Servicing of Financial Assets and Extinguishments of Liabilities* independently from any change in another key assumption, and a description of the objectives, methodology and limitations of the sensitivity analysis or stress test.
 5. Information about the asset quality of transferred financial assets and any other assets that it manages together with them. This information shall be separated between assets that have been derecognized and assets that continue to be recognized in the statement of financial position. This information is intended to provide financial statement users with an understanding of the risks inherent in the transferred financial assets, as well as in other assets and liabilities that it manages together with transferred financial assets. For example, information for receivables shall include, but is not limited to:
 - Delinquencies at the end of the period.
 - Credit losses, net of recoveries, during the period.
- (5) Disclosure requirements for transfers of financial assets accounted for as secured borrowing (excluding repurchase and reverse repurchase transactions disclosed under Notes 5F through 5I above):

 - c. The amounts of any transfers into or out of Level 3 and the reasons for those transfers. Transfers into Level 3 shall be disclosed and discussed separately from transfers out of Level 3.

- (3) A reporting entity shall consistently follow its policy for determining when transfers between levels are recognized. The policy about the timing of recognizing transfers shall be the same for transfers into Level 3 as that for transfers out of Level 3. Examples of policies for when to recognize the transfers are as follows:
- a. The actual date of the event or change in circumstances that caused the transfer.
 - b. The beginning of the reporting period.
 - c. The end of the reporting period.

- (4) For fair value measurements categorized within Level 2 and Level 3 of the fair value hierarchy, a description of the valuation technique(s) and the inputs used in the fair value measurement. If there has been a change in the valuation technique(s) (for example, changing from a market approach to an income approach or the use of an additional valuation technique), the reporting entity shall disclose that change and the reason for making it.

For fair value measurements categorized within Level 2 and Level 3 of the fair value hierarchy, *SSAP No. 100R—Fair Value* requires a reporting entity to disclose a description of the valuation technique(s) and the inputs used in the fair value measurement. A reporting entity might disclose the following:

- a. Quantitative information about the input, for example, for certain debt securities or derivatives, information such as, but not limited to, prepayment rates, rates of estimated credit losses, interest rates (for example the LIBOR swap rate) or discount rates and volatilities.
 - b. The nature of the item being measured at fair value, including the characteristics of the item being measured that are considered in the determination of relevant inputs. For example, for residential mortgage-backed securities, a reporting entity might disclose the following:
 - The types of underlying loans (for example, prime loans or subprime loans)
 - Collateral
 - Guarantees or other credit enhancements
 - Seniority level of the tranches of securities
 - The year of issue
 - The weighted-average coupon rate of the underlying loans and the securities
 - The weighted-average maturity of the underlying loans and the securities
 - The geographical concentration of the underlying loans
 - Information about the credit ratings of the securities
 - c. How third-party information such as broker quotes, pricing services, net asset values and relevant market data was considered in measuring fair value.
- (5) For derivative assets and liabilities, the reporting entity shall present both of the following:
- a. The disclosures required by paragraph (1) and (2) above on a gross basis.
 - b. The reconciliation disclosures required by paragraphs (2), (3) and (4) on either a gross or net basis.

The quantitative disclosures required by 20A above shall be presented using a tabular format. (See Illustrations.)

- B. The reporting entity is encouraged, but not required, to combine the fair value information disclosed under *SSAP No. 100R—Fair Value* with the fair value information disclosed under other accounting pronouncements (for example, disclosures about fair value of financial instruments) in the periods in which those disclosures are required, if practicable. The reporting entity also is encouraged, but not required, to disclose information about other similar measurements, if practicable.

- C. A reporting entity shall disclose in the notes to the financial statements, as of each date for which a statement of financial position is presented in the quarterly or annual financial statements, the aggregate fair value or NAV for all financial instruments and the level within the fair value hierarchy in which the fair value measurements in their entirety fall. This disclosure shall be summarized by the type of financial instrument for which it is practicable to estimate fair value, except for certain financial instruments identified below.

The disclosures about fair value prescribed in the paragraph above are not required for the following: (Note: These exclusions are specific to Note 20C and do not impact the reporting of fair value that may be required in other SSAPs or statutory accounting schedules.)

- Employers' and plans' obligations for pension benefits, other postretirement benefits (see scope paragraph of *SSAP No. 92—Postretirement Benefits Other Than Pensions*), postemployment benefits, employee stock option and stock purchase plans, and other forms of deferred compensation arrangements, as defined in *SSAP No. 12—Employee Stock Ownership Plans*, *SSAP No. 104R—Share-Based Payments*, *SSAP No. 92—Postretirement Benefits Other Than Pensions* and *SSAP No. 102—Pensions*.
- Substantively extinguished debt subject to the disclosure requirements of *SSAP No. 103R—Transfers and Servicing of Financial Assets and Extinguishments of Liabilities*.
- Insurance contracts, other than financial guarantees and deposit-type contracts
- Lease contracts as defined in *SSAP No. 22R—Leases*.
- Warranty obligations and rights.
- Investments accounted for under the equity method.
- Equity instruments issued by the entity.
- Deposit liabilities with no defined or contractual maturities.

Fair value disclosed in the notes shall be presented together with the related admitted values in a form that makes it clear whether the fair values and admitted values represent assets or liabilities and to which line items in the Statement of Assets, Liabilities, Surplus and Other Funds they relate. Unless specified otherwise in another SSAP, the disclosures may be made net of encumbrances, if the asset or liability is so reported. A reporting entity shall also disclose the method(s) and significant assumptions used to estimate the fair value of financial instruments.

If it is not practicable for a reporting entity to estimate the fair value of the financial instrument or a class of financial instruments and the investment does not qualify for the NAV practical expedient, the aggregate carrying amount for those items shall be reported in the “not practicable” column with additional disclosure as required in paragraph 20D below.

- D. If it is not practicable for an entity to estimate the fair value of a financial instrument or a class of financial instruments, the following shall be disclosed:
- (1) Information pertinent to estimating the fair value of that financial instrument or class of financial instruments and the investment does not qualify for the NAV practical expedient, such as the carrying amount, effective interest rate and maturity; and
 - (2) The reasons why it is not practicable to estimate fair value.

E. For investments measured using the NAV practical expedient pursuant to *SSAP No. 100R—Fair Value*, a reporting entity shall disclose information that helps users of its financial statements to understand the nature and risks of the investments and whether the investments, if sold, are probable of being sold at amounts different from NAV per share. A reporting entity shall disclose the following information for instances in which the investment may be sold below NAV, or if there are significant restrictions in the liquidation of an investment held at NAV:

- The NAV along with a description of the investment/investment strategy of the investee.
- If the investment that can never be redeemed with the investees, but the reporting entity receives distributions through the liquidation of the underlying assets of the investees, the period of time over which the underlying assets are expected to be liquidated by the investees if the investee has communicated the timing to the reporting entity or announced the timing publicly. If the timing is unknown, the reporting entity shall disclose that fact.
- The amount of the reporting entity's unfunded commitments related to investments in the class.
- A general description of the terms and conditions upon which the investor may redeem the investment.
- The circumstances in which an otherwise redeemable investment in the class (or a portion thereof) might not be redeemable (e.g., investments subject to a lockup or gate). Also, for those otherwise redeemable investments that are restricted from redemption as of the reporting entity's measurement date, the reporting entity shall disclose when the restriction from redemption might lapse if the investee has communicated that timing to the reporting entity or announced the timing publicly. If the timing is unknown, the reporting entity shall disclose that fact and how long the restriction has been in effect.
- Any other significant restriction on the ability to sell investments in the class at the measurement date.
- If a group of investments would otherwise meet the criteria in *SSAP No. 100R—Fair Value* but the individual investments to be sold have not been identified (e.g., if a reporting entity decides to sell 20% of its investments in private equity funds but the individual investments to be sold have not been identified), so the investments continue to qualify for the practical expedient in *SSAP No. 100R—Fair Value*, the reporting entity shall disclose its plans to sell and any remaining actions required to complete the sale(s).

F. Subprime-Mortgage-Related Risk Exposure

Reporting entities shall disclose information pertaining to subprime-mortgage-related risk exposure and related risk management practices, regardless of the materiality of the exposure, in the statutory financial statements. These disclosures are not required in the annual audited financial statements. Although definitions may differ among reporting entities, the following features are commonly recognized characteristics of subprime mortgage loans:

- An interest rate above prime to borrowers who do not qualify for prime rate loans;
- Borrowers with low credit ratings (FICO scores);
- Interest-only or negative amortizing loans;
- Unconventionally high initial loan-to-value ratios;
- Low initial payments based on a fixed introductory rate that expires after a short initial period, then adjusts to a variable index rate plus a margin for the remaining term of the loan;
- Borrowers with less than conventional documentation of their income and/or net assets;
- Very high or no limits on how much the payment amount or the interest rate may increase at reset periods, potentially causing a substantial increase in the monthly payment amount; and/or
- Include substantial prepayment penalties and/or prepayment penalties that extend beyond the initial interest rate adjustment period.

To the extent such information is available, reporting entities shall consider exposure to subprime mortgage related risk through the following sources:

- Direct investments in subprime mortgage loans;
- Direct investments in securities with underlying subprime exposure, such as residential mortgage-backed securities, commercial mortgage-backed securities, collateralized debt obligations, structured securities (including principal protected notes), hedge funds, credit default swaps, and special investment vehicles;
- Equity investments in subsidiary, controlled or affiliated entities with significant subprime related risk exposure;
- Underwriting risk on policies issued for Mortgage Guaranty or Financial Guaranty insurance coverage.

As it relates to the exposure described above, reporting entities shall provide the following information:

- (1) Please provide a narrative description of the manner in which the reporting entity specifically defines its exposure to subprime mortgage related risk in practice. Please discuss the general categories of information considered in determining exposure to subprime mortgage related risk. Please differentiate between exposure to unrealized losses due to changes in asset values versus exposure to realized losses resulting from receiving less than anticipated cash flows or due to potential sale of assets to meet future cash flow requirements. Please discuss strategies used to manage or mitigate this risk exposure.
- (2) Direct exposure through investments in subprime mortgage loans. Within the categories of Mortgages in the Process of Foreclosure, Mortgages in Good Standing, and Mortgages with Restructured Terms, please provide the following information for the aggregate amount of directly held subprime mortgage loans:
 - Book/adjusted carrying value (excluding accrued interest);
 - Fair value;
 - Value of land and buildings;
 - Any other-than-temporary impairment losses recognized to date;
 - Default rate for the subprime portion of the loan portfolio.

- (3) Direct exposure through other investments. Please provide the following information related to other investments with subprime exposure:
- Actual cost
 - Book/adjusted carrying value
 - Fair value
 - Any other-than-temporary impairment losses recognized to date

Please aggregate the information above by the following types of investments:

- Residential mortgage-backed securities
 - Commercial mortgage-backed securities
 - Collateralized debt obligations
 - Structured securities (including principal protected notes)
 - Equity investments in subsidiary, controlled or affiliated entities with significant subprime mortgage related risk exposure (a general description of the nature and extent of the SCA's exposure should be included)
 - Other assets (including but not limited to hedge funds, credit default swaps, special investment vehicles)
- (4) Underwriting exposure to subprime mortgage risk through Mortgage Guaranty or Financial Guaranty insurance coverage. Please provide the following information, by coverage type, related to underwriting exposure on policies issued for Mortgage Guaranty coverage or Financial Guaranty coverage and any other lines of insurance expected to be impacted:

 - The aggregate amount of subprime related case reserves at the end of the current reporting period;
 - The aggregate amount of subprime related IBNR reserves at the end of the current reporting period.

G. Retained Assets

Disclose the following information regarding the reporting entity's use of retained asset accounts for beneficiaries. For purposes of this disclosure, retained asset accounts represent settlement of life insurance proceeds which are retained by the insurance entity within their general account for the benefit of the beneficiaries. Amounts held outside of the insurance entity, for example in a non-insurance subsidiary, affiliated or controlled entity accounted for under *SSAP No. 97—Investments in Subsidiary, Controlled and Affiliated Entities* such as an interest bearing account established in the beneficiaries name with a bank or thrift institutions (and subject to applicable Federal Deposit Insurance Corporation coverage) are only required to be described in the context of the structure of the reporting entity's program in accordance with (1), but quantitative information regarding retained asset accounts transferred outside of the reporting entity are not required.

- (1) A narrative description of how the accounts are structured and reported within the reporting entity's financial statements (e.g., as drafts written by the reporting entity and reported within cash and supplemental contracts without life contingencies; as accounts transferred into the beneficiaries name to an affiliated or unaffiliated bank or other financial institution in which the reporting entity has disposed of its liabilities and related assets, etc.). This description should include all of the different interest rates paid to retained asset account holders during the reporting year and the number of times changes in rates were made during the reporting year. The description should also include a listing of all applicable fees charged by the reporting entity that are directly or indirectly associated with the retained asset accounts. Also indicate if the retained asset account is the default method for satisfying life insurance claims.

- (2) Number and balance of retained asset accounts in force at the end of the current year and prior year segregated within “aging categories” of “up to 12 months,” “13 to 24 months,” “25 to 36 months,” “37 to 48 months,” “49 to 60 months,” “over 60 months.”
- (3) Disclose the following segregated between individual and group contracts:
 - Number and balance of retained asset accounts in force at the beginning of the year;
 - Number and amount of retained asset accounts issued during the year;
 - Investment earnings credited to retained asset accounts;
 - Fees and other charges assessed to retained asset accounts during the year;
 - Number and amount of retained asset accounts transferred to state unclaimed property funds;
 - Number and amount of retained asset accounts closed/withdrawn during the year; and
 - Number and balance of retained asset accounts in force at the end of the year.

H. Insurance-Linked Securities (ILS) Contracts

Reporting entities shall disclose information when they may receive possible proceeds as the issuer, ceding insurer, or counterparty of insurance-linked securities. Insurance-linked securities (ILS) are securities whose performance is linked to the possible occurrence of pre-specified events that relate to insurance risks. While catastrophe bonds (cat bonds) may be the most well-known type of ILS, there are other non-cat-bond ILS, including those based on mortality rates, longevity and medical-claim costs. ILS securities may be used by an insurer, or any other risk-bearing entity, in addition to (or as an alternative to) the purchase of insurance or reinsurance. This disclosure shall specifically identify the following:

- Whether the reporting entity may receive possible proceeds as the issuer, ceding insurer, or counterparty of insurance-linked securities as a way of managing risks related to directly-written insurance risks. This disclosure shall include the number of outstanding ILS contracts, and the aggregate maximum proceeds that could be received as of the reporting date under the terms of the ILS.
- Whether the reporting entity may receive possible proceeds as the issuer, ceding insurer, or counterparty of insurance-linked securities as a way of managing risk related to assumed insurance risks. This disclosure shall include the number of outstanding ILS contracts, and the aggregate maximum proceeds that could be received as of the reporting date under the terms of the ILS.

NOTE: In situations in which a reporting entity has ceded risk to a reinsurer, and the reinsurer has engaged in ILS (either directly or through a broker), the following should be used by the cedent reporting entity in completing the disclosure,

The ceding company shall complete the disclosure with information that they know regarding the reinsurance entities’ involvement with ILS that would likely be used to satisfy their reinsurance arrangement. For this disclosure, information shall be provided that details the maximum possible ILS proceeds as a result of the reinsurer’s ILS activity associated with the reinsurance arrangement(s) with the reporting entity. If information is known regarding the number of ILS contracts, that information shall also be included. If specific information is not known by the cedent on the number of ILS contracts associated with the reinsurance arrangement(s) with the reporting entity, the cedent shall report the information known (such as whether there is one ILS contract, or more than one ILS contract, or that the number of ILS contracts is not known). With the cedent entity reporting what is known (and what is not known), the regulator has needed information to further inquire with the ceding company.

22. Events Subsequent

Refer to *SSAP No. 9—Subsequent Events* for accounting guidance.

Instruction:

Subsequent events shall be considered either:

Type I – Recognized Subsequent Events:

Events or transactions that provide additional evidence with respect to conditions that existed at the date of the balance sheet, including the estimates inherent in the process of preparing financial statements.

Type II – Nonrecognized Subsequent Events:

Events or transactions that provide evidence with respect to conditions that did not exist at the date of the balance sheet but arose after that date.

For material Type I subsequent events, the nature and the amount of the adjustment shall be disclosed only if necessary to keep the financial statements from being misleading.

Material Type II subsequent events shall not be recorded in the financial statements but shall be disclosed in the notes to the financial statements. For such events, an entity shall disclose the nature of the event and an estimate of its financial effect, or a statement that such an estimate cannot be made.

An entity also shall consider supplementing the historical financial statements with pro forma financial data. Occasionally, a nonrecognized subsequent event may be so significant that disclosure can best be made by means of pro forma financial data. Such data shall give effect to the event as if it had occurred on the balance sheet date. In some situations, an entity also shall consider presenting pro forma statements. If the Type II subsequent event is of such a nature that pro forma disclosures are necessary to keep the financial statements from being misleading, disclose supplemental pro forma financial data including the impact on net income, surplus, total assets, and total liabilities giving effect to the event as if it occurred on the date of the balance sheet.

Reporting entities shall disclose the dates through which subsequent events have been evaluated along with the dates the statutory reporting statements were issued, or available to be issued.

This exposure is primarily in the Company’s property and casualty subsidiaries, but also includes potential losses on its real estate and mortgage loan portfolios. - Additional collateral required but not received as of the filing date.

- b. Disclose impact to the reporting entity as a result of the assuming entity's downgrade or revocation of certified reinsurer status. This amount can be estimated if applicable for quarterly reporting but should be an actual amount for annual reporting. See *SSAP No. 61R—Life, Deposit-Type and Accident and Health Reinsurance* for additional guidance.

If true, indicate the number of reinsurance contracts to which such provisions apply. For contracts subject to A-791, indicate if deposit accounting was applied for all contracts, which limit significant risks.

Note that a stop loss or excess of loss reinsurance agreement with deductibles or loss caps which apply to the entire contract and are not adjustable based on other features, do not require disclosure under this paragraph. If true, indicate the number of reinsurance contracts to which such provisions apply. If affirmative, indicate if the reinsurance credit was reduced for the risk limiting features.
- (3) Disclose if any assumed or ceded reinsurance contracts contain features (except reinsurance contracts with a federal or state facility) described below which result in delays in payment in form or in fact:

 - Accounted for that contract as reinsurance under statutory accounting principles (“SAP”) and as a deposit under U.S. generally accepted accounting principles (“GAAP”); or
 - Accounted for that contract as reinsurance under U.S. GAAP and as a deposit under SAP.

If the reporting entity does not prepare U.S. GAAP financial statements or its financial statements are not part of upstream U.S. GAAP financial statements, this disclosure can be answered not applicable.
- (6) If affirmative disclosure is required for Paragraph 23E(5) above, explain why the contract(s) is treated differently for GAAP and SAP.

2. This General Interrogatory is designed to determine whether a reporting entity reports predominantly health lines of business. Health lines include hospital or medical policies or certificates, comprehensive major medical expense insurance and managed care contracts and exclude other health coverage such as credit insurance, disability income coverage, automobile medical coverage, workers' compensation, accidental death and dismemberment policies and long-term care policies.

All reporting entities should file the test.

Premium and reserve information is obtained from the annual statement sources referenced on the form relating to the current and prior reporting periods. The premium and reserve ratios are calculated on the net basis reporting.

Item	Description	Reporting Year Annual Statement Data	Prior Year Annual Statement Data
2.1	Premium Numerator	Health Premium values listed in the Analysis of Operations by Lines of Business, Line 1 plus Line 2, Column 2 through Column 9 plus Line 1 plus Line 2, Column 13 in part (excluding dread disease coverage) of the reporting year’s annual statement.	Health Premium values listed in the Analysis of Operations by Line of Business, Line 1 plus Line 2, Column 2 through Column 9 plus Line 1 plus Line 2, Column 13 in part (excluding dread disease coverage)of the prior year’s annual statement.

5. Report the maximum after reinsurance loss for any single individual. Where specific stop-loss reinsurance protection is in place, the maximum per-individual risk after reinsurance is equal to the highest attachment point on such stop-loss reinsurance, subject to the following:

The maximum retained loss will be equal to the highest attachment point (retention) plus the difference between the coverage and \$750,000. If the stop-loss layer is subject to participation by the Reporting Entity, the maximum retained risk will be increased by the Reporting Entity’s participation in the stop-loss layer.

Examples of the calculation are presented below:

EXAMPLE 1 (Reporting Entity provides Comprehensive Care):

Highest Attachment Point (Retention)	\$	100,000	
Reinsurance Coverage		90% of \$500,000 in excess of \$100,000	
Maximum reinsured coverage	\$	600,000	(\$100,000 + \$500,000)
Maximum Retained Risk =	\$	100,000	deductible
	+	\$ 150,000	(\$750,000 - \$600,000)
	+	\$ 50,000	(10% of \$500,000 coverage layer)
	=	\$ 300,000	

EXAMPLE 2 (Reporting Entity provides Comprehensive Care):

Highest Attachment Point (Retention)	\$	75,000	
Reinsurance Coverage		90% of \$1,000,000 in excess of \$75,000	
Maximum reinsured coverage	\$	1,075,000	(\$75,000 + \$1,000,000)

Maximum Retained Risk =	\$	75,000	deductible
	+	0	(\$750,000 - \$1,075,000)
	+ \$	<u>67,500</u>	(10% of \$675,000) coverage layer)
	= \$	142,500	

8. A participating provider is defined as a provider that, under a contract with the health entity or with its contractor or subcontractor, has agreed to provide health care services to covered persons with an expectation of receiving payment other than co-payments or deductibles, directly or indirectly from the health entity with the understanding that the provider will look solely to the health entity, its contractor or subcontractor for payment other than copays or deductibles.
9. This interrogatory only applies to those lines of accident and health business that include a medical trend risk, i.e., Comprehensive Medical, Medicare Supplement, Dental, and Stop-Loss and Minimum Premium. Premiums entered should be earned premium for the current calendar year period and not for the entire period of the rate guarantees. Premium amounts should be shown net of reinsurance only when the reinsurance ceded premium is also subject to the same rate guarantee.
11. If the Plans’ statutory minimum capital and surplus requirement is based upon a contingency reserve for statutory minimum capital and surplus that is other than a flat dollar amount, the calculation must be shown. An example of the disclosure of a calculation based upon 2% of the net capitation revenue from risk contracts is:

Net earned subscription revenue	\$	33,103,906
		2%
Addition to Reserve		662,078
Reserve Balance Beginning of Year		353,689
Reserve Balance End of Year		1,025,767

Item 11.4 should equal Column 1, Line 3 of the Five-Year History Page.

- 14.2 If the response to 14.1 is “YES,” provide for the captive affiliate the company name, NAIC company code, domiciliary jurisdiction, reserve credit amount and the amounts supporting the reserve credit (letters of credit, trust agreements and other).

Reserve Credit: Report the amount by which the aggregate reserve for life contracts, deposit-type contracts and accident and health contracts has been reduced on account of reinsurance with authorized companies. The amounts by company should be the same as those shown for life reinsurance ceded in Schedule S, Part 3, Section 1, Columns 9 and 14 and for accident and health reinsurance ceded in Schedule S, Part 3, Section 2, Columns 9, 10 and 13.

15. Ordinary Life Insurance (U.S. business only) for the current year for Lines 15.1, 15.2 and 15.3 (prior to reinsurance assumed or ceded)

U.S. business includes U.S. States, Territories and Possessions (composed of the 50 states, the District of Columbia, American Samoa, Guam, Northern Mariana Islands, Puerto Rico, and the U.S. Virgin Islands). The method for determining which jurisdiction a policy is reported in should be the same method used for reporting on Schedule T.

Include:

Term (whether full underwriting, limited underwriting, jet issue, “short form app”)
Whole Life (whether full underwriting, limited underwriting, jet issue, “short form app”)
Variable Life (with or without Secondary Guarantee)
Universal Life (with or without Secondary Guarantee)
Variable Universal Life (with or without Secondary Guarantee)

Exclude:

Credit Life
Simplified Issue/Guaranteed Issue (if it can be separated)
Worksite
Individually Solicited Group Life
Direct Response
Final Expense
Pre-need
Home Service
COLI/BOLI/CHOLI

Refer to the *NAIC Valuation Manual* for additional guidance on what policies should be included.

16. “YES” answer indicates the reporting entity is a multistate company based on the information reported in Schedule T – Exhibit of Premiums Written.

If the sum of codes L, R, E and Q provided in Column 1 of Schedule T is greater than 1, the answer to Question 16 should be “YES.”

- 16.1 A “YES” answer indicates that while the reporting entity does not meet the criteria shown on Schedule T to be considered a multistate insurer, the reporting entity’s assumption of business that covers risks in at least two states will qualify the entity as multistate.

EXHIBIT OF PREMIUMS, ENROLLMENT AND UTILIZATION

A schedule must be prepared and submitted to the state of domicile for each jurisdiction in which the company has written direct business, or has direct amounts paid, incurred or unpaid for provisions of health care services. In addition, a schedule must be prepared and submitted that contains the grand total (GT) for the company. To other states in which the company is licensed it should submit a schedule for that state.

Written premium is defined as the contractually determined amount charged by the reporting entity to the policyholder for the effective period of the contract based on the expectation of risk, policy benefits, and expenses associated with the coverage provided by the terms of the insurance contract. For health contracts without fixed contract periods, premiums written will be equal to the amount collected during the reporting period plus uncollected premiums at the end of the period less uncollected premiums at the beginning of the period.

All premium adjustments (both increases and decreases), including but not limited to Affordable Care Act (ACA) premium adjustments related to the risk adjustment program, shall be allocated as premium in the respective jurisdiction.

- Encounter
- Contact between a reporting entity member and a provider of health care services who exercises independent judgment in the care and provision of health service(s) to the member. The term “independent” is used synonymously with self-reliant, to distinguish between providers who assume major responsibility for the care of individual members and all other personnel who assist in providing that care.
- Line 7 – Physician
Encounters provided by physicians only.
- Line 8 – Non-Physician
Encounters provided by other health professionals.

Line 10 – Total Hospital Patient Days Incurred

A “Patient Day” is a period of service rendered an inpatient with the day of discharge being counted only when the patient was admitted on the same day. Newborns whose inpatient stay is concurrent with the mother’s stay should not be counted separately from the mother’s patient days. Newborns whose inpatient stay is longer than the mother’s should be counted as separate days for the period beginning with the discharge of the mother.

Include in PPO business health insurance products that provide access to higher level of benefits whenever participating provider networks are used. This will include all blended products whereby an indemnity product is sold and issued in conjunction with an HMO product. Health business includes all business equivalent to that included in the health blank.
- Footnote (b) – Report Medicare Title XVIII premiums that are exempted from state taxes or other fees by Section 1854(g) of the Medicare Prescription Drug, Improvement, and Modernization Act of 2003. SCHEDULE S – REINSURANCE

These parts (except Part 1 that shows reinsurance assumed) provide an analysis by reinsurance carrier of reinsurance ceded data shown in total in various parts of the statement. Information is included on all reinsurance ceded to other entities authorized as well as unauthorized or certified in the state of domicile of the reporting entity. Additional data for unauthorized companies is displayed in Part 4; additional data for certified reinsurers is displayed in Part 5.

NOTE: Certified reinsurer status applies on a prospective basis and is determined by the state of domicile of the ceding insurer. Reciprocal jurisdiction reinsurer status applies on a prospective basis and is for reinsurance agreements entered into, amended, or renewed on or after the effective date of the domiciliary state of the ceding entity enacting the 2019 revisions to the Credit for Reinsurance Models, and only with respect to losses incurred and reserves reported on or after the later of (i) the date on which the assuming insurer has met all eligibility requirements, and (ii) the effective date of the new reinsurance agreement, amendment, or renewal. As such, it is possible that a ceding insurer will report reinsurance balances applicable to a single assuming insurer under multiple classifications within Schedule S. For example, with respect to a certified reinsurer that was considered unauthorized prior to certification, balances attributable to contracts entered into prior to the assuming insurer’s certification would be reported in the unauthorized classification, while balances attributable to contracts entered into or renewed on or after the assuming insurer’s certification would be reported in the certified classification. This will also be the case for reciprocal jurisdiction reinsurance, which may have been classified as certified reinsurance prior to the enactment of the 2019 revisions to the Credit for Reinsurance Models by the domiciliary state of the ceding entity. Proper classification of such balances is essential to ensure accurate reporting of collateral requirements applicable to specific balances and the corresponding calculation of the liability for unauthorized and/or certified reinsurance.

Effective date as used in this schedule is the date the contract originally went into effect.

Where name of company is specified, show the full corporate name of the company to which reinsurance is ceded.

The reinsurance type should be entered in all capital letters, and all reinsurance types must be followed by /G (for Group) or /I (for Individual).

ID Number

Most parts of Schedule S require that the “ID Number” be reported for assuming or ceding entities.

Reinsurance intermediaries should not be listed, because Schedule S is intended to identify only risk-bearing entities.

A ceding insurer can have unauthorized reinsurance, certified reinsurance and reciprocal jurisdiction reinsurance with the same reinsurer, based on when the contract became effective. It is important that the ceding insurer report all types correctly. The same reinsurer may be listed on the same Schedule S by the ceding insurer with an AIIN for unauthorized reinsurance, a CRIN for certified reinsurance, and a RJIN for reciprocal jurisdiction reinsurance.

Use of Federal Employer Identification Number

The Federal Employer Identification Number (FEIN) must be reported for each U.S.-domiciled insurer and U.S. branch of an alien insurer. The FEIN should not be reported as the “ID Number” for other alien insurers, even if the federal government has issued such a number.

Alien Insurer Identification Number (AIIN)

In order to report transactions involving alien companies correctly, the appropriate Alien Insurer Identification Number (AIIN) must be included on Schedule S instead of the FEIN. The AIIN number is assigned by the NAIC and is listed in the NAIC *Listing of Companies*. If an alien company does not appear in that publication, contact the NAIC Financial Systems and Services Department, Company Demographics Analyst at FDRCCREQ@NAIC.ORG for numbers assigned since the last publication or for information on having a number assigned.

Newly assigned numbers are incorporated in revised editions of the NAIC *Listing of Companies*, which are available semi-annually. The NAIC also provides this information to annual statement software vendors for incorporation into the software.

Pool and Association Numbers

In order to correctly report transactions involving non-risk bearing pools or associations consisting of non-affiliated companies, the company must include on Schedule S the appropriate Pool/Association Identification Number. These numbers are listed in the NAIC *Listing of Companies*. The Pool/Association Identification Number should be used instead of any FEIN that may have been assigned. If a pool or association does not appear in that publication, contact the NAIC Financial Systems and Services Department, Company Demographics Analyst at FDRCCREQ@NAIC.ORG for numbers assigned since the last publication or for information on having a number assigned.

Newly assigned numbers are incorporated in revised editions of the NAIC *Listing of Companies*, which are available semi-annually. The NAIC also provides this information to annual statement software vendors for incorporation into the software.

Certified Reinsurer Identification Number (CRIN)

In order to report transactions involving certified reinsurers correctly, the appropriate Certified Reinsurer Identification Number (CRIN) must be included on Schedule S instead of the FEIN, Alien Insurer Identification Number (AIIN) or Reciprocal Jurisdiction Reinsurer Identification Number (RJIN). The CRIN is assigned by the NAIC and is listed in the NAIC *Listing of Companies*. If a certified reinsurer does not appear in that publication, contact the NAIC Financial Systems and Services Department, Company Demographics Analyst at FDRCCREQ@NAIC.ORG for numbers assigned since the last publication or for information on having a number assigned.

Newly assigned numbers are incorporated in revised editions of the NAIC *Listing of Companies*, which are available semi-annually. The NAIC also provides this information to annual statement software vendors for incorporation into the software.

Reciprocal Jurisdiction Reinsurer Identification Number (RJIN)

In order to report transactions involving reciprocal jurisdiction reinsurers correctly, the appropriate Reciprocal Jurisdiction Reinsurer Identification Number (RJIN) must be included on Schedule S instead of the FEIN, AIN or CRIN. The RJIN number is assigned by the NAIC and is listed in the NAIC *Listing of Companies*. If a company does not appear in that publication, contact the NAIC Financial Systems and Services Department, Company Demographics Analyst at FDRCREQ@NAIC.ORG for numbers assigned since the last publication or for information on having a number assigned.

Newly assigned numbers are incorporated in revised editions of the NAIC *Listing of Companies*, which are available semi-annually. The NAIC also provides this information to annual statement software vendors for incorporation into the software.

NAIC Company Code

Company codes are assigned by the NAIC and are listed in the NAIC *Listing of Companies*. The NAIC does not assign a company code to insurers domiciled outside of the U.S. or to non-risk bearing pools or associations. The “NAIC Company Code” field should be zero-filled for those organizations. Non-risk bearing pools or associations are assigned a Pool/Association Identification Number. See the “Pool and Association Numbers” section above for details on assignment of Pool/Association Identification Numbers. Risk-bearing pools or associations are assigned a company code. If a reinsurer or reinsured has merged with another entity, report the company code of the surviving entity. If a risk-bearing entity (e.g., risk-bearing pools or associations) does not appear in the NAIC *Listing of Companies*, contact the NAIC Financial Systems and Services Department, Company Demographics Analyst at FDRCREQ@NAIC.ORG for numbers assigned since the last publication or for information on having a number assigned.

Newly assigned company codes are incorporated in revised editions of the NAIC *Listing of Companies*, which are available semi-annually. The NAIC provides this information to annual statement software vendors for incorporation into the software.

Domiciliary Jurisdiction

In those parts of Schedule S requiring disclosure of the “Domiciliary Jurisdiction,” for each domestic reinsurer or U.S. branch listed, the column should be completed with the state where the reinsurer maintains its statutory home office. For pools and associations, enter the state where the administrative office of such pool or association is located. For alien reinsurers, this column should be completed with the country where the alien is domiciled. Enter the two-character U.S. postal code abbreviation for the domiciliary jurisdiction for U.S. states, territories and possessions. A comprehensive listing of postal code three-character (ISO Alpha 3) abbreviations for foreign countries is available in the appendix of these instructions.

Lloyd’s of London

The following procedure will apply as respects annual statement filings for 1995 and subsequent years:

Cessions to Lloyd’s under reinsurance agreements having an inception date on or before July 31, 1995, and which are not amended or renewed thereafter should continue to be reported using the collective Lloyd’s number, AA-1122000, on an aggregated basis, under “Authorized – Other Non-U.S. Insurers.” As respects continuous reinsurance agreements, the anniversary date shall be deemed to be the renewal date of the agreement. Any revision of terms and conditions shall be deemed to be an amendment of the reinsurance agreement.

Cessions to Lloyd’s under reinsurance agreements having an inception, amendment or renewal date on or after August 1, 1995, must be reported using the specific number of each subscribing syndicate, as listed in the alien section of the NAIC *Listing of Companies*. Such syndicates should be listed individually, under “Authorized – Other Non-U.S. Insurers.”

Syndicates for which an identification number does not appear in the NAIC *Listing of Companies* must be treated as unauthorized as respects cessions under reinsurance agreements having an inception, amendment or renewal date on or after August 1, 1995, and should be reported, on an aggregated basis, under “Unauthorized – Other Non-U.S. Insurers,” using a new collective number, AA-1123000.

Reinsurance assumed from syndicates at Lloyd’s should continue to be reported on Schedule S, Part 1 using the original collective Lloyd’s number, AA-1122000.

Dates

All dates reported in Schedule S must be in the format MM/DD/YYYY. For example, the date December 13, 2011 should be reported as 12/13/2011.

Determination of Authorized Status

The determination of the authorized, reciprocal jurisdiction, unauthorized or certified status of an insurer or reinsurer listed in any part of Schedule S shall be based on the status of that insurer or reinsurer in the reporting entity’s state of domicile.

Captive Affiliate Line Category

For the purpose of reporting a reinsurer as captive affiliate on Schedule S, the captive affiliate line categories shall include affiliated non-traditional insurers/reinsurers.

Definition of Affiliated Non-Traditional Insurer/Reinsurer

This disclosure is intended to capture cessions to affiliated insurance/reinsurance entities that are subject to a financial solvency regulatory system separate from that generally applicable to traditional insurers and/or reinsurers in the ceding entity’s domestic jurisdiction. The definition of “Affiliate” is established in the NAIC Model Holding Company Act. An affiliated non-traditional insurer/reinsurer is an insurance or reinsurance company that reinsures risks only from its parent or affiliates; and is subject to a financial solvency regulatory system separate from that generally applicable to traditional insurers and/or reinsurers in the ceding entity’s domestic jurisdiction. For the purpose of annual statement reporting, this definition shall be presumed to include the following, subject to the cedant’s rebuttal to its domicile:

1. An affiliated insurance or reinsurance company licensed, authorized or otherwise granted the authority to operate in a single United States jurisdiction under any captive insurer law, special purpose insurer law, or other similar law separate from those applicable to traditional insurers and/or reinsurers.
2. An affiliated insurance or reinsurance company licensed, authorized or otherwise granted the authority to operate in any jurisdiction outside the United States under any captive insurer law, special purpose insurer law, or other similar law separate from those applicable to traditional insurers and/or reinsurers in that non-United States jurisdiction.
3. Any other affiliated insurance or reinsurance company that by law, regulation, or order, or contract is authorized to insure or reinsure only risks from its parent or affiliate.

SCHEDULE S – PART 5

REINSURANCE CEDED TO CERTIFIED REINSURERS

NOTE: This schedule is to be completed by those reporting entities whose domiciliary state has enacted the *Credit for Reinsurance Model Law (#785)* and/or *Credit for Reinsurance Model Regulation (#786)* with the defined certified reinsurer provisions.

Contains data on in force that is reinsured with companies that have been certified in the state of domicile of the reporting insurance company. The purpose of this schedule is to display reinsurance ceded data used in the development of the liability for reinsurance with certified reinsurers. This liability serves to offset those assets and liability reductions that reflect the result of reinsurance ceded with certified reinsurers that is not properly collateralized in accordance with the rating assigned to the certified reinsurer by the commissioner of the reporting company’s state of domicile.

A reporting entity should refer to information published by its domestic state with respect to the rating and collateral requirements applicable to a certified reinsurer. Ratings may vary from state to state; however, the rating assigned by the ceding insurer’s domestic state is authoritative.

NOTE: Rating upgrades apply on a prospective basis only, i.e., the lower collateral level associated with the upgrade applies only to reinsurance contracts entered into or renewed on or after the date of the upgrade. Rating downgrades apply to all reinsurance contracts entered into or renewed under certified status. As such, it is possible that a reporting entity might have multiple contracts with a single certified reinsurer under different rating/collateral requirements and should report the amounts attributable to the contracts separately based on the rating/collateral requirements applicable to such balances.

NOTE: Section 8B(8)(d) of Model #786 allows a ceding insurer a three-month grace period for obtaining additional collateral, in the event that a certified reinsurer’s rating is downgraded or its certification is revoked, before incurring a provision for reinsurance based on the additional collateral requirement. When the reporting date falls within such three-month grace period, with respect to such certified reinsurer, the ceding insurer may report collateral required and calculate the provision for reinsurance applicable to collateral deficiency based on the certified reinsurer’s rating prior to the downgrade or revocation, unless otherwise instructed by the state of domicile.

Securities held on deposit or held in a trust account should be valued at their fair market value. NAIC-published market values must be used when available.

Letters of credit and trust agreements are not to be included in assets or liabilities on Pages 2 or 3 or supporting pages and exhibits.

If a reporting entity has any detail lines reported for any of the following required groups, categories or subcategories, it shall report the subtotal amount of the corresponding group, category or subcategory, with the specified subtotal line number appearing in the same manner and location as the pre-printed total line and number:

The definition of “branch operations” is the definition used by the reporting entity’s state of domicile.

Definitions for the following section Lines 1 – 58 Allocation by state/jurisdiction

Resident

A member who occupies a dwelling within a state with indications that the state is their primary domicile by payment of taxes, voting registration, and other indicators.

Residence

The domicile location of a member as shown by his or her determination as a resident. In the context of Schedule T, the residence of the policyowner or group member would equate to the location that the member uses for official documents; information maintained by an employer as the home address of the employee would be accepted as a member’s residence for allocation purposes.

Situs of the Contract

The jurisdiction in which the contract is issued or delivered as stated in the contract.

Rule of 500

For individual and group health insurance shall be defined as a premium allocation method for group policies that 1) permits a reporting entity to allocate premiums and other considerations from a non-employer group policy covering fewer than 500 members to the jurisdiction in which the majority of covered members reside or to the situs of the contract; 2) permits a reporting entity to allocate premiums and other considerations from an employer group policy covering fewer than 500 members to the jurisdiction in which the majority of covered members reside or are employed or to the situs of the contract; 3) requires a reporting entity to allocate premiums and other considerations from a non-employer group policy covering 500 or more members to the jurisdiction where each member resides; and 4) requires a reporting entity to allocate premiums and other considerations from an employer group policy covering 500 or more members to the jurisdiction where each member resides or is employed.

For individual and group life insurance shall be defined as a premium allocation method for group policies that 1) permits a reporting entity to allocate premiums and other considerations from a group policy covering fewer than 500 members to the state or territory in which the majority of covered members reside or to the situs of the contract; 2) requires a reporting entity to allocate premiums and other considerations from a non-employer group policy covering 500 or more members to the state or territory where each member resides; and 3) requires a reporting entity to allocate premiums and other considerations from an employer group policy covering 500 or more members to the state or territory where each member resides or is employed.

Members

A person, employee, retiree, etc., that qualifies for and is covered under a group insurance policy. No consideration should be given to a member's dependents for counting the number of members in a group or in allocating premium and other considerations to the various state and territories.

Lines 1 – 58 Allocation by jurisdictions for individual and group health insurance

The instructions are minimum allocation standards. More detailed methods of allocation are acceptable, as long as they still encompass the minimum allocation instructions. Methods of allocation that better reflect the actual risk location by jurisdiction are encouraged. The method should be established by company policy and must be consistently applied to all policies within each type and for all reporting periods.

For individual policies, allocate and report premium and other considerations to the jurisdiction based on the residence of the policyowner, insured or payer or on the situs of the contract.

For group policies not provided by an employer, allocate and report premiums and other considerations to the jurisdiction based on the Rule of 500, or on the situs of the contract.

For group policies provided by an employer, allocate and report premiums and other considerations to the jurisdiction based on the Rule of 500, location of employer or on the situs of the contract.

If using the Rule of 500 for group insurance sold through an association or trust, the following instructions apply:

Apply the Rule of 500 to the association or trust policy first. If the association or trust policy has more than 500 covered members, apply the Rule of 500 at the level of each group or employer in determining the allocation of the premium. The determination of jurisdiction allocation by group or employer should be added to the determination of jurisdiction allocation of each group or employer under the association or trust policy to come up with the total allocation of premium. Do not report all association or trust business in one state unless all covered members of the association or trust reside in one state, in fact or by operation of the Rule of 500. If the group is a collection of employers, do not report all premiums in one jurisdiction unless all of the covered employees reside or work in one state, in fact or by operation of the Rule of 500.

Example of an association policy that covers a group of employers: If the association policy covers more than 500 members, each employer would be reviewed to determine if coverage is provided through the association policy for more than 500 members. If an employer has less than 500 covered members, the premium for that employer may be reported in one state based on the Rule of 500. If an employer covers more than 500 members through the association policy, the premiums would be reported based on the residence or employment location of each member. The determination for each employer would be added to the determinations for all the other employers that provide coverage to employees through the association policy.

Where applicable, reporting entities must have procedures to capture and maintain changes in allocation when notified through renewals or other procedures and must use the changes to adjust the allocation of premiums and other considerations in subsequent financial statements. It is not necessary to anticipate unreported changes in allocation at any specific reporting date.

If allocating premiums to multiple jurisdictions under group policies, the premiums and other considerations associated with a member should be the basis of determining the amount of premium to report in a jurisdiction. If information is not available to associate a specific premium to each member, an allocation can be made based on the number of covered persons in a jurisdiction compared to the total number of the group's covered members and apply that ratio to the total group premiums and other considerations.

Lines 1 – 58 Allocation by states and territories for individual and group life insurance

The instructions are minimum allocation standards. More detailed methods of allocation are acceptable, as long as they still encompass the minimum allocation instructions. Methods of allocation that better reflect the actual risk location by state are encouraged.

For individual policies, allocate and report premium and other considerations to a state or territory based on the residence of the policyowner, insured or payer. Use of policyowner, insured or payer residence should be established by company policy and must be consistently applied to all individual policies and reporting periods.

For group policies not provided by an employer, allocate and report premium and other considerations to a state or territory based on the residence of each group member. A group policy covering less than 500 members may allocate all group premiums to the state or territory where the greatest number of members reside or to the situs of the contract (Rule of 500).

For group policies provided by an employer, allocate and report premium and other considerations based on the residence or the employment location of each covered group member. For group insurance provided by an employer covering fewer than 500 members, the premium may be allocated to one state or territory based on the residence or employment location of the greatest number of covered members or to the situs of the contract (Rule of 500).

For group insurance sold through associations or trusts, allocate and report premium and other considerations on a basis similar to group policies. Apply the Rule of 500 to the association or trust policy first. An association or trust policy covering fewer than 500 members may allocate all premiums to the state or territory where the greatest number of members reside or work or to the situs of the contract. Regardless of the number of groups or employers under the association or trust policy, if the association or trust policy has more than 500 covered members, apply the Rule of 500 at the level of each group and employer in determining the allocation of the premium. The determination of state and territory allocation by group or employer should be added to the determination of state and territory allocation of each group or employer under the association or trust policy to come up with the total allocation of premium. Do not report all association or trust business in one state or territory unless all covered members of the association or trust reside in one state, in fact or by operation of the Rule of 500. If the group is a collection of employers, do not report all premiums in one state or territory unless all of the covered employees reside or work in one state, in fact or by operation of the Rule of 500.

Example of an association policy that covers a group of employers: If the association policy covers more than 500 members, each employer would be reviewed to determine if coverage is provided through the association policy for more than 500 members. If an employer has fewer than 500 covered members, the premium for that employer may be reported in one state or territory based on the residence or work location of the most employees or to the situs of the contract. If an employer covers more than 500 members through the association policy, the premium would be reported based on the residence or employment location of each member. The determination for each employer would be added to the determinations for all the other employers that provide coverage to employees through the association policy.

Reporting entities must have procedures to capture and maintain changes in a member’s residence and/or employment location and/or policyowner location when notified through renewals or other procedures and must use the changes to allocate premium and other considerations. It is not necessary to anticipate unreported changes in allocation at any specific reporting date.

For all group policies, the premium and other considerations associated with a member should be the basis of determining the amount of premium to report in a jurisdiction. If information is not available to associate a specific premium to each member, an allocation can be made based on the number of covered persons in a state or territory compared to the total number of the group’s covered members and apply that ratio to the total group premium and other considerations.

The allocation method established by the reporting entity in compliance with these instructions and the instructions of the domiciliary state should be consistently applied to all policies and reporting periods.

The data reported in Schedule T of the annual statement may or may not be used for the calculation of the amount of premium tax due to a state/jurisdiction. Individual states/jurisdictions may require a separate schedule to support premium tax calculations.

NOTE: Existing State laws and regulations need to be considered when applying these instructions.

Line 58 – Aggregate Other Alien

Enter the total of the write-ins listed in schedule “Details of Write-ins Aggregated at Line 58 for Other Alien.” All U.S. business shall be allocated by state regardless of license status.

Line 60 – Reporting Entity Contributions for Employee Benefit Plans

Report the reporting entity’s share of costs for employee benefit plans. Exclude any premiums paid by employees; these should be allocated to the states as above.

Line 61 – Total (Direct Business)

The sum of Column 2, 3, 4, 5, 6, 7 and 8, Line 61 should equal the Underwriting and Investment Exhibit, Part 1, Column 1, Line 16.

Details of Write-ins Aggregated at Line 58 for Other Alien

List separately each alien jurisdiction for which there is no pre-printed line on Schedule T.

Exclude all premium adjustments (both increases and decreases), including but not limited to Affordable Care Act (ACA) premium adjustments related to the risk adjustment program. These should be allocated as premium in the respective jurisdiction.

If the premium from an alien jurisdiction is due to relocation of current policyholders, the amount may be aggregated and reported as “Other Alien.” Premiums from jurisdictions in which there is active writing must be reported by jurisdiction and include premium from relocated policyholders residing in the respective jurisdiction.

Identify each alien jurisdiction by using a **three-character (ISO Alpha 3) country code followed by the name of the country (e.g., DEU Germany)**. For premium that can be aggregated and reported as “Other Alien” as stated in the previous paragraph, use “ZZZ” for the country code and “Other Alien” for the country name. A comprehensive listing of country codes is available in the appendix of these instructions.

Include summary of remaining write-ins for Line 58 from the Overflow page on the separate line indicated.

Explanation of basis of allocation by states, premiums by states, etc.

Provide a detailed explanation of the by-state and by-territory allocation of premium and other considerations used by the reporting entity. The explanation should be detailed enough to determine compliance with state laws and regulations.

Footnote (a):

Provide the total of each active status code in Column 1. The sum of all the counts of all active status codes should equal 57.

SCHEDULE T – PART 2

**INTERSTATE COMPACT –EXHIBIT OF PREMIUMS WRITTEN
ALLOCATED BY STATES AND TERRITORIES**

This exhibit is to be completed by all reporting entities. The purpose of the Interstate Compact is to promote and protect the interest of consumers of individual and group annuity, life insurance, disability income and long-term care insurance products through establishing a central clearinghouse to receive and provide prompt review of insurance products covered under the Compact pursuant to adopted uniform product standards. The Interstate Compact uses premium volume information statutorily reported to the NAIC for several purposes including the composition of the Compact Commission Management Committee. Data to be reported on this schedule should include all premiums for that line of business, not just for those policies that apply to the Compact.

Report direct business only.

Report premiums based on the instructions for allocating premiums between lines of business and jurisdictions for Schedule T.

All premium adjustments (both increases and decreases), including but not limited to Affordable Care Act (ACA) premium adjustments related to the risk adjustment program, shall be allocated as premium in the respective jurisdiction.

Column 1 – Life Insurance

Life insurance is insurance primarily for the purpose of coverage on human lives, including incidental benefits. The primary purpose of life insurance is to provide financial assistance to a beneficiary at the insured's death.

Column 2 – Annuities

An annuity is a contract the primary purpose of which is to obligate a reporting entity to make periodic payments, including incidental benefits. An annuity contract is an arrangement whereby an annuitant is guaranteed to receive a series of stipulated amounts commencing either immediately or at some future date.

Report only annuities with mortality and/or morbidity risk.

Column 3 – Disability Income

Disability income insurance is insurance primarily for the purpose of coverage that provides payments when an insured is disabled or unable to work because of illness, disease or injury, including incidental benefits. Policies may provide monthly benefits for loss of income from disability, either on a short-term or a long-term basis.

Column 4 – Long-Term Care

Long-term care insurance is insurance primarily for the purpose of providing coverage when the insured is unable to perform specified activities of daily living or related functions, or have a cognitive impairment, including incidental benefits. Long-term care contracts represent any contract or policy rider providing coverage for not less than 12 consecutive months for each covered person for one or more necessary diagnostic, preventive, therapeutic, rehabilitative, maintenance or personal care services, provided in a setting other than an acute care unit of a hospital. Under long-term care contracts, the insured event is generally the inability of the contract holder to perform certain activities of daily living.

Column 5 – Deposit-Type Contracts

A deposit-type contract is one that does not subject the reporting entity to any risks arising from policyholder mortality or morbidity. A mortality or morbidity risk is present if, under the terms of the contract, the reporting entity is required to make payments or forego required premiums contingent upon the death or disability (in the case of life and disability insurance contracts) or the continued survival (in the case of annuity contracts) of a specific individual or group of individuals. As such, deposit-type contracts are more comparable to financial or investment instruments, rather than insurance contracts.

Refer to *SSAP No. 50—Classifications of Insurance or Managed Care Contracts* and *SSAP No. 52—Deposit-Type Contracts* for accounting guidance.

Line 58 – Aggregate Other Alien

Enter the total of all alien business in the appropriate columns. Details by countries are not required.

Control shall be presumed to exist if any person, directly or indirectly, owns, controls, holds with the power to vote, or holds proxies representing, ten percent (10%) or more of the voting securities of any other person. This presumption may be rebutted by a showing made in the manner provided by Section 4K that control does not exist in fact. The commissioner may determine, after furnishing all persons in interest notice and opportunity to be heard and making specific findings of fact to support the determination that control exists in fact, notwithstanding the absence of a presumption to that effect.

SCHEDULE Y

PART 2 – SUMMARY OF INSURER’S TRANSACTIONS WITH ANY AFFILIATES

This schedule was designed to provide an overview of transactions among insurance holding company system members. It is intended to demonstrate the scope and direction of major fund and/or surplus flows throughout the system. This schedule should be prepared on an accrual basis.

All insurer and reporting entity members of the holding company system shall prepare a common schedule for inclusion in each of the individual annual statements.

NOTE: If the reporting entity completes this schedule, it should have answered “YES” to General Interrogatories, Part 1, Question 1.1.

Include transactions between insurers, and between insurers and non-insurers within the holding company system. Exclude transactions between non-insurers that do not involve an affiliated insurer. Include all shareholder dividends, capital contributions and reinsurance recoverable (payable), Columns 4, 5 and 13, respectively, and transactions involving one-half of one percent or more of the largest insurer’s admitted assets as of December 31. Exclude transactions of a non-insurer with an affiliated insurance company that are of a routine nature (e.g., the purchase of insurance coverage).

Transactions among holding company system members should only be reported for the portion of the year in which each company to the transaction was a member of the holding company system. For example, if a member of a holding company system is sold to a party who is not a member of the system on June 30, transactions that occur prior to June 30 between that company and members of the holding company system should be included on Schedule Y, Part 2, Summary of Insurer’s Transactions With Any Affiliates. Those transactions that occur on or after June 30 should be reported on Schedule Y, Part 2 of the holding company system that acquired the insurer.

Report the aggregate amount of transactions for the reporting period within each category for both the payor and recipient of each transaction. If the insurer is both a payor and a recipient of amounts in any category, the net of these amounts should be reported on one line. Amounts of transactions that result in an increase in surplus should be shown as positive figures; and transactions that result in a decrease in surplus should be reported enclosed in parentheses as negative figures. The total of each column is expected to be zero.

Refer to *SSAP No. 25—Affiliates and Other Related Parties* for accounting guidance.

If the nature of the transactions reported in Schedule Y, Part 2 requires explanation, report such in an explanatory note immediately following Schedule Y, Part 2.

Column 2 – ID Number

INVESTMENT SCHEDULES GENERAL INSTRUCTIONS
(Applies to all investment schedules)

The following definitions apply to the investment schedules.

SAP Book Value (Defined in Glossary of *Accounting Practices and Procedures Manual*):

Original Cost, including capitalized acquisition costs and accumulated depreciation, unamortized premium and discount, deferred origination and commitment fees, direct write-downs, and increase/(decrease) by adjustment.

SAP Carrying Value (Defined in Glossary of *Accounting Practices and Procedures Manual*):

The SAP Book Value plus accrued interest and reduced by any valuation allowance (IF APPLICABLE) and any nonadmitted adjustment applied to the individual investment. Carrying Value is used in the determination of impairment.

Adjusted Carrying Value:

Carrying Value amount adjusted to remove any accrued interest and to add back any of the following amounts: individual nonadmitted amounts, individual valuation allowances (IF APPLICABLE), and aggregate valuation allowance (IF APPLICABLE). In effect, this is equivalent to the definition of SAP Book Value (not to be confused with the old “Book Value” reported in the annual statement blanks for data years 2000 and prior).

Recorded Investment:

The SAP Book Value (Adjusted Carrying Value) plus accrued interest.

The information included in the investment schedules shall be broken down to the level of detail as required when all columns and rows are considered together unless otherwise addressed in specific instructions. For example, on Schedule D Part 4, a reporting entity is required to list the CUSIP book/adjusted carrying value, among other things. The reporting entity would only be required to break this information down to a lower level of detail if the information was inaccurate if reported in the aggregate. Thus, the reporting entity would not be required to break the information down by lot (information for each individual purchase) and could utilize the information for book/adjusted carrying value using an average cost basis, or some other method, provided the underlying data reported in that cell was calculated in accordance with the *Accounting Practices and Procedures Manual*. However, reporting entities are not precluded from reporting the information at a more detailed level (by lot) if not opposed by their domiciliary commissioner.

“To Be Announced” securities (commonly referred to as TBAs) are to be reported in Schedule D unless the structure of the security more closely resembles a derivative, as defined within *SSAP No. 86—Derivatives*, in which case the security should be reported on Schedule DB. The exact placement of TBAs in the investment schedules depends upon how a company uses TBA.

For Rabbi Trusts, refer to *SSAP No. 104R—Share-Based Payments* for accounting guidance.

For the Foreign Code columns in Schedules D and DA, the following codes should be used:

- “A” For Canadian securities issued in Canada and denominated in U.S. dollars.
- “B” For those securities that meet the definition of foreign provided in the Supplement Investment Risk Interrogatories and pay in a currency OTHER THAN U.S. dollars.
- “C” For foreign securities issued in the U.S. and denominated in U.S. dollars.
- “D” For those securities that meet the definition of a foreign as provided in the Supplement Investment Risk Interrogatories and denominated in U.S. dollars (e.g., Yankee Bonds or Eurodollar bonds).

Leave blank for those securities that do not meet the criteria for the use of “A”, “B”, “C” or “D.”

Derivatives (Schedule DB); repurchase and reverse repurchase agreements (Schedule DA); and securities borrowing and securities lending transactions (Schedule DL) shall be shown gross when reported in the investment schedules. If these transactions are permitted to be reported net in accordance with *SSAP No. 64—Offsetting and Netting of Assets and Liabilities*, the investment schedule shall continue to provide detail of all transactions (gross), with the net amount from the valid right to offset reflected in the financial statements (pages 2 and 3 of the statutory financial statements). Disclosures for items reported net when a valid right to offset exists including the gross amount, the amount offset and the net amount reported in the financial statements are required per *SSAP No. 64—Offsetting and Netting of Assets and Liabilities*.

For the columns that disclose information regarding investments that are not under the exclusive control of the reporting entity, and also including assets loaned to others, the following codes should be used:

- LS – Loaned or leased to others
- RA – Subject to repurchase agreement
- RR – Subject to reverse repurchase agreement
- DR – Subject to dollar repurchase agreement
- DRR – Subject to dollar reverse repurchase agreement
- C – Pledged as collateral – excluding collateral pledged to FHLB
- CF – Pledged as collateral to FHLB (including assets backing funding agreements)
- DB – Pledged under an option agreement
- DBP – Pledged under an option agreement involving “asset transfers with put options”
- R – Letter stock or otherwise restricted as to sale – excluding FHLB capital stock
(Note: Private placements are not to be included unless specific restrictions as to sale are included as part of the security agreement.)
- RF – FHLB capital stock
- SD – Pledged on deposit with state or other regulatory body
- M – Not under the exclusive control of the reporting entity for multiple reasons
- SS – Short sale of a security
- O – Other

SUMMARY INVESTMENT SCHEDULE

This schedule was developed to assist regulators in identifying and analyzing the risks inherent in a portfolio of securities as well as identifying the differences in valuation and admission between those practices prescribed or permitted by the state of domicile and those set forth in the NAIC *Accounting Practices and Procedures Manual*. This schedule includes only those assets from the general account. The line captions were developed with the intention of grouping securities with common risk characteristics together. These groupings were determined based upon a review of schedules within the NAIC Annual Statement and the Federal Financial Institutions Examination Council Consolidated Reports of Condition and Income for A Bank With Domestic and Foreign Offices (FFIEC 031, also known as the “Call Report”).

Column 1 – Gross Investment Holdings – Amount

This column represents the value reported on the Investment Schedules. The amounts reported in this column should tie to Column 1 of the Asset Page.

Column 2 – Gross Investment Holdings – Percentage

Amount represents the percentage of the individual Column 1 line item to the Total Invested Assets amount presented in Column 1, Line 13.

Column 3 – Admitted Assets as Reported in the Annual Statement – Amount

This column represents the admitted value of an asset determined by applying the valuation procedures and admission criteria prescribed or permitted by the state of domicile (i.e., the basis of admitted assets reported in the Annual Statement). A variation between the amounts in Column 1 and Column 3 would indicate that a reporting entity valued or admitted an asset differently under its state law than it would have under the NAIC *Accounting Practices and Procedures Manual*. An example includes a case where an entity was required to nonadmit an asset under its state investment law but was not required to nonadmit under the NAIC *Accounting Practices and Procedures Manual* because there are no investment limits within the Manual. Another example includes a case where an entity was not able to admit an asset under the NAIC *Accounting Practices and Procedures Manual* (i.e., it did not meet the requirements of *SSAP No. 4—Assets and Nonadmitted Assets*) but was able to admit the asset under the basket clause within the state investment law. This column should tie to Column 3 of the Asset page.

Column 4 – Admitted Assets as Reported in the Annual Statement – Securities Lending Reinvested Collateral Amount

This column represents Schedule DL, Part 1 (Page 2, Line 10) reflected in their respective investment categories.

Line 13, Total Invested Assets should equal Column 3, Line 11, Securities Lending.

Column 5 – Admitted Assets as Reported in the Annual Statement – Total Amount

For Lines 1 through 10, Column 5 should equal Column 3 plus Column 4.

For Line 13, Column 5 should equal Column 3, Line 13 plus Column 4, Line 13 minus Column 3, Line 11.

Column 6 – Admitted Assets as Reported in the Annual Statement – Percentage

Amount represents the percentage of the individual Column 5 line item to the Total Invested Assets amount presented in Column 5, Line 13.

Column 18 – Fair Value Hierarchy Level and Method Used to Obtain Fair Value Code

Whenever possible, fair value should represent the price, at which the real estate could be sold, based on market information. Fair value should only be determined analytically when the market-based value cannot be obtained.

The following is a listing of valid fair value level indicators to show the fair value hierarchy level.

“1” for Level 1

“2” for Level 2

“3” for Level 3

The following is a listing of the valid method indicators for real estate to show the method used by the reporting entity to determine the Rate Used to Obtain Fair Value.

“a” for securities where the rate is determined by a pricing service.

“b” for securities where the rate is determined by a stock exchange.

“c” for securities where the rate is determined by a broker or custodian. The reporting entity should obtain and maintain the pricing policy for any broker or custodian used as a pricing source. In addition, the broker must either be approved by the reporting entity as a counterparty for buying and selling securities or be an underwriter of the security being valued. (Reporting entities shall utilize source “c” to capture any other method used by the reporting entity to obtain observable inputs resulting in a hierarchy Level 1 or Level 2. Documentation of this source shall then be included in Column 19.)

“d” for securities where the rate is determined by the reporting entity. The reporting entity is required to maintain a record of the pricing methodology used.

“e” for securities where the rate is determined by the unit price provided in the NAIC *Valuation of Securities*.

Enter a combination of hierarchy and method indicator. The fair value hierarchy level indicator would be listed first and the method used to determine fair value indicator would be listed next. For example, use “1b” to report Level 1 for the fair value hierarchy level and stock exchange for the method used to determine fair value.

Column 19 – Source Used to Obtain Fair Value

For Method Code “a,” identify the specific pricing service used.

For Method Code “b,” identify the specific stock exchange used.

For Method Code “d,” leave blank.

For Method Code “e,” leave blank.

Mortgages in good standing:

This section applies to loans on which all the original basic terms of the loan are being met by the borrowers. It also includes loans on which all the basic terms of refinancing agreements at current market terms are being met by the borrowers. Insured or guaranteed loans are considered to be only those loans insured or guaranteed by the Federal Housing Administration, the National Housing Act of Canada or by the Veterans Administration. For loans subject to a participation agreement, include only the reporting entity’s share of book value/recorded investment excluding accrued interest.

Mortgages with restructured terms:

Restructured loans include commercial mortgage loans on which the basic terms such as interest rate, maturity date, collateral or guaranty have been restructured in 1986 or later as a result of actual or anticipated delinquency. Include those loans whose basic terms are being met in accordance with the restructuring agreement. A maturing balloon mortgage that has been refinanced or extended at below current market terms should be classified as a restructured loan. (A maturing balloon mortgage that has been refinanced or extended at current market terms should be considered a performing loan.) Current market terms are loan terms where the borrower pays a current market interest rate consistent with the collateral, maturity date, and other terms of the mortgage.

A mortgage loan will no longer be considered in this category when one or more of the following events occur:

The loan is paid in full or otherwise retired.

The loan becomes delinquent under the terms of the restructure agreement.

The loan is in the process of foreclosure.

The borrower has resumed the original contractual terms on the current loan balance including payments, interest rate and loan duration. The borrower must have also made cash payments of any interest or principal foregone during the restructure.

If none of the above are met, a loan will no longer be considered as restructured when all of the following conditions exist:

The loan-to-value ratio based upon the current appraisal cannot be greater than 80%. Additionally, the loan-to-value ratio cannot be greater than the state of domicile's limits for first mortgages. An independent appraiser must perform the current appraisal. The appraisal requirement does not apply to individual loans the lesser of \$1 million or 5% of capital and surplus. The aggregate of such exempted loans must not exceed 15% of total long-term mortgage holdings.

AND

The coupon rate after restructuring is a current market rate. Such coupon rates should be consistent with the coupon rate on new commercial mortgages of comparable terms made by the reporting entity in the quarter in which the restructure date occurred, or:

On the restructure date, not be less than the quarterly average of new commercial mortgage loan rates of loans of comparable terms from the Survey of Mortgage Commitments of Commercial Properties by the American Council of Life Insurers (ACLI), by more than ½ of a percentage point difference.

AND

The restructured mortgage loan performs according to the new terms for at least two years.

Mortgages with overdue interest over 90 days not in the process of foreclosure:

Show individually mortgages upon which interest is overdue more than 90 days or upon which taxes or other liens are delinquent more than one year.

Mortgages in process of foreclosure:

This section applies to loans in the process of being foreclosed or voluntarily conveyed by the borrower to the lender. It also includes loans in which transfer of title is awaiting expiration of redemption or moratorium period.

**** Columns 21 through 27 will be electronic only. ****

Column 21 – Fair Value Hierarchy Level and Method Used to Obtain Fair Value Code

Whenever possible, fair value should represent the price at which the security could be sold, based on market information. Fair value should only be determined analytically when the market-based value cannot be obtained.

The following is a listing of valid fair value level indicators to show the fair value hierarchy level.

“1” for Level 1

“2” for Level 2

“3” for Level 3

The following is a listing of the valid method indicators to show the method used by the reporting entity to determine the Rate Used to Obtain Fair Value.

“a” for securities where the rate is determined by a pricing service.

“b” for securities where the rate is determined by a stock exchange.

“c” for securities where the rate is determined by a broker or custodian. The reporting entity should obtain and maintain the pricing policy for any broker or custodian used as a pricing source. In addition, the broker must either be approved by the reporting entity as a counterparty for buying and selling securities or be an underwriter of the security being valued. (Reporting entities shall utilize source “c” to capture any other method used by the reporting entity to obtain observable inputs resulting in a hierarchy Level 1 or Level 2. Documentation of this source shall then be included in Column 22.)

“d” for securities where the rate is determined by the reporting entity. The reporting entity is required to maintain a record of the pricing methodology used.

“e” for securities where the rate is determined by the unit price published in the NAIC *Valuation of Securities*.

Enter a combination of hierarchy and method indicator. The fair value hierarchy level indicator would be listed first and the method used to determine fair value indicator would be listed next. For example, use “1b” to report Level 1 for the fair value hierarchy level and stock exchange for the method used to determine fair value.

The guidance in *SSAP No. 100R—Fair Value* allows the use of net asset value per share (NAV) instead of fair value for certain investments. If NAV is used instead of fair value leave blank.

Column 22 – Source Used to Obtain Fair Value

For Method Code “a,” identify the specific pricing service used.

For Method Code “b,” identify the specific stock exchange used.

The listing of most **stock exchange codes can be found in the Investment Schedules General Instructions.**

For Method Code “c,” identify the specific broker or custodian used.

For Method Code “d,” leave blank.

For Method Code “e,” leave blank.

If net asset value (NAV) is used instead of fair value, the reporting entity should use “NAV” to indicate net asset value used instead of fair value.

Provide the 20-character Legal Entity Identifier (LEI) for any issuer as assigned by a designated Local Operating Unit. If no LEI number has been assigned, leave blank.

List all bonds and certificates of deposit owned December 31, of current year, except bonds and certificates of deposit in banks or other similar financial institutions with maturity dates or repurchase dates under repurchase agreements of one year or less from the acquisition date. Exclude cash equivalents as described in *SSAP No. 2R—Cash, Cash Equivalents, Drafts, and Short-Term Investments* with original maturities of three months or less.

The security identifier reported (Column 1 for CUSIP, CINS, PPN or Column 33 for ISIN) must be the same as the identifier used when filing securities with the NAIC pursuant to the *Purposes and Procedures Manual of the NAIC Investment Analysis Office* instructions.

Column 1 – CUSIP Identification

CUSIP numbers for all purchased publicly issued securities are available from the broker’s confirmation or the certificate. For private placement securities, the NAIC has created a special number called a PPN to be assigned by the Standard & Poor’s CUSIP Bureau. For foreign securities, use a CINS that is assigned by the Standard & Poor’s CUSIP Bureau: www.cusip.com/cusip/index.htm.

If no valid CUSIP, CINS or PPN number exists, then the CUSIP field should be zero-filled and a valid ISIN security number should be reported in Column 33.

Column 2 – Description

Give a description of all bonds owned. As appropriate, the reporting entity is encouraged to include data consistent with that reported in Column 31, Issuer and Column 32, Issue. This does not preclude the company from including additional detail to provide a complete and accurate description. Abbreviations may be used as needed.

For Exchange Traded Funds – as Identified by the SVO, enter the complete name of the fund. As appropriate, the reporting entity is encouraged to include data consistent with that reported.

For Certificate of Deposit Account Registry Service (CDARs) or other similar services that have a maturity of greater than one year, individually list the various banking institutions that are financially responsible for honoring certificates of deposit. As appropriate, the name of the name of the banking institutions should follow from the registry of the Federal Financial Institutions Examination Council (FFIEC) (www.ffiec.gov/nicpubweb/nicweb/SearchForm.aspx).

For CDOs (Collateralized Debt Obligations) or CLOs (Collateralized Loan Obligations), indicate what the CDO/CLO collateral is, such as high-yield bonds, corporate loans, etc. If the collateral is of mixed type, indicate “Mix,” in addition to the largest type of collateral in the mix. If the collateral is derived synthetically, indicate “synthetic.”

Column 3 – Code

Enter “*” in this column for all SVO Identified Funds designated for systematic value.

Enter “@” in this column for all Principal STRIP Bonds or other zero-coupon bonds.

Enter “&” in this column for TBA (To Be Announced) securities.

Enter “^” in this column for all assets that are bifurcated between the insulated separate account filing and the non-insulated separate account filing.

If bonds are not under the exclusive control of the company as shown in the General Interrogatories, they are to be identified by placing one of the codes **identified in the Investment Schedules General Instructions** in this column.

If the security is an SVO Identified Fund designated for systematic value, Principal STRIP bond or other zero coupon bond, Certificates of Deposit under the FDIC limit or a TBA (To Be Announced) security and is not under the exclusive control of the company, the “*”, “@” or “&” should appear first, immediately followed by the appropriate code (**identified in the Investment Schedules General Instructions**).

Separate Account Filing Only:

If the asset is a bifurcated asset between the insulated separate account filing and the non-insulated separate account filing, the “^” should appear first and may be used simultaneously with the “*”, “@” or “&” with the “^” preceding the other characters (“*”, “@” or “&”) depending on the asset being reported, immediately followed by the appropriate code (**identified in the Investment Schedules General Instructions**).

Column 4 – Foreign

Insert the appropriate code in the column based on the list provided in the Investment Schedules General Instructions.

Column 5 – Bond Characteristics

If bonds have one or more of the following characteristics, then list the appropriate number(s) separated by commas. If none of the characteristics apply, then leave the column blank.

1. Bonds that are callable at the discretion of the issuer, provided that in no instance will the call price be below par, based on a specified formula for the payoff amount (generally discounting future cash flows at then current interest rates which is generally referred to as a “make whole call provision”).
2. Bonds that are callable at the discretion of the issuer, provided that in no instance will the call price be below par with a specified payoff amount based on a fixed schedule.
3. Bonds that are callable at the discretion of the issuer at a price that can be less than par.
4. Terms in which the timing of payments of principal, as well as the amounts and timing of payments of interest, can vary based on a pool of underlying assets or an index. This characteristic code is restricted to items captured in scope of *SSAP No. 43R—Loan-Backed and Structured Securities* and should include agency and non-agency residential mortgage-backed securities (RMBS), some commercial mortgage-backed securities (CMBS), and similar loan-backed or structured securities. This excludes those flagged with #1, #2 or #3.

5. Variable coupon bonds where the interest payments vary during the life of the transaction, but NOT as is typical based on a fixed spread over a well-established interest rate index (such as LIBOR, prime rate or a government bond yield). (This includes coupons that vary based on the performance of indices that are not interest rate related, such as equity indices, commodity prices or foreign exchange rates. This also includes coupons where the spread to the index is not fixed for the entire life of the transaction. This excludes basic floating rate and adjustable-rate notes with fixed spread over an interest rate index. This characteristic code is strictly limited to variable interest payments.)
6. Terms that may result in principal (or initial investment) not being repaid in full for reasons other than a payment default by the issuer or defaults within a pool of assets underlying a loan-backed or structured security. (This intends to capture to Mortgage Reference Securities reported in scope of *SSAP No. 43R—Loan-Backed and Structured Securities*. Other structured notes (securities structured as debt instruments when the contractual amount of the instrument to be paid at maturity is at risk for other than the failure of the borrower to pay the contractual amount due) and whether derivatives shall not be reported on Schedule D, Part 1. These structures are captured in scope of *SSAP No. 86—Derivatives* and shall be reported on Schedule DB.)
7. Bonds where the issuer’s obligation to make payments is determined by the performance of a different credit other than that of the issuer, which could be either affiliated or unaffiliated. (These securities are often referred to as credit-linked notes. This does not include loan-backed or structured securities.)
8. Mandatory convertible bonds. Bonds that are mandatorily convertible into equity, or, at the option of issuer, convertible into equity, or whose terms provide for payment in the form of equity instead of cash.
9. Other types of options solely at the discretion of the issuer that could affect the timing or amount of payments of principal or interest, not otherwise reported in 1-8.

Column 6 – NAIC Designation, NAIC Designation Modifier and SVO Administrative Symbol

Provide the appropriate NAIC Designation (1 through 6), NAIC Designation Modifier (A through G) and SVO Administrative Symbol combination for each security. The list of valid SVO Administrative Symbols is shown below.

The listing of valid NAIC Designation, NAIC Designation Modifier and SVO Administrative Symbol combinations can be found on the NAIC’s website for the Securities Valuation Office (www.naic.org/svo.htm).

The NAIC Designation, NAIC Designation Modifier and SVO Administrative Symbol will be shown as one column on the printed schedule but will be three sub-columns in the data table.

On the printed page the sub-columns should be displayed with a “.” between the NAIC Designation and the NAIC Designation Modifier with a space between the NAIC Designation Modifier and the SVO Administrative Symbol (e.g., “1.A YE”).

NAIC Designation Modifier:

The NAIC Designation Modifier should only be used for bonds eligible to receive one, as defined in the *Purposes and Procedures Manual of the NAIC Investment Analysis Office* (P&P Manual), otherwise, the field should be left blank.

As defined in the P&P Manual, there is not an NAIC Designation Modifier for investments reporting an NAIC Designation 6, therefore, the NAIC Designation Modifier field should be left blank.

Refer to the P&P Manual for the application of these modifiers.

Column 7 – Actual Cost

This column should contain the actual consideration paid to purchase the security. The Actual Cost column amount should be adjusted for: pay downs and partial sales (both reported in Schedule D, Part 4) and subsequent acquisitions of the same issue (reported in Schedule D, Part 3). Actual cost will need to be adjusted due to “other-than-temporary impairments” recognized, for use when determining realized gain (loss) at disposition.

Include: Brokerage and other related fees, to the extent they do not exceed the fair value at the date of acquisition.

Cost of acquiring the bond or stock including broker’s commission and incidental expenses of effecting delivery, transaction fees on re-pooling of securities, and reductions for origination fees intended to compensate the reporting entity for interest rate risks (i.e., points).

Exclude: Accrued interest.

All other costs, including internal costs or costs paid to an affiliated reporting entity related to origination, purchase or commitment to purchase bonds, are charged to expense when incurred.

For SVO Identified Funds (Exchange Traded Funds), enter the original cost of the shares purchased, including brokerage and other related fees.

For a bond received as a property dividend or capital contribution, enter the initial recognized value. See *SSAP No. 26R—Bonds* for guidance.

Column 8 – Rate Used to Obtain Fair Value

Report rate used for determining fair value.

For SVO Identified Funds (Exchange Traded Funds), enter the per share fair value or net asset value as of the reporting date.

For U.S. Treasury Inflation-Indexed Securities enter the VOS rate (provided in the *Valuation of Securities*) multiplied by the inflation ratio.

Column 9 – Fair Value

The fair value should be the price which, when multiplied by the notional amount (Column 10, Par Value) results in the dollar amount that would be received (excluding accrued interest) if the security was sold at fair value.

The fair value included in this column (calculated from the Rate Used to Obtain Fair Value column) should be the amount used in any comparison of fair value to another valuation method (e.g., book value or amortized cost) that is prescribed by the accounting/valuation rules.

For loan-backed securities, the prospective or retrospective methods are used in determining amortized value.

Exclude: Accrued interest.

For SVO Identified Funds (Exchange Traded Funds), enter the amount representing the number of shares owned at year-end times the rate specified in Column 8.

For U.S. Treasury Inflation-Indexed Securities, Fair Value should utilize the VOS rate multiplied by the inflation ratio.

Column 10 – Par Value

Enter the par value of the bonds owned adjusted for repayment of principal. For mortgage-backed/loan-backed and structured securities, enter the par amount of principal to which the reporting entity has a claim. For interest only bonds without a principal amount on which the reporting entity has a claim, use a zero value. Enter the statement date par value for bonds with adjustable principal. An interest only bond with a small par amount of principal would use that amount.

For SVO Identified Funds (Bond Mutual Funds and Exchange Traded Funds), enter Zero (0).

Column 11 – Book/Adjusted Carrying Value

Securities excluding SVO Identified fund and mandatory convertible bonds:

This should be the amortized value or the lower of amortized value or fair value, depending upon the designation of the bond (and adjusted for any other-than-temporary impairment), as of the end of the current reporting year.

Include: The original cost of acquiring the bond, including brokerage and other related fees.

Amortization of premium or accrual of discount, but not including any accrued interest paid thereon.

Amortization of deferred origination and commitment fees.

Deduct: A direct write-down for a decline in the fair value of a bond that is other-than-temporary.

Exclude: All other costs, including internal costs or costs paid to an affiliated reporting entity related to origination, purchase or commitment to purchase bonds, are charged to expense when incurred. Cost should also be reduced by payments attributed to the recovery of cost.

Accrued interest.

Refer to *SSAP No. 26R—Bonds*.

For reporting entities maintaining an AVR:

NAIC Designation 1 – 5* Enter amortized cost

NAIC Designation 6 Enter the lower of fair value or amortized cost

For reporting entities not maintaining an AVR:

NAIC Designations 1 – 2* Enter amortized cost

NAIC Designations 3 – 6 Enter the lower of fair value or amortized cost

*NOTE: An exception exists for Treasury Inflation Adjusted Securities under INT 01-25, where the book/adjusted carrying value may include an unrealized gain. See INT 01-25, Accounting for U.S. Treasury Inflation-Indexed Securities, for accounting guidance.

Mandatory Convertible Bonds:

The amount should be the lower of amortized cost or fair value during the period prior to conversion.

SVO Identified Funds:

The amount should be fair value unless the reporting entity has designated a qualifying security for systematic value. The election of using systematic value is irrevocable.

NOTE: Use of systematic value is effective Dec. 31, 2017. This effective date requires entities to either report SVO-Identified investments at fair value on the effective date, or to identify the SVO-Identified investments with a code to identify use of systematic value. If the investment is coded for systematic value, the investment will be reported in the 2017 annual financial statements using the measurement method utilized throughout 2017. For these investments, beginning Jan. 1, 2018, the reporting entity shall report the investment using the calculated systematic value method detailed in *SSAP No. 26R—Bonds*.

Refer to *SSAP No. 26R—Bonds*.

For reporting entities maintaining an AVR:

NAIC Designation 1 – 5 Enter fair value or systematic value
 NAIC Designation 6 Enter fair value

For reporting entities not maintaining an AVR:

NAIC Designations 1 – 2 Enter fair value or systematic value
 NAIC Designations 3 – 6 Enter fair value

The amount reported in this column should equal:

Book/Adjusted Carrying Value reported in the Prior Year statement
 (or Actual Cost for newly acquired securities)
 plus “Unrealized Valuation Increase/(Decrease) Total in Book/Adjusted Carrying Value”
 plus “Current Year’s (Amortization)/Accretion”
 minus “Current Year’s Other-Than-Temporary Impairment Recognized”
 plus “Total Foreign Exchange Change in Book/Adjusted Carrying Value”
 plus Changes due to amounts reported in Schedule D, Parts 3, 4 and 5

Column 12 – Unrealized Valuation Increase/(Decrease)

The total unrealized valuation increase/(decrease) for a specific security will be the change in Book/Adjusted Carrying Value that is due to carrying or having carried (in the previous year) the security at Fair Value. Thus, this amount could be:

The difference due to changing from Amortized Cost in the previous year to Fair Value in the current year’s Book/Adjusted Carrying Value column (calculated as **current year** Fair Value minus **current year** Amortized Value);

The difference of moving from Fair Value in the previous year to Amortized Cost in the current year’s Book/Adjusted Carrying Value column (calculate as **prior year** Amortized Value minus **prior year** Fair Value); or

The difference between the Fair Value in the previous year and the Fair Value in the current year’s Book/Adjusted Carrying Value column (calculate as **current year** Fair Value minus **prior year** Fair Value minus **current year** Accrual of Discount/(Amortization of Premium)).

Include: For SVO-identified funds, the change from the prior reported B/ACV to fair value/net asset value. If an SVO-identified fund no longer qualifies for systematic value, the difference from systematic value in prior year to fair value/net asset value in current year.

These amounts are to be reported as unrealized capital gains or (losses) in the Exhibit of Capital Gains (Losses) and in the Capital and Surplus Account (Page 4).

- Column 13 – Current Year’s (Amortization)/Accretion
- This amount should equal the current reporting year’s amortization of premium or accrual of discount (regardless of whether or not the security is currently carried at Amortized Cost). The accrual of discount amounts in this column are to be reported as increases to investment income in the Exhibit of Net Investment Income, while the amortization of premium amounts are to be reported as decreases to investment income.
- Include: The (Amortization)/Accretion of SVO Identified Funds designated for reporting at systematic value.
- Column 14 – Current Year’s Other-Than-Temporary Impairment Recognized
- If the security has suffered an “other-than-temporary impairment,” this column should contain the amount of the direct write-down recognized. The amounts in this column are to be reported as realized capital losses in the Exhibit of Capital Gains (Losses) and in the calculation of Net Income.
- Column 15 – Total Foreign Exchange Change in Book/Adjusted Carrying Value
- This is a positive or negative amount that is defined as the portion of the total change in Book/Adjusted Carrying Value for the year that is attributable to foreign exchange differences for a particular security. The amounts reported in this column should be included as net unrealized foreign exchange capital gain (loss) in the Capital and Surplus Account (Page 4).
- Column 16 – Interest Rate
- Show rate of interest as stated on the face of the bond. Where the original stated rate has been renegotiated, show the latest modified rate. For long-term bonds with a variable rate of interest, use the last rate of interest. For short-term bonds with various issues of the same issuer, use the last rate of interest. All information reported in this field must be a numeric value.
- For SVO Identified Funds (Exchange Traded Funds) and Principal STRIP Bonds or other zero-coupon bonds, enter numeric zero (0).
- Column 17 – Effective Rate of Interest
- For issuer obligations, include the effective rate at which the purchase was made. For mortgage-backed/loan-backed and structured securities, report the effective yield used to value the security at the reporting date. The Effective Yield calculation should be modified for other-than-temporary impairments recognized.
- For SVO Identified Funds (Exchange Traded Funds), enter Zero (0).
- Column 18 – Interest – When Paid
- For securities that pay interest annually, provide the first 3 letters of the month in which the interest is paid (e.g., JUN for June). For securities that pay interest semi-annually or quarterly, provide the first letter of each month in which interest is received (e.g., JD for June and December, and MJSD for March, June, September and December). For securities that pay interest on a monthly basis, include “MON” for monthly. Finally, for securities that pay interest at maturity, include “MAT” for maturity.
- For SVO Identified Funds (Exchange Traded Funds) and Principal STRIP Bonds or other zero-coupon bonds, enter N/A.

Column 19 – Admitted Interest Due and Accrued

This should equal the admitted amount of due and accrued interest for a specific security, based upon the assessment of collectability required by *SSAP No. 34—Investment Income Due and Accrued* and any other requirements for nonadmitting investment income due and accrued.

Column 20 – Amount Received During Year

For SVO Identified Funds (Exchange Traded Funds) enter the amount of distributions received in cash or reinvested in additional shares.

Include: The proportionate share of interest directly related to the securities reported in this schedule.

Report amounts net of foreign withholding tax.

Column 21 – Acquired Date

For public placements use trade date, not settlement date. For private placements, use funding date. Each issue of bonds or stocks acquired at public offerings on more than one date may be totaled on one line and the date of last acquisition inserted.

For SVO Identified Funds (Exchange Traded Funds), enter date of last purchase.

Column 22 – Stated Contractual Maturity Date

For SVO Identified Funds (Exchange Traded Funds), leave blank.

For perpetual bonds, enter 01/01/9999.

For mandatory convertible bonds use the conversion date.

**** Columns 23 through 35 will be electronic only. ****

Column 23 – State Abbreviation

Applies to:

U.S. States, Territories and Possessions

Include the appropriate state abbreviation for the state where the security is issued (e.g., “MO” for Missouri).

U.S. Political Subdivisions of States, Territories and Possessions

Include the appropriate state abbreviation for the state where the security is issued.

U.S. Special Revenue, Special Assessments Obligations and all Non-Guaranteed Obligations of Agencies and Authorities of Governments and Their Political Subdivisions

Include the appropriate state abbreviation for the state where the security is issued. Use “US” for federal agency issues.

Column 24 – Fair Value Hierarchy Level and Method Used to Obtain Fair Value Code

Whenever possible, fair value should represent the price at which the security could be sold, based on market information. Fair value should only be determined analytically when the market-based value cannot be obtained.

The following is a listing of valid fair value level indicators to show the fair value hierarchy level.

“1” for Level 1

“2” for Level 2

“3” for Level 3

The following is a listing of the valid method indicators for bonds to show the method used by the reporting entity to determine the Rate Used to Obtain Fair Value.

“a” for securities where the rate is determined by a pricing service.

“b” for securities where the rate is determined by a stock exchange.

“c” for securities where the rate is determined by a broker or custodian. The reporting entity should obtain and maintain the pricing policy for any broker or custodian used as a pricing source. In addition, the broker must either be approved by the reporting entity as a counterparty for buying and selling securities or be an underwriter of the security being valued.

“d” for securities where the rate is determined by the reporting entity. The reporting entity is required to maintain a record of the pricing methodology used.

“e” for securities where the rate is determined by the unit price published in the NAIC *Valuation of Securities*.

Enter a combination of hierarchy and method indicator. The fair value hierarchy level indicator would be listed first and the method used to determine fair value indicator would be listed next. For example, use “1b” to report Level 1 for the fair value hierarchy level and stock exchange for the method used to determine fair value.

The guidance in *SSAP No. 100R—Fair Value* allows the use of net asset value per share (NAV) instead of fair value for certain investments. If NAV is used instead of fair value, leave blank.

Column 25 – Source Used to Obtain Fair Value

For Method Code “a,” identify the specific pricing service used.

For Method Code “b,” identify the specific stock exchange used.

The listing of most **stock exchange codes can be found in the Investment Schedules General Instructions.**

For Method Code “c,” identify the specific broker or custodian used.

For Method Code “d,” leave blank.

For Method Code “e,” leave blank.

If net asset value (NAV) is used instead of fair value, the reporting entity should use “NAV” to indicate net asset value used instead of fair value.

Enter one of the following codes to indicate collateral type. Pick exactly one collateral type for each reported security. For securities that fit in more than one type, pick the predominant one. Judgment may need to be used when making selections involving prime, Alt-A and subprime, as there are no uniform definitions for these collateral types. In the description field, use abbreviations like ABS, CDO or CLO to disclose the type of the loan-backed/structured security.

Note: Various investments below require SVO review and approval, please refer to the *Purposes and Procedures Manual of the NAIC Investment Analysis Office (P&P Manual)* for further description.

1 Residential Mortgage Loans/RMBS

Include all types of residential first lien mortgage loans as collateral (e.g., prime, subprime, Alt-A).

- 2 Commercial Mortgage Loans/CMBS

Include all types of commercial mortgage loans as collateral (e.g., conduits, single name, etc.).
- 3 Home Equity

Include all home equity loans and/or home equity lines of credit as collateral. These are not first liens and are deemed loans to individuals. Bonds that are collateralized by home equity loans/lines of credit are considered asset-backed securities (ABS) rather than RMBS.
- 4 Individual Obligations – Credit Card, Auto, Student Loans and Recreational Vehicles

Include bonds collateralized by individual obligations. Do not include individual obligations that have a real-estate aspect.
- 5 Corporate/Industrial Obligations – Tax Receivables, Utility Receivables, Trade Receivables, Small Business Loans, Commercial Paper

Include bonds collateralized by corporate or industrial obligations (sometimes referred to as commercial obligations).

- 7 CLO/CBO/CDO

Include bank loans, which securitize CLOs; investment grade and high-yield corporate bonds, which securitize CBOs; and corporate bonds and structured securities, which securitize CDOs.
- 8 Manufactured Housing and Mobile Home Loans

Include manufactured housing loans and mobile home loans as collateral. These are not typical residential mortgage loans, and when they securitize bonds, they are considered ABS.
- 9 Credit Tenant Loans

Real estate loans secured by the obligation of a single (usually investment grade) company to pay debt service by means of rental payments under a lease, where real estate is pledged as collateral also referred to as credit tenant lease, sale-leaseback or CTL.
- 10 Ground Lease Financing

Real estate loans secured by the obligation to pay debt service by means of rental payments of subleased property; where a long-term ground lease was issued in which the lessee intends significant land development and the subleasing of such property to other long-term tenants.
- 11 Other

Include other collateral types that do not fit into categories 1 through 10.

For Columns 27 through 29, make whole call information is not required.

- Column 27 – Call Date
- Report the call date used to calculate the Effective Date of Maturity. If call date does not affect the Effective Date of Maturity field but exists, report the next call date. If there is no call date, leave blank.
- Column 28 – Call Price
- Report the call price used to calculate the Effective Date of Maturity. If call price does not affect the Effective Date of Maturity field but exists, report the next call price. If there is no call price, leave blank.
- Column 29 – Effective Date of Maturity
- On bonds purchased at a premium, the maturity date producing the lowest amortized value should be used. See *SSAP No. 26R—Bonds*. For loaned-backed and structured securities, include the effective date of maturity that results from the estimated cash flows, incorporating appropriate prepayment assumptions. If call data does not affect the Effective Date of Maturity field, leave blank.
- Column 30 – Legal Entity Identifier (LEI)
- Provide the 20-character Legal Entity Identifier (LEI) for any issuer as assigned by a designated Local Operating Unit. If no LEI number has been assigned, leave blank.
- Column 31 – Issuer

The reporting entity is encouraged to use the following sources:

- Bloomberg
- Interactive Data Corporation (IDC)

- Name used in either the relevant SEC filing or legal documentation for the transaction. Issuer is the name of the legal entity that can be found on documents such as SEC Form 424B2, Note Agreements, Prospectuses and Indentures, as appropriate. 6% Senior 2018
7% Subordinated Debenture 03/15/2022
3% NY Housing Authority Debenture 2035

The reporting entity is encouraged to use the following sources:

- Bloomberg

Column 33 – ISIN Identification

The International Securities Identification Numbering (ISIN) system is an international standard set up by the International Organization for Standardization (ISO). It is used for numbering specific securities, such as stocks, bonds, options and futures. ISIN numbers are administered by a National Numbering Agency (NNA) in each of their respective countries, and they work just like serial numbers for those securities. Record the ISIN number only if no valid CUSIP, CINS or PPN exists to report in Column 1.

Column 34 – Capital Structure Code

Please identify the capital structure of the security using the following codes consistent with the SVO Notching Guidelines in the *Purposes and Procedures Manual of the NAIC Investment Analysis Office*:

Capital structure is sometimes referred to as rank or payment priority and can be found in feeds from the sources listed in the Issue and Issuer column.

As a general rule, a security is senior unsecured debt unless legal terms of the security indicate another position in the capital structure. Securities are senior or subordinated and are secured or unsecured. Municipal bonds, Federal National Mortgage Association securities (FNMA or Fannie Mae) and Federal Home Loan Mortgage Corporation securities (FHLMC or Freddie Mac) generally are senior debt, though there are examples of subordinated debt issued by Fannie and Freddie. 1st Lien is a type of security interest and not capital structure but could be used to determine which capital structure designation the security should be reported under. The capital structure of “Other” should rarely be used.

Capital structure includes securities subject to *SSAP No. 26R—Bonds* and *SSAP No. 43R—Loan-Backed and Structured Securities*.

1. Senior Secured Debt

Senior secured is paid first in the event of a default and also has a priority above other senior debt with respect to pledged assets.

2. Senior Unsecured Debt

Senior unsecured securities have priority ahead of subordinated debt for payment in the event of default.

3. Subordinated Debt

Subordinated is secondary in its rights to receive its principal and interest payments from the borrower to the rights of the holders of senior debt (e.g., for loan-backed and structured securities, this would include mezzanine tranches).

(Subordinated means noting or designating a debt obligation whose holder is placed in precedence below secured and general unsecured creditors e.g., another debtholder could block payments to that holder or prevent that holder of that subordinated debt from taking any action.)

4. Not Applicable

Securities where the capital structure 1 through 3 above do not apply (e.g., Line 1619999999 Exchange Traded Funds – as Identified by the SVO).

Column 35 – Investments Involving Related Parties

Required for all investments involving related parties including, but not limited to, those captured as affiliate investments. This disclosure intends to capture information on investments held that reflect interactions involving related parties, regardless of whether the related party meets the affiliate definition, or the reporting entity has received domiciliary state approval to disclaim control/affiliation.

Enter one of the following codes to identify the role of the related party in the investment.

1. Direct loan or direct investment (excluding securitizations) in a related party, for which the related party represents a direct credit exposure.
2. Securitization or similar investment vehicles such as mutual funds, limited partnerships and limited liability companies involving a relationship with a related party as sponsor, originator, manager, servicer, or other similar influential role and for which 50% or more of the underlying collateral represents investments in or direct credit exposure to related parties.
3. Securitization or similar investment vehicles such as mutual funds, limited partnerships and limited liability companies involving a relationship with a related party as sponsor, originator, manager, servicer or other similar influential role and for which less than 50% (including 0%) of the underlying collateral represents investments in or direct credit exposure to related parties.
4. Securitization or similar investment vehicles such as mutual funds, limited partnerships and limited liability companies in which the structure reflects an in-substance related party transaction but does not involve a relationship with a related party as sponsor, originator, manager, servicer or other similar influential role.
5. The investment is identified as related party, but the role of the related party represents a different arrangement than the options provided in choices 1-4.
6. The investment does not involve a related party.

NAIC Designation Category Footnote:

Provide the total book/adjusted carrying value amount by NAIC Designation Category that represents the amount reported in Column 11.

The sum of the amounts reported for each NAIC Designation Category in the footnote should equal Line 2509999999.

SCHEDULE D – PART 2 – SECTION 1

PREFERRED STOCKS OWNED DECEMBER 31 OF CURRENT YEAR

Stocks are to be grouped as listed below and arranged alphabetically, showing a subtotal for each category.

Investments that are in substance residual interests or a residual security tranche shall not be captured on this schedule. These investments shall be reported on Schedule BA – Other Long-Term Assets.

Short Sales:

Selling a security short is an action by a reporting entity that results with the reporting entity recognizing proceeds from the sale and an obligation to deliver the sold security. For statutory accounting purposes, obligations to deliver securities resulting from short sales shall be reported as contra-assets (negative assets) in the investment schedule, with an investment code in the code column detailing the item as a short sale. The obligation (negative asset) shall be initially reflected at fair value, with changes in fair value recognized as unrealized gains and losses. These unrealized gains and losses shall be realized upon settlement of the short sale obligation. Interest on short sale positions shall be accrued periodically and reported as interest expense.

If a reporting entity has any detail lines reported for any of the following required categories or subcategories, it shall report the subtotal amount of the corresponding category or subcategory, with the specified subtotal line number appearing in the same manner and location as the pre-printed total or grand total line and number:

NOTE: See the Investment Schedules General Instructions for the following:

- **Category definitions for stocks.**
- **Foreign column code list.**

- Column 1 – CUSIP Identification
- CUSIP numbers for all purchased publicly issued securities are available from the broker’s confirmation or the certificate. For private placement securities, the NAIC has created a special number called a PPN to be assigned by the Standard & Poor’s CUSIP Bureau. For foreign securities, use a CINS that is assigned by the Standard & Poor’s CUSIP Bureau: www.cusip.com/cusip/index.htm.
- If no valid CUSIP, CINS or PPN number exists, then the CUSIP field should be zero-filled and a valid ISIN security number should be reported in Column 27.
- Column 2 – Description
- Give a description of all preferred stocks owned, including redeemable options, if any, and location of all banks, trust and miscellaneous companies. As appropriate, the reporting entity is encouraged to include data consistent with that reported in Column 25, Issuer and Column 26, Issue. This does not preclude the company from including additional detail to provide a complete and accurate description. Abbreviations may be used as needed.
- For Exchange Traded Funds, enter complete name of the fund. As appropriate, the reporting entity is encouraged to include data consistent with that reported for Column 25, Issuer.

- Column 7 – Rate Per Share

NAIC Designation 4 – 6	Enter the lower of book value or fair value.

Perpetual Preferred

NAIC Designation 1 – 6	Enter fair value not to exceed any currently effective call price.
------------------------	--

For reporting entities not maintaining an AVR:

Redeemable Preferred

NAIC Designation 1 – 2	Enter book value.
NAIC Designation 3 – 6	Enter the lower of book value or fair value.

Perpetual Preferred

NAIC Designations 1 – 6	Enter fair value not to exceed any currently effective call price.
-------------------------	--

The amount reported in this column should equal:

	Book/Adjusted Carrying Value reported in the Prior Year statement (or Actual Cost for newly acquired securities)
plus	“Total Change in Book/Adjusted Carrying Value”
plus	“Total Foreign Exchange Change in Book/Adjusted Carrying Value”
plus	Changes due to amounts reported in Schedule D, Parts 3, 4 and 5

Report publicly traded stock warrants captured in the scope of *SSAP No. 32R—Preferred Stock* at Fair Value.

Column 9 – Rate Per Share Used to Obtain Fair Value

Report rate used for determining fair value.

Column 10 – Fair Value

The fair value should be the price which, when multiplied by the notional amount (Column 6, Par Value), or times the number of securities held if Column 6 contains no Par Value, results in the dollar amount that would be received (excluding accrued dividends) if the security was sold at fair value.

The fair value included in this column (calculated from the Rate Used to Obtain Fair Value column) should be the amount used in any comparison of fair value to another valuation method (e.g., book value or amortized cost) that is prescribed by the accounting/valuation rules.

Column 11 – Actual Cost

This amount should contain the actual consideration paid to purchase the security. The Actual Cost column amount should be adjusted for: partial sales of unaffiliated preferred stock and any return of capital for preferred stock in SCA companies (both reported in Schedule D, Part 4); and subsequent acquisitions of the same unaffiliated preferred stock and additional investments in the preferred stock in SCA companies (both reported in Schedule D, Part 3). The Actual Cost recorded in this column shall ALWAYS be adjusted for other-than-temporary impairments.

Include: Cost of acquiring the preferred stock, including broker's commission and incidental expenses of effecting delivery, but not including any accrued dividends paid thereon. Cost should be reduced by payments attributed to the recovery of cost.

Column 13 – Dividends – Amount Received During Year

Include: The proportionate share of investment income directly related to the securities reported in this schedule.

Report amounts net of foreign withholding tax.

Column 14 – Dividends - Nonadmitted Declared but Unpaid

This should equal the nonadmitted amount of dividends declared but unpaid for a specific security, based upon the assessment of collectability required by *SSAP No. 34—Investment Income Due and Accrued* and any other requirements for nonadmitting investment income due and accrued.

Column 15 – Unrealized Valuation Increase/(Decrease)

The total unrealized valuation increase/(decrease) for a specific security will be the change in Book/Adjusted Carrying Value that is due to carrying, or having carried (in the previous year), the security at Fair Value. Thus this amount could be:

The difference due to changing from Amortized Cost in the previous year to Fair Value in the current year's Book/Adjusted Carrying Value column (calculated as **current year** Fair Value minus **current year** Amortized Value);

The difference of moving from Fair Value in the previous year to Amortized Cost in the current year's Book/Adjusted Carrying Value column (calculate as **prior year** Amortized Value minus **prior year** Fair Value);

The difference between the Fair Value in the previous year and the Fair Value in the current year's Book/Adjusted Carrying Value column (calculate as **current year** Fair Value minus **prior year** Fair Value minus **current year** Accrual of Discount/(Amortization of Premium)) or

The increase/(decrease) for a specific investment in a Subsidiary, Controlled or Affiliated (SCA) company that results from the reporting entity's share of undistributed earnings and losses.

These amounts are to be reported as unrealized capital gains or (losses) in the Exhibit of Capital Gains (Losses) and in the Capital and Surplus (Page 4).

Column 16 – Current Year's (Amortization)/Accretion

This amount should equal the current reporting year's amortization of premium or accrual of discount (regardless of whether or not the security is currently carried at Amortized Cost). The accrual of discount amounts in this column are to be reported as increases to investment income in the Exhibit of Net Investment Income, while the amortization of premium amounts are to be reported as decreases to investment income.

Column 17 – Current Year’s Other-Than-Temporary Impairment Recognized

If the security has suffered an “other-than-temporary impairment,” this column should contain the amount of the direct write-down recognized. The amounts in this column are to be reported as realized capital losses in the Exhibit of Capital Gains (Losses) and in the calculation of Net Income.

Column 18 – Total Change in Book/Adjusted Carrying Value

This column should equal the net of: Unrealized Valuation Increase/(Decrease) plus
 Current Year’s (Amortization)/Accretion minus
 Current Year’s Other-Than-Temporary Impairment Recognized.

This amount, plus any foreign exchange adjustment related to these amounts (reported in the Total Foreign Exchange Change in Book/Adjusted Carrying Value column), should represent the difference between the current reporting year’s Book/Adjusted Carrying Value and the prior year’s Book/Adjusted Carrying Value (excluding changes due to amounts reported in Schedule D, Parts 3, 4 and 5).

Column 19 – Total Foreign Exchange Change in Book/Adjusted Carrying Value

This is a positive or negative amount that is defined as the portion of the total change in Book/Adjusted Carrying Value for the current year that is attributable to foreign exchange differences for a particular security. The amounts reported in this column should be included as net unrealized foreign exchange capital gain (loss) in the Capital and Surplus Account (Page 4).

Column 20 – NAIC Designation, NAIC Designation Modifier and SVO Administrative Symbol

Provide the appropriate combination of NAIC Designation (1 through 6), NAIC Designation Modifier (A through G) and SVO Administrative Symbol for each security. The list of valid Administrative Symbols is shown below.

The listing of valid NAIC Designation, NAIC Designation Modifier and SVO Administrative Symbol combinations can be found on the NAIC’s website for the Securities Valuation Office (www.naic.org/svo.htm).

Exchange Traded Funds should be reported as perpetual securities.

The NAIC Designation, NAIC Designation Modifier and SVO Administrative Symbol will be shown as one column on the printed schedule but will be three sub-columns in the data table.

- NAIC Designation Column 20A
- NAIC Designation Modifier Column 20B
- SVO Administrative Symbol Column 20C

On the printed page the sub-columns should be displayed with a “.” between the NAIC Designation and the NAIC Designation Modifier with a space between the NAIC Designation Modifier and the SVO Administrative Symbol (e.g., “1.A YE”).

Designation Modifier:

The NAIC Designation Modifier should only be used for securities reported on lines below if eligible to receive one, as defined in the *Purposes and Procedures Manual of the NAIC Investment Analysis Office* (P&P Manual), otherwise, the field should be left blank.

- Industrial and Miscellaneous (Unaffiliated) Perpetual Preferred Line 4019999999
- Industrial and Miscellaneous (Unaffiliated) Redeemable Preferred Line 4029999999

The NAIC Designation Modifier should be left blank for securities reported on lines below.

- Parent, Subsidiaries and Affiliates Line 4319999999
- Parent, Subsidiaries and Affiliates Line 4329999999

As defined in the P&P Manual, there is not an NAIC Designation Modifier for investments reporting an NAIC Designation 6, therefore, the NAIC Designation Modifier field should be left blank.

Refer to the P&P Manual for the application of these modifiers.

Following are valid administrative symbols for preferred stock. Refer to the *Purposes and Procedures Manual of the NAIC Investment Analysis Office* for the application of these symbols.

Column 21 – Date Acquired

For public placements use trade date, not settlement date. For private placements, use funding date. Each issue of stocks acquired at public offerings on more than one date may be totaled on one line and the date of last acquisition inserted.

For Exchange Traded Funds, enter date of last purchase.

**** Columns 22 through 28 will be electronic only. ****

Column 22 – Fair Value Hierarchy Level and Method Used to Obtain Fair Value Code

Whenever possible, fair value should represent the price at which the security could be sold, based on market information. Fair value should only be determined analytically when the market-based value cannot be obtained.

The following is a listing of valid fair value level indicators to show the fair value hierarchy level.

“1” for Level 1

“2” for Level 2

“3” for Level 3

The following is a listing of the valid method indicators for preferred stocks to show the method used by the reporting entity to determine the Rate Per Share Used to Obtain Fair Value.

“a” for securities where the rate is determined by a pricing service.

“b” for securities where the rate is determined by a stock exchange.

“c” for securities where the rate is determined by a broker or custodian. The reporting entity should obtain and maintain the pricing policy for any broker or custodian used as a pricing source. In addition, the broker must either be approved by the reporting entity as a counterparty for buying and selling securities or be an underwriter of the security being valued.

“d” for securities where the rate is determined by the reporting entity. The reporting entity is required to maintain a record of the pricing methodology used.

“e” for securities where the rate is determined by the unit price published in the NAIC *Valuation of Securities*.

Enter a combination of hierarchy and method indicator. The fair value hierarchy level indicator would be listed first and the method used to determine fair value indicator would be listed next. For example, use “1b” to report Level 1 for the fair value hierarchy level and stock exchange for the method used to determine fair value.

The guidance in *SSAP No. 100R—Fair Value* allows the use of net asset value (NAV) per share instead of fair value for certain investments. If NAV is used instead of fair value, leave blank.

Column 23 – Source Used to Obtain Fair Value

For Method Code “a,” identify the specific pricing service used.

For Method Code “b,” identify the specific stock exchange used.

The listing of most **stock exchange codes can be found in the Investment Schedules General Instructions.**

For Method Code “c,” identify the specific broker or custodian used.

For Method Code “d,” leave blank.

For Method Code “e,” leave blank.

If net asset value (NAV) is used instead of fair value, the reporting entity should use “NAV” to indicate net asset value used instead of fair value.

Column 24 – Legal Entity Identifier (LEI)
Provide the 20-character Legal Entity Identifier (LEI) for any issuer as assigned by a designated Local Operating Unit. If no LEI number has been assigned, leave blank.

Column 25 – Issuer

Issuer Definition:

The reporting entity is encouraged to use the following sources:

Issuer is the name of the legal entity that can be found on documents such as SEC Form 424B2, Note Agreements, Prospectuses and Indentures, as appropriate. Column 27 – ISIN Identification

The International Securities Identification Numbering (ISIN) system is an international standard set up by the International Organization for Standardization (ISO). It is used for numbering specific securities, such as stocks, bonds, options and futures. ISIN numbers are administered by a National Numbering Agency (NNA) in each of their respective countries, and they work just like serial numbers for those securities. Record the ISIN number only if no valid CUSIP, CINS or PPN exists to report in Column 1.

Column 28 – Investments Involving Related Parties

Required for all investments involving related parties including, but not limited to, those captured as affiliate investments. This disclosure intends to capture information on investments held that reflect interactions involving related parties, regardless of whether the related party meets the affiliate definition, or the reporting entity has received domiciliary state approval to disclaim control/affiliation.

1. Direct loan or direct investment (excluding securitizations) in a related party, for which the related party represents a direct credit exposure.
2. Securitization or similar investment vehicles such as mutual funds, limited partnerships and limited liability companies involving a relationship with a related party as sponsor, originator, manager, servicer, or other similar influential role and for which 50% or more of the underlying collateral represents investments in or direct credit exposure to related parties.
3. Securitization or similar investment vehicles such as mutual funds, limited partnerships and limited liability companies involving a relationship with a related party as sponsor, originator, manager, servicer or other similar influential role and for which less than 50% (including 0%) of the underlying collateral represents investments in or direct credit exposure to related parties.
4. Securitization or similar investment vehicles such as mutual funds, limited partnerships and limited liability companies in which the structure reflects an in-substance related party transaction but does not involve a relationship with a related party as sponsor, originator, manager, servicer or other similar influential role.
5. The investment is identified as related party, but the role of the related party represents a different arrangement than the options provided in choices 1-4.
6. The investment does not involve a related party.

NAIC Designation Category Footnote:

Provide the total book/adjusted carrying value amount by NAIC Designation Category that represents the amount reported in Column 8.

The sum of the amounts reported for each NAIC Designation Category in the footnote should equal the sum of Lines 4019999999 and 4029999999.

For statutory accounting purposes, obligations to deliver securities resulting from short sales shall be reported as contra-assets (negative assets) in the investment schedule, with an investment code in the code column detailing the item as a short sale. The obligation (negative asset) shall be initially reflected at fair value, with changes in fair value recognized as unrealized gains and losses. These unrealized gains and losses shall be realized upon settlement of the short sale obligation. Interest on short sale positions shall be accrued periodically and reported as interest expense.

If the security is foreign mutual fund and is not under the exclusive control of the company, the “#” should appear first, immediately followed by the appropriate code (**identified in the Investment Schedules General Instructions**).

Separate Account Filing Only:

If the asset is a bifurcated asset between the insulated separate account filing and the non-insulated separate account filing, the “^” should appear first and may be used simultaneously with the “#” with the “^” preceding the “#”, immediately followed by the appropriate code (**identified in the Investment Schedules General Instructions**).

The Actual Cost column amount should be adjusted for: partial sales of unaffiliated common stock and any return of capital for common stock in SCA companies (both reported in Schedule D, Part 4); and subsequent acquisitions of the same unaffiliated common stock and additional investments in the common stock in SCA companies (both reported in Schedule D, Part 3). The Actual Cost recorded in this column shall ALWAYS be adjusted for other-than-temporary impairments.
- Include: Original cost of acquiring the common stock including broker’s commission and the incidental expenses of effecting delivery. Return of capital is included as a reduction of cost. For subsidiaries and affiliates, include changes in capital contributions.
- Column 11 – Dividends - Amount Received During the Year
- For Mutual Funds (excluding Exchange Traded Funds – as Identified by the SVO), enter the amount of distributions received in cash or reinvested in additional shares.
- Include: The proportionate share of investment income directly related to the securities reported in this schedule.
- Report amounts net of foreign withholding tax.

- Column 12 – Dividends - Nonadmitted Declared but Unpaid
- This should equal the nonadmitted amount of dividends declared but unpaid for a specific security, based upon the assessment of collectability required by *SSAP No. 34—Investment Income Due and Accrued* and any other requirements for nonadmitting investment income due and accrued.
- Column 13 – Unrealized Valuation Increase/(Decrease)
- The total unrealized valuation increase/(decrease) for a specific security will be the change in Book/Adjusted Carrying Value that is due to carrying or having carried (in the previous year) the security at Fair Value. Thus, this amount could be:
- The difference between the Fair Value in the previous year and the Fair Value in the current year’s Book/Adjusted Carrying Value column; or
- The increase/(decrease) for a specific investment in a Subsidiary, Controlled or Affiliated (SCA) company that results from the reporting entity’s share of undistributed earnings and losses.
- These amounts are to be reported as unrealized capital gains or (losses) in the Exhibit of Capital Gains (Losses) and in the Capital and Surplus Account (Page 4).
- Column 14 – Current Year’s Other-Than-Temporary Impairment Recognized
- If the security has suffered an “other-than-temporary impairment,” this column should contain the amount of the direct write-down recognized. The amounts in this column are to be reported as realized capital losses in the Exhibit of Capital Gains (Losses) and in the calculation of Net Income.
- Column 15 – Total Change in Book/Adjusted Carrying Value
- This column should equal the net of:
- Unrealized Valuation Increase/(Decrease)
minus Current Year’s Other-Than-Temporary Impairment Recognized.
- This amount, plus any foreign exchange adjustment related to these amounts (reported in the Total Foreign Exchange Change in Book/Adjusted Carrying Value column), should represent the difference between the current reporting year’s Book/Adjusted Carrying Value and the prior year’s Book/Adjusted Carrying Value (excluding amounts reported in Schedule D, Parts 3, 4 and 5).
- Column 16 – Total Foreign Exchange Change in Book/Adjusted Carrying Value
- This is a positive or negative amount that is defined as the portion of the total change in Book/Adjusted Carrying Value for the current year that is attributable to foreign exchange differences for a particular security. The amounts reported in this column should be included as net unrealized foreign exchange capital gain (loss) in the Capital and Surplus Account (Page 4).
- Column 17 – Date Acquired
- For public placements, use trade date, not settlement date. For private placements, use funding date. Each issue of stocks acquired at public offerings on more than one date may be totaled on one line and the date of last acquisition inserted.

Column 18 – NAIC Designation, NAIC Designation Modifier and SVO Administrative Symbol

For securities reported on Line 5319999999 (Mutual Funds), Line 5519999999 (Unit Investment Trusts) and Line 5719999999 (Closed-End Funds), provide the appropriate NAIC Designation (1 through 6), NAIC Designation Modifier (A through G) and SVO Administrative Symbol combination as assigned by the Securities Valuation Office and published in AVS+ per the instructions in the *Purposes and Procedures Manual of the NAIC Investment Analysis Office* on the Compilation and Publication of the SVO List of Investment Securities. A list of these funds can be found on the Securities Valuation Office Web page (www.naic.org/svo.htm).

NAIC Designation and NAIC Designation Modifier should not be provided for securities reported on these lines categories stated above that have not been assigned one by the Securities Valuation Office. For all other common stock line categories, the NAIC Designation, NAIC Designation Modifier and SVO Administrative Symbol should not be provided.

The listing of valid NAIC Designations, NAIC Designation Modifier and SVO Administrative Symbol combinations can be found on the NAIC’s website for the Securities Valuation Office (www.naic.org/svo.htm).

The NAIC Designation, Designation Modifier and SVO Administrative Symbol will be shown as one column on the printed schedule but will be three sub-columns in the data table.

- NAIC Designation Column 18A
- NAIC Designation Modifier Column 18B
- SVO Administrative Symbol Column 18C

On the printed page the sub-columns should be displayed with a “.” between the NAIC Designation and the NAIC Designation Modifier with a space between the NAIC Designation Modifier and the SVO Administrative Symbol (e.g., “1.A YE”).

NAIC Designation Modifier:

The NAIC Designation Modifier should only be used for securities reported on Line 5319999999 (Mutual Funds Designation Assigned by SVO), Line 5519999999 (Unit Investment Trusts Designation Assigned by SVO) and Line 5719999999 (Closed-End Funds Designation Assigned by SVO) if eligible to receive one, as defined in the *Purposes and Procedures Manual of the NAIC Investment Analysis Office* (P&P Manual), otherwise, should not be provided.

The Designation Modifier should not be provided for securities reported on lines below.

- Industrial and Miscellaneous (Unaffiliated) Publicly Traded Line 5019999999
- Industrial and Miscellaneous (Unaffiliated) Other Line 5029999999
- Mutual Funds Designation Not Assigned by SVO Line 5329999999
- Unit Investment Trusts Designation Not Assigned by SVO Line 5529999999

- Exchange Traded Funds Line 5819999999
- Parent, Subsidiaries and Affiliates Publicly Traded Line 5919999999
- Parent, Subsidiaries and Affiliates Other Line 5929999999

As defined in the P&P Manual, there is not an NAIC Designation Modifier for investments reporting an NAIC Designation 6, therefore, the NAIC Designation Modifier should not be provided.

Refer to the P&P Manual for the application of these modifiers.

SVO Administrative Symbol:

Following are valid SVO Administrative Symbols for common stock. Refer to the P&P Manual for the application of these symbols.

- YE Year-end carry over
- Z* Regulatory review initiated by either the SVO Director, Financial Condition (E) Committee, Executive (EX) Committee or VOSTF.
- ND* Regulatory review for an assessment of regulatory policy for the investment or regulatory reporting instructions to implement applicable policy.

**** Columns 19 through 25 will be electronic only. ****

Column 19 – Fair Value Hierarchy Level and Method Used to Obtain Fair Value Code

Whenever possible, fair value should represent the price at which the security could be sold, based on market information. Fair value should only be determined analytically when the market-based value cannot be obtained.

The following is a listing of valid fair value level indicators to show the fair value hierarchy level.

“1” for Level 1

“2” for Level 2

“3” for Level 3

The following is a listing of the valid method indicators for common stocks to show the method used by the reporting entity to determine the Rate Per Share Used to Obtain Fair Value.

“a” for securities where the rate is determined by a pricing service.

“b” for securities where the rate is determined by a stock exchange.

“c” for securities where the rate is determined by a broker or custodian. The reporting entity should obtain and maintain the pricing policy for any broker or custodian used as a pricing source. In addition, the broker must either be approved by the reporting entity as a counterparty for buying and selling securities or be an underwriter of the security being valued.

“d” for securities where the rate is determined by the reporting entity. The reporting entity is required to maintain a record of the pricing methodology used.

“e” for securities where the rate is determined by the unit price published in the NAIC *Valuation of Securities*.

Enter a combination of hierarchy and method indicator. The fair value hierarchy level indicator would be listed first and the method used to determine fair value indicator would be listed next. For example, use “1b” to report Level 1 for the fair value hierarchy level and stock exchange for the method used to determine fair value.

The guidance in *SSAP No. 100R—Fair Value* allows the use of net asset value (NAV) per share instead of fair value for certain investments. If NAV is used instead of fair value, leave blank.

Column 20 – Source Used to Obtain Fair Value

For Method Code “a,” identify the specific pricing service used.

For Method Code “b,” identify the specific stock exchange used.

The listing of most **stock exchange codes can be found in the Investment Schedules General Instructions.**

For Method Code “c,” identify the specific broker or custodian used.

For Method Code “d,” leave blank.

For Method Code “e,” leave blank.

If net asset value (NAV) is used instead of fair value, the reporting entity should use “NAV” to indicate net asset value used instead of fair value.

Column 21 – Legal Entity Identifier (LEI)

Provide the 20-character Legal Entity Identifier (LEI) for any issuer as assigned by a designated Local Operating Unit. If no LEI number has been assigned, leave blank.

Column 22 – Issuer

Issuer Definition:

The name of the legal entity that develops, registers and sells securities for the purpose of financing its operations and may be domestic or foreign governments, corporations or investment trusts. The issuer is legally responsible for the obligations of the issue and for reporting financial conditions, material developments and any other operational activities as required by the regulations of their jurisdictions.

The reporting entity is encouraged to use the following sources:

- Bloomberg
- Interactive Data Corporation (IDC)
- Thomson Reuters
- S&P/CUSIP
- Name used in either the relevant SEC filing or legal documentation for the transaction. Issuer is the name of the legal entity that can be found on documents such as SEC Form 424B2, Note Agreements, Prospectuses and Indentures, as appropriate. The name used should be as complete and detailed as possible to enable others to differentiate the legal entity issuing the security from another legal entity with a similar name.

Do not report ticker symbols, either internal or otherwise.

Column 23 – Issue

Issue information provides detailed data as to the type of security being reported.

The reporting entity is encouraged to use the following sources:

- Bloomberg
- Interactive Data Corporation (IDC)
- Thomson Reuters
- S&P/CUSIP
- Descriptions used in either the relevant SEC filing or legal documentation for the transaction.

Do not report ticker symbols, either internal or otherwise.

Column 24 – ISIN Identification

The International Securities Identification Numbering (ISIN) system is an international standard set up by the International Organization for Standardization (ISO). It is used for numbering specific securities, such as stocks, bonds, options and futures. ISIN numbers are administered by a National Numbering Agency (NNA) in each of their respective countries, and they work just like serial numbers for those securities. Record the ISIN number only if no valid CUSIP, CINS or PPN exists to report in Column 1.

Column 25 – Investments Involving Related Parties

Required for all investments involving related parties including, but not limited to, those captured as affiliate investments. This disclosure intends to capture information on investments held that reflect interactions involving related parties, regardless of whether the related party meets the affiliate definition, or the reporting entity has received domiciliary state approval to disclaim control/affiliation.

Enter one of the following codes to identify the role of the related party in the investment.

1. Direct loan or direct investment (excluding securitizations) in a related party, for which the related party represents a direct credit exposure.
2. Securitization or similar investment vehicles such as mutual funds, limited partnerships and limited liability companies involving a relationship with a related party as sponsor, originator, manager, servicer, or other similar influential role and for which 50% or more of the underlying collateral represents investments in or direct credit exposure to related parties.
3. Securitization or similar investment vehicles such as mutual funds, limited partnerships and limited liability companies involving a relationship with a related party as sponsor, originator, manager, servicer or other similar influential role and for which less than 50% (including 0%) of the underlying collateral represents investments in or direct credit exposure to related parties.
4. Securitization or similar investment vehicles such as mutual funds, limited partnerships and limited liability companies in which the structure reflects an in-substance related party transaction but does not involve a relationship with a related party as sponsor, originator, manager, servicer or other similar influential role.
5. The investment is identified as related party, but the role of the related party represents a different arrangement than the options provided in choices 1-4.
6. The investment does not involve a related party.

NAIC Designation Category Footnote:

Provide the total book/adjusted carrying value amount by NAIC Designation Category that represents the amount reported in Column 6.

SCHEDULE D – PART 3

LONG-TERM BONDS AND STOCKS ACQUIRED DURING CURRENT YEAR

This schedule should include a detailed listing of all securities that were purchased/acquired during the current reporting year that are still owned as of the end of the current reporting year (amounts purchased and sold during the current reporting year are reported in detail on Schedule D, Part 5 and only in subtotal in Schedule D, Part 3). This should include all transactions that adjust the cost basis of the securities. Thus, it should not be used for allocations of TBAs to specific pools subsequent to initial recording in Schedule D, Part 3 or other situations such as CUSIP number changes. The following list of items provides examples of the items that should be included:

- Purchases of securities not previously owned;
- Subsequent purchases of investment issues already owned;
- Acquisition of a new stock through a stock dividend (e.g., spin off); and
- Any increases in the investments in SCA companies that adjust the cost basis (e.g., subsequent capital infusions [investments] in SCA companies valued using the equity method).

This schedule should NOT be used for stock splits to show increases in the number of shares; nor should it be used for stock dividends to show increases in the number of shares (unless the stock shares received as dividends are in a stock that is not already owned by the reporting entity – e.g., received in a spin off). Rather, for stock splits and stock dividends of an already owned stock, adjustments for the appropriate columns should be made in Schedule D, Part 2, Section 1 and in Schedule D, Part 2, Section 2.

Bonds, preferred stocks and common stocks are to be grouped separately, showing a subtotal for each category.

Exchange Traded Funds – as Identified by SVO, which are described in the Investment Schedules General Instructions, are to be included in SVO Identified Funds.

Bonds are to be grouped as listed below and each category arranged alphabetically (securities included in U.S. States, Territories and Possessions; U.S. Political Subdivisions of States, Territories and Possessions; and U.S. Special Revenue and Special Assessment Obligations and all Non-Guaranteed Obligations of Agencies and Authorities of Governments and Their Political Subdivisions should be listed with a state abbreviation in the column provided for electronic data capture).

If a reporting entity has any detail lines reported for any of the following required categories or subcategories, it shall report the subtotal amount of the corresponding category or subcategory, with the specified subtotal line number appearing in the same manner and location as the pre-printed total or grand total line and number:

NOTE: See the Investment Schedules General Instructions for the following:

Include all bonds and stocks acquired during the year except for those acquired and fully disposed of during the year. Include repoolings of mortgage-backed/asset-backed securities (e.g., giantization/megatization of FHLMC or FNMA mortgage-backed securities). Only those bonds and certificates of deposit with maturity at time of acquisition in excess of one year are to be included. Exclude cash equivalents and short-term investments as described in *SSAP No. 2R—Cash, Cash Equivalents, Drafts, and Short-Term Investments* with original maturities of three months or less.

A bond acquisition is recorded on the trade date, not the settlement date, except for the acquisition of private placement bonds that are recorded on the funding date.

Enter as a summary item the totals of Columns 8, 9 and 21 of Part 5, for bonds, preferred stocks and common stocks.

Column 1 – CUSIP Identification

CUSIP numbers for all purchased publicly issued securities are available from the broker’s confirmation or the certificate. For private placement securities, the NAIC has created a special number called a PPN to be assigned by the Standard & Poor’s CUSIP Bureau. For foreign securities, use a CINS that is assigned by the Standard & Poor’s CUSIP Bureau: www.cusip.com/cusip/index.htm.

If no valid CUSIP, CINS or PPN number exists, then the CUSIP field should be zero-filled and a valid ISIN security number should be reported in Column 14.

Column 2 – Description

Give a description of all bonds and preferred and common stocks. As appropriate, the reporting entity is encouraged to include data consistent with that reported in Column 12, Issuer and Column 13, Issue. This does not preclude the company from including additional detail to provide a complete and accurate description. Abbreviations may be used as needed.

For SVO Identified Funds (Exchange Traded Funds), enter complete name of the fund. As appropriate, the reporting entity is encouraged to include data consistent with that reported for Column 12, Issuer.

For Certificate of Deposit Account Registry Service (CDARs) or other similar services that have a maturity of greater than one year, individually list the various banking institutions that are financially responsible for honoring certificates of deposit. As appropriate, the name of the banking institutions should follow from the registry of the Federal Financial Institutions Examination Council (FFIEC) (www.ffiec.gov/nicpubweb/nicweb/SearchForm.aspx).

For CDOs (Collateralized Debt Obligations) or CLOs (Collateralized Loan Obligations), indicate what the CDO/CLO collateral is, such as high-yield bonds, corporate loans, etc. If the collateral is of mixed type, indicate “Mix,” in addition to the largest type of collateral in the mix. If the collateral is derived synthetically, indicate “synthetic.”

Column 3 – Foreign

Insert the appropriate code in the column based on the **list provided in the Investment Schedules General Instructions**.

Column 4 – Date Acquired

For public placements use trade date, not settlement date. For private placements, use funding date. Each issue of bonds or stocks acquired at public offerings on more than one date may be totaled on one line and the date of last acquisition inserted.

For SVO Identified Funds (Exchange Traded Funds), enter date of last purchase.

- Column 5 – Name of Vendor
- The items with reference to each issue of bonds and stocks acquired at public offerings may be totaled in one line and the word “various” inserted.
- Column 7 – Actual Cost
- This is the recorded cost of the investment purchased during the current year and still held as of the end of the current year. This amount would also be reported in the Actual Cost column of Schedule D, Part 1 for bonds, Schedule D, Part 2, Section 1 for preferred stock, and Schedule D, Part 2, Section 2 for common stock. The amount reported in the Actual Cost Column included in Schedule D, Part 3 will never differ from the actual consideration paid to purchase the security. Any appropriate adjustments to the Actual Cost will be made in the detail listing schedules (Schedule D, Part 1; Schedule D, Part 2, Section 1; and Schedule D, Part 2, Section 2) or in Schedule D, Part 4, as appropriate.
- Include: Cost of acquiring the bond or stock, including broker’s commission and other related fees, to the extent they do not exceed the fair value at the date of acquisition.
- Transaction fees on repooling of securities, and reductions for origination fees intended to compensate the reporting entity for interest rate risks (i.e. points).
- Exclude: Accrued interest and dividends.
- All other costs, including internal costs or costs paid to an affiliated reporting entity related to origination, purchase or commitment to purchase bonds shall be charged to expense when incurred.
- For a bond received as a property dividend or capital contribution, enter the initial recognized value. See *SSAP No. 26R—Bonds* for guidance.
- Column 8 – Par Value
- For mortgage-backed/loan-backed and structured securities, enter the par amount of principal purchased on a security on which the reporting entity has a claim. For interest only bonds without a principal amount on which the reporting entity has a claim, use a zero value. Enter the statement date par value for bonds with adjustable principal. An interest only bond with a small par amount of principal would use that amount.
- For preferred stock, enter par value per share of stock if any.
- For SVO Identified Funds (Exchange Traded Funds), enter 0.
- Column 9 – Paid for Accrued Interest and Dividends
- For SVO Identified Funds (Exchange Traded Funds), enter amount of dividends on shares acquired between the dividend declaration date and the ex-dividend date.

**** Columns 10 through 15 will be electronic only. ****

Column 10 – State Abbreviation

Applies to:

U.S. States, Territories and Possessions

Include appropriate state abbreviation for the state where the security is issued (e.g., “MO” for Missouri).

Include appropriate state abbreviation for the state where the security is issued.

U.S. Special Revenue, Special Assessments Obligations and all Non-Guaranteed Obligations of Agencies and Authorities of Governments and Their Political Subdivisions

Include appropriate state abbreviation for the state where the security is issued. Use “US” for federal agency issues.

Column 11 – Legal Entity Identifier (LEI)

Provide the 20-character Legal Entity Identifier (LEI) for any issuer as assigned by a designated Local Operating Unit. If no LEI number has been assigned, leave blank.

Column 12 – Issuer

Issuer Definition:

The issuer is legally responsible for the obligations of the issue and for reporting financial conditions, material developments and any other operational activities as required by the regulations of their jurisdictions.

The reporting entity is encouraged to use the following sources:

- Bloomberg
- Interactive Data Corporation (IDC)
- Thomson Reuters
- S&P/CUSIP
- Name used in either the relevant SEC filing or legal documentation for the transaction. Issuer is the name of the legal entity that can be found on documents such as SEC Form 424B2, Note Agreements, Prospectuses and Indentures, as appropriate. The name used should be as complete and detailed as possible to enable others to differentiate the legal entity issuing the security from another legal entity with a similar name.

Do not report ticker symbols, either internal or otherwise.

Column 13 – Issue

Issue information provides detailed data as to the type of security being reported (e.g., coupon, description of security, etc.). Below are examples of what could be provided, but additional information should be provided as appropriate for the security.

6% Senior 2018

Record the ISIN number only if no valid CUSIP, CINS or PPN exists to report in Column 1.

Column 15 – Investments Involving Related Parties

Required for all investments involving related parties including, but not limited to, those captured as affiliate investments. This disclosure intends to capture information on investments held that reflect interactions involving related parties, regardless of whether the related party meets the affiliate definition, or the reporting entity has received domiciliary state approval to disclaim control/affiliation.

Enter one of the following codes to identify the role of the related party in the investment.

1. Direct loan or direct investment (excluding securitizations) in a related party, for which the related party represents a direct credit exposure.
2. Securitization or similar investment vehicles such as mutual funds, limited partnerships and limited liability companies involving a relationship with a related party as sponsor, originator, manager, servicer, or other similar influential role and for which 50% or more of the underlying collateral represents investments in or direct credit exposure to related parties.
3. Securitization or similar investment vehicles such as mutual funds, limited partnerships and limited liability companies involving a relationship with a related party as sponsor, originator, manager, servicer or other similar influential role and for which less than 50% (including 0%) of the underlying collateral represents investments in or direct credit exposure to related parties.

SCHEDULE D – PART 4

**LONG-TERM BONDS AND STOCKS SOLD, REDEEMED OR OTHERWISE DISPOSED OF
DURING CURRENT YEAR**

This schedule should include a detailed listing of all securities that were sold/disposed of during the current reporting year that were owned as of the beginning of the current reporting year (amounts purchased and sold during the current reporting year are reported in detail on Schedule D, Part 5 and only in subtotal in Schedule D, Part 4). This should include all transactions that adjust the cost basis of the securities (except other-than-temporary impairments that are not part of a disposal transaction). Thus, it should not be used for allocations of TBAs to specific pools subsequent to initial recording in Schedule D, Part 3 or other situations such as CUSIP number changes. The following list of items provides examples of the items that should be included:

Pay downs of securities still owned (including CMO prepayments);

Subsequent partial sales of investment issues still owned;

Reallocation of the cost basis of an already owned stock to the cost basis of a new stock received as a dividend (e.g., spin off); and

Any decreases in the investments in SCA companies that adjust the cost basis, not including other-than-temporary impairments alone (e.g., subsequent return of capital from investments in SCA companies valued using the equity method).

Bonds, preferred stocks and common stocks are to be grouped separately, showing a subtotal for each category.

Exchange Traded Funds – as Identified by the SVO, which are described in the Investment Schedules General Instructions, are to be included in SVO Identified Funds.

Bonds are to be grouped as listed below and each category arranged alphabetically (securities included in U.S. States, Territories and Possessions; U.S. Political Subdivisions of States, Territories and Possessions; and U.S. Special Revenue and Special Assessment Obligations and all Non-Guaranteed Obligations of Agencies and Authorities of Governments and Their Political Subdivisions should be listed with a state abbreviation in the column provided for electronic data capture).

If a reporting entity has any detail lines reported for any of the following required categories or subcategories, it shall report the subtotal amount of the corresponding category or subcategory, with the specified subtotal line number appearing in the same manner and location as the pre-printed total or grand total line and number:

A bond disposal is recorded on the trade date, not the settlement date.

Include all bonds and stocks disposed of during the year except for those acquired and fully disposed of during the year. Include repoolings of mortgage-backed/asset-backed securities (e.g., giantization/megatization of FHLMC or FNMA mortgage-backed securities). Only those bonds and certificates of deposit with maturity at time of acquisition in excess of one year are to be included. See *SSAP No. 43R—Loan-Backed and Structured Securities* for additional guidance. Exclude cash equivalents as described in *SSAP No. 2R—Cash, Cash Equivalents, Drafts, and Short-Term Investments* with original maturities of three months or less.

Enter as a separate summary item the totals of Columns 8 to 20 of Part 5, for bonds, preferred stocks and common stocks.

Column 1 – CUSIP Identification

CUSIP numbers for all purchased publicly issued securities are available from the broker’s confirmation or the certificate. For private placement securities, the NAIC has created a special number called a PPN to be assigned by the Standard & Poor’s CUSIP Bureau. For foreign securities, use a CINS that is assigned by the Standard & Poor’s CUSIP Bureau: www.cusip.com/cusip/index.htm.

If no valid CUSIP, CINS or PPN number exists, then the CUSIP field should be zero-filled and a valid ISIN security number should be reported in Column 26.

Column 2 – Description

Give a description of all bonds and preferred and common stock, including location of all banks, trust and miscellaneous companies. If bonds are serial issues, give amounts maturing each year. As appropriate, the reporting entity is encouraged to include data consistent with that reported in Column 24, Issuer and Column 25, Issue. This does not preclude the company from including additional detail to provide a complete and accurate description. Abbreviations may be used as needed.

For SVO Identified Funds (Exchange Traded Funds), enter complete name of the fund. As appropriate, the reporting entity is encouraged to include data consistent with that reported for Column 24, Issuer.

For Certificate of Deposit Account Registry Service (CDARs) or other similar services that have a maturity of greater than one year, individually list the various banking institutions that are financially responsible for honoring certificates of deposit. As appropriate, the name of the name of the banking institutions should follow from the registry of the Federal Financial Institutions Examination Council (FFIEC) (www.ffiec.gov/nicpubweb/nicweb/SearchForm.aspx).

For CDOs (Collateralized Debt Obligations) or CLOs (Collateralized Loan Obligations), indicate what the CDO/CLO collateral is, such as high-yield bonds, corporate loans, etc. If the collateral is of mixed type, indicate “Mix,” in addition to the largest type of collateral in the mix. If the collateral is derived synthetically, indicate “synthetic.”

Column 3 – Foreign

Insert the appropriate code in the column based on the **list provided in the Investment Schedules General Instructions**.

Column 4 – Disposal Date

For public placements use trade date, not settlement date. For private placements, use funding date. Each issue of bonds or stocks disposed of at public offerings on more than one date may be totaled on one line and the date of last disposal inserted.

For SVO Identified Funds (Exchange Traded Funds), enter date of last disposal.

Column 5 – Name of Purchaser

If matured or called under redemption option, so state and give price at which called.

Column 7 – Consideration

Include: In the determination of this amount, the broker’s commission and incidental expenses of effecting delivery.

Exclude: Accrued interest and dividends.

For Exchange Traded Funds – as Identified by the SVO, enter price received at sale, usually the number of shares sold times the selling price per share.

Column 8	–	Par Value	<p>For mortgage-backed/loan-backed and structured securities, enter the par amount of principal sold on a security on which the reporting entity has a claim. For interest only bonds without a principal amount on which the reporting entity has a claim, use a zero value. Enter the sale date par value for bonds with adjustable principal. An interest only bond with a small par amount of principal would use that amount.</p> <p>For preferred stock, enter par value per share of stock if any.</p> <p>For SVO Identified Funds (Exchange Traded Funds), enter 0.</p>
Column 9	–	Actual Cost	<p>This is the recorded cost of the investment purchased prior to the current reporting year and sold during the current reporting year. This amount will come from the prior reporting year’s Actual Cost column of Schedule D, Part 1 for bonds, Schedule D, Part 2, Section 1 for preferred stock, and Schedule D, Part 2, Section 2 for common stock. However, it will need to be adjusted due to other-than-temporary impairments recognized during the current year.</p> <p>Exclude: Accrued interest and dividends.</p> <p>For a bond received as a property dividend or capital contribution enter the initial recognized value. See <i>SSAP No. 26R—Bonds</i> for guidance.</p>
Column 10	–	Prior Year Book/Adjusted Carrying Value	<p>This should equal the Book/Adjusted Carrying Value amount reported in the prior year annual statement for each specific security.</p>
Column 11	–	Unrealized Valuation Increase/(Decrease)	<p>The total unrealized valuation increase/(decrease) for a specific security will be the amount necessary to reverse the net effect of any unrealized gains (losses) recognized while the security was carried (up to the most recent amortized value for securities that have been carried at Amortized Value or up to Actual Cost for those securities that have never been carried at Amortized Value).</p> <p>These amounts are to be reported as unrealized capital gains or (losses) in the Exhibit of Capital Gains (Losses) and in the Capital and Surplus Account (Page 4 – Life, Property, Fraternal & Title and Page 5 – Health).</p>
Column 12	–	Current Year’s (Amortization)/Accretion	<p>This amount should equal the current reporting year’s amortization of premium or accrual of discount up to the disposal date. The accrual of discount amounts in this column are to be reported as increases to investment income in the Exhibit of Net Investment Income, while the amortization of premium amounts are to be reported as decreases to investment income.</p>
Column 13	–	Current Year’s Other-Than-Temporary Impairment Recognized	<p>If the security has suffered an “other-than-temporary impairment,” this column should contain the amount of the direct write-down recognized. The amounts in this column are to be reported as realized capital losses in the Exhibit of Capital Gains (Losses) and in the calculation of Net Income.</p>

Column 14 – Total Change in Book/Adjusted Carrying Value

This column should equal the net of:

Unrealized Valuation Increase/(Decrease)
plus Current Year's (Amortization)/Accretion
minus Current Year's Other-Than-Temporary Impairment Recognized.

This amount, plus any foreign exchange adjustment related to these amounts (reported in the Total Foreign Exchange Change in Book/Adjusted Carrying Value column), should represent the difference between the current reporting year's Book/Adjusted Carrying Value at Disposal Date and the prior year's Book/Adjusted Carrying Value.

Column 15 – Total Foreign Exchange Change in Book/Adjusted Carrying Value

The total foreign exchange change for a specific security will be the amount necessary to reverse the net effect of unrealized foreign exchange gains (losses) recognized while the security was owned by the company. This includes the reversal of unrealized increase/(decrease) recorded in previous year(s).

The amounts reported in this column should be included as net unrealized foreign exchange capital gain (loss) in the Capital and Surplus Account (Page 4).

Column 16 – Book/Adjusted Carrying Value at Disposal Date

Deduct: A direct write-down for a decline in the fair value of a bond that is other-than-temporary.

Exclude: Accrued Interest.

This should equal the Actual Cost Column amount (adjusted for other-than-temporary impairments recognized) for each specific common stock and for each preferred stock that is not amortizable; and the Amortized Cost (adjusted for other-than-temporary impairments recognized) at disposal date for each specific redeemable preferred stock that is amortizable.

Column 17 – Foreign Exchange Gain (Loss) on Disposal

Report the foreign exchange gain or (loss) on disposal.

Column 18 – Realized Gain (Loss) on Disposal

This should be the difference between the Consideration column amount and the Book/Adjusted Carrying Value at Disposal Date, excluding any portion that is attributable to foreign exchange differences.

For SVO Identified Funds (Exchange Traded Funds), enter the difference between the consideration, Column 7 and actual cost Column 9 at date of sale.

Bonds called or tendered where consideration received exceeds par:

For securities sold, redeemed or otherwise disposed of, which generate investment income as a result of a prepayment penalty and/or acceleration fee, the amount of realized gain (loss) reported is equal to the Par value of the investment (Column 8) less the B/ACV at the Disposal Date (Column 16).

Bonds called or tendered where consideration received is less than par:

For securities sold, redeemed or otherwise disposed of, the amount of investment income and realized gain reported shall be calculated in accordance with *SSAP No. 26R—Bonds*.

- Column 19 – Total Gain (Loss) On Disposal
Enter the sum of Column 17, foreign exchange gain or (loss), and Column 18, realized gain or (loss).
- Column 20 – Bond Interest/Stock Dividends Received During Year
For Mutual Funds (including Exchange Traded Funds – as Identified by the SVO), enter the amount of distributions received in cash or reinvested in additional shares.

Bonds called or tendered where consideration received is less than par:
For securities sold, redeemed or otherwise disposed of, the amount of investment income and realized gain reported shall be calculated in accordance with *SSAP No. 26R—Bonds*.

The reporting entity is encouraged to use the following sources:

Issuer is the name of the legal entity that can be found on documents such as SEC Form 424B2, Note Agreements, Prospectuses and Indentures, as appropriate. Do not report ticker symbols, either internal or otherwise.

Column 25 – Issue

Issue information provides detailed data as to the type of security being reported (e.g., coupon, description of security, etc.). Below are examples of what could be provided but additional information should be provided as appropriate for the security.

Column 26 – ISIN Identification

The International Securities Identification Numbering (ISIN) system is an international standard set up by the International Organization for Standardization (ISO). It is used for numbering specific securities, such as stocks, bonds, options and futures. ISIN numbers are administered by a National Numbering Agency (NNA) in each of their respective countries, and they work just like serial numbers for those securities. Record the ISIN number only if no valid CUSIP, CINS or PPN exists to report in Column 1.

Column 27 – Investments Involving Related Parties

Required for all investments involving related parties including, but not limited to, those captured as affiliate investments. This disclosure intends to capture information on investments held that reflect interactions involving related parties, regardless of whether the related party meets the affiliate definition, or the reporting entity has received domiciliary state approval to disclaim control/affiliation.

Enter one of the following codes to identify the role of the related party in the investment.

1. Direct loan or direct investment (excluding securitizations) in a related party, for which the related party represents a direct credit exposure.
2. Securitization or similar investment vehicles such as mutual funds, limited partnerships and limited liability companies involving a relationship with a related party as sponsor, originator, manager, servicer, or other similar influential role and for which 50% or more of the underlying collateral represents investments in or direct credit exposure to related parties.
3. Securitization or similar investment vehicles such as mutual funds, limited partnerships and limited liability companies involving a relationship with a related party as sponsor, originator, manager, servicer or other similar influential role and for which less than 50% (including 0%) of the underlying collateral represents investments in or direct credit exposure to related parties.
4. Securitization or similar investment vehicles such as mutual funds, limited partnerships and limited liability companies in which the structure reflects an in-substance related party transaction but does not involve a relationship with a related party as sponsor, originator, manager, servicer or other similar influential role.
5. The investment is identified as related party, but the role of the related party represents a different arrangement than the options provided in choices 1-4.
6. The investment does not involve a related party.

SCHEDULE D – PART 5

LONG-TERM BONDS AND STOCKS ACQUIRED DURING THE YEAR AND FULLY DISPOSED OF DURING CURRENT YEAR

This schedule should include a detailed listing of all securities that were both purchased/acquired and sold/disposed of during the current reporting year (amounts purchased and sold during the current reporting year are also reported in subtotals in Schedule D, Parts 3 and 4).

Reporting entities should track information separately for securities purchased in different lots rather than using some type of averaging for the issue in aggregate. Thus, this schedule should only be used when an entire lot of a security has been purchased and sold during the current reporting year (even when different lots of the same security still exist on the reporting entity’s books).

As with Schedule D, Parts 3 and 4, this schedule should not be used for a transaction unless it affects the cost basis of the securities. Thus, it should not be used for allocations of TBAs to specific pools subsequent to initial recording in Schedule D, Part 3 or other situations such as CUSIP number changes.

Bonds, preferred stocks and common stocks are to be grouped separately, showing subtotals for each category. Bonds should be grouped and arranged alphabetically as described in the instructions for Schedule D, Part 1. (Securities included in U.S. States, Territories and Possessions; U.S. Political Subdivisions of States, Territories and Possessions; and U.S. Special Revenue and Special Assessment Obligations and all Non-Guaranteed Obligations of Agencies and Authorities of Governments and Their Political Subdivisions should be listed with a state abbreviation in the column provided for electronic data capture).

Exchange Traded Funds – as Identified by the SVO that are described in the Investment Schedules General Instructions are to be included in SVO Identified Funds.

If a reporting entity has any detail lines reported for any of the following required categories or subcategories, it shall report the subtotal amount of the corresponding category or subcategory, with the specified subtotal line number appearing in the same manner and location as the pre-printed total or grand total line number:

NOTE: See the Investment Schedules General Instructions for the following:

Column 26 – ISIN Identification

The International Securities Identification Numbering (ISIN) system is an international standard set up by the International Organization for Standardization (ISO). It is used for numbering specific securities, such as stocks, bonds, options and futures. ISIN numbers are administered by a National Numbering Agency (NNA) in each of their respective countries, and they work just like serial numbers for those securities. Record the ISIN number only if no valid CUSIP, CINS or PPN exists to report in Column 1.

Column 27 – Investments Involving Related Parties

Required for all investments involving related parties including, but not limited to, those captured as affiliate investments. This disclosure intends to capture information on investments held that reflect interactions involving related parties, regardless of whether the related party meets the affiliate definition, or the reporting entity has received domiciliary state approval to disclaim control/affiliation.

Enter one of the following codes to identify the role of the related party in the investment.

1. Direct loan or direct investment (excluding securitizations) in a related party, for which the related party represents a direct credit exposure.
2. Securitization or similar investment vehicles such as mutual funds, limited partnerships and limited liability companies involving a relationship with a related party as sponsor, originator, manager, servicer, or other similar influential role and for which 50% or more of the underlying collateral represents investments in or direct credit exposure to related parties.
3. Securitization or similar investment vehicles such as mutual funds, limited partnerships and limited liability companies involving a relationship with a related party as sponsor, originator, manager, servicer or other similar influential role and for which less than 50% (including 0%) of the underlying collateral represents investments in or direct credit exposure to related parties.
4. Securitization or similar investment vehicles such as mutual funds, limited partnerships and limited liability companies in which the structure reflects an in-substance related party transaction but does not involve a relationship with a related party as sponsor, originator, manager, servicer or other similar influential role.
5. The investment is identified as related party, but the role of the related party represents a different arrangement than the options provided in choices 1-4.
6. The investment does not involve a related party.

Column 1 – Description

Give a complete and accurate description of all bonds, including identifying the kind of investment vehicle if other than short-term bond. Identify “repos” in Column 1; and for “repos,” show the repurchase date. For collateral loans, the type of securities held and fair value of the securities should be included in the description.

Column 2 – Code

Enter “*” in this column for all SVO Identified Funds designated for systematic value.

Enter “@” in this column for all Principal STRIP Bonds or other zero-coupon bonds.

Enter “%” in this column for all investments which have been reported on this schedule for more than one consecutive year.

Enter “^” in this column for all assets that are bifurcated between the insulated separate account filing and the non-insulated separate account filing.

If short-term investments are not under the exclusive control of the company as shown in the General Interrogatories, they are to be identified by placing one of the codes (**identified in the Investment Schedules General Instructions**) in this column.

If the security is an SVO Identified Fund designated for systematic value or Principal STRIP bond or other zero coupon bond and is not under the exclusive control of the company, the “*”, “@” or “%” should appear first, immediately followed by the appropriate code (**identified in the Investment Schedules General Instructions**).

If the “%” code is used in conjunction with the “*” or “@” codes, the “%” code should appear after the “*” or “@” codes immediately followed by the appropriate code for not being under the exclusive control of the company (**identified in the Investment Schedules General Instructions**).

Separate Account Filing Only:

If the asset is a bifurcated asset between the insulated separate account filing and the non-insulated separate account filing, the “^” should appear first and may be used simultaneously with the “*”, “@” or “%” with the “^” preceding the “*”, “@” or “%” depending on the asset being reported, immediately followed by the appropriate code for not being under the exclusive control of the company (**identified in the Investment Schedules General Instructions**).

If the “%” code is used in conjunction with the “*” or “@” codes, the “%” code should appear after the “*” or “@” codes immediately followed by the appropriate code for not being under the exclusive control of the company (**identified in the Investment Schedules General Instructions**).

Column 3 – Foreign

Insert the appropriate code in the column based on the **matrix provided in the Investment Schedules General Instructions**.

Column 4 – Date Acquired

For public placements, use trade date not settlement date. For private placements, use funding date. Reporting entities may total on one line each issue of bonds or stocks acquired at public offerings on more than one date and insert the date of last acquisition.

Column 5 – Name of Vendor

Reporting entities may total on one line purchases of various issues of the same issuer of short-term investments and insert the word “various.”

Column 6 – Maturity Date

Reporting entities may total on one line purchases of various issues of the same issuer of short-term investments and insert the appropriate maturity date.

Column 7 – Book/Adjusted Carrying Value

Securities excluding SVO Identified fund and mandatory convertible bonds:

This should be the amortized value or the lower of amortized value or fair value, as appropriate (and adjusted for any other-than-temporary impairment), as of the end of the current reporting year.

Include: The original cost of acquiring the investment, including brokerage and other related fees.

Amortization of premium or accrual of discount, but not including any accrued interest or dividends paid thereon.

Amortization of deferred origination and commitment fees.

Deduct: A direct write-down for a decline in the fair value that is other-than-temporary.

Exclude: All other costs, including internal costs or costs paid to an affiliated reporting entity related to origination, purchase or commitment to purchase, are charged to expense when incurred. Cost should also be reduced by payments attributed to the recovery of cost.

Accrued interest or dividends.

Mandatory Convertible Bonds:

The amount should be the lower of amortized cost or fair value during the period prior to conversion.

SVO Identified Funds:

The amount should be fair value unless the reporting entity has designated a qualifying security for systematic value. The election of using systematic value is irrevocable.

NOTE: Use of systematic value is effective Dec. 31, 2017. This effective date requires entities to either report SVO-Identified investments at fair value on the effective date, or to identify the SVO-Identified investments with a code to identify use of systematic value. If the investment is coded for systematic value, the investment will be reported in the 2017 annual financial statements using the measurement method utilized throughout 2017. For these investments, beginning Jan. 1, 2018, the reporting entity shall report the investment using the calculated systematic value method detailed in *SSAP No. 26R—Bonds*.

The amount reported in this column should equal:

- Actual Cost
- plus Unrealized Valuation Increase/(Decrease) Total in Book/Adjusted Carrying Value
- plus Current Year’s (Amortization)/Accretion
- minus Current Year’s Other-Than-Temporary Impairment Recognized
- plus Total Foreign Exchange Change in Book/Adjusted Carrying Value
- plus Changes due to acquisitions or disposals.

Column 8 – Unrealized Valuation Increase/(Decrease)

The total unrealized valuation increase/(decrease) for a specific security will be the change in Book/Adjusted Carrying Value that is due to carrying or having carried (in the previous year) the security at Fair Value.

Include For SVO-identified funds, the change from the prior reported B/ACV to fair value/net asset value. If an SVO-identified fund no longer qualifies for systematic value, the difference from systematic value in prior year to fair value/net asset value in current year.

These amounts are to be reported as unrealized capital gains (losses) in the Exhibit of Capital Gains (Losses) and in the Capital and Surplus Account.

Column 9 – Current Year’s (Amortization)/Accretion

This amount should equal the current reporting year’s amortization of premium or accrual of discount (regardless of whether the security is currently carried at Amortized Cost). The accrual of discount amounts in this column are to be reported as increases to investment income in the Exhibit of Net Investment Income, while the amortization of premium amounts are to be reported as decreases to investment income.

Include The (Amortization)/Accretion of SVO Identified Funds designated for reporting at systematic value.

- Column 10 – Current Year’s Other-Than-Temporary Impairment Recognized
- If the security has suffered an other-than-temporary impairment, this column should contain the amount of the direct write-down recognized. The amounts in this column are to be reported as realized capital losses in the Exhibit of Capital Gains (Losses) and in the calculation of Net Income.
- Column 11 – Total Foreign Exchange Change in Book/Adjusted Carrying Value
- This is a positive or negative amount that is defined as the portion of the total change in Book/Adjusted Carrying Value for the year that is attributable to foreign exchange differences for a particular security. The amounts reported in this column should be included as net unrealized foreign exchange capital gain (loss) in the Capital and Surplus Account.
- Column 12 – Par Value
- Enter the par value of the bonds owned adjusted for repayment of principal. For mortgage-backed/loan-backed and structured securities, enter the par amount of principal to which the company has claim. For interest-only bonds without a principal amount on which the company has a claim, use a zero value. Enter the statement date par value for bonds with adjustable principal. An interest-only bond with a small par amount of principal would use that amount.
- Column 13 – Actual Cost
- Include: Cost of acquiring the issue, including brokers’ commission and incidental expenses of effecting delivery.
- Exclude: Accrued interest.
- For a bond received as a property dividend or capital contribution, enter the initial recognized value. See *SSAP No. 26R—Bonds* for guidance.
- Column 15 – Nonadmitted Interest Due & Accrued
- This should equal the nonadmitted amount of due and accrued interest for a specific security, based upon the assessment of collectibility required by *SSAP No. 34—Investment Income Due and Accrued* and any other requirements for nonadmitting investment income due and accrued.
- Column 16 – Rate of Interest
- Show rate of interest as stated on the face of the issue. Where the original stated rate has been renegotiated, show the latest modified rate. Short-term bonds with various issues of the same issuer use the last rate of interest. All information reported in this field must be a numeric value.
- For Principal STRIP Bonds or other zero-coupon bonds, enter numeric zero (0).
- Column 17 – Effective Rate of Interest
- Short-term bonds with various issues of the same issuer use the weighted average effective yield to maturity. The Effective Yield calculation should be modified for other-than-temporary impairments recognized. All information reported in this field must be a numeric value.

The NAIC Designation Category will be two sub-columns in the data table.

- NAIC Designation Equivalent Column 22A
- NAIC Designation Modifier Equivalent Column 22B

NAIC Designation Equivalent:

For the NAIC Designation Equivalent, use the NAIC designation that would have been used for the investment had it been reported on Schedule D, Part 1 if available. If no NAIC Designation is available, the reporting entity should use a NAIC Designation Equivalent most closely resembles their credit risk the investment.

Bonds (Lines 0019999999 through 1909999999)

Use the NAIC Designation Modifier that would have been used for the investment had it been reported on Schedule D, Part 1 if available.

If no NAIC Designation Modifier is available, the reporting entity should use a NAIC Designation Modifier Equivalent most closely resembles their credit risk the investment.

As defined in the P&P Manual, there is not an NAIC Designation Modifier for investments reporting an NAIC Designation 6, therefore, the NAIC Designation Modifier field should be left blank.

Refer to the *Purposes and Procedures Manual of the NAIC Investment Analysis Office* for the application of these codes.

The NAIC Designation Category Equivalent is the combination of NAIC Designation Equivalent and NAIC Designation Modifier Equivalent. Valid combinations of NAIC Designation Equivalent and NAIC Designation Modifier Equivalent for NAIC Designation Category Equivalent are shown below:

Column 23 – Investments Involving Related Parties

Required for all investments involving related parties including, but not limited to, those captured as affiliate investments. This disclosure intends to capture information on investments held that reflect interactions involving related parties, regardless of whether the related party meets the affiliate definition, or the reporting entity has received domiciliary state approval to disclaim control/affiliation.

Enter one of the following codes to identify the role of the related party in the investment.

1. Direct loan or direct investment (excluding securitizations) in a related party, for which the related party represents a direct credit exposure.
2. Securitization or similar investment vehicles such as mutual funds, limited partnerships and limited liability companies involving a relationship with a related party as sponsor, originator, manager, servicer, or other similar influential role and for which 50% or more of the underlying collateral represents investments in or direct credit exposure to related parties.
3. Securitization or similar investment vehicles such as mutual funds, limited partnerships and limited liability companies involving a relationship with a related party as sponsor, originator, manager, servicer or other similar influential role and for which less than 50% (including 0%) of the underlying collateral represents investments in or direct credit exposure to related parties.
4. Securitization or similar investment vehicles such as mutual funds, limited partnerships and limited liability companies in which the structure reflects an in-substance related party transaction but does not involve a relationship with a related party as sponsor, originator, manager, servicer or other similar influential role.
5. The investment is identified as related party, but the role of the related party represents a different arrangement than the options provided in choices 1-4.
6. The investment does not involve a related party.

NAIC Designation Category Equivalent Footnote:

Provide the total book/adjusted carrying value amount by NAIC Designation Category Equivalent that represents the amount reported in Column 7.

The sum of the amounts reported for each NAIC Designation Category Equivalent in the footnote should equal Line 2509999999.

SCHEDULE DB

DERIVATIVE INSTRUMENTS

All derivatives, regardless of maturity date, are to be reported on Schedule DB. Forward commitments where a reporting entity cannot determine at the inception of the contract, with certainty, if delivery will be made at the earliest opportunity are essentially forward contracts and should be reported on Schedule DB.

This schedule should be used to report derivative instruments. Specific accounting procedures for each derivative instrument will depend on the definition below and documented intent that best describes the instrument. Uses of derivative instruments that are reported in this schedule include hedging, income generation, replication and other. State investment laws and regulations should be consulted for applicable limitations and permissibility on the use of derivative instruments. If the derivative strategy meets the definition of hedging as outlined in *SSAP No. 86—Derivatives*, then the underlying derivative transactions composing that strategy should be reported in that category of Schedule DB. If the underlying derivative strategy does not meet the definition of hedging as per *SSAP No. 86—Derivatives*, then the underlying derivative transactions composing that strategy should be reported as either hedging other, replication, income generation or other.

DEFINITIONS OF DERIVATIVE INSTRUMENTS

A hedge transaction is “Anticipatory” if it relates to:

- a. A firm commitment to purchase assets or incur liabilities; or
- b. An expectation (but not obligation) to purchase assets or incur liabilities in the normal course of business.

“*Underlying Interest*” means the asset(s), liability(ies) or other interest(s) underlying a derivative instrument, including, but not limited to, any one or more securities, currencies, rates, indices, commodities, derivative instruments, or other financial market instruments.

“*Option*” means an agreement giving the buyer the right to buy or receive, sell or deliver, enter into, extend or terminate, or effect a cash settlement based on the actual or expected price, level, performance or value of one or more Underlying Interests.

“*Warrant*” means an agreement that gives the holder the right to purchase an underlying financial instrument at a given price and time or at a series of prices and times according to a schedule or warrant agreement. Exclude publicly traded stock warrants that are captured in scope of *SSAP No. 30R—Unaffiliated Common Stock* or *SSAP No. 32R—Preferred Stock*.

“*Cap*” means an agreement obligating the seller to make payments to the buyer, each payment under which is based on the amount, if any, that a reference price, level, performance or value of one or more Underlying Interests exceed a predetermined number, sometimes called the strike/cap rate or price.

“*Floor*” means an agreement obligating the seller to make payments to the buyer, each payment under which is based on the amount, if any, that a predetermined number, sometimes called the strike/floor rate or price exceeds a reference price, level, performance or value of one or more Underlying Interests.

“*Collar*” means an agreement to receive payments as the buyer of an Option, Cap or Floor and to make payments as the seller of a different Option, Cap or Floor.

“*Swap*” means an agreement to exchange or net payments at one or more times based on the actual or expected price, level, performance or value of one or more Underlying Interests or upon the probability occurrence of a specified credit or other event.

“*Forward*” means an agreement (other than a Future) to make or take delivery of, or effect a cash settlement based on, the actual or expected price, level, performance or value of one or more Underlying Interests.

“*Future*” means an agreement traded on an exchange, Board of Trade or contract market to make or take delivery of, or effect a cash settlement based on, the actual or expected price, level, performance or value one or more Underlying Interests.

“*Option Premium*” means the consideration paid (received) for the purchase (sale) of an Option.

“*Financing Premium*” means that the premium cost to acquire or enter into the derivative is paid at the end of the derivative contract or throughout the derivative contract.

“*Swaption*” means an agreement granting the owner the right, but not the obligation, to enter into an underlying swap.

“*Margin Deposit*” means a deposit that a reporting entity is required to maintain with a broker with respect to the Futures Contracts purchased or sold.

DEFINITION OF NOTIONAL AMOUNT

The definition below is intended to be a principle for determining notional for all derivative instruments. To the extent a derivative type is not explicitly addressed in a through c, notional should be reported in a manner consistent with this principle.

“Notional amount” is defined as the face value of a financial instrument in a derivatives transaction as of a reporting date, which is used to calculate future payments in the reporting currency. Notional amount may also be referred to as notional value or notional principal amount. The notional amount reported should remain static over the life of a trade unless the instrument is partially unwound or has a contractually amortizing notional. The notional amount shall apply to derivative transactions as follows:

- a. For derivative instruments other than futures contracts (e.g., options, swaps, forwards), the notional amount is either the amount to which interest rates are applied in order to calculate periodic payment obligations or the amount of the contract value used to determine the cash obligations. Non-U.S. dollar contracts must be multiplied or divided by the appropriate inception foreign currency rate.
- b. For futures contracts, with a U.S. dollar-denominated contract size (e.g., Treasury note and bond contracts, Eurodollar futures) or underlying, the notional amount is the number of contracts at the reporting date multiplied by the contract size (value of one point multiplied by par value).
- c. For equity index and similar futures, the number of contracts at the reporting date is multiplied by the value of one point multiplied by the transaction price. Non-U.S. dollar contract prices must be multiplied or divided by the appropriate inception foreign currency rate.

GENERAL INSTRUCTIONS FOR SCHEDULE DB

Each derivative instrument should be reported in Parts A, B or C according to the nature of the instrument, as follows:

- Part A: Positions in Options*, Caps, Floors, Collars, Swaps, and Forwards**
- Part B: Positions in Futures Contracts
- Part C: Positions in Replication (Synthetic Asset) Transaction

* Warrants acquired in conjunction with public or private debt or equity that are more appropriately reported in other schedules do not have to be reported in Schedule DB. Excludes publicly traded stock warrants captured in the scope of *SSAP No. 30R—Unaffiliated Common Stock* or *SSAP No. 32R—Preferred Stock*.

** Forward commitments that are not derivative instruments (for example, the commitment to purchase a GNMA security two months after the commitment date or a private placement six months after the commitment date) should be disclosed in the Notes to Financial Statements, rather than on Schedule DB.

All derivatives, regardless of maturity date, are to be reported on Schedule DB. Forward commitments where the reporting entity cannot determine at the inception of the contract, with certainty, if delivery will be made at the earliest opportunity are essentially forward contracts and should be reported on Schedule DB.

The reporting entity may be required to demonstrate the intended hedging characteristics under state statute in order to report in this derivative “Hedge Other” category.

The fair value is the value at which the instrument(s) could be exchanged in a current transaction. Amortized or book/adjusted carrying values should not be substituted for fair value. Public market quotes are the best indication of fair value. The reporting entity should document the determination of fair value.

Part D should be used to report the counterparty exposure (i.e., the exposure to credit risk on derivative instruments) to each counterparty (or guarantor, as appropriate).

Derivatives shall be shown gross when reported in the Schedule DB. If these transactions are permitted to be reported net in accordance with *SSAP No. 64—Offsetting and Netting of Assets and Liabilities*, the investment schedule shall continue to provide detail of all transactions (gross), with the net amount from the valid right to offset reflected in the financial statements (pages 2 & 3 of the statutory financial statements). Disclosures for items reported net when a valid right to offset exists, including the gross amount, the amount offset, and the net amount reported in the financial statements are required per *SSAP No. 64—Offsetting and Netting of Assets and Liabilities*.

Definitions:

Hedging Effective – Excluding Variable Annuity Guarantees Under SSAP No. 108:

A derivative transaction that is used in hedging transactions that meet the criteria of a highly effective hedge as described in *SSAP No. 86—Derivatives*, which are valued and reported in a manner that is consistent with the hedged asset or liability. These transactions have been voluntarily designated and are effective as of the reporting date. Excludes derivative transactions that are used in hedging transactions for variable annuity guarantees under *SSAP No. 108—Derivative Hedging Variable Annuity Guarantees*.

Hedging Effective – Variable Annuity Guarantees Under SSAP No. 108:

A derivative relationship used in hedging transactions that meet the criteria of a highly effective hedge and applied the special accounting treatment described in *SSAP No. 108—Derivative Hedging Variable Annuity Guarantees*, which are reported at fair value pursuant to SSAP No. 108.

Hedging Other:

A derivative transaction that is used in a hedging transaction where the intent is for an economic reduction of one or more risk factors. This transaction is not part of an effectively designated relationship as described under *SSAP No. 86—Derivatives*.

Replication:

A derivative transaction entered into in conjunction with other investments in order to reproduce the investment characteristics of otherwise permissible investments as described under *SSAP No. 86—Derivatives*. A derivative transaction entered into by a reporting entity as a hedging or income generation transaction shall not be considered a replication (synthetic asset) transaction. These transactions are considered to be replications as of the reporting date.

Income Generation:

A derivative transaction written or sold to generate additional income or return to the reporting entity as described under *SSAP No. 86—Derivatives*.

Other:

A derivative transaction written or sold by the reporting entity used for means other than (1) Hedging Effective; (2) Hedging Other; (3) Replication; or (4) Income Generation (definitions listed above or referenced in *SSAP No. 86—Derivatives*). When this subcategory is utilized, a description of the use should be included in the footnotes to the financial statements.

Value of One (1) Point:

The monetary value of a one (1) point move in a futures position published by the exchange. May also be referred to as “Lot Size,” “Lots” or “Points” by the exchange.

Total Adjustments for SSAP No. 108 Derivatives:

Captures both the current year fair value fluctuations in the hedging instruments attributable to the hedged risk.

- 1) Recognized as realized gain or loss due to offset against current period changes in the designated portion of the VM-21 reserve liability and
- 2) Recognized as deferred assets or deferred liabilities as prescribed under SSAP No. 108.

Interest rate and currency swaps (where receive/(pay) notional amounts are denominated in different currencies), are filed under the “Foreign Exchange” swap subcategory.

SCHEDULE DB – PART A – SECTION 1

OPTIONS, CAPS, FLOORS, COLLARS, SWAPS AND FORWARDS OPEN
DECEMBER 31 OF CURRENT YEAR

Include all options, caps, floors, collars, swaps and forwards owned on December 31 of the current year, including those owned on December 31 of the previous year, and those acquired during the current year.

Column 1 – Description

Give a complete and accurate description of the derivative instrument including a description of the underlying securities, currencies, rates, indices, commodities, derivative instruments, or other financial market instruments.

Include details such as:

- For options, the basis. For example, caps should include the underlying interest rate (e.g., CMS 5 year) and frequency of the reset (typically three months);
- For credit default swaps, the name of the reference entity (a single issuer or an index) and the equity ticker symbol, if available;
- For currency derivatives, report the currency and describe the pay/receive (or buy/sell) legs of the transaction; and
- For baskets, note that it is a basket and include the top five equity tickers, if applicable.
- For derivatives with financing premiums, include information on the terms of the financing premium, including whether it is due periodically or at maturity, and the next payment date.

Where leveraging is a feature of the payment terms, the multiplier effect will be clearly presented in the description.

For swaptions, include the hedge ID number, the tenor of the option (i.e., time from effective date to maturity date of the option aspect), and the start and end dates of the underlying swap.

If traded on an exchange, disclose the ticker symbol. Indicate the maturity of the underlying, as appropriate.

Do not use internal descriptions or identifiers unless provided as supplemental information.

Column 2 – Description of Item(s) Hedged, Used for Income Generation or Replicated

Describe the assets or liabilities hedged, including CUSIP(s) when appropriate. For example, “Bond Portfolio Hedge,” “VAGLB Hedge,” “Fixed Annuity Hedge,” “Investment in Foreign Operations,” etc.

If hedging a specific bond, report the CUSIP and a complete and accurate description of the bond; if multiple CUSIPs, note that there are multiple CUSIPs and report the equity ticker or name of the ultimate parent, as applicable.

If hedging a guaranteed investment contract or funding agreement, report as “GIC Hedge” or “FA Hedge.”

For a foreign operations hedge, report as “Net Investment in Foreign Operations.”

For annuity hedging, describe whether hedging fixed or variable annuities.

If hedging a specific mortgage loan asset, report as “Mortgage Loan” and provide the corresponding loan number reported on Schedule B, Part 1, Column 1.

Describe the assets against which derivatives are written in income-generation transactions.

If a replication, report the RSAT Number and Description of the RSAT (Columns 1 and 2 from Schedule DB, Part C, Section 1).

Column 3	–	Schedule/Exhibit Identifier
		Identify the Schedule or Exhibit of the hedged item(s), such as Schedule A, B, BA, D Part 1, D Part 2, Section 1; or D, Part 2, Section 2, if appropriate. Otherwise “N/A.”

		If OTC traded, show the name and the LEI of counterparty and the guarantor upon whose credit the reporting entity relies.
Column 6	–	Trade Date
		Show the trade date of the original transaction.
		The reporting entity may summarize on one line all identical derivative instruments with the same exchange or counterparty showing the last trade date, but only if the instruments are identical in their terms, e.g., type, maturity, expiration or settlement, and strike price, rate or index.
Column 7	–	Date of Maturity or Expiration
		Show the date of maturity or expiration of the derivative, as appropriate.
Column 8	–	Number of Contracts

- Refer to *SSAP No. 86—Derivatives* for further discussion.
- Column 15 – Code
- Insert “*” in this column if the book/adjusted carrying value is combined with the book/adjusted carrying value of assets or liabilities hedged; the book/adjusted carrying value is combined with the book/adjusted carrying value of underlying/covering assets; or if the amount is combined with consideration paid on underlying/covering assets.
- Insert “#” in this column if the book/adjusted carrying value was combined in prior years with the book/adjusted carrying value of assets or liabilities hedged.
- Insert “@” in this column if the income/expenses is combined with income/expenses on assets or liabilities hedged.
- Insert “^” in this column if the derivative has unpaid financing premiums.
- Insert “%” in this column if the derivative has excluded components.

For Clearly Defined Hedging Strategy (CDHS) instruments applying the provisions of SSAP No. 108:

Insert “\$” in this column for derivatives held in an SSAP No. 108 CDHS throughout the current reporting period (or since inception if shorter).

Insert “&” in this column for derivatives repurposed from an SSAP No. 108 CDHS to SSAP No. 86 during the current reporting period.

Insert “!” in this column for derivatives previously held that were designated from SSAP No. 86 to an SSAP No. 108 CDHS during the current reporting period.

Insert “~” in this column for CDHS hedging instruments removed as the variable annuities derivative program was terminated.

Column 16 – Fair Value

See the Glossary of the NAIC *Accounting Practices and Procedures Manual* for a definition of fair value. For purposes of this column, fair value can be obtained from any one of these sources:

- a. A pricing service.
- b. An exchange.
- c. Broker or custodian quote.
- d. Determined by the reporting entity.

Column 17 – Unrealized Valuation Increase/(Decrease)

For purposes of this schedule, **increases** should be reported when the change results in an increase to the asset or a decrease to the liability. A **decrease** should be reported when the change results in a decrease to the asset or an increase to the liability.

The total unrealized valuation increase/(decrease) for a specific derivative will be the change in Book/Adjusted Carrying Value that is due to carrying or having carried (in the previous year) the derivative at Fair Value.

These amounts are to be reported as unrealized capital gains (losses) in the Exhibit of Capital Gains (Losses) and in the Capital and Surplus Account. For SSAP No. 108 Derivatives, the entire change in fair value shall be initially reported as an unrealized change, with adjustments shown to represent the amounts removed from unrealized and recognized as realized or deferred assets/liabilities under the provisions of SSAP No. 108. The Column 17 summary Total (i.e., Line 1759999999) should reflect only unrealized gains or (losses) remaining after the Total Adjustments for SSAP No. 108 Derivatives.

Column 18 – Total Foreign Exchange Change in Book/Adjusted Carrying Value

This is a positive or negative amount that is defined as the portion of the total change in Book/Adjusted Carrying Value for the year that is attributable to foreign exchange differences for a particular derivative.

The amounts reported in this column should be included as net unrealized foreign exchange capital gain (loss) in the Capital and Surplus Account.

For purposes of this schedule, **positive amounts** should be reported when the change results in an increase to the asset or a decrease to the liability. A **negative amount** should be reported when the change results in a decrease to the asset or an increase to the liability.

- Column 19 – Current Year’s (Amortization)/Accretion
- For purposes of this schedule, **positive amounts** should be reported when the change results in an increase to the asset or a decrease to the liability. A **negative amount** should be reported when the change results in a decrease to the asset or an increase to the liability.
- Column 20 – Adjustment to the Carrying Value of Hedged Item
- This represents the amortized book/adjusted carrying value used to adjust the basis of the hedged item(s) during the current year.
- Column 21 – Potential Exposure
- Potential Exposure is a statistically derived measure of the potential increase in derivative instrument risk exposure, for derivative instruments that generally do not have an initial cost paid or consideration received, resulting from future fluctuations in the underlying interests upon which derivative instruments are based.
- For collars, swaps other than credit default swaps and forwards, the Potential Exposure = 0.5% x “Notional Amount” x Square Root of (Remaining Years to Maturity).
- For credit default swaps, enter the larger of notional amount or maximum potential payment.
- For purchased credit default swaps bought for protection, the amount reported will be zero.
- If the maximum potential exposure cannot be determined, enter zero and explain in the Notes to Financial Statement.
- Disclose in the footnotes to the annual statement any assets, held either as collateral or by third parties that the reporting entity can obtain and liquidate to recover all or a portion of the amounts paid under the derivative.
- Column 22 – Credit Quality of Reference Entity
- Only applies to credit default swaps (for other derivatives, leave blank)
- Disclose:
- NAIC designation of the reference entity; or, if not available, then
 - NAIC designation equivalent of the reference entity, if it is CRP rated; or, if not available, then
 - The reporting entity’s own credit assessment translated into an NAIC designation equivalent with a “*” to indicate that the designation is based on the reporting entity’s own internal evaluation of the reference entity’s creditworthiness.
- For first loss type of basket credit default swaps, use the lowest designation in the basket.
- For other types of baskets, or other structures, determine a designation that fairly represents the likelihood of credit losses.

Column 23 – Hedge Effectiveness at Inception and at Year-end

For hedge transactions show as a percentage expressed as (XX / YY), where “XX” shows the hedge effectiveness percentage at inception and “YY” shows the hedge effectiveness percentage on December 31 of the current year.

For example, 100.45% hedge effectiveness at inception and 94.90% hedge effectiveness on December 31 of the current year is reported as “100 / 95.”

Round to the nearest whole percentage. Do not use decimals.

When hedge effectiveness cannot be calculated, enter a reference code number in this column (e.g., 0001, 0002, etc.) then disclose the financial or economic impact of the hedge at the end of the reporting period in Schedule DB footnotes for each reference code number used in the schedule.

A reference code number may be used multiple times in this column to indicate the same explanation.

For example:

0001	Reduces bond portfolio duration by 0.2 years.
0002	Instrument was repurposed from SSAP No. 108; CDHS #001; hedged interest rate risks of assets.
0003	Instrument in CDHS #001 Rider Claims Less Rider Fees in VA Contracts – 50% of Rho SSAP 108 hedge; 100% Effective.

a) Fair Value Hedges:

How much of the change in value of the hedged item(s) was hedged by the change in value of the derivative, both:

- At the inception of the derivative transaction.
- On December 31st end of the current year.

b) Cash Flow Hedges:

How much of the change in cash flows or present value of cash flows of the hedged item(s) was hedged by the change in cash flows or present value of cash flows of the derivative, both:

- At the inception of the derivative transaction, and
- At the end of the current year.

**** Columns 24 through 36 will be electronic only. ****

Column 24 – Fair Value Hierarchy Level and Method Used to Obtain Fair Value Code

Whenever possible, fair value should represent the amount of money the reporting entity would receive (pay) in order to close the derivative position at the market price. Fair value should only be determined analytically when the market price-based value cannot be obtained.

The following is a listing of valid fair value level indicators to show the fair value hierarchy level.

“1” for Level 1

“2” for Level 2

“3” for Level 3

The following is a listing of the valid method indicators for derivatives to show the method used by the reporting entity to determine the Fair Value.

“a” For derivatives where the fair value is determined by a pricing service.

“b” For derivatives where the fair value is determined by a stock exchange.

“c” For derivatives where the fair value is determined by a broker or the reporting entity’s custodian. To use this method 1) the broker must be approved by the reporting entity as a derivative counterparty; and 2) the reporting entity shall obtain and retain the pricing policy of the broker or custodian that provided the quotations.

“d” For derivatives where the fair value is determined by the reporting entity. The reporting entity is required to maintain a record of the pricing methodology used.

Enter a combination of hierarchy and method indicator. The fair value hierarchy level indicator would be listed first and the method used to determine fair value indicator would be listed next. For example, use “1b” to report Level 1 for the fair value hierarchy level and stock exchange for the method used to determine fair value.

Column 25 – Source Used to Obtain Fair Value

For Method Code “a,” identify the specific pricing service used.

For Method Code “b,” identify the specific stock exchange used.

The listing of most stock exchange codes can be found in the Investment Schedules General Instructions.

For Method Code “c,” identify the specific broker or custodian used.

For Method Code “d,” leave blank.

Column 26 – Method of Clearing (C or U)

Indicate whether derivative transaction is cleared through a central clearinghouse with a “C” or not cleared through a centralized clearinghouse with a “U.”

Column 27 – Legal Entity Identifier (LEI)
 Provide the 20-character Legal Entity Identifier (LEI) for any counterparty as assigned by a designated Local Operating Unit. If no LEI number has been assigned, leave blank.

****Columns 28 through 32 are for derivatives with financing premiums****

Column 28 – Total Undiscounted Premium Cost
 Report the total, undiscounted (contractual) cost to acquire/enter into the derivative.

Column 29 – Unpaid Undiscounted Premium Cost
 Report the undiscounted (contractual) cost to acquire/enter into the derivative unpaid by the reporting entity.

Column 30 – Fair Value of Derivative, Excluding Impact of Financing Premiums
 Reflect the fair value of the derivative adjusted to exclude the impact of discounted future settled premiums. For example, if the fair value of the derivative reported in Column 16 has been reduced due to expected cash outflows representing the reporting entity’s future payment of financing premiums, the consideration of those future premium cash outflows shall be removed from the reported fair value of the derivative captured in this column.

(At acquisition, a derivative may be reported with a net zero fair value in Column 16 as the value of the derivative and the net present value of future financing premiums owed from the acquisition of the derivative may offset. The fair value reported in Column 30 shall reflect the fair value of the derivative without an offset for the future financing premiums.)

Column 31 – Unrealized Valuation Increase/(Decrease), Excluding Impact of Financing Premiums
 Reflect the unrealized gain or unrealized loss reported for the derivative adjusted to exclude the impact from discounted future settled premiums. For example, if the valuation increase/valuation decrease reported in Column 17 includes “losses” to recognize the net present value of the financing cost owed by the reporting entity, those “losses” shall be removed from the unrealized valuation increase/decrease reflected in this column.

Column 32 – CDHS Identifier
 Provide a unique identifier for each Clearly Defined Hedging Strategy (CDHS) applying the provisions of SSAP No. 108 reported on this schedule (e.g., 001, 002, etc.). This identifier will also be used for reporting of the CDHS in Column 1 of Schedule DB, Part E.

4. Securitization or similar investment vehicles such as mutual funds, limited partnerships and limited liability companies in which the structure reflects an in-substance related party transaction but does not involve a relationship with a related party as sponsor, originator, manager, servicer or other similar influential role.

Column 20 – Potential Exposure

Potential Exposure is a statistically derived measure of the potential increase in derivative instrument risk exposure, for derivative instruments that generally do not have an initial cost paid or consideration received, resulting from future fluctuations in the underlying interests upon which derivative instruments are based.

For futures, the Potential Exposure = (Initial Margin per contract on the valuation date, set by the exchange on which contract trades) x (the number of contracts open on the valuation date).

Column 21 – Hedge Effectiveness at Inception and at Year-end

For hedge transactions show, as a percentage expressed as (XX / YY), where “XX” shows the hedge effectiveness percentage at inception and “YY” shows the hedge effectiveness percentage at reporting date.

For example, 100.45% hedge effectiveness at inception and 94.90% hedge effectiveness on December 31 of the current year is reported as “100 / 95.”

Round to the nearest whole percentage. Do not use decimals.

When hedge effectiveness cannot be calculated, enter a reference code number in this column (e.g., 0001, 0002, etc.) then disclose the financial or economic impact of the hedge at the end of the reporting period in Schedule DB footnotes for each reference code number used in the schedule.

A reference code number may be used multiple times in this column to indicate the same explanation.

For example:

0001	Reduces bond portfolio duration by 0.2 years.
0002	Instrument was repurposed from SSAP No. 108; CDHS #001; hedged interest rate risks of assets.
0003	Instrument in CDHS #001 Rider Claims Less Rider Fees in VA Contracts – 50% of Rho SSAP No. 108 hedge; 100% Effective.

a) Fair Value Hedges:

How much of the change in value of the hedged item(s) was hedged by the change in value of the derivative, both:

- At the inception of the derivative transaction; and
- At reporting date.

b) Cash Flow Hedges:

How much of the change in cash flows or present value of cash flows of the hedged item(s) was hedged by the change in cash flows or present value of cash flows of the derivative, both:

- At the inception of the derivative transaction; and
- At reporting date.

Column 22 – Value of One (1) Point

This represents the monetary value of a one (1) point move in a futures position published by the exchange. This monetary value of one (1) point is utilized in the calculation of the futures’ variation margin.

**** Columns 23 through 34 will be electronic only. ****

Column 23 – Fair Value Hierarchy Level and Method Used to Obtain Fair Value Code

Whenever possible, fair value should represent the price at which the security could be sold, based on market information. Fair value should only be determined analytically when the market-based value cannot be obtained.

The following is a listing of valid fair value level indicators to show the fair value hierarchy level.

“1” for Level 1

“2” for Level 2

“3” for Level 3

The following is a listing of the valid method indicators for derivatives to show the method used by the reporting entity to determine the Rate Used to Obtain Fair Value.

“a” for securities where the rate is determined by a pricing service.

“b” for securities where the rate is determined by a stock exchange.

“c” for securities where the rate is determined by a broker or custodian. The reporting entity should obtain and maintain the pricing policy for any broker or custodian used as a pricing source. In addition, the broker must either be approved by the reporting entity as a counterparty for buying and selling securities or be an underwriter of the security being valued.

“d” for securities where the rate is determined by the reporting entity. The reporting entity is required to maintain a record of the pricing methodology used.

Enter a combination of hierarchy and method indicator. The fair value hierarchy level indicator would be listed first and the method used to determine fair value indicator would be listed next. For example, use “1b” to report Level 1 for the fair value hierarchy level and stock exchange for the method used to determine fair value.

Column 24 – Source Used to Obtain Fair Value

For Method Code “a,” identify the specific pricing service used.

For Method Code “b,” identify the specific stock exchange used.

The listing of most **stock exchange codes can be found in the Investment Schedules General Instructions.**

Report the undiscounted (contractual) cost to acquire/enter into the derivative unpaid by the reporting entity.

Column 28 – Fair Value of Derivative, Excluding Impact of Financing Premiums
Reflect the fair value of the derivative adjusted to exclude the impact of discounted future settled premiums. (At acquisition, a derivative may be reported with a net zero fair value in Column 16 as the value of the derivative and the net present value of future financing premiums owed from the acquisition of the derivative may offset. Column 29 – Unrealized Valuation Increase/(Decrease), Excluding Impact of Financing Premiums
Reflect the unrealized gain or unrealized loss reported for the derivative adjusted to exclude the impact from discounted future settled premiums. For example, if the valuation increase/valuation decrease reported in Column 17 includes “losses” to recognize the net present value of the financing cost owed by the reporting entity, those “losses” shall be removed from the unrealized valuation increase/decrease reflected in this column.

Column 30 – CDHS Identifier
Provide a unique identifier for each Clearly Defined Hedging Strategy (CDHS) applying the provisions of SSAP No. 108 reported on this schedule (e.g., 001, 002, etc.). This identifier will also be used for reporting of the CDHS in Column 1 of Schedule DB, Part E.

SCHEDULE DB – PART D – SECTION 1

**COUNTERPARTY EXPOSURE FOR DERIVATIVE INSTRUMENTS OPEN
DECEMBER 31 OF CURRENT YEAR**

Counterparty Exposure to any one counterparty is the exposure to credit risk associated with the use of derivative instruments with that counterparty. This section displays the Book/Adjusted Carrying Value exposure and Fair Value exposure to each counterparty, net of collateral. Also displayed is the total potential exposure for each counterparty for Schedule DB, Parts A and B.

On the first line, show the aggregate sum for exchange traded derivatives, also known as listed derivatives or futures (Line 0199999999). (Exchange-Traded Derivatives are executed over a centralized trading venue known as an exchange and then booked with a central counterparty known as a clearing house.)

On the next six lines, show separately six groups of OTC (over-the-counter) derivative counterparties by NAIC Designation (Lines 0299999999 through 0799999999). Within each group, list the counterparties or central clearinghouses in alphabetical order.

Then show the aggregate sum for centrally cleared derivatives (Line 0899999999). This line is used to show centrally cleared derivatives that are not considered exchange traded.

The final line will show a total of all derivatives listed in the lines above (Line 0999999999).

For each counterparty with a master agreement, show on a second line, if applicable, totals for derivative instruments not covered by the master agreement.

Use additional lines, as needed, if multiple master agreements with the counterparty exist that do not provide for netting of offsetting amounts by the reporting entity against the counterparty upon termination in the event that the counterparty defaults.

Show subtotals for each group.

If a reporting entity has any detail lines reported for any of the following required groups, it shall report the subtotal amount of the corresponding group with the specified subtotal line number appearing in the same manner and location as the pre-printed total.

- Column 1 – Description of Exchange, Counterparty or Central Clearinghouse
- The first line (Line 0199999999) for the Aggregate Sum of Exchange-Traded Derivatives should be left blank.
- On subsequent lines, show the name and the Commodity Futures Trading Commission’s Legal Entity Identifier (LEI), if a LEI number has been assigned, for the counterparty or central clearinghouse.
- Include the name and the LEI of the central clearinghouse and the derivatives clearing member, where appropriate.
- Column 2 – Master Agreement (Y or N)
- The lines for the Aggregate Sum of Exchange-Traded Derivatives (Line 0199999999) and for the Aggregate Sum of Central Clearinghouses (Line 0899999999) should be left blank.
- For OTC counterparties, indicate “Y” if:
1. The reporting entity has a written International Swaps and Derivatives Association (ISDA) master agreement with the counterparty that provides for the netting of offsetting amounts by the reporting entity against the counterparty upon termination in the event that the counterparty defaults, or if such netting provisions of an ISDA master agreement are either incorporated by reference in transaction confirmations or are otherwise contractual provisions to which derivative instrument confirmations with the counterparty are subject, or if the reporting entity has a written non-ISDA master agreement with the counterparty that provides for the netting of offsetting amounts or the right of offset by the reporting entity against the counterparty upon termination in the event that the counterparty defaults; and
 2. The domiciliary jurisdiction of such counterparty is either within the United States or if not within the United States, is within a foreign (non-United States) jurisdiction listed in the *Purposes and Procedures Manual of the NAIC Investment Analysis Office* as eligible for netting.
- Column 3 – Credit Support Annex (Y or N)
- The lines for the Aggregate Sum of Exchange-Traded Derivatives (Line 0199999999) and for the Aggregate Sum of Central Clearinghouses (Line 0899999999) should be left blank.
- For OTC counterparties, indicate “Y” if:
- The reporting entity has an additional annex to the International Swaps and Derivatives Association (ISDA) master agreement called a Credit Support Annex (CSA). The CSA agreement with the counterparty provides functionality of collateral postings against net counterparty exposure in excess of a threshold amount. This limits the net exposure the reporting entity has to a derivative counterparty in the event of a counterparty default.
- Column 4 – Fair Value of Acceptable Collateral
- Leave blank for the aggregate reporting of Exchange-Traded Derivatives (Line 0199999999).
- For OTC counterparties, show the Fair Value of acceptable collateral pledged by the counterparty.
- For central clearinghouses, this amount would be the net positive variation margin received by the reporting entity.

“Acceptable collateral” means cash, cash equivalents, securities issued or guaranteed by the United States or Canadian governments or their government-sponsored enterprises, letters of credit, publicly traded obligations designated 1 by the SVO, government money market mutual funds, and such other items as may be defined as acceptable collateral in the *Purposes and Procedures Manual of the NAIC Investment Analysis Office*. For purposes of this definition, the term “letter of credit” means a clean, irrevocable and unconditional letter of credit issued or confirmed by, and payable and presentable at, a financial institution on the list of financial institutions meeting the standards for issuing such letter of credit published pursuant to the *Purposes and Procedures Manual of the NAIC Investment Analysis Office*. The letter of credit must have an expiration date beyond the term of the subject transaction.

Column 5 – Present Value of Financing Premium

Report the present value of the amount owed by the reporting entity (as a positive) and the amount due to the reporting entity (as a negative) representing derivative financing premiums. See *SSAP No. 86—Derivatives*.

For Columns 6 and 7, Book/Adjusted Carrying Values that are debit balances on the balance sheet are positive numbers; those that are credit balances are negative numbers.

Column 6 – Contracts with Book/Adjusted Carrying Value > 0 (i.e., debit balance on balance sheet)

On the first line, show the aggregate sum for exchange traded derivatives that have a positive Book/Adjusted Carrying Value.

For futures, this equals the sum of the positive cumulative variation margin for highly effective futures (Part B, Section 1, Column 15), plus the sum of the ending balance of all cash deposits with brokers (Part B, Section 1, Broker Name/Net Cash Deposits Footnote – Ending Cash Balance).

On subsequent lines, show the sum of the Book/Adjusted Carrying Values of all derivative instruments with the counterparty or central clearinghouse that have a positive Book/Adjusted Carrying Value.

Column 7 – Contracts with Book/Adjusted Carrying Value < 0 (i.e., credit balance on balance sheet)

On the first line, show the sum of the Book/Adjusted Carrying Values in parentheses () of all exchange traded derivatives that have a negative Book/Adjusted Carrying Value.

For futures, this equals the sum of the negative cumulative variation margin for highly effective futures (Part B, Section 1, Column 15).

On subsequent lines, show the sum of the Book/Adjusted Carrying Values in parentheses () of all derivative instruments with the counterparty or central clearinghouse that have a negative Book/Adjusted Carrying Value.

Column 8 – Exposure Net of Collateral (Book/Adjusted Carrying Value)

For the aggregate reporting of Exchange-Traded Derivatives (Line 0199999999), show the amount in Column 6.

For OTC counterparties, if no master agreement is in place, show the sum of the Book/Adjusted Carrying Values of all derivative instruments with the counterparty that has a positive Book/Adjusted Carrying Value, less any Acceptable Collateral and Present Value of Financing Premiums (Column 6 – Column 4 – Column 5).

For OTC counterparties with a master agreement in place and central clearinghouses, show the net sum of the Book/Adjusted Carrying Values of all derivative instruments, less any acceptable collateral and present value of financing premiums (Column 6 + Column 7 – Column 4 – Column 5).

This amount should not be less than zero.

For Columns 9 and 10, market values that would be debit balances on the balance sheet are positive numbers; those that would be credit balances are negative numbers.

- Column 9 – Contracts with Fair Value > 0 (i.e., debit balance on the balance sheet)
- Show the sum of the market values of all derivative instruments that have a positive market value.
- Column 10 – Contracts with Fair Value < 0 (i.e., credit balance on the balance sheet)
- Show the sum of the market values in parentheses () of all derivative instruments that have a negative market value.
- Column 11 – Exposure Net of Collateral (Fair Value)
- For the aggregate reporting of Exchange-Traded Derivatives (Line 019999999), show the amounts in Column 9.
- For OTC counterparties, if no master agreement is in place, show the sum of the market values of all derivative instruments with the counterparty that has a positive market value, less any acceptable collateral (Column 9 – Column 4).
- For OTC counterparties with a master agreement in place, exchange-traded derivatives and central clearinghouses show the net sum of the market values of all derivative instruments, less any acceptable collateral (Column 9 + Column 10 – Column 4).
- This amount should not be less than zero.
- Column 12 – Potential Exposure
- Show the potential exposure for Parts A and B for Exchange-Traded Derivatives in aggregate (Line 019999999) and for each OTC counterparty and central clearinghouse.
- Column 13 – Off-Balance Sheet Exposure
- For Exchange-Traded Derivatives (Line 019999999), show Column 12.
- For central clearinghouses:
- Show $[\text{Column 6} + \text{Column 7} - \text{Column 4} + \text{Column 12}] - \text{Column 8}$ but not less than zero.
- For OTC counterparties:
- If Column 2 = yes; show $[\text{Column 6} + \text{Column 7} - \text{Column 4} - \text{Column 5} + \text{Column 12}] - \text{Column 8}$ but not less than zero.
- If Column 2 = no; show Column 12.
- Optional: If there is no master netting agreement, companies may still encounter double-counting in cases where a premium is received for an off-balance sheet derivative transaction, such as an interest rate swap. In such cases, report “no” in Column 2 and calculate off-balance sheet exposure on a contract-by-contract basis using the first formula.

**** Column 14 and 15 will be electronic only. ****

Column 14 – Legal Entity Identifier (LEI)

Provide the 20-character Legal Entity Identifier (LEI) for any counterparty as assigned by a designated Local Operating Unit. If no LEI number has been assigned, leave blank.

4. Securitization or similar investment vehicles such as mutual funds, limited partnerships and limited liability companies in which the structure reflects an in-substance related party transaction but does not involve a relationship with a related party as sponsor, originator, manager, servicer or other similar influential role.
5. The investment is identified as related party, but the role of the related party represents a different arrangement than the options provided in choices 1-4.
6. The investment does not involve a related party.

SCHEDULE DL – PART 1

SECURITIES LENDING COLLATERAL ASSETS

Reinvested Collateral Assets Owned December 31 Current Year

(Securities lending collateral assets reported in aggregate on Line 10 of the Asset page
(Line 9 for Separate Accounts) and not included on Schedules A, B, BA, D, DB and E)

This schedule should include a detailed listing of reinvested collateral assets that were owned as of the end of the current reporting year. For Schedule DL, reinvested collateral assets are collateral currently held as part of a securities lending program administered by the reporting entity or its agent (affiliated or unaffiliated) that can be resold or repledged. This is the **currently held collateral**, meaning original collateral if it is still in the original form received or the new invested asset resulting from the disposal and/or reinvestment of the original collateral. See *SSAP No. 103R—Transfers and Servicing of Financial Assets and Extinguishments of Liabilities* for accounting guidance.

Include reinvested collateral assets from securities lending programs where the program is administered by the reporting entity's unaffiliated agent (i.e., collateral is received by the reporting entity's unaffiliated agent that can be resold or repledged). These securities will be reported in aggregate on the Assets page, Line 10.

For reinvested collateral assets from securities lending programs where the program is administered by the reporting entity's affiliated agent (i.e., collateral is received by the reporting entity's affiliated agent that can be resold or repledged), the securities may be reported on Schedule DL, Part 1 if reported in aggregate on the Assets page, Line 10 or reported on Schedule DL, Part 2 if reported in other investment schedules (e.g., Schedules A, B, BA, D, DA and E), but not both.

Reinvested collateral assets reported on Schedule DL, Part 1 are excluded from other investment schedules (e.g., Schedules A, B, BA, D, DA and E).

Bonds, preferred stocks and common stocks are to be grouped separately, showing a subtotal for each category.

Securities borrowing and securities lending transactions shall be shown gross when reported in the Schedule DL. If these transactions are permitted to be reported net in accordance with *SSAP No. 64—Offsetting and Netting of Assets and Liabilities*, the investment schedule shall continue to provide detail of all transactions (gross), with the net amount from the valid right to offset reflected in the financial statements (pages 2 & 3 of the statutory financial statements). Disclosures for items reported net when a valid right to offset exists, including the gross amount, the amount offset, and the net amount reported in the financial statements are required per *SSAP No. 64—Offsetting and Netting of Assets and Liabilities*.

Exchange Traded Funds – as Identified by the SVO, which are described in the Investment Schedules General Instructions, are to be included in SVO Identified Funds.

If an insurer has any detail lines reported for any of the following required categories or subcategories, it shall report the subtotal amount of the corresponding category or subcategory, with the specified subtotal line number appearing in the same manner and location as the pre-printed total or grand total line and number:

NOTE: See the Investment Schedules General Instructions for the following:

- **Category definitions for bonds and stocks.**
- **Code column list of codes and definitions for securities not under the exclusive control of the reporting entity.**
- **List of stock exchange names and abbreviations.**

Column 1 – CUSIP Identification

CUSIP numbers for all purchased publicly issued securities are available from the broker’s confirmation or the certificate. For private placement securities, the NAIC has created a special number called a PPN to be assigned by the Standard & Poor’s CUSIP Bureau. For foreign securities, use a CINS that is assigned by the Standard & Poor’s CUSIP Bureau: www.cusip.com/cusip/index.htm.

For Lines 0019999999 through 2509999999, if no valid CUSIP, CINS or PPN number exists, then the CUSIP field should be zero-filled and a valid ISIN security number should be reported in (Column 11).

The CUSIP reported for this column should be determined in a manner consistent with the instructions of other schedules for the lines shown below:

Lines 0019999999 through 2509999999	Schedule D, Part 1, Column 1
Lines 4019999999 through 4509999999	Schedule D, Part 2, Section 1, Column 1
Lines 5019999999 through 5989999999	Schedule D, Part 2, Section 2, Column 1
Line 9409999999	Schedule BA, Part 1, Column 1
Line 9709999999	Schedule E, Part 2, Column 1

The CUSIP number should be zero-filled for the following lines:

Real Estate (Schedule A type)	9209999999
Mortgage Loans on Real Estate (Schedule B type).....	9309999999
Short-Term Invested Assets (Schedule DA, Part 1 type).....	9509999999

Column 2 – Description

Give a complete and accurate description of all bonds and preferred and common stocks as listed in the *Valuations of Securities*.

For Exchange Traded Funds – as Identified by the SVO, enter complete name of the fund.

For Certificate of Deposit Account Registry Service (CDARs) or other similar services that have a maturity of greater than one year, individually list the various banking institutions that are financially responsible for honoring certificates of deposit.

Column 3 – Code

Enter “*” in this column for all SVO Identified Funds designated for systematic value.

Enter “@” in this column for all Principal STRIP Bonds or other zero-coupon bonds.

Enter “&” in this column for TBA (To Be Announced) securities.

Enter “^” in this column for all assets that are bifurcated between the insulated separate account filing and the non-insulated separate account filing.

If assets are not under the exclusive control of the company as shown in the General Interrogatories, they are to be identified by placing one of the codes (**identified in the Investment Schedules General Instructions**) in this column.

If the security is an SVO Identified Fund designated for systematic value, Principal STRIP bond or other zero coupon bond, certificates of deposit under the FDIC limit or a TBA (To Be Announced) security and is not under the exclusive control of the company, the “*”, “@” or “&” should appear first, immediately followed by the appropriate code (**identified in the Investment Schedules General Instructions**).

Separate Account Filing Only:

If the asset is a bifurcated asset between the insulated separate account filing and the non-insulated separate account filing, the “^” should appear first and may be used simultaneously with the “*”, “@” or “&” with the “^” preceding the other characters (“*”, “@” or “&”) depending on the asset being reported, immediately followed by the appropriate code (**identified in the Investment Schedules General Instructions**).

Column 4 – NAIC Designation, NAIC Designation Modifier and SVO Administrative Symbol

**** Columns 8 through 12 will be electronic only. ****

Column 8 – Fair Value Hierarchy Level and Method Used to Obtain Fair Value Code

Whenever possible, fair value should represent the price at which the security could be sold, based on market information. Fair value should only be determined analytically when the market-based value cannot be obtained.

The following is a listing of valid fair value level indicators to show the fair value hierarchy level.

- “1” for Level 1
- “2” for Level 2
- “3” for Level 3

The following is a listing of the valid method indicators to show the method used by the reporting entity to determine the Rate Used to Obtain Fair Value.

- “a” for securities where the rate is determined by a pricing service.
- “b” for securities where the rate is determined by a stock exchange.
- “c” for securities where the rate is determined by a broker or custodian. The reporting entity should obtain and maintain the pricing policy for any broker or custodian used as a pricing source. In addition, the broker must either be approved by the reporting entity as a counterparty for buying and selling securities or be an underwriter of the security being valued.
- “d” for securities where the rate is determined by the reporting entity. The reporting entity is required to maintain a record of the pricing methodology used.
- “e” for securities where the rate is determined by the unit price published in the NAIC *Valuation of Securities*.

Enter a combination of hierarchy and method indicator. The fair value hierarchy level indicator would be listed first and the method used to determine fair value indicator would be listed next. For example, use “1b” to report Level 1 for the fair value hierarchy level and stock exchange for the method used to determine fair value.

The guidance in *SSAP No. 100R—Fair Value* allows the use of net asset value per share (NAV) instead of fair value for certain investments. If NAV is used instead of fair value leave blank.

Column 9 – Source Used to Obtain Fair Value

For Method Code “a,” identify the specific pricing service used.

For Method Code “b,” identify the specific stock exchange used.

The listing of most **stock exchange codes can be found in the Investment Schedules General Instructions.**

For Method Code “c,” identify the specific broker or custodian used.

For Method Code “d,” leave blank.

For Method Code “e,” leave blank.

If net asset value (NAV) is used instead of fair value, the reporting entity should use “NAV” to indicate net asset value used instead of fair value.

Column 10 – Legal Entity Identifier (LEI)

Provide the 20-character Legal Entity Identifier (LEI) for any mortgagor, issuer or counterparty as assigned by a designated Local Operating Unit. If no LEI number has been assigned, leave blank.

Column 11 – ISIN Identification

The International Securities Identification Numbering (ISIN) system is an international standard set up by the International Organization for Standardization (ISO). It is used for numbering specific securities, such as stocks, bonds, options and futures. ISIN numbers are administered by a National Numbering Agency (NNA) in each of their respective countries, and they work just like serial numbers for those securities. Record the ISIN number only if no valid CUSIP, CINS or PPN exists to report in Column 1.

The ISIN reported for this column should be determined in a manner consistent with the instructions of other schedules for the lines shown below:

- Lines 0019999999 through 2509999999 Schedule D, Part 1, Column 1
- Lines 4019999999 through 4509999999 Schedule D, Part 2, Section 1, Column 1
- Lines 5019999999 through 5989999999 Schedule D, Part 2, Section 2, Column 1

The ISIN number should be zero-filled for the following lines:

- Real Estate (Schedule A type) 9209999999
- Mortgage Loans on Real Estate (Schedule B type)..... 9309999999
- Other Invested Assets (Schedule BA type)..... 9409999999

- Other Assets..... 9809999999

Column 12 – Investments Involving Related Parties

Required for all investments involving related parties including, but not limited to, those captured as affiliate investments. This disclosure intends to capture information on investments held that reflect interactions involving related parties, regardless of whether the related party meets the affiliate definition, or the reporting entity has received domiciliary state approval to disclaim control/affiliation.

Enter one of the following codes to identify the role of the related party in the investment.

1. Direct loan or direct investment (excluding securitizations) in a related party, for which the related party represents a direct credit exposure.
2. Securitization or similar investment vehicles such as mutual funds, limited partnerships and limited liability companies involving a relationship with a related party as sponsor, originator, manager, servicer, or other similar influential role and for which 50% or more of the underlying collateral represents investments in or direct credit exposure to related parties.
3. Securitization or similar investment vehicles such as mutual funds, limited partnerships and limited liability companies involving a relationship with a related party as sponsor, originator, manager, servicer or other similar influential role and for which less than 50% (including 0%) of the underlying collateral represents investments in or direct credit exposure to related parties.
4. Securitization or similar investment vehicles such as mutual funds, limited partnerships and limited liability companies in which the structure reflects an in-substance related party transaction but does not involve a relationship with a related party as sponsor, originator, manager, servicer or other similar influential role.
5. The investment is identified as related party, but the role of the related party represents a different arrangement than the options provided in choices 1-4.
6. The investment does not involve a related party.

The code reported for this column should be determined in a manner consistent with the instructions of other schedules for the lines shown below:

Lines 001999999 through 250999999	Schedule D, Part 1, Column 35

General Interrogatories:

1. The total activity for the year represents the net increase/(decrease) from the prior year-end to the current year-end.
2. The average balance for the year is the average daily balance.

Average daily balance: Total of daily balances divided by the number of days. Always calculate based on a 365/366 day year. If data is missing for a given date (e.g., weekend, holiday), count the previous day's value multiple times. The actual day count for the year (365/366) would serve as the denominator in the average calculation.

3. NAIC Designation Category:

Provide the total book/adjusted carrying value amount by NAIC Designation Category that represents the amount reported in Column 6.

SCHEDULE DL – PART 2

SECURITIES LENDING COLLATERAL ASSETS

Reinvested Collateral Assets Owned December 31 Current Year
(Securities lending collateral assets included on Schedules A, B, BA, D, DB and E
and not reported in aggregate on Line 10 of the Asset page (Line 9 for Separate Accounts))

This schedule should include a detailed listing of reinvested collateral assets that were owned as of the end of the current reporting year. For Schedule DL, reinvested collateral assets are collateral currently held as part of a securities lending program administered by the reporting entity or its agent (affiliated or unaffiliated) that can be resold or repledged. This is the **currently held collateral**, meaning original collateral if it is still in the original form received or the new invested asset resulting from the disposal and/or reinvestment of the original collateral. See *SSAP No. 103R—Transfers and Servicing of Financial Assets and Extinguishments of Liabilities* for accounting guidance.

Include reinvested collateral assets from securities lending programs where the program is administered by the reporting entity (i.e., collateral is received by the reporting entity that can be resold or repledged).

For reinvested collateral assets from securities lending programs where the program is administered by the reporting entity's affiliated agent (i.e., collateral is received by the reporting entity's affiliated agent that can be resold or repledged), the securities may be reported on Schedule DL, Part 2 if reported in other investment schedules (e.g., Schedules A, B, BA, D, DA and E) or reported on Schedule DL, Part 1 if reported in aggregate on the Assets page, Line 10, but not both.

Reinvested collateral assets reported on Schedule DL, Part 2 are included in the other investment schedules (e.g., Schedules A, B, BA, D, DA and E).

Bonds, preferred stocks and common stocks are to be grouped separately, showing a subtotal for each category.

Securities borrowing and securities lending transactions shall be shown gross when reported in the Schedule DL. If these transactions are permitted to be reported net in accordance with *SSAP No. 64—Offsetting and Netting of Assets and Liabilities*, the investment schedule shall continue to provide detail of all transactions (gross), with the net amount from the valid right to offset reflected in the financial statements (pages 2 & 3 of the statutory financial statements). Disclosures for items reported net when a valid right to offset exists, including the gross amount, the amount offset, and the net amount reported in the financial statements are required per *SSAP No. 64—Offsetting and Netting of Assets and Liabilities*.

Exchange Traded Funds – as Identified by the SVO that are described in the Investment Schedules General Instructions are to be included in SVO Identified Funds.

If an insurer has any detail lines reported for any of the following required categories or subcategories, it shall report the subtotal amount of the corresponding category or subcategory, with the specified subtotal line number appearing in the same manner and location as the pre-printed total or grand total line and number:

NOTE: See the Investment Schedules General Instructions for the following:

- **Category definitions for bonds and stocks.**
- **Code column list of codes and definitions for securities not under the exclusive control of the reporting entity.**
- **List of stock exchange names and abbreviations.**

Column 1 – CUSIP Identification

CUSIP numbers for all purchased publicly issued securities are available from the broker’s confirmation or the certificate. For private placement securities, the NAIC has created a special number called a PPN to be assigned by the Standard & Poor’s CUSIP Bureau. For foreign securities, use a CINS that is assigned by the Standard & Poor’s CUSIP Bureau: www.cusip.com/cusip/index.htm.

For Lines 0019999999 through 2509999999, if no valid CUSIP, CINS or PPN number exists, then the CUSIP field should be zero-filled and a valid ISIN security number should be reported in (Column 11).

The CUSIP reported for this column should be same for the security as reported in other schedules for the lines shown below:

Lines 0019999999 through 2509999999	Schedule D, Part 1, Column 1
Lines 4019999999 through 4509999999	Schedule D, Part 2, Section 1, Column 1

Line 9409999999	Schedule BA, Part 1, Column 1
Line 9709999999	Schedule E, Part 2, Column 1

The CUSIP number should be zero-filled for the following lines:

Enter “@” in this column for all Principal STRIP Bonds or other zero-coupon bonds.

Enter “&” in this column for TBA (To Be Announced) securities.

Enter “^” in this column for all assets that are bifurcated between the insulated separate account filing and the non-insulated separate account filing.

If assets are not under the exclusive control of the company as shown in the General Interrogatories, they are to be identified by placing one of the codes (**identified in the Investment Schedules General Instructions**) in this column.

If the security is an SVO Identified Fund designated for systematic value, Principal STRIP bond or other zero coupon bond, certificates of deposit under the FDIC limit or a TBA (To Be Announced) security and is not under the exclusive control of the company, the “*”, “@” or “&” should appear first, immediately followed by the appropriate code (**identified in the Investment Schedules General Instructions**).

Separate Account Filing Only:

If the asset is a bifurcated asset between the insulated separate account filing and the non-insulated separate account filing, the “^” should appear first and may be used simultaneously with the “*”, “@” or “&” with the “^” preceding the other characters (“*”, “@” or “&”) depending on the asset being reported, immediately followed by the appropriate code (**identified in the Investment Schedules General Instructions**).

- Lines 4019999999 through 4509999999 Schedule D, Part 2, Section 1, Column 8

**** Columns 8 through 12 will be electronic only. ****

Column 8 – Fair Value Hierarchy Level and Method Used to Obtain Fair Value Code

Whenever possible, fair value should represent the price at which the security could be sold, based on market information. Fair value should only be determined analytically when the market-based value cannot be obtained.

The following is a listing of valid fair value level indicators to show the fair value hierarchy level.

- “1” for Level 1
- “2” for Level 2
- “3” for Level 3

The following is a listing of the valid method indicators to show the method used by the reporting entity to determine the Rate Used to Obtain Fair Value.

- “a” for securities where the rate is determined by a pricing service.
- “b” for securities where the rate is determined by a stock exchange.
- “c” for securities where the rate is determined by a broker or custodian. The reporting entity should obtain and maintain the pricing policy for any broker or custodian used as a pricing source. In addition, the broker must either be approved by the reporting entity as a counterparty for buying and selling securities or be an underwriter of the security being valued.
- “d” for securities where the rate is determined by the reporting entity. The reporting entity is required to maintain a record of the pricing methodology used.
- “e” for securities where the rate is determined by the unit price published in the NAIC *Valuation of Securities*.

Enter a combination of hierarchy and method indicator. The fair value hierarchy level indicator would be listed first and the method used to determine fair value indicator would be listed next. For example, use “1b” to report Level 1 for the fair value hierarchy level and stock exchange for the method used to determine fair value.

The guidance in *SSAP No. 100R—Fair Value* allows the use of net asset value per share (NAV) instead of fair value for certain investments. If NAV is used instead of fair value leave blank.

Column 9 – Source Used to Obtain Fair Value

For Method Code “a,” identify the specific pricing service used.

For Method Code “b,” identify the specific stock exchange used.

The listing of most **stock exchange codes can be found in the Investment Schedules General Instructions.**

For Method Code “c,” identify the specific broker or custodian used.

For Method Code “d,” leave blank.

For Method Code “e,” leave blank.

If net asset value (NAV) is used instead of fair value, the reporting entity should use “NAV” to indicate net asset value used instead of fair value.

Column 10 – Legal Entity Identifier (LEI)

Provide the 20-character Legal Entity Identifier (LEI) for any mortgagor, issuer or counterparty as assigned by a designated Local Operating Unit. If no LEI number has been assigned, leave blank.

Column 11 – ISIN Identification

The International Securities Identification Numbering (ISIN) system is an international standard set up by the International Organization for Standardization (ISO). It is used for numbering specific securities, such as stocks, bonds, options and futures. ISIN numbers are administered by a National Numbering Agency (NNA) in each of their respective countries, and they work just like serial numbers for those securities. Record the ISIN number only if no valid CUSIP, CINS or PPN exists to report in Column 1.

The ISIN reported for this column should be same for the security as reported in other schedules for the lines shown below:

- Lines 0019999999 through 2509999999 Schedule D, Part 1, Column 1
- Lines 4019999999 through 4509999999 Schedule D, Part 2, Section 1, Column 1
- Lines 5019999999 through 5989999999 Schedule D, Part 2, Section 2, Column 1

The ISIN number should be zero-filled for the following lines:

- Real Estate (Schedule A) 9209999999
- Mortgage Loans on Real Estate (Schedule B) 9309999999
- Other Invested Assets (Schedule BA)..... 9409999999
- Short-Term Invested Assets (Schedule DA, Part 1)..... 9509999999
- Cash (Schedule E, Part 1) 9609999999
- Cash Equivalents (Schedule E, Part 2)..... 9709999999
- Other Assets..... 9809999999

Column 12 – Investments Involving Related Parties

Required for all investments involving related parties including, but not limited to, those captured as affiliate investments. This disclosure intends to capture information on investments held that reflect interactions involving related parties, regardless of whether the related party meets the affiliate definition, or the reporting entity has received domiciliary state approval to disclaim control/affiliation.

Enter one of the following codes to identify the role of the related party in the investment.

1. Direct loan or direct investment (excluding securitizations) in a related party, for which the related party represents a direct credit exposure.
2. Securitization or similar investment vehicles such as mutual funds, limited partnerships and limited liability companies involving a relationship with a related party as sponsor, originator, manager, servicer, or other similar influential role and for which 50% or more of the underlying collateral represents investments in or direct credit exposure to related parties.
3. Securitization or similar investment vehicles such as mutual funds, limited partnerships and limited liability companies involving a relationship with a related party as sponsor, originator, manager, servicer or other similar influential role and for which less than 50% (including 0%) of the underlying collateral represents investments in or direct credit exposure to related parties.
4. Securitization or similar investment vehicles such as mutual funds, limited partnerships and limited liability companies in which the structure reflects an in-substance related party transaction but does not involve a relationship with a related party as sponsor, originator, manager, servicer or other similar influential role.
5. The investment is identified as related party, but the role of the related party represents a different arrangement than the options provided in choices 1-4.
6. The investment does not involve a related party.

The code reported for this column should be same for the security as reported in other schedules for the lines shown below:

Lines 001999999 through 250999999	Schedule D, Part 1, Column 35
Lines 401999999 through 450999999	Schedule D, Part 2, Section 1, Column 28

Line 950999999	Schedule DA, Part 1, Column 23
Line 970999999	Schedule E, Part 2, Column 12

The column should be left blank for the following lines:

Real Estate (Schedule A)	9209999999
Cash (Schedule E, Part 1)	9609999999
Other Assets.....	9809999999

General Interrogatories:

1. The total activity for the year represents the net increase/(decrease) from the prior year-end to the current year-end.
2. The average balance for the year is the average daily balance.

Average daily balance: Total of daily balances divided by the number of days. Always calculate based on a 365/366 day year. If data is missing for a given date (e.g., weekend, holiday), count the previous day's value multiple times. The actual day count for the year (365/366) would serve as the denominator in the average calculation.

SCHEDULE E – PART 1 – CASH

This schedule shows all banks, trust companies, savings and loan and building and loan associations in which the Company maintained deposits at any time during the year and the balances, if any (according to Reporting Entity’s record), on December 31 of the current year. Certificates of deposit in banks or other similar financial institutions with maturity dates of one year or less from the acquisition date and other instruments defined as cash in accordance with *SSAP No. 2R—Cash, Cash Equivalents, Drafts, and Short-Term Investments* should be reported in this schedule. All Cash Equivalents should be reported in Schedule E, Part 2. Long-term certificates of deposit are to be reported in Schedule D.

In each case where the depository is not incorporated and subject to government supervision, the word “PRIVATE” in capitals and in parentheses — (PRIVATE) — should be inserted to the left of the name of the depository.

Report separately all deposits in excess of \$250,000 or less than (\$250,000). Deposits not exceeding \$250,000 or not less than (\$250,000) in federally insured depositories may be combined. Deposits in foreign bank accounts may be combined to the extent that the amount on deposit does not exceed the lesser of \$250,000 or the amount of the foreign guarantee. The amount combined should be reported opposite the caption, “Deposits in (insert number) depositories that do not exceed the allowable limit.” However, any reporting entity that does not maintain total deposits in any one depository of more than \$250,000 is required to list its primary depository; and all entities must list all depositories where the total deposits or overdrafts (as represented by the absolute value) exceed 5% of the total cash as reported on Page 2 of the annual statement.

For Certificate of Deposit Account Registry Service (CDARs) or other similar services that have a maturity of one year or less, each individual banking institution providing a certificate of deposit should be reviewed separately to determine if the balance maintained by the reporting entity at that banking institution meets the criteria set forth above (i.e., does not exceed \$250,000 or is not less than (\$250,000) in federally insured depositories) for combining with other depository balances. If not, it should be listed individually on the schedule.

Cash in Reporting Entity’s Office should be reported in this schedule.

The total of all Cash on Deposit at December 31 plus Cash in Reporting Entity’s office (Total Cash, on a gross basis), less any applicable nonadmitted amounts (e.g., nonadmitted cash resulting from state-imposed limitations), should equal the parenthetical amount reported as cash on the Assets Page.

If the reporting entity has any detail lines reported for any of the following required groups, categories, or subcategories, it shall report the subtotal amount of the corresponding group, category, or subcategory, with the specified subtotal line number appearing in the same manner and location as the pre-printed total or grand total line and number:

Refer to *SSAP No. 23—Foreign Currency Transactions and Translations* for accounting guidance related to foreign currency transactions and translations.

Short Sales:

Selling a security short is an action by a reporting entity that results with the reporting entity recognizing proceeds from the sale and an obligation to deliver the sold security. For statutory accounting purposes, obligations to deliver securities resulting from short sales shall be reported as contra-assets (negative assets) in the investment schedule, with an investment code in the code column detailing the item as a short sale. The obligation (negative asset) shall be initially reflected at fair value, with changes in fair value recognized as unrealized gains and losses. These unrealized gains and losses shall be realized upon settlement of the short sale obligation. Interest on short sale positions shall be accrued periodically and reported as interest expense.

If a reporting entity has any detail lines reported for any of the following required categories or subcategories, it shall report the subtotal amounts of the corresponding category or subcategory with the specified subtotal line number appearing in the same manner and location as the pre-printed total or grand total line and number:

 Enter “^” in this column for all assets that are bifurcated between the insulated separate account filing and the non-insulated separate account filing.
 If a cash equivalent is not under the exclusive control of the company as shown in the General Interrogatories, it is to be identified by placing one of the **codes identified in the Investment Schedules General Instructions** in this column.
 If the “%” code is used, the “%” code should appear first, immediately followed by the appropriate code for not being under the exclusive control of the company (**identified in the Investment Schedules General Instructions**).

Separate Account Filing Only:

The NAIC Designation Category will be two sub-columns in the data table.

- NAIC Designation Equivalent Column 11A
- NAIC Designation Modifier Equivalent Column 11B

NAIC Designation Equivalent:

For the NAIC Designation Equivalent, use the NAIC Designation that would have been used for the investment had it been reported on Schedule D, Part 1 if available. If no NAIC Designation is available, the reporting entity should use a Designation Equivalent most closely resembles their credit risk the investment.

NAIC Designation Modifier Equivalent:

Use the NAIC Designation Modifier that would have been used for the investment had it been reported on Schedule D, Part 1 if available.

If no NAIC Designation Modifier is available, the reporting entity should use a Designation Modifier Equivalent most closely resembles their credit risk the investment.

As defined in the P&P Manual, there is not an NAIC Designation Modifier for investments reporting an NAIC Designation 6, therefore, the NAIC Designation Modifier field should be left blank.

Refer to the *Purposes and Procedures Manual of the NAIC Investment Analysis Office* for the application of these codes.

LIFE SUPPLEMENT
TO THE HEALTH ANNUAL STATEMENT

NOTE: Only companies licensed as Life, Accident & Health insurers with life business in force, actively writing life business, or holding reserves for the life lines of business should complete the schedules included in the Life Supplement to the Health Annual Statement.

EXHIBIT 5 – AGGREGATE RESERVES FOR LIFE CONTRACTS

To be filed on or before March 1.

Refer to *SSAP No. 50—Classifications of Insurance or Managed Care Contracts* for life, accident and health and deposit-type contract definitions and *SSAP No. 51R—Life Contracts*. Reserves should be computed on a “gross” basis, i.e., direct and reinsurance assumed combined. Then, deductions for reinsurance ceded should be computed, using the same assumptions for mortality and interest and using the same valuation method, but reflecting the actual mode of reinsurance. If the assuming reinsurer uses different valuation assumptions or method (e.g., reinsurer uses net level, but ceding entity uses CRVM), then deductions for reinsurance ceded by the ceding reporting entity will not necessarily equal reserves established by the assuming reporting entity. No deductions should be taken for reserves ceded under a modified coinsurance arrangement.

If necessary, companies may add lines to report each reserve basis used.

Column 1 – Valuation Standard

State table of mortality, disability, etc. rate of interest; distinguish between: (1) net level premium, and (2) preliminary term, modified preliminary term and select and ultimate standards. Identify reserve basis applicable to new business by inserting “N.B.” on respective lines. Valuation assumptions for mortality, morbidity and other contingencies, interest, and the valuation method should be indicated by years of issue. For annuities, indicate whether immediate, deferred, or both.

In describing the valuation assumptions and valuation methods, abbreviate as follows:

Column 5 – Credit (Group and Individual)

Include: Business not exceeding 120 months.

Refer to *SSAP No. 59—Credit Life and Accident and Health Insurance Contracts* for accounting guidance.

Life Insurance

Include the reserve for future transfers of un-accrued tabular net premiums to the end of the current contract year for variable life insurance contracts.

Accidental Death Benefits

If reserve for accidental death benefits under group life contracts is carried in Life Insurance, write “Included Above” in Column 6.

Disability – Active Lives

If reserve for disability under group life contracts is carried in Life Insurance, write “Included Above” in Column 6.

Disability – Disabled Lives

Include “un-accrued” portion of liability for incurred claims (whether reported or unreported).

Miscellaneous Reserves

Classification by mortality and interest standards not required.

If the company has no liability in respect to one of these items, write “None” in the total Column. If the liability in respect to one of these items is carried under Life Insurance to Disability, write “Included on preceding page” in the total Column.

The words “return of premiums” in Line 2 of this section do not refer to benefits under so-called return premium contracts, but to the return of some part of the premium paid for the period current at the time of death. Compute reserve on basis of level premiums, not successive one-year term premiums.

Include the reserve for variable life insurance minimum death benefit guarantees in this section.

Footnote (a):

Deposit-type contracts such as GICs and supplemental contracts are generally reported in Exhibit 7 – Deposit Type Contracts. However, certain contracts (which have similar characteristics to deposit-type contracts) incorporate mortality risk components which qualify those contracts to be reported in Exhibit 5 – Aggregate Reserve for Life Contracts. A common example is a supplemental contract which provides for a life-contingent payout with a specified certain period. Because the contract was life-contingent at issue, it is reported in Exhibit 5 and remains in Exhibit 5 after the death of the annuitant as remaining guaranteed payments continue to the beneficiary. Additionally, state insurance departments have the discretion to approve or require a contract to be classified as a life insurance contract. This footnote captures the amounts reported on Exhibit 5 for deposit-type contracts that originally contained a mortality risk, but no longer contain that risk.

EXHIBIT 5 – INTERROGATORIES

To be filed on or before March 1.

Interrogatories 1 and 2

If the response to Interrogatories 1 and 2 indicate that the reporting entity issues or has issued participating insurance, the reporting entity shall supply the response to these interrogatories and the actuarial opinion shall be supplied as an attachment to the annual statement.

The following interrogatories deal with dividends or refunds:

- i. Apportioned for payment during (year following year of statement); and
- ii. In effect as of January 1, (year following year of statement) that are illustrated for payment on new or existing business in (second year following year of statement) and later that are authorized for illustration by the reporting entity.

INSTRUCTIONS FOR ACTUARIAL OPINION

Process of Dividend or Refund Determination

Describe the general methods and procedures used to determine dividends or refunds. The term “refunds” is limited to amounts declared by Fraternal organizations, paid or payable, to its members. Experience rating refunds are excluded.

Description of Experience Factors

Describe the basis used in making any distinction in experience factors that underlie the determination of dividends or refunds. The description should specifically include the basis for the following:

- a. Investment income factors
- b. Claims factors
- c. Expense factors
- d. Termination factors
- e. Any other factors that may have a material effect on the dividends or refunds of any group of contracts.

Also, describe in a qualitative way any material changes made in the bases used to determine those factors.

Actuarial Interrogatories

- I. Has the contribution principle been followed in determining dividends or refunds? If not, describe.
- II. Has any material change occurred with respect to the determination of contract factors? If yes, describe.
- III. Have there been any changes in the scales of dividends or refunds on new or existing business authorized for illustration by the reporting entity? If yes, describe in general the changes that were made,
- IV. Have there been any changes in the scales of dividends or refunds apportioned for payment? If yes, describe in general the changes that were made.
- V. For each major block of business, indicate when the dividend or refund scale was last changed (including changes described in IV, above), and indicate the extent of such change in terms of the percentage by which dividends or refunds payable under the new scale exceeded or were less than those that would have been paid in the year of change had the scale not been changed.
- VI. Does the dividend or refund scale incorporate the use of projections or forecasts of experience factors for any period in excess of two years beyond the effective date of the scale? If yes, describe.
- VII. In the basis of determining investment income experience factors, state whether the reporting entity uses (a) a portfolio average approach, (b) an investment generation approach, or (c) a combination of the two approaches. If (b) or (c), describe the general basis used, including the issue year groupings.

VIII. With respect to contract loan provisions:

Describe how differences in such provisions affect dividends or refunds.

Does the dividend or refund scale contain any provision for varying the amount of dividend or refund in accordance with the extent to which an individual contract's loan provision is utilized? If yes, indicate the blocks of business where this treatment pertains, and describe the basis of variation used.

IX. Does the reporting entity pay termination dividends or refunds on its contracts? If yes:

- a. Are they payable on death, surrender, and maturity?
- b. Are they payable or credited either upon the commencement of nonforfeiture insurance or upon termination thereof by death, surrender, or maturity?

XIV. Describe any material changes in the basis of determination of the dividend or refund scale that are not covered above.

The actuarial opinion should include a paragraph such as the following regarding dividends and refunds:

ACTUARIAL OPINION

"I, (name, title), am (relationship to Reporting Entity) and a Member of the American Academy of Actuaries. I have examined the actuarial assumptions and methods used in determining dividends or refunds under the dividend or refund scale for the individual participating life insurance contracts of the reporting entity issued for delivery in the United States. The dividends or refunds encompassed by this scale include:

- i. Apportioned for payment during (year following year of statement); and
- ii. In effect as of January 1, (year following year of statement) that are illustrated for payment on new or existing business in (second year following year of statement) and later that are authorized for illustration by the reporting entity.

My examination included such review of the actuarial assumptions and methods of the underlying basic records and such tests of the actuarial calculations, as I consider necessary. In my opinion, these dividends or refunds have been determined in accordance with Actuarial Standards of Practice issued by the Actuarial Standards Board applicable to the determination of dividends or refunds except as described above.

Interrogatory 3

This interrogatory relates to the determination of nonguaranteed elements in individual life insurance and annuity contracts that provide for the adjustment of benefits, premiums or charges from time to time. For purposes of this question, the term “determination” shall mean both determination at issue and subsequent redetermination.

For the purpose of this interrogatory, “Individual Contracts” includes contracts issued under the “group” umbrella of any trust that does not have the discretion to select the reporting entity(ies) on behalf of all the individual reporting entities.

The specific types of business encompassed by this question include, but are not limited to, the following types of contracts if they contain nonguaranteed elements:

1. Single and periodic premium deferred annuities.
2. Universal Life contracts providing for fixed and/or flexible premiums.
3. Adjustable periodic premium life contracts, also known as indeterminate premium life contracts.
4. Single and periodic premium life contracts.
5. Renewable and convertible term insurance contracts which do not guarantee the premiums payable upon renewal, or which provide for renewal on the then current premium basis.

The term “nonguaranteed” does not apply to charges or benefits that contractually follow a separate account result or a defined index.

INSTRUCTIONS FOR ACTUARIAL OPINION

Determination Procedures

For all contracts subject to this interrogatory which were first introduced during the current year and for any other such contracts not previously reported, define the reporting entity’s contract to be used in the process of determining nonguaranteed elements, with particular reference to the degree of discretion reserved for the reporting entity, together with the general methods and procedures which are expected to be used.

Actuarial Interrogatories

- I. Since this statement was last filed, have there been any changes in the values of nonguaranteed elements on new or existing business authorized for illustration by the reporting entity? If yes, describe the changes that were made.
- II. Since this statement was last filed, have there been any changes in the values of nonguaranteed elements actually charged or credited? If yes, describe the changes that were made.
- III. Indicate to what extent any change described in 1 or 2 varies from the contract and/or general methods and procedures last reported for the affected contracts.
- IV. Are the anticipated experience factors underlying any nonguaranteed elements different from current experience? If yes, describe in general terms the ways in which future experience is anticipated to differ from current experience and the nonguaranteed element factors that are affected by such anticipation.
- V. State whether anticipated investment income experience factors are based on: (a) a portfolio average approach, (b) an investment generation approach, or (c) other. If (b) or (c), describe the general basis used, including the investment generation groupings.
- VI. Describe how the reporting entity allocates anticipated experience among its various classes of business.
- VII. Does the undersigned believe there is a substantial probability that illustrations authorized by the reporting entity to be presented on new and existing business cannot be supported by currently anticipated experience? If yes, indicate which classes and explain.

VIII. Describe any aspects of the determination of nonguaranteed elements not covered above that involve material departures from the Actuarial Standards of Practice issued by the Actuarial Standards Board, applicable to the determination of nonguaranteed elements.

The actuarial opinion should include a paragraph such as the following regarding nonguaranteed elements:

ACTUARIAL OPINION

“I, (name, title), am (relationship to Company) and a Member of the American Academy of Actuaries. I have examined the actuarial assumptions and methods used in determining nonguaranteed elements for the individual life insurance and annuity contracts of the reporting entity used for delivery in the United States. The nonguaranteed elements included are those:

- i. Paid, credited, charged or determined in (year of statement); and
- ii. Authorized by the Reporting Entity to be illustrated on new and existing business during (year of statement).

My examination included such review of the actuarial assumptions and methods of the underlying basic records and such tests of the actuarial calculations, as I considered necessary. In my opinion, the nonguaranteed elements described above have been determined in accordance with Actuarial Standards of Practice issued by the Actuarial Standards Board applicable to the determination of nonguaranteed elements, except as described above.

Interrogatory 7

For purposes of this footnote disclosure, a synthetic GIC is defined as a contract or agreement in which the insurance entity guarantees specified payouts under the terms of an employee benefit plan from assets not owned by the insurance entity.

Interrogatory 8

For purposes of this footnote disclosure, a Contingent Deferred Annuity is defined as an annuity contract that establishes a life insurer’s obligation to make periodic payments for the annuitant’s lifetime at the time designated investments, which are not owned or held by the insurer, are depleted to a contractually defined amount due to contractually permitted withdrawals, market performance, fees and/or other charges.

Interrogatory 9

For purposes of this footnote disclosure, a Guaranteed Lifetime Income Benefit is defined as a fixed deferred annuity contract, agreement or rider in which the insurance entity guarantees specified payouts during the lifetime of the insured(s) regardless of the performance of a contractual account value that is used to determine cash surrender values and traditional withdrawal benefits.

SCHEDULE S – REINSURANCE

These parts (except Part 1 that shows reinsurance assumed) provide an analysis by reinsurance carrier of reinsurance ceded data shown in total in various parts of the statement. Information is included on all reinsurance ceded to other entities authorized as well as unauthorized or certified in the state of domicile of the reporting entity. Additional data for unauthorized companies is displayed in Part 4; additional data for certified reinsurers is displayed in Part 5.

NOTE: Certified reinsurer status applies on a prospective basis and is determined by the state of domicile of the ceding insurer. Reciprocal jurisdiction reinsurer status applies on a prospective basis and is for reinsurance agreements entered into, amended, or renewed on or after the effective date of the domiciliary state of the ceding entity enacting the 2019 revisions to the Credit for Reinsurance Models, and only with respect to losses incurred and reserves reported on or after the later of (i) the date on which the assuming insurer has met all eligibility requirements, and (ii) the effective date of the new reinsurance agreement, amendment, or renewal. As such, it is possible that a ceding insurer will report reinsurance balances applicable to a single assuming insurer under multiple classifications within Schedule S. For example, with respect to a certified reinsurer that was considered unauthorized prior to certification, balances attributable to contracts entered into prior to the assuming insurer’s certification would be reported in the unauthorized classification, while balances attributable to contracts entered into or renewed on or after the assuming insurer’s certification would be reported in the certified classification. This will also be the case for reciprocal jurisdiction reinsurance, which may have been classified as certified reinsurance prior to the enactment of the 2019 revisions to the Credit for Reinsurance Models by the domiciliary state of the ceding entity. Proper classification of such balances is essential to ensure accurate reporting of collateral requirements applicable to specific balances and the corresponding calculation of the liability for unauthorized and/or certified reinsurance.

Effective date as used in this schedule is the date the contract originally went into effect.

Where name of company is specified, show the full corporate name of the company to which reinsurance is ceded.

The reinsurance type should be entered in all capital letters, and all reinsurance types must be followed by /G (for Group) or /I (for Individual).

Illustration for reporting MODCO activity

From time to time, an entity that assumes the risk on a block of business may cede that same block to another entity. This type of transaction is often called a “retrocession.” The following example illustrates the reporting. Entity A enters into a modified coinsurance arrangement with Entity B for new individual life insurance policies. At year-end the “modco” reserves held by Entity A totaled \$1,000. Concurrent with the agreement, Entity B enters into a similar arrangement with Entity C covering the same block of business. Entity A would list Entity B on Schedule S, Part 3 Section 1 with a type code of MCO/I and report \$1,000 in Column 14 along with the other relevant information. Entity B would list Entity A in Schedule S, Part 1, Section 1, with a type code of MCO/I and report \$1,000 in Column 9 and 12 along with the other relevant information. Entity B would also list Entity C in Schedule S, Part 3 Section 1, reporting \$1,000 in Column 14 along with the other relevant information. Entity C would list Entity B in Schedule S, Part 1, Section 1, reporting \$1,000 in Column 9 and 12 along with the other relevant information.

Due Date

To be filed on or before March 1.

ID Number

Most parts of Schedule S require that the “ID Number” be reported for assuming or ceding entities.

Reinsurance intermediaries should not be listed, because Schedule S is intended to identify only risk-bearing entities.

A ceding insurer can have unauthorized reinsurance, certified reinsurance and reciprocal jurisdiction reinsurance with the same reinsurer, based on when the contract became effective. It is important that the ceding insurer report all types correctly. The same reinsurer may be listed on the same Schedule S by the ceding insurer with an AIIN for unauthorized reinsurance, a CRIN for certified reinsurance, and a RJIN for reciprocal jurisdiction reinsurance.

Use of Federal Employer Identification Number

The Federal Employer Identification Number (FEIN) must be reported for each U.S.-domiciled insurer and U.S. branch of an alien insurer. The FEIN should not be reported as the “ID Number” for other alien insurers, even if the federal government has issued such a number.

Alien Insurer Identification Number (AIIN)

In order to report transactions involving alien companies correctly, the appropriate Alien Insurer Identification Number (AIIN) must be included on Schedule S instead of the FEIN. The AIIN number is assigned by the NAIC and is listed in the NAIC *Listing of Companies*. If an alien company does not appear in that publication, contact the NAIC Financial Systems and Services Department, Company Demographics Analyst at FDRCCREQ@NAIC.ORG for numbers assigned since the last publication or for information on having a number assigned.

Newly assigned numbers are incorporated in revised editions of the NAIC *Listing of Companies*, which are available semi-annually. The NAIC also provides this information to annual statement software vendors for incorporation into the software.

Pool and Association Numbers

In order to correctly report transactions involving non-risk bearing pools or associations consisting of non-affiliated companies, the company must include on Schedule S the appropriate Pool/Association Identification Number. These numbers are listed in the NAIC *Listing of Companies*. The Pool/Association Identification Number should be used instead of any FEIN that may have been assigned. If a pool or association does not appear in that publication, contact the NAIC Financial Systems and Services Department, Company Demographics Analyst at FDRCCREQ@NAIC.ORG for numbers assigned since the last publication or for information on having a number assigned.

Newly assigned numbers are incorporated in revised editions of the NAIC *Listing of Companies*, which are available semi-annually. The NAIC also provides this information to annual statement software vendors for incorporation into the software.

Certified Reinsurer Identification Number (CRIN)

In order to report transactions involving certified reinsurers correctly, the appropriate Certified Reinsurer Identification Number (CRIN) must be included on Schedule S instead of the FEIN, Alien Insurer Identification Number (AIIN) or Reciprocal Jurisdiction Reinsurer Identification Number (RJIN). The CRIN is assigned by the NAIC and is listed in the NAIC *Listing of Companies*. If a certified reinsurer does not appear in that publication, contact the NAIC Financial Systems and Services Department, Company Demographics Analyst at FDRCCREQ@NAIC.ORG for numbers assigned since the last publication or for information on having a number assigned.

Newly assigned numbers are incorporated in revised editions of the NAIC *Listing of Companies*, which are available semi-annually. The NAIC also provides this information to annual statement software vendors for incorporation into the software.

Reciprocal Jurisdiction Reinsurer Identification Number (RJIN)

In order to report transactions involving reciprocal jurisdiction reinsurers correctly, the appropriate Reciprocal Jurisdiction Reinsurer Identification Number (RJIN) must be included on Schedule S instead of the FEIN, AIIN or CRIN. The RJIN number is assigned by the NAIC and is listed in the NAIC *Listing of Companies*. If a company does not appear in that publication, contact the NAIC Financial Systems and Services Department, Company Demographics Analyst at FDRCCREQ@NAIC.ORG for numbers assigned since the last publication or for information on having a number assigned.

Newly assigned numbers are incorporated in revised editions of the NAIC *Listing of Companies*, which are available semi-annually. The NAIC also provides this information to annual statement software vendors for incorporation into the software.

NAIC Company Code

Company codes are assigned by the NAIC and are listed in the NAIC *Listing of Companies*. The NAIC does not assign a company code to insurers domiciled outside of the U.S. or to non-risk bearing pools or associations. The “NAIC Company Code” field should be zero-filled for those organizations. Non-risk bearing pools or associations are assigned a Pool/Association Identification Number. See the “Pool and Association Numbers” section above for details on assignment of Pool/Association Identification Numbers. Risk-bearing pools or associations are assigned a company code. If a reinsurer or reinsured has merged with another entity, report the company code of the surviving entity.

If a risk-bearing entity (e.g., risk-bearing pools or associations) does not appear in the NAIC *Listing of Companies*, contact the NAIC Financial Systems and Services Department, Company Demographics Analyst at FDRCCREQ@NAIC.ORG for numbers assigned since the last publication or for information on having a number assigned. Newly assigned company codes are incorporated in revised editions of the NAIC *Listing of Companies*, which are available semi-annually. The NAIC provides this information to annual statement software vendors for incorporation into the software.

Domiciliary Jurisdiction

In those parts of Schedule S requiring disclosure of the “Domiciliary Jurisdiction,” for each domestic reinsurer or U.S. branch listed, the column should be completed with the state where the reinsurer maintains its statutory home office. For pools and associations, enter the state where the administrative office of such pool or association is located. For alien reinsurers, this column should be completed with the country where the alien is domiciled. Enter the two-character U.S. postal code abbreviation for the domiciliary jurisdiction for U.S. states, territories and possessions. A comprehensive listing of three-character (ISO Alpha 3) abbreviations for foreign countries is available in the appendix of these instructions.

Lloyd’s of London

The following procedure will apply as respects annual statement filings for 1995 and subsequent years:

Cessions to Lloyd’s under reinsurance agreements having an inception date on or before July 31, 1995, and which are not amended or renewed thereafter should continue to be reported using the collective Lloyd’s number, AA-1122000, on an aggregated basis, under “Authorized – Other Non-U.S. Insurers.” As respects continuous reinsurance agreements, the anniversary date shall be deemed to be the renewal date of the agreement. Any revision of terms and conditions shall be deemed to be an amendment of the reinsurance agreement.

Cessions to Lloyd’s under reinsurance agreements having an inception, amendment or renewal date on or after August 1, 1995, must be reported using the specific number of each subscribing syndicate, as listed in the alien section of the NAIC *Listing of Companies*. Such syndicates should be listed individually, under “Authorized – Other Non-U.S. Insurers.”

Syndicates for which an identification number does not appear in the NAIC *Listing of Companies* must be treated as unauthorized as respects cessions under reinsurance agreements having an inception, amendment or renewal date on or after August 1, 1995, and should be reported, on an aggregated basis, under “Unauthorized – Other Non-U.S. Insurers,” using a new collective number, AA-1123000.

Reinsurance assumed from syndicates at Lloyd’s should continue to be reported on Schedule S, Part 1 using the original collective Lloyd’s number, AA-1122000.

All dates reported in Schedule S must be in the format MM/DD/YYYY. For example, the date December 13, 2011 should be reported as 12/13/2011.

Determination of Authorized Status

The determination of the authorized, reciprocal jurisdiction, unauthorized or certified status of an insurer or reinsurer listed in any part of Schedule S shall be based on the status of that insurer or reinsurer in the reporting entity’s state of domicile.

Captive Affiliate Line Category

For the purpose of reporting a reinsurer as captive affiliate on Schedule S, the captive affiliate line categories shall include affiliated non-traditional insurers/reinsurers.

Definition of Affiliated Non-Traditional Insurer/Reinsurer

This disclosure is intended to capture cessions to affiliated insurance/reinsurance entities that are subject to a financial solvency regulatory system separate from that generally applicable to traditional insurers and/or reinsurers in the ceding entity's domestic jurisdiction. An affiliated non-traditional insurer/reinsurer is an insurance or reinsurance company that reinsures risks only from its parent or affiliates; and is subject to a financial solvency regulatory system separate from that generally applicable to traditional insurers and/or reinsurers in the ceding entity's domestic jurisdiction. 1. An affiliated insurance or reinsurance company licensed, authorized or otherwise granted the authority to operate in a single United States jurisdiction under any captive insurer law, special purpose insurer law, or other similar law separate from those applicable to traditional insurers and/or reinsurers.
2. An affiliated insurance or reinsurance company licensed, authorized or otherwise granted the authority to operate in any jurisdiction outside the United States under any captive insurer law, special purpose insurer law, or other similar law separate from those applicable to traditional insurers and/or reinsurers in that non-United States jurisdiction.

Under an ASO plan, claims are paid from a bank account owned and funded directly by the uninsured plan sponsor; or, claims are paid from a bank account owned by the administrator, but only after receiving funds from the plan sponsor that are adequate to fully cover the claim payments. Under an ASC plan, the administrator pays claims from its own bank accounts, and only subsequently receives reimbursement from the plan sponsor.

SUPPLEMENTAL HEALTH CARE EXHIBIT – PARTS 1 AND 2

The purpose of this supplemental exhibit is to assist state and federal regulators in identifying and defining elements that make up the medical loss ratio as described in Section 2718(b) of the Public Health Service Act (PHSA) and for purposes of submitting a report to the HHS Secretary, as required by Section 2718(a) of the PHSA. The supplemental exhibit is also intended to track and compare financial results of health care business as reported in the annual financial statements. Thus, the numbers included in this supplemental exhibit are not the exact numbers that will be utilized for rebate purposes due to possible revisions for claim reserve run-off subsequent to year-end, statistical credibility concerns and other defined adjustments.

A schedule must be prepared and submitted for each jurisdiction in which the company has written direct comprehensive major medical health business, or has direct amounts paid, incurred or unpaid for provisions of health care services. In addition, a schedule must be prepared and submitted that contains the grand total (GT) for the company. However, insurers that have no business that would be included in Columns 1 through 9 or 12 of Part 1 for ANY of the states are not required to complete this supplement at all. If an insurer is required to file the supplement, then the insurer must complete Parts 1 and 2 for each state in which the insurer has any health business, even if a particular state will show \$0 earned premiums reported in Columns 1 through 9 or 12 of Part 1. Companies should contact their domiciliary regulator to obtain a waiver of the filing if the only reportable business in Columns 1 through 9 are comprised of closed blocks of small group, large group or individual business that, if totaled across all states, does not equal 1,000 lives in total.

Run-Off and Reinsurance Business

Similarly, insurers in run-off (major medical claims incurred with zero major medical earned premiums) or that only has assumed and no direct written major medical business in any of the states are not required to complete this supplement. However, 100% assumption reinsurance with novation (or 100% indemnity reinsurance for administration of a block of business entered into prior to March 23, 2010 – see HHS Reg. 158.130 (a)(3)) is treated as direct business for purposes of this supplement (included as direct business for the assuming reinsurer and excluded from direct business for the ceding insurer). Otherwise, the reinsurance data required in this supplement is only for use if an insurer writes direct major medical business and also assumes and/or cedes such insurance.

If an insurer has direct earned premiums to include in Columns 1 through 9 or 12 of Part 1, but also has some business in run-off (major medical claims incurred for 2024 policy year and prior, with zero major medical earned premiums or no coverage in place), the run-off claims and expenses results should be reported in Part 1, Columns 1 through 9 or 12. (If an insurer files the supplement and has a state in which the only Columns 1 through 9 or 12 business is run-off business as defined above, the insurer can report the run-off business for that state as if it was other health business; i.e., because the MLR is meaningless for that state, report zero for Columns 1 through 9 or 12 and include the run-off business along with any other health insurance reported in the Other Health Business columns of Parts 1 and 2.)

The allocation of premium and claims between jurisdictions should be based upon situs of the contract. For purpose of this exhibit, situs of the contract is defined as “the jurisdiction in which the contract is issued or delivered as stated in the contract.” For individual business sold through an association, the allocation shall be based on the issue state of the certificate of coverage. When the association is made up of employers, it should be reported as large group or small group depending on the size of each employer. For employer business issued through a group trust, the allocation shall be based on the location of each employer. For employer business issued through a multiple employer welfare association the allocation should be based on the location of each employer.

Include only in this schedule the business issued by this reporting entity. Business that is written by an unaffiliated entity as part of a package provided to the consumer (e.g., inpatient written by this legal entity, outpatient written by unaffiliated separate entity) should not be included in this exhibit. Similarly, business written by an affiliated legal entity as part of a package provided as an option to the group employer (e.g., out of network coverage written by an affiliated entity and in-network coverage written via this legal entity) should not be included in this exhibit.

Comprehensive health coverage, Columns 1 through 3, includes business that provides for medical coverages including hospital, surgical and major medical. Include risk contracts and Federal Employees Health Benefit Plan (FEHBP), stand-alone plan and any other comprehensive plan addressed in PPACA and not excluded. Exclude mini-med plans, expatriate plans and student health plans, as these are reported in Columns 4 through 9. Stand-alone plans (e.g., stand-alone pharmacy) excluding Medicare Part D stand-alone addressed in PPACA and not excluded should be reported in the appropriate column that corresponds to the details of the plan.

Do not include business specifically identified in other columns (e.g., uninsured business, Medicare Title XVIII, Medicaid Title XIX, vision only, dental only business, State Children’s Health Insurance Program (SCHIP), Medicaid Program Title XXI risk contracts and short-term limited duration insurance). Stop-loss coverage for self-insured groups should be reported in Part 1, Column 11 (Other Health Business).

Improving Health Care Quality Expenses – General Definition:

Quality Improvement (QI) expenses are expenses, other than those billed or allocated by a provider for care delivery (i.e., clinical or claims costs), for all plan activities that are designed to improve health care quality and increase the likelihood of desired health outcomes in ways that are capable of being objectively measured and of producing verifiable results and achievements.

The expenses must be directed toward individual enrollees or may be incurred for the benefit of specified segments of enrollees, recognizing that such activities may provide health improvements to the population beyond those enrolled in coverage, as long as no additional costs are incurred due to the non-enrollees other than allowable QI expenses associated with self-insured plans.

Qualifying QI expenses should be grounded in evidence-based medicine, widely accepted best clinical practice or criteria issued by recognized professional medical societies, accreditation bodies, government agencies or other nationally recognized health care quality organizations.

They should not be designed primarily to control or contain cost, although they may have cost-reducing or cost-neutral benefits, as long as the primary focus is to improve quality.

Qualifying QI activities are primarily designed to achieve the following goals set out in Section 2717 of the PHSA and Section 1311 of the PPACA:

- Improve health outcomes including increasing the likelihood of desired outcomes compared to a baseline and reducing health disparities among specified populations;
- Prevent hospital readmissions;
- Improve patient safety and reduce medical errors, lower infection and mortality rates;
- Increase wellness and promote health activities; or
- Enhance the use of health care data to improve quality, transparency and outcomes.

NOTE: Expenses that otherwise meet the definitions for QI but were paid for with grant money or other funding separate from premium revenues shall NOT be included in QI expenses.

** Community benefit expenditures are for activities or programs that seek to achieve the objectives of improving access to health services, enhancing public health and relief of government burden. This includes activities that:

- Are available broadly to the public and serve low-income consumers;
- Reduce geographic, financial or cultural barriers to accessing health services, and if ceased to exist would result in access problems (e.g., longer wait times or increased travel distances);
- Address federal, state or local public health priorities, such as advancing health care knowledge through education or research that benefits the public;
- Leverage or enhance public health department activities, such as childhood immunization efforts; or
- Otherwise would become the responsibility of government or another tax-exempt organization.

SUPPLEMENTAL INVESTMENT RISKS INTERROGATORIES

This set of Supplemental Interrogatories is to assist regulators in identifying and analyzing the risks inherent in the entity's investment portfolio. The Supplemental Investment Risks Interrogatories apply only to general account assets. These lines were determined based upon the investment categories contained in the NAIC Statutory Statement and considered as invested assets. The reported amounts are to be consistent with net admitted amounts reported by the entity in the statement and supporting schedules, not on a consolidated basis. Compute the percentage calculations by dividing the reported amount by the total admitted assets reported in Line 1 of the Interrogatories unless otherwise indicated. It is recommended that the first step in responding to this set of Interrogatories is for the person preparing this document to read through the Interrogatories to gain an understanding of the reporting requirements.

All reporting entities must answer Interrogatories 1 through 4, 11 through 16, 18, 19 and, if applicable 20 through 23. Answer each Interrogatory 5 through 10 only if the reporting entity's aggregate holdings in foreign investments as addressed in Interrogatory 4 equals or exceeds 2.5% of the reporting entity's total admitted assets. Answer Interrogatory 17 only if the reporting entity's aggregate holdings in mortgage loans as addressed in Interrogatory 16 equals or exceeds 2.5% of the reporting entity's total admitted assets. For Life/Fraternal blank, responses are to exclude Separate Accounts. For the Property/Casualty blank, responses are to exclude Protected Cell Accounts.

If listing a Supranational, put Supranational and the union or member on the line (Example: Supranational – World Trade Organization).

The following definitions apply to interrogatories 4 through 10, unless otherwise defined by state statute.

Foreign investment:	An investment in a foreign jurisdiction, or an investment in a person, real estate or asset domiciled in a foreign jurisdiction. An investment shall not be deemed to be foreign if the issuing person, qualified primary credit source or qualified guarantor is a domestic jurisdiction or a person domiciled in a domestic jurisdiction, unless: <ul style="list-style-type: none">(a) The issuing person is a shell business entity; and(b) The investment is not assumed, accepted, guaranteed or insured or otherwise backed by a domestic jurisdiction or a person, that is not a shell business entity, domiciled in a domestic jurisdiction.
Domestic jurisdiction:	The United States, Canada, any state, any province of Canada or any political subdivision of any of the foregoing.
Foreign jurisdiction:	A jurisdiction other than a domestic jurisdiction.
Shell business entity:	A business entity having no economic substance, except as a vehicle for owning interests in assets issued, owned or previously owned by a person domiciled in a foreign jurisdiction.
Qualified guarantor:	A guarantor against which a reporting entity has a direct claim for full and timely payment, evidenced by a contractual right for which an enforcement action can be brought in a domestic jurisdiction.
Qualified primary credit source:	The credit source to which a reporting entity looks for payment as to an investment and against which a reporting entity has a direct claim for full and timely payment, evidenced by a contractual right for which an enforcement action can be brought in a domestic jurisdiction.
Supranational:	Entities with more than one sovereign government as a member.

Line 1 – Report the reporting entity’s total admitted assets as reported on Page 2 of the annual statement.
Report the total net admitted assets for the current year, Page 2, Assets, Column 3, excluding Separate Account, Protected Cell or Segregated Account business.

Line 2 – Report the single 10 largest exposures to a single issuer/borrower/investment.
Determine the ten largest exposures by first, aggregating investments from all investment categories (except the excluded categories) by issuer. The first six digits of the CUSIP number can be used as a starting point; however, please note that the same issuer may have more than one unique series of the first six digits of the CUSIP. For example, the reporting entity owns bonds issued by the XYZ Company of \$500,000 and common stock of the XYZ Company of \$600,000. In addition, the reporting entity has a mortgage loan to the XYZ Company of \$300,000. The total exposure to Issuer XYZ Company is \$1.4 million (\$500,000+\$600,000+\$300,000).

For funds that are not diversified within the meaning of the Investment Company Act of 1940, insurance reporting entities are required to identify actual exposures and aggregate those exposures with directly held investments to determine the 10 largest exposures. For example, if a reporting entity directly holds a significant number of investments in Exxon Mobil and holds a non-diversified closed-end fund with a high concentration of Exxon Mobil, the reporting entity shall aggregate the direct investments with the investments in the closed-end funds to determine the aggregate investment risk to Exxon Mobil.

SEC registered investment funds are required by law to disclose holdings within 60 days following the fund’s fiscal quarter end. Insurers who own funds classified as “non-diversified” are to use the last publicly available fund holding disclosure to account for holdings that should be included in their Top 10 holdings.

Government Agency securities listed in the *Purposes and Procedures Manual of the NAIC Investment Analysis Office* as “Securities That Are Considered “Exempt Obligations” For Purposes of Determining The Asset Valuation Reserve And The Risk-Based Capital Calculation”;

All SEC and foreign registered funds (open-end, closed end, UIT and ETFs) and common trust funds that are diversified within the meaning of the Investment Company Act of 1940 [Section 5(b) (1)].

In Column 2, list the categories of securities that are included in the total for each issuer (e.g., bonds, mortgage loans, etc.)

Line 3 – Report by NAIC designation, the amounts and percentages of the reporting entity’s total admitted assets held in bonds and preferred stocks (perpetual preferred and redeemable preferred).

Report the total amount for each subcategory. The amounts reported in the bond subcategories should be consistent with the amounts reported in Schedule D, Part 1A, Section 1, Column 7, Lines 12.1 – 12.6. Schedule D, Part 1A, Section 1 is reported gross and will not tie to this line if any amounts are reported and nonadmitted for bonds and preferred stocks on the asset page.

The amounts reported in the preferred stock subcategories should be consistent with the amounts reported in Asset Page, Column 3, Lines 2.1.

- Line 4 – Report the amounts and percentages of the reporting entity’s total admitted assets held in foreign investments (regardless of whether there is any foreign currency exposure) and unhedged foreign currency exposure.
- Line 4.02 – Report the aggregate amount of foreign investments as determined by the rules or statutes of the state of domicile (regardless of whether there is any foreign currency exposure).
- Line 4.03 – Report the portion of the aggregate amount of foreign investments that supports insurance liabilities denominated in that same foreign currency.
- The amount reported in 4.03 should be included in all answers to Lines 5 through 10.
- Line 4.04 – Report the amount of the insurance liabilities associated with the investments reported in 4.03 and that are denominated in the same currency.

Lines 5-10 should be answered only if the reporting entity’s aggregate foreign investments exceed 2.5% of total admitted assets (response to 4.01 is no). The NAIC designations for Lines 5, 6, 8 and 9 relate to country ratings, not investment ratings. If the country does not have a rating, include the investment in the NAIC-3 or below category.

- Line 5 – Report the aggregate foreign investment exposure (regardless of currency exposure) categorized by the country’s NAIC sovereign designation. Aggregate foreign investments first by foreign jurisdiction and then by NAIC sovereign designation.
- The sovereign ratings and designation equivalents are available on the NAIC Web site.
- Line 6 – Within each of the following three categories of NAIC country sovereign designations, which are available on the NAIC Web site (1, 2, and 3 or below), identify the two countries in which the company has its largest aggregate foreign investment exposures (regardless of currency exposure), and report the dollar value and percentage of company investments issued within each of those countries.
- Line 8 – Report the aggregate unhedged foreign currency exposure categorized by NAIC sovereign designation. Aggregate unhedged foreign currency exposures first by foreign jurisdiction and then by NAIC sovereign designation.
- The sovereign ratings and designation equivalents are available on the NAIC Web site.
- Line 9 – Within each of the following three categories of NAIC country sovereign designations, which are available on the NAIC Web site (1, 2, and 3 or below), identify the two countries in which the company has its largest aggregate unhedged foreign currency exposures, and report the dollar value and percentage of company investments issued within each of those countries.
- Line 10 – Report the 10 largest non-sovereign (i.e., non-governmental) exposures to a foreign issuer/borrower/investment.
- Determine the ten largest foreign exposures by first aggregating investments from all foreign investment categories by issuer. See example in Line 2. If an investment does not have an NAIC designation, indicate the investment category, e.g., mortgage loan, in the NAIC Designation Column after first indicating any available NAIC designations for that issuer/borrower.

- Line 11 – Report the amounts and percentages of the reporting entity’s total admitted assets held in Canadian investments, including Canadian-currency denominated investments, Canadian insurance liabilities (“Canadian Investments”) and unhedged Canadian currency exposure.
- Line 11.03 – Report the aggregate amount of Canadian Investments that support insurance liabilities denominated in Canadian currency.
- The amount listed in Line 11.03 should be included in all answers to Line 11.
- Line 11.04 – Report the aggregate amount of the insurance liabilities associated with the investments reported in Line 11.03.
- Line 11.05 – Unhedged Canadian Currency Exposure
- If the reporting entity’s aggregate Canadian investments exceed 2.5% of total admitted assets, answer this question.
- Line 12 – Report the aggregate amounts and percentages of the reporting entity’s total admitted assets held in investments with contractual sales restrictions (defined as investments having restrictions that prevent investment from being sold within 90 days).
- Line 12.02 – The aggregate amount reported in this line is limited to investments with contractual restrictions. It does not include, for instance, investments that have procedural requirements to be met prior to sale or internal company restrictions.
- Line 13.02 through 13.11 – Report the amounts and percentages of admitted assets held in the ten largest equity interests including equity funds that qualify individually as one of the largest equity interests and a look-through of investments in the shares of non-diversified mutual funds and ETFs, preferred stocks, publicly traded equity securities, and other equity securities (including Schedule BA equity interests). Equity interests in all funds that are diversified in accordance with the Investment Company Act of 1940 do not need to be individually assessed and aggregated to determine the ten largest equity interests. For funds that are not diversified within the meaning of the Investment Company Act of 1940, insurance reporting entities are required to identify actual equity interests within the fund and aggregate those equity interests to determine their ten largest equity interests.
- Determine the ten largest equity interests by first aggregating investments included in this line by issuer. For example, the reporting entity owns preferred stock of the XYZ Company of \$600,000, common stock of the XYZ Company of \$300,000 and \$50,000 of XYZ identified through a look-through of a non-diversified stock closed-end fund reported on Schedule D-2-2. The total is \$950,000 (\$600,000+\$300,000+\$50,000). The reporting entity also owns bonds issued by the XYZ Company of \$500,000 that are excluded from this calculation because bonds are debt instruments. The reporting entity may also have exposure to equity interests in XYZ through mutual funds that are excluded from this calculation as the funds are diversified within the meaning of the Investment Company Act of 1940. Other equity securities include partnerships and Limited Liability Companies (LLC) and any other investments reported in Schedule BA classified as equity.
- The following funds shall also be excluded from aggregation as equity interests: SVO-Identified U.S. Direct Obligations / Full Faith And Credit Exempt List of Money Market Mutual Funds, SVO-Identified Bond ETFs and SVO Identified fund investments with underlying characteristics of fixed-income instruments, which do not contain underlying equities and that are outlined within the *Purposes and Procedures Manual of the NAIC Investment Analysis Office*.

Line 14 – Report the amounts and percentages of the reporting entity’s total admitted assets held in nonaffiliated, privately placed equities (included in other equity securities) and excluding securities eligible for sale under Securities Exchange Commission (SEC) Rule 144a or SEC Rule 144 without volume restrictions.

Line 14.02 – The amount reported in this line is a subset of the Line 14 amount, but excludes any public securities, any affiliated equity interests and any securities that can be sold under SEC Rule 144 or under Rule 144a without any volume restrictions.

Line 14.06 through 14.15 – These lines should be completed even if the answer to Question 14.01 is “YES.”

Report the investments held in the ten largest fund managers, with allocation between funds that are diversified or non-diversified in accordance with the meaning of the Investment Company Act of 1940. This should include all “funds” regardless of the type of fund (private placement, mutual fund, exchange-traded fund, closed-end fund, money market mutual fund, etc.), reporting schedule or underlying investments captured in a fund.

SEC registered investment funds are required by law to disclose holdings within 60 days following the fund’s fiscal quarter end. Insurers who own funds classified as “non-diversified” are to use the last publicly available fund holding disclosure to account for holdings which should be included in their Top 10 holdings.

Determine the ten largest fund managers by aggregating all “fund” investments by fund manager. For example, if a reporting entity holds a BlackRock SVO-Identified Bond ETF (diversified within the meaning of the Investment Company Act of 1940) reported on Schedule D-1 at \$500,000, four BlackRock diversified mutual funds reported on Schedule D-2-2 at \$2,200,000 and two BlackRock non-diversified closed-end funds totaling \$1,500,000, the reporting entity shall report their aggregated investment in BlackRock funds of \$4,200,000, with \$2,700,000 in diversified funds and \$1,500,000 in non-diversified funds.

Line 15 – Report the amounts and percentages of the reporting entity’s total admitted assets held in general partnership interests (included in other equity securities).

Line 15.02 – Report the aggregate amount of all general partnership interests reported in Schedule BA. The amount excludes limited partnership interests or any LLC investments.

Lines 15.03 through 15.05 – Report the details of the three largest general partnership interests if the aggregate amount reported in Interrogatory 15.01 exceeds 2.5% of admitted assets.

Line 16 – With respect to mortgage loans reported in Schedule B, report the amounts and percentages of the reporting entity’s total admitted assets.

Line 16.02 through 16.11 – The aggregate mortgage interest represents the combined value of all mortgages secured by the same property or same group of properties.

Report the details of the ten largest mortgage interests if the aggregate amount exceeds 2.5% of admitted assets.

The amounts reported in 16.13, 16.14 and 16.16 should be consistent with the corresponding subtotals reported in Column 8 of Schedule B, Part 1.

- Line 17 – Report the aggregate mortgage loans having the indicated loan-to-value ratios as determined from the most current appraisal as of the annual statement date.
- Line 17.01 through 17.05 – For each mortgage loan, determine its loan-to-value ratio and assign it to one of the five loan-to-value categories, separated into residential, commercial or agricultural. Aggregate the amounts for each category and calculate the percent of admitted assets.
- Line 18.02 through 18.06 – Report the amounts and percentages of the reporting entity’s total admitted assets held in each of the five largest investments in one parcel or group of contiguous parcels of real estate reported in Schedule A, excluding property occupied by the company, if the aggregate amount reported in Interrogatory 18.01 exceeds 2.5% of admitted assets.
- Line 19 – Report the amounts and percentages of potential exposure (defined as the amount determined in accordance with the *Annual Statement Instructions*) for mezzanine real estate loans.
- Line 19.01 – If the response is yes, the reporting entity need not complete the remainder of Interrogatory 19.
- Line 20 – Report the amounts and percentages of the reporting entity’s total admitted assets subject to securities lending agreements, repurchase agreements, reverse repurchase agreements, dollar repurchase agreements and dollar reverse repurchase agreements.
- Line 20.01 through 20.05 – Report the aggregate amount for each category at year-end and at the end of each quarter. Calculate the percentage of admitted assets at year-end.
- Line 21 – Report the amounts and percentages for warrants not attached to other financial instruments, options, caps and floors.
- Line 21.01 through 21.03 – Report the aggregate amount for each category and calculate the percentage of admitted assets. The amounts should also agree with amounts reported in Schedule DB.
- Line 22 – Report the amounts and percentages of potential exposure (defined as the amount determined in accordance with the *Annual Statement Instructions*) for collars, swaps and forwards.
- Line 22.01 through 22.04 – Report the aggregate amount for each category at year-end and at the end of each quarter. Calculate the percentage of admitted assets at year-end. The amounts should also agree with amounts reported in Schedule DB.
- Line 23 – Report the amounts and percentages of potential exposure (defined as the amount determined in accordance with the *Annual Statement Instructions*) for futures contracts.
- Line 23.01 through 23.04 – Report the aggregate amount for each category at year-end and at the end of each quarter. Calculate the percentage of admitted assets at year-end. The amounts should also agree with amounts reported in Schedule DB.

LIFE, HEALTH AND ANNUITY GUARANTY ASSOCIATION
ASSESSABLE PREMIUM EXHIBIT – PARTS 1 AND 2

To be filed on or before April 1.

This 2-part exhibit must be completed for any state, District of Columbia, and Puerto Rico in which the company is licensed and should be submitted to the applicable jurisdictions. In addition, an exhibit should be prepared for any state, District of Columbia, and Puerto Rico in which the company received any direct premiums or deposits. DO NOT SUBMIT exhibits for American Samoa, Guam, U.S. Virgin Islands, Canada, Northern Mariana Islands and other alien jurisdictions. A copy of the exhibit for each jurisdiction and a grand total page for both Parts 1 and 2 must be completed and submitted to the state of domicile and the NAIC Support and Services Office.

Only companies that are members of the life, health and annuity guaranty associations should complete this exhibit. If a company is unsure if it is a member of a life, health and annuity guaranty association, it should contact the state life, health and annuity guaranty associations in its state of domicile or state(s) where it is licensed to write life, health and annuity business.

For the purpose of these instructions, references to Schedule T apply to the Life and Health blank and references to the Exhibit of Premiums and Losses apply to the Property blank.

Part 1 develops gross premiums that will be subject to further reduction in Part 2 for guaranty association coverage and/or assessment limitations. Attention should be focused on the deduction items in Part 2, in particular those associated with certain accident and health products and the various types of annuity classifications for allocated and unallocated products.

The columnar headings correspond to the annual statement, Schedule T (Life or Health blanks) or Exhibit of Premiums and Losses (Property blank) as follows:

<u>Assessable Premium Exhibit</u>	<u>Col. 1</u> Life Insurance Premiums	<u>Col. 2</u> Allocated Annuity and Other Allocated Fund Deposits	<u>Col. 3</u> Accident & Health Premiums	<u>Col. 4</u> Unallocated Annuity and Other Unallocated Fund Deposits

In the event that this detailed information is not available in the reporting entity’s accounting records, recognized estimation processes for state allocations may be utilized if consistently applied.

Adjustments to the exhibit may be required by states that have not adopted the *Life and Health Insurance Guaranty Association Model Act* (#520).

PURPOSE OF THE LIFE, HEALTH AND ANNUITY GUARANTY ASSOCIATION
ASSESSABLE PREMIUM EXHIBIT – PARTS 1 AND 2

It is desirable to display on one page the various types of annuity considerations, deposit-type contract funds and other considerations received directly by the reporting entity, separated by state, as is currently reported in the applicable Schedule T or Exhibit of Premiums and Losses; but, it is not possible to use such data for state guaranty association assessments without further modification. This is because of: (a) the limits placed on certain considerations for assessment purposes, (b) the variations by states in designation of “funds” for assessments, and (c) other factors that are interpreted differently by the individual states.

As a result, the NAIC and NOLHGA have developed a two-part exhibit, the Life, Health & Annuity Guaranty Association Assessable Premium Exhibit (the “Assessable Premium Exhibit”) that uses the state figures in Schedule T or Exhibit of Premiums and Losses as the starting point for development of the guaranty association assessment base and then allows for certain adjustments in order to arrive at the applicable assessable premium base for each state. States should not use Schedule T or Exhibit of Premiums and Losses as the basis for guaranty association assessments, but instead use the Assessable Premium Exhibit for the applicable assessment premium base.

Introduction

These instructions are intended to assist companies in completing the Assessable Premium Exhibit-Parts 1 and 2 (the “APE Pt. 1” and “APE Pt. 2”, respectively). Both APE Parts 1 and 2 must be prepared with the same care and accuracy that would be used in preparing the Annual Statement, since the information is being provided to the Guaranty Associations. COMPANIES MUST READ THESE INSTRUCTIONS CAREFULLY AND REFER TO THE RELEVANT GUARANTY ASSOCIATION ACTS, WHERE APPROPRIATE.

APE Pt. 1 and APE Pt. 2 must be completed, along with a grand total page for both, for each state (as well as the District of Columbia and Puerto Rico) in which the company is licensed or does business.

The APE Pt. 1 and Pt. 2 each have four columns. Column 1 is for all individual and group life insurance premiums. Column 2 is for all allocated annuity amounts (whether called premiums, deposit-type contract funds, or other considerations) and includes both allocated and unallocated annuity governmental retirement plans established under Sections 401, 403(b) or 457 of the U.S. Internal Revenue Code (“IRC”). Column 3 is for all individual and group accident and health premiums. Column 4 is for all unallocated annuity amounts (whether called premiums, deposit-type contract funds, or other considerations) other than amounts received in connection with governmental retirement plans established under IRC Sections 401, 403(b) or 457 (which should be in Column 2).

Should you have questions about how to fill out the Assessable Premium Exhibit, and the answers are not provided in the instructions below, you may wish to consult the Model #520, particular State Guaranty Association Acts, the *Annual Statement Instructions* manual, your company attorney, particular State Insurance Departments, or particular State Guaranty Association Administrators.

Assessable Premium Exhibit – Part 1

The APE Pt. 1 starts with premiums, deposit-type contract funds and other considerations as reported in the applicable Schedule T or the Exhibit of Premiums and Losses, and then makes necessary adjustments (both positive and negative) to establish the initial assessable premium base before certain annuity adjustments as defined by each states' guaranty association act.

Premiums, Considerations and Deposits from Schedule T or the Exhibit of Premiums and Losses

Line 1 – THESE AMOUNTS MUST EXACTLY MATCH THE AMOUNTS REPORTED BY YOUR COMPANY ON SCHEDULE T OR THE EXHIBIT OF PREMIUMS AND LOSSES FOR ALL LINES OF BUSINESS.

Modifications to Premiums, Considerations and Deposits

Lines 2 through 9 are required to adjust amounts reported on your company's Annual Statement Schedule T to its Assessable Premium Base and are critical in transforming premium data prepared for Annual Statement purposes into data suitable for Guaranty Association assessment purposes.

Lines 2.1

– 2.99 – Enter any life, annuity or health premiums, deposit-type contract funds and other considerations, received by your company that were not reported by state on Schedule T or the Exhibit of Premiums and Losses and therefore not included in Line 1 above. Such amounts should be reported in the appropriate column based on whether such amounts relate to life insurance, annuity, accident and health, or annuity and deposit-type business. Include all amounts received for insurance contracts. Annuity amounts entered on Lines 1 and 2 must include, but are not limited to, amounts received for immediate or deferred annuity contracts, structured settlement agreements, lottery contracts, group annuity contracts, guaranteed interest or investment contracts, deposit administration contracts and allocated or unallocated funding obligations.

Line 2.1

– Enter fees and charges for investment management, administration and contract guarantees from the Separate Account associated with variable contracts, reduced by any contractholder dividends representing a return of such fees and charges. Specifically, in the case of variable annuity products, those portions of fees and charges paid to the general account with respect to living and death benefit guarantees, M&E charges and annual contract charges should be included on Line 2.1. In the case of variable life products with guaranteed death benefits, the portion of fees/charges paid to the general account that should be included on Line 2.1 would include the cost of insurance in addition to M&E charges and annual contract charges. Because the fees and charges are reportable by state, a reporting entity may use either a seriatim, i.e., specific contract identification by state, or an allocation method. An appropriate allocation method would be to calculate a ratio of fee income to total variable premium for the product line and multiply the ratio by the state specific variable premium.

Lines 2.2

– 2.6 – Enter any other life, annuity or health premiums, deposit-type contract funds and other considerations received by your company that were not reported by state on Schedule T or the Exhibit of Premiums and Losses. Guaranteed investment contract receipts, universal life insurance deposits and any other amounts received by the company for covered contracts that were not reported on the company's Schedule T, Exhibit of Premiums and Losses, or Line 1 above, must be reported on Line 2.6.

Allocate by state and include on Lines 2.2 through 2.6 amounts reported on the corresponding line on Schedule T as Company Contributions for Employee Benefit Plans, Dividends Applied to Purchase Paid-Up Additions and Annuities, Dividends Applied to Shorten Endowment or Premium-Paying Period, Premium or Annuity Considerations Waived under Disability or Other Contract Provisions and Aggregate Other Amounts Not Allocable by State (such as FEGLI/SEGLI).

If by state information is not readily available, reasonable allocation methods may be used to estimate state amounts. "Data not available by state" or similar comments are not valid reasons to exclude these items.

Lines 3.1

– 3.99

- The primary purpose of Lines 3.1 to 3.99 is to add back amounts that, as a result of statutory accounting practices, were deducted from the amounts reported on Line 1 or 2. For the most part, these deductions represent current year benefit payouts, transfers, surrenders or withdrawals.

Enter any amounts deducted prior to determining amounts included in Lines 1 and 2. Companies reporting net amounts on Lines 1 and 2 must complete Lines 3.1 through 3.99 to provide gross premiums and deposits. Amounts reported on these lines should include transfers to separate accounts, GIC rollovers to other companies, surrenders, excess interest, and any other amounts deducted from or not included in the company’s gross premium figures. Amounts that were reported as “Unallocated Annuity and Other Unallocated Fund Deposits” (Column 4) in the year of receipt and transferred in the current year to “Allocated Annuity and Other Allocated Fund Deposits” (Column 2), as individuals are “annuitized,” are to be included on Line 3.3 of Column 4 if these amounts were deducted from the amounts reported on Lines 1 or 2. As illustrated below, adding these amounts back to Column 4 may be necessary as amounts over \$5 million may have been deducted in prior years.

As an example, most pension plan unallocated annuities provide for the purchase of an annuity payout benefit (“annuitization”) for an individual. In the year of the receipt of the consideration for the unallocated annuity, that consideration, subject to limitations, is to be included in the total assessable premium reported in Line 10, Column 4. In the year of annuitization, the amounts transferred to fund the annuity payout benefits are to be included in the total assessable premium base reported in Line 10, Column 2. There should be no corresponding reduction to the total assessment base reported in Line 10, Column 4 for the amount transferred to fund the annuitization to the extent that such amounts would not have been included in an assessment base. When an annuity payout benefit is, pursuant to that contract, purchased for an individual from monies previously deposited with the Company, it is assumed that there is no new contract, rather it is an internal rollover of funds, i.e., and the Company has received no new funds.

In order to correctly report amounts subject to assessment in Columns 2 and 4, companies should maintain transaction level detail for each deposit type contract. On a cumulative basis, the assessable premium can never be less than \$0 on any given contract. For example, the following will illustrate the correct reporting of deposit type contracts that partially or fully annuitize in a model act state (i.e., assessable premium up to \$5 million per unallocated annuity contract). The amount reported on APE Pt. 2 Line 17.3 is a balancing amount such that the assessable premium for any unallocated contract never exceeds \$5 million nor is less than \$0 over the life of the contract. The same approach applies to any state that covers unallocated annuities, irrespective of the limits. In this example, there is a \$50 million unallocated contract in Year 1 and the company reports \$5 million in Column 4 (\$50 million on Line 1 or 2, APE Pt. 1, and a reduction of \$45 million via Line 17.3 of APE Pt. 2). If the contract is completely annuitized in year 2, the company must report \$50 million in Column 2 as allocated premium (APE Pt. Line 1 or 2) and \$50 million on Line 3.3, Part 1 (as an add-back) in the unallocated premium column. The Company should report a deduction of \$5 million on APE Pt. 2 Line 17.3 in Column 4 in the second year since it has reported the full \$50 million received in Column 2 by the end of the second year. On a cumulative basis, \$0 is reported in Column 4. The Company has not subjected to assessment more premiums than it has received.

Cumulative All Years Line 22	X	0	5	X	50	0

Four additional examples will further illustrate the correct reporting of deposit type contracts that partially or fully annuitize in a model act state. In these examples, it can be seen that at any point in time, the Company has never included more in the assessable premium base (Columns 2 and 4 combined) than what was received by the Company over that period of time. Also, the Company never included more than \$5 million of assessable premium in Column 4 at any point in time.

For Contract #4, the Company received \$25 million of deposits and included \$20 million in the assessable premium base (\$15 million as annuity considerations and \$5 million as deposit funds) over the five-year period. Contract #4 is different than Contract #1 in that after Year 2, only \$3 million has been included in Column 4 since \$7 million of the \$10 million of deposits received has annuitized. For Year 3, \$2 million is included in Column 4, bringing the cumulative total to \$5 million, since a total of \$15 million has been received, but only \$7 million has annuitized.

You must provide a clear explanation of any amounts listed within Line 3.5. Line 3.99 (Total) should represent the difference between gross and net premiums for each column.

Lines 4.1 through 4.4 are intended to transfer allocated and unallocated premiums between Columns 2 and 4 due to reporting differences with how a company may reflect such premiums in Schedule T (and thus Line 1 since Schedule T is the starting point of the APE Pt. 1). **If transfers are properly completed:**

- **Column 2 should contain BOTH allocated and unallocated annuities associated with governmental retirement plans qualified under IRC Sections 401, 403(b) and 457 and all other allocated annuities.**
- **Column 4 should contain unallocated annuities associated with benefit plans protected by the Federal Pension Benefit Guaranty Corporation (“PBGC”), government lotteries, book value accounting guaranty for defined contribution benefit plan participants by reference to a portfolio of assets owned by the trustee (commonly referred to as “synthetic GICS”), and all other unallocated annuities including those that fund employee, union or association of natural persons benefit plans (other than those associated with governmental retirement plans qualified under IRC Sections 401,403(b) or 457, which should be included in Column 2 as mentioned above).**

According to Model #520, an “unallocated annuity contract means any annuity contract or group annuity certificate that is not issued to and owned by an individual, except to the extent of any annuity benefits guaranteed to an individual by an insurer under the contract or certificate.” An annuity is considered allocated unless it is unallocated. Examples of unallocated annuity contracts might be guaranteed investment contracts, deposit administration contracts, and unallocated funding agreements where no contract or agreement issued by the reporting entity, nor any certificate issued by the reporting entity there under, guarantees individual benefits to specifically identified individuals.

Annuity contracts issued by the reporting entity that are held or owned in an individual retirement account under IRC Section 408(a) (whether the account is a custodial account or a trust), or which qualify as individual retirement annuities under IRC Section 408(b), should be considered allocated.

Group annuities may be allocated or unallocated. (The term “unallocated” is not synonymous with the term “group”.) A group contract or certificate that guarantees annuity benefits to an individual (this is not the guarantee typically found in a guaranteed investment contract or deposit administration contract which allows the pension trustee or administrator to purchase an annuity for a plan participant at a guaranteed purchase rate) should be considered allocated. In addition to contracts under which periodic payments are being made to individuals, group annuity contracts should be considered allocated if the reporting entity is obligated under the contract upon the request of an individual (or his or her beneficiary) to make either partial or full cash withdrawal payments, which may be subject to plan or statutory restrictions, to the individual (or his or her beneficiary).

The reporting entity will be considered to be obligated upon the request of an individual to make either partial or full cash withdrawal payments if withdrawals or death benefit payments are made from that participant’s account maintained (by the reporting entity or its designee) under the terms of the group annuity contract and regardless of whether such requests are submitted to the reporting entity directly by the individual (or his or her beneficiary) or indirectly through the plan trustee, administrator, sponsor or contract holder at the direction of the individual.

Line 4.1 – Transfer all amounts received to fund ALLOCATED contracts qualified under IRC Sections 401, 403(b) or 457 from the Unallocated Annuity Column (Column 4) to the Allocated Annuity Column (Column 2). Companies that report these amounts in the Annuity Considerations Column 5 or 7 (Life blank) or Life & Annuity Premiums & Other Considerations Column 7 in part (Health blank) of Schedule T, should complete this transfer line.

All amounts received for allocated contracts qualified under IRC Sections 401, 403(b) or 457 should be transferred to Column 2 of the APE Pt. 1, whether the contracts were issued to a governmental or non-governmental policyholder. The amount entered as a negative in the Unallocated Annuity Column (Column 4) must exactly match the amount entered as a positive in the Allocated Annuity Column (Column 2).

Line 4.2 – Transfer all amounts received to fund UNALLOCATED contracts for governmental plans (or its trustee) qualified under IRC Sections 401, 403(b) or 457 from the Unallocated Annuity Column (Column 4) to the Allocated Annuity Column (Column 2). Companies that report these amounts in the Annuity Considerations Column 5 or 7 (Life blank) or Life & Annuity Premiums & Other Considerations Column 7 in part (Health blank) of Schedule T, should complete this transfer line. The amount entered as a negative in the Unallocated Annuity Column (Column 4) must exactly match the amount entered as a positive in the Allocated Annuity Column (Column 2).

Line 4.3 – Transfer any allocated annuity amounts included in the Unallocated Annuity Column (Column 4) to the Allocated Annuity Column (Column 2), except for amounts received to fund allocated annuity contracts qualified under IRC Sections 401, 403(b) or 457, which are to be transferred on Line 4.1. This includes all allocated annuity contracts, regardless of whether the annuity is in deferred or payout status, whether the annuity is group or individual, whether the annuity is qualified or non-qualified for tax purposes and whether the annuity is held or owned in an individual retirement account under IRC Section 408(a) or an individual retirement annuity under IRC Section 408(b). The amount entered as a negative in the Unallocated Annuity Column (Column 4) must exactly match the amount entered as a positive in the Allocated Annuity Column (Column 2).

Line 4.4 – Transfer any unallocated annuity amounts included in the Allocated Annuity Column (Column 2) to the Unallocated Annuity Column (Column 4) other than amounts that fund unallocated contracts owned by a governmental retirement plan (or its trustee) established under IRC Sections 401, 403(b) or 457. The amount entered as a negative in the Allocated Annuity Column must exactly match the amount entered as a positive in the Unallocated Annuity Column.

Line 4.99 – Total for Lines 4.1 through 4.4 Columns 2 and 4. The sum of Columns 2 and 4 on Lines 4.1 through 4.99 should equal zero (0) for each state.

Development of Amounts Included in Lines 1 Through 5 That Should Be Deducted in Determining the Base Prior to Additional Adjustments in Part 2

On both APE Part 1 and 2, companies must be careful not to deduct the same premium or deposits on more than one line. For example, amounts deducted on Line 6 as non-guaranteed separate account deposits should not be deducted a second time on APE Pt. 2. Companies may only deduct amounts on Lines 6 through 9 (except for certain dividends allowed in Line 9) to the extent those amounts have been included on Lines 1 through 5 of APE Pt. 1. Lines 6 through 9 are allowable exclusions prior to deductions on APE Pt. 2.

Line 6 – Enter amounts received for any portion of a policy or contract not guaranteed by the reporting entity, or under which the investment risk is borne entirely by the policy or contract holder. These amounts are those specified at the time of deposit as intended for deposit in separate accounts. Amounts entered on this line are typically non-guaranteed separate account premiums. **DO NOT INCLUDE** on this line amounts transferred to any guaranteed separate accounts. **Two types of annuity contracts that should NOT be reported on Line 6 are: (i) modified guaranteed annuities, market-adjusted annuities, or other contracts where the amounts payable on at least one future date do not (or may not) depend solely on the investment performance of assets in the separate accounts; and (ii) guaranteed investment contracts issued to fund pension plans, even if there are no mortality guarantees or only incidental mortality guarantees.** Such contracts are not properly includable on Line 6 since the reporting entity retains an investment risk.

Amounts entered on Line 6 should correspond to amounts reported on the Annual Statement of Separate Accounts to the extent amounts are included on Lines 1 through 5 of the APE Pt. 1. Line 6 should not include transfers to a separate account except to the extent such transfers represent current year premiums included on Lines 1 through 5 of the APE Pt. 1. Do NOT include such amounts in APE Pt. 2 line items.

Line 7 – Enter amounts received during the current year for unallocated annuity contracts associated with the Federal Home Loan Bank Program **BUT ONLY IF** included in Line 5 above. Do NOT include such amounts in APE Pt. 2 line items.

Line 8 – Enter amounts received during the current year only for supplemental contracts (with and without life contingencies) and contracts associated with retained asset programs **BUT ONLY IF** such amounts are included in APE Pt. 1 Line 5 **AND** the prior year amounts for the original contracts were reported as assessable premium. For example, if the original premiums were reported as life premiums but deducted as variable separate account business, then the supplemental contract funds would not be an allowable deduction since the original premiums were not reported as assessable premium in the prior years. Do NOT include such amounts in APE Pt. 2 line items.

Line 9 – Enter dividends, but only if such amounts were not guaranteed in advance. Examples of items that might be reported on Line 9 include dividends applied to pay renewal premiums, paid in cash or left on deposit. Dividends applied to shorten the endowment or premium paying period or to provide paid-up additions or annuities may also be included **BUT ONLY IF** such items are also reported on APE Pt. 1 Lines 2.3 or 2.4. Excess interest should not be deducted as dividends.

Assessable Premium Base – Part 1

- Line 10 – Assessable premium base before further adjustments.
- Footnote 1 – Costs associated with long-term care business are now to be allocated among all accounts (historically they have been treated solely as health business) such that the costs are allocated between life and health companies as defined in the guaranty association statutes or plan of operations for long-term care cost allocation purposes only. In general, the allocation is designed to achieve a 50/50 split, although variances may occur by state. In order to determine if a member company is a life or health company, assessable health premiums for this purpose only are to exclude premiums associated with disability and long-term care business. Report in Footnote 1 (Parts a and b) the assessable premium for stand-alone business included on APE Pt. 1 Line 10 for these blocks. Include both short-term and long-term disability premiums. Do NOT include disability or long-term care premiums that relate to coverage under a rider attached to a life or annuity product. Premiums for these riders should be reported with the original base policy designation (e.g., life or annuity).
- Footnote 2 – Please provide for each state in which business is reported the primary contact information that a guaranty association may use to address assessment inquiries (billing, payment etc.).

Assessable Premium Exhibit – Part 2

The APE Pt. 2 has the same four columns used for APE Pt. 1. Column 1 is for all individual and group life insurance premiums. Column 2 is for all allocated annuity amounts (whether called premiums, deposits, or considerations), including annuities held or owned in an individual retirement account under IRC Section 408(a) (whether the account is a custodial account or a trust), or which qualify as individual retirement annuities under IRC Section 408(b) and both allocated and unallocated annuity governmental retirement plans established under IRC Sections 401, 403(b) or 457. Column 3 is for all individual and group accident and health premiums. Column 4 is for all unallocated annuity amounts (whether called premiums, deposits, or considerations) other than amounts received in connection with governmental retirement benefit plans qualified under IRC Sections 401, 403(b) or 457 (which should be in Column 2). Companies are required to complete each line of the APE Pt. 2 for all states, District of Columbia and Puerto Rico in which they were licensed or had business during the reporting year along with a grand total page. DO NOT SUBMIT the APE Pt. 2 for American Samoa, Guam, U.S. Virgin Islands, Canada, Northern Mariana Islands and other alien jurisdictions.

APE Pt. 2 requires certain adjustments in all accounts to obtain the correct state level assessable premium with emphasis in both the allocated and unallocated annuity accounts. All lines for all columns must be completed for all states in which your company is licensed or had business during the survey year. Deductions related to unallocated annuity contracts MUST be detailed on Lines 14 through 21, where appropriate.

Certain line items pertain only to specific states (Iowa, Kansas, Louisiana, Minnesota and New Jersey) and must be completed accordingly.

- Line 11 – Assessable Premium Base – Part 1
The amount from Line 10 of the APE Pt. 1 should be transferred to Line 11 of the APE Pt. 2.
- Line 12.1 – 12.2 – Enter amounts received in excess of \$1 million (Line 12.1) or \$5 million (Line 12.2) for multiple non-group policies of life insurance owned by one owner (commonly referred to as “COLI/BOLI”) whether the policy or contract owner is an individual, firm, corporation or other person, and whether the persons insured are officers, managers, employees or other persons regardless of the number of policies and contracts held by the owner.

Line 13.1
– 13.99 – Enter amounts received for certain accident & health policies. Lines 13.5 (stop loss) and 13.6 (MEWA, ASO etc.) should only apply to the extent the plan or program is self-funded or uninsured.

Line 14 – All amounts related to annuities issued in connection with plans qualified under IRC Section 403(b) (“403(b) premiums”) (both allocated and unallocated) should be included in Column 2 (Allocated Annuity and Other Allocated Fund Deposits) on the APE Pt. 1 presuming your transfers on APE Pt. 1 Line 4.1 are done correctly. These amounts must be transferred to Column 4 (Unallocated Annuity and Other Unallocated Fund Deposits) in order to include the 403(b) premiums for allocated annuities in Column 4 for certain states that have not adopted the most recent account structure. The amount to be transferred from Column 2 to Column 4 represents the amount of 403(b) premiums for allocated annuity contracts ONLY to the extent included in Lines 10 of APE Pt. 1 and 11 of APE Pt. 2. Those companies that originally reported these 403(b) premiums in Column 2 of the APE Pt. 1 must transfer such amounts to Column 4 even though no original transfer was required on APE Pt. 1 Line 4.1. Enter in Column 2 a negative amount and Column 4 a corresponding positive amount (both amounts must be the same).

The total for Line 14 Columns 2 and 4 should equal zero (0) in all states.

Line 15.1
– 15.6 – Companies that have unallocated funding obligations to provide a book value accounting guaranty for defined contribution benefit plan participants by reference to a portfolio of assets that is owned by the benefit plan or its trustee, which in each case is not an affiliate of the member insurer (commonly referred to as “synthetic GICs”) must report such amounts on the applicable Line 15. Lines 15.1, 15.2 and 15.3 are mutually exclusive.

Lines 15.5 and 15.6 need to be completed (respectively) for Minnesota and New Jersey business only.

Line 15.3 should only include those amounts in excess of \$5 million. For example, for a \$15 million contract providing a book value accounting guaranty, the company should report \$1 million on Line 15.1, \$4 million on Line 15.2 and \$10 million on Line 15.3.

Lines 16.1
– 16.3 – Companies that have unallocated funding obligations that are not issued to or in connection with a specific employee, union, or association of natural persons benefit plan or government lottery must report such amounts on the applicable Line 16. An example of an appropriate Line 16 deduction would be amounts received to fund a municipal guaranteed investment contract (commonly referred to as “Muni-GICs”). Line 16.3 applies to New Jersey business only.

Lines 17.1
– 18.2 – Companies that have unallocated funding obligations issued to fund government lotteries or in connection with a specific employee, union, or association of natural persons benefit plans that are NOT: (a) governmental retirement plans established under IRC Sections 401, 403(b) or 457, or (b) protected by the Federal Pension Benefit Guaranty Corporation must report such amounts on the applicable Lines 17 or 18. Lines 17.1, 17.2 and 17.3 are mutually exclusive.

Lines 17.5 to 18.2 need to be completed (respectively) for Minnesota (line 17.5), New Jersey (Line 18.1) and Iowa (Line 18.2) business only. Like the example in Line 15, Line 17.3 should only include those amounts in excess of \$5 million. As mentioned on APE Pt. 1 Line 3, for those contracts that have annuitized, the Company should report a deduction of \$5 million on APE Pt. 2 Line 17.3 in Column 4 in the second or subsequent years. For additional details, please refer to the instructions for lines APE Pt. 1 Lines 3.1-3.99.

Lines 19.1

- 19.8 – Premium, funds or considerations related to unallocated annuities that fund governmental retirement benefit plans qualified under IRC Sections 401, 403(b) and 457 are included in APE Pt. 1 Line 10 and APE Pt. 2 Line 11, Column 2. They must be transferred to Column 4 before certain unallocated deductions can be taken. For all such premiums, funds or considerations enter in Column 2 a negative amount and in Column 4 a corresponding positive amount (both amounts must be the same). Lines 19.1, 19.2 and 19.3 are mutually exclusive. Like the example in Line 15, Line 19.3 should only include those amounts in excess of \$5 million.

Lines 19.5 and 19.6 need to be completed (respectively) for Minnesota and New Jersey business only.

For Louisiana, Line 19.7 should include only amounts related to unallocated annuities issued in connection with governmental retirement benefit plans qualified under IRC Section 403(b). Report all such amounts as a positive in Column 4.

For Kansas, Line 19.8 should include only amounts related to unallocated annuities issued in connection with governmental deferred compensation plans qualified under IRC Section 457. Report all such amounts as a positive in Column 2.

Lines 20.1

- 20.2 – Companies that have unallocated annuity contracts issued to an employee benefit plan protected by the Federal Pension Benefit Guaranty Corporation must report such amounts on Lines 20.1 and 20.2. Employee benefit plans protected by the PBGC are defined benefit plans only and do not include defined contribution plans.

Line 21

- Enter any other deductible amounts with a clear explanation of the nature of such deduction on Lines 21.01, 21.02, 21.03, etc. An example of an appropriate deduction is experience rating refunds (Column 3 but only if reported as premium income) or annuitization activity to avoid double counting premiums (Column 2 or 4). Deductions are not permitted for premiums received for the Federal Employee Group Life Insurance. Line 21 should not be used as a substitute for deductions that are to be reported on any of the above lines. Deductions are not permitted for amounts received in excess of coverage limits specified in the Guaranty Laws (i.e., a reporting entity cannot deduct amounts received or contract values in excess of \$250,000 related to allocated annuity contracts).

Line 22

- Represents the assessable premium base for all states – see state specific formula.

NOTE:

Cross check for APE Pt. 2 Column 4

The aggregate amounts on APE Pt. 2 Lines 15.4, 16.2, 17.4, and 20.2 should equal APE Pt. 2 Line 11, Column 4.

LONG-TERM CARE INSURANCE EXPERIENCE REPORTING FORMS 1 THROUGH 5

These reporting forms must be filed with the NAIC by April 1 each year.

The purpose of the Long-Term Care Insurance Experience Reporting Forms is to monitor the amount of such coverage and to provide data specific to this coverage on a nationwide basis. Long-term care expenses may be paid through life policies, annuity contracts and health contracts. When the long-term benefits portion of the contract is subject to rating rules based on the Long-Term Care Insurance Model Regulation (sections on required disclosure or rating practices to customers, loss ratio and premium rate increases), the adequacy of the pricing and reserve assumptions is critical to meeting the expectation of those sections.

For life or annuity products where no portion is subject to these rating rules, the products are not being included in the reporting in these forms. Companies may use an assumption that long-term care benefits that are “incidental” regardless of the date of issue, may be excluded. Incidental means that the value of long-term care benefits provided is less than ten percent (10%) of the total value of the benefits provided over the life of the policy (measured as of the date of issue).

Form 1 gives an overview of the stand-alone LTC business and claims experience for both individual and group policies. Form 2 focuses on the experience of individual policies broken down into three Primary Issue Periods: 2002 and prior, 2003-2010, and 2011 and later. Form 3 focuses on the adequacy of claims reserves by presenting experience based on incurred year over the next several years. Because prior-year values should already be available; this form should be completed for at least the current and past four years. If available, all prior years should be completed. Form 4 focuses on the experience of group business. Form 5 provides a location to report data at the state level and additionally asks for data related to hybrid life or annuity products with LTC extended and/or accelerated benefits.

Because of the relatively small claim rates and variable length and size of long-term care claims, the statistical credibility of long-term care insurance experience is lower than the amount of credibility assigned to similar amounts of experience on other types of health insurance. This should be taken into account when reviewing experience and assessing the adequacy of reserves and the critical assumptions underlying them.

The Long-Term Care Insurance Experience Reporting Forms 1 through 5 should be filed whenever long-term care insurance has been sold, regardless of which annual statement has been filed. These forms are not only applicable to companies filing the life, accident and health annual statement. The list of the various annual statements is: life accident and health/fraternal, property/casualty and health.

Include under the Individual portion both Individual policies and Group certificates if the group is approved by the state under statutes similar to Section 4E(4) of the Long-Term Care Insurance Model Act. Include under the Group portion group certificates if the group is approved by the state under statutes similar to Section 4E(1), (2) or (3) of the model act.

Claims incurred will need to reflect the loss of future premiums. These will occur because of the waiver of premium provision in the contract, waiver due to spouse’s benefit status or other provisions in the contract that make it paid-up or not subject to collection of additional premiums for some future period. The claim incurred in each year will include the amount of the reserve established to reflect the loss of future expected premiums. The effect in future years will depend on the manner in which premiums from these policies are reported in following periods:

- (1) If the assumption is that future premiums (gross or net) will be considered as “paid by waiver,” the reserve will include in the reserve the present value of future premiums to be waived and the premium waived will be reported as both earned premium and a portion of the incurred claims.
- (2) If the assumption is that the policy is paid-up (no future premiums to be collected), the reserve would be the paid-up value and future incurred claims will be only for LTC benefits.

Report using (1) above unless there are system limitations which require data to be entered under assumption (2).

When reporting dollar amounts, report the amount in thousands (\$000 omitted). For non-dollar values, do not truncate the amounts.

Definition of Incurred Claims:

The amount of developed claims incurred during the calendar year is equal to the present value of all claim payments during the year and any changes in claim reserves. The discount rate is the statutory valuation interest rate for case reserves.

- Paid claims in the year of incurral are discounted one-quarter year.
- Paid claims subsequent to the year of incurral are assumed to be paid mid-year and discounted back to the midpoint of the incurred year.
- Outstanding claim reserves for a given incurred year plus transferred reserves from Part 3 of Form 3 are discounted from the valuation date to the midpoint of the incurred year.

If

i_y = Incurred year

T = Report year – incurred year

v = Discount rate

${}_t\text{Paid Claims}_{i_y}$ = Paid claims during current or prior calendar year t from claims incurred in year i_y

${}_t\text{Case Reserve}_{i_y}$ = Case reserve at end of calendar year t from claims incurred in i_y

${}_t\text{Transferred Reserve}_{i_y}$ = Transferred reserve at end of calendar year t from claims incurred in i_y and

$t = i_y, i_y+1, i_y+2, \dots, i_y + T$

then the Present Value of Incurred Claims for incurred year i_y :

For $T=0$

$$i_y\text{Paid Claims}_{i_y} \times v^{1/4} + i_y\text{Case Reserve}_{i_y} \times v^{1/2} + i_y\text{IBNR}_{i_y} \times v^{1/2} + i_y\text{Transferred Reserve}_{i_y} \times v^{1/2}$$

For $T>0$

$$i_y\text{Paid Claims}_{i_y} \times v^{1/4} + i_{y+1}\text{Paid Claims}_{i_y} \times v^1 + i_{y+2}\text{Paid Claims}_{i_y} \times v^2 + \dots + i_{y+T}\text{Paid Claims}_{i_y} \times v^T + i_{y+T}\text{Case Reserve}_{i_y} \times v^{T+1/2} + (i_{y+T}\text{IBNR}_{i_y} \times v^{T+1/2}) + i_{y+T}\text{Transferred Reserve}_{i_y} \times v^{T+1/2}$$

If a portion of the IBNR is held for years other than the current calendar year, the value in the parentheses should be used.

The total case reserves and IBNR equal the portion of the total direct liability attributable to LTC business from Exhibit 8, Part 2, Line 2.1 (life, accident & health\fraternal) plus the portion of the claim liabilities reported on Exhibit 6, Line 14 (life, accident & health\fraternal) attributable to LTC business for life, accident & health and fraternal only.

This amount includes accrued and unaccrued claims liabilities that are incurred but not yet paid, both reported and not reported.

INSTRUCTIONS FOR FORM 1

Stand-Alone LTC Only (\$000 Omitted)

Long-Term Care Insurance Experience Reporting Form 1 is intended to track actual premium, claims, persistency, and reserves on a nationwide basis. Yearly and cumulative comparisons for direct, assumed, and ceded business are exhibited.

DEFINITIONS AND FORMULAS

Current

Current calendar year of reporting.

Total Inception-to-Date

Aggregate experience data since issuance of policies.

Assumed/Ceded Rows

Does not include YRT reinsurance transactions. For columns that are reported as “Number of” (count) rather than an amount, assumed/ceded business is only recorded here if the business is 100% coinsured.

- Column 1 – Earned Premiums
- Collected Premiums + Change in Due Premiums – Change in Advanced Premiums – Change in Unearned Premium Reserves.
- Total earned premiums should equal Accident and Health Policy Experience Exhibit Column 2, Line 10 for Individual Business section and Line 12 Group Business section.
- Column 2 – Incurred Claims
- Developed claims incurred during the calendar year. Equal to the present value of all claim payments and any claim reserves. The discount rate is the statutory valuation interest rate for case reserves.
- Column 3 – Number of Claims Opened
- The number of claims that have at least one benefit payment made during the year after the elimination period but have no payments in previous years. If a claimant has prior claims, he or she should be counted if the current claim is considered as a new claim. For the purpose of including a claim in this count, payments that do not require satisfaction of the elimination period are excluded. A claim that has terminated by the end of the year should be included in the count.
- Column 4 – Number of Claims Closed
- Number of claims that had been opened, which became closed during the year due to recovery, exhaustion of benefits, or death.

Column 5	–	Number of Claims Remaining Open	Open claims are all claims that have been opened at any date but have not been closed as of the end of the year.
Column 6	–	Number of Terminations	Total number of policy or certificate holders whose coverage ended during the year for any reason, including death, lapse, or benefit exhaustion.
Column 7	–	Number of Policies/Certificates In-force at Year End	Total number of policies or certificates in force at the end of the year.
Column 8	–	Number of Lives In-force at Year End	Total number of lives in force at the end of the year. Joint policies are to be counted as two lives.
Column 9	–	Active Life Reserves	<p>Total amount of active life reserves held for policyholders, including those in non-forfeiture status. The amount reported in annual statement Exhibit 6, Line 2 for life, accident & health/fraternal only.</p> <p>The amount reported in annual statement Underwriting and Investment Exhibit 2D, Line 2 for health only, less the premium deficiency reserve in footnote (a) of that exhibit.</p>
Column 10	–	Claim Reserves	Total amount of reserves held for payment of claims that have been incurred but not yet paid, including claims on policies in non-forfeiture status.
Column 11	–	Other Reserves	<p>Total amount of any other reserves associated with long-term care policies, including premium deficiency reserves, unearned premium reserves, and additional actuarial reserves. For the additional actuarial reserve, use the lesser of the aggregate additional reserve and a reserve calculated specifically for LTC business.</p> <p>A reserve must be carried for any block of contracts for which future gross premiums when reduced by expenses for administration, commissions, and taxes will be insufficient to cover future claims or services.</p>

INSTRUCTIONS FOR FORM 2

Direct Individual Experience – Stand-Alone Only (\$000 Omitted)

Primary Issue Period Splits

Experience data for each policy should be aggregated in one of the three Primary Issue Year Periods shown on the experience form. It would be permissible for a company to include 100% of a policy form's experience in just one of the three Primary Issue Year periods (using the issue year period where the majority of the policies were originally issued). It would also be permissible for a company to split a policy form's experience by issue year into multiple Primary Issue Year periods shown in the form based upon policy issue year.

DEFINITIONS AND FORMULAS

Current

Current calendar year of reporting.

Total Inception-to-Date

Aggregate experience data since issuance of policies.

Comprehensive

Institutional Only

Policies that provide institutional coverage only.

Non-Institutional Only

Policies that provide only non-institutional coverage.

Column 1 – Calendar Year of Peak Issues

Calendar year in which the largest number of policies in the block were sold. When reporting figures for inception-to-date, include all policies ever sold in the block. For the current year, include only those policies that remain in force as of 12/31.

Column 2 – Percent Male Lives Insured

Percentage of males within the block of policyholders. For example, a block consisting of 60% males would be reported as 60. When reporting figures for inception-to-date, include all policies ever sold in the block. For the current year, include only those policyholders that remain insured as of 12/31.

Column 3 – Average Attained Age

Arithmetic mean of the attained ages of all in force policyholders in the block at year end.

- Column 4 – Earned Premium
- Collected Premiums + Change in Due Premiums – Change in Advanced Premiums – Change in Unearned Premium Reserves.

- Column 7 – Number of Terminations
- Total number of policyholders whose coverage ended during the year for any reason including death, lapse, or benefit exhaustion.
- Column 8 – Number of New Lives Insured
- Total number of new lives issued LTC policies during the year. Values in rows that are labeled “inception-to-date” should be the sum of all new lives insured in each year during which the form was sold.

INSTRUCTIONS FOR FORM 3

LTC Experience Development (\$000 Omitted)

The purpose of this form is to test the adequacy of claim reserves held on long-term care policies. This form allows for the development of a seven-year trend of losses by incurred calendar year. This form is to be prepared on a nationwide basis.

Report all dollar amounts in thousands (\$000 omitted).

Part 1 – Total Amount Paid Policyholders

Show paid claims by year paid and year incurred. Claims are on a direct basis, including transfers before any reinsurance. Claims incurred prior to the year shown on Line 2 should be included in Line 1, Column 1 through 8.

The “Prior” values in these sections will not be directly comparable to prior statements, as the current year’s statement will include an additional incurred year’s values.

Transfer policies are defined as policies that are either purchased or sold, typically through assumption reinsurance. These policies will be recorded in these parts of this exhibit while the company owns them.

Part 2 – Sum of Total Amount Paid Policyholders and Claim Liability and Reserve Outstanding at End of Year

This section provides a claim cost development overview to show the adequacy of claim reserves for a particular incurral year at the end of that year and at the end of subsequent years. The entry in Line X and Column Y is the cumulative claims incurred during year X and paid through the end of year Y for claims incurred in year X, plus the reserve at the end of year Y for claims incurred in year X.

Claims are on a direct basis including transfers before any reinsurance. Claims incurred prior to the year shown on Line 2 should be included in Line 1, Columns 1 through 8.

The “Prior” values in these sections will not be directly comparable to prior statements, as the current year’s statement will include an additional incurred year’s values.

Transfer policies are defined as policies that are either purchased or sold, typically through assumption reinsurance. These policies will be recorded in these parts of this exhibit while the company owns them.

Part 3 – Transferred Reserves

Claim reserves for *transfer claims (acquired or sold)* are shown here, by claim incurred year, starting from the year of transfer. For sold business, the entries are positive. For acquired business, the entries are negative. For years after the transfer year, the reserves are increased with interest.

Claim reserves for the buyer are the reserves initially set by the buyer, not necessarily equal to the reserves for the seller.

Part 4 – Present Value of Incurred Claims (Interest Adjusted Development of Incurred Claims)

Because claim reserves for long-duration claims are generally discounted, the year-to-year comparison in Part 2 is misleading to the extent interest income on claim reserves is material. To show consistent values; paid claims; transferred reserves and claim reserves are discounted to a common point in time (assumed to be July 1 of the incurred year). The discount rate is the statutory valuation interest rate for case reserves.

INSTRUCTIONS FOR FORM 4

MEDICARE SUPPLEMENT INSURANCE EXPERIENCE EXHIBIT

Medicare Supplement is defined as those forms which are qualified as Medicare Supplement under the Federal Certification Requirements or the NAIC Medicare Supplement Insurance Minimum Standards Model Act and Regulation, or that are filed under other state programs to satisfy separate form filing requirements for Medicare Supplement forms.

This exhibit should be completed on a direct basis and should include all Medicare Supplement insurance acquired through assumption of a block of business. In the event that a policyholder of the company relocates to another state, experience under that policy is to continue to be reported in the state in which the policy was originally issued. The nationwide aggregate earned premium on all Medicare supplement policies should be disclosed in the annual statement General Interrogatory related to Medicare Supplement insurance.

This exhibit is to be completed on a state basis.

In the event that a refiling of any state page is warranted, the amended page should be filed with the NAIC and with the state.

1. Experience on policies issued more than three years prior to the reporting year should be shown separately as indicated on the form. For example, for the reporting year ended December 31, 2024 (filed on March 1, 2025), experience on policies issued in 2021 and prior should be shown separately from that of policies issued in 2022 and later. For group insurance, the year of issue should be based on when the certificate was issued, if available. Otherwise, use the master policy year of issue.
2. Allocation of reserves on a state-by-state basis should rely on sound actuarial principles and be consistent as to methodology from year to year.
3. Include membership or policy fees, if any, with premiums earned.
4. Include mass marketed group insurance subject to individual loss ratio standards with individual.
5. Subtract dividends from premiums earned.
6. Do not adjust incurred claims nor premiums earned for changes in policy (additional) reserves.

DEFINITIONS

Column 1 – Compliance with OBRA
Respond with “YES,” “NO” or “NA” to indicate compliance with OBRA requirements.

Column 3 – Standardized Medicare Supplement Benefit Plan
Means the standard plans A-N as required by Section 9E of the Model Regulation to Implement the NAIC Medicare Supplement Insurance Minimum Standards Model Act. This includes all plans identified as A-N issued prior to a state’s revisions to its regulatory program and identified as a standard plan at the time of issue. Policies issued prior to the effective date of this state’s revisions to its Medicare supplement regulatory program pursuant to the Omnibus Budget Reconciliation Act (OBRA) of 1990, and no longer offered in a state, should be designated with “P.” Policies not meeting either of these definitions should be designated with “O.” This includes policies issued in MN, MA, and WI (states that qualified for and received a waiver under federal law from the A-N requirements). A policy issued in these three states that did not require changes, as the result of modifications to the state regulatory program should be reported as “O.” All policies identified as “O” must be explained in Medicare Supplement General Interrogatory 4. Theoretically, a policy should never be identified as “O” except in those states receiving a waiver from the A-N requirements.

Column 5	–	Plan Characteristics	Means one or more of the following identifiers of the features of a policy or certificate form (all applicable identifiers must be shown). “1” Means inclusion of new or innovative benefits. “2” Means direct response solicited. “3” Means agent solicited. “4” Means underwritten policy or certificate. “5” Means the policy or certificate is guaranteed issued to all applicants. “6” Means the policy is offered to individuals eligible for Medicare by reason of disability. “7” Means the policy or certificate was assumed from another carrier.
Column 6	–	Date Approved	Means the date the policy form was approved for sale in the state by the insurance department.
Column 7	–	Date Approval Withdrawn	Means the date the policy form approval was withdrawn by the insurance department.
Column 8	–	Date Last Amended	Means the date of approval of a rider or endorsement for this policy form. Do not reflect the date of optional riders added to an individual policy.

Column 10	–	Policy Marketing Trade Name	Means the title or name under which a policy is (was) marketed.

The sum of Columns 11 and 15, and the sum of Columns 12 and 16, Lines 0199999 and 0299999 for all states should equal the amounts disclosed in the General Interrogatories, Part 2, Line 1.2 minus Line 1.3 and Line 1.5, respectively.
Columns 14 & 18	–	Number of Covered Lives	Means the number of individuals covered under the policy form as of December 31 of the reporting year.

MEDICARE PART D COVERAGE SUPPLEMENT

NET OF REINSURANCE

The federal Medicare Prescription Drug, Improvement, and Modernization Act of 2003 (MMA) created a prescription drug coverage, referred to as “Part D” coverage. This form is intended to capture information about the coverage net of reinsurance.

The form applies to the following **stand-alone** Medicare Part D coverage:

Stand-alone Part D coverage written through individual contracts;

Stand-alone Part D coverage written through group contracts and certificates; and

Part D coverage written on employer groups where the reporting entity is responsible for reporting claims to the Centers for Medicare & Medicaid Services (CMS).

The form does not apply to:

Part D coverage that is provided through a Medicare Advantage plan (referred to as MA-PD); and

Employer coverage that is part of the employer’s comprehensive medical coverage and where the reporting entity does **not** provide claim data directly to CMS including instances where the employer and the medical provider are one and the same but the administration and reporting to CMS is handled by a third-party vendor.

The statutory accounting treatment of Medicare Part D coverage is addressed by Interpretation 05-05 in the *Accounting Practices and Procedures Manual* (INT 05-05). Although most of the coverage is treated as an insured plan, a portion is treated as uninsured. Refer to INT 05-05 for specifics of the accounting treatment, as well as for definitions of many of the capitalized terms used below.

Group “Uninsured” would be only the aspects of any Group coverage for which the entity has federal payments that are to be considered “Uninsured” per INT 05-05, e.g., payments for low-income subsidy (cost-sharing portion) and the group plan is an insured plan. Group coverage where the basic coverage is uninsured is not reported in this supplement.

Since a reporting entity may offer multiple prescription drug plans (PDPs) with varying benefits, it is possible for a portion of the entity’s coverage to be subject to reinsurance coverage and another portion to be part of the Part D Payment Demonstration, where no reinsurance coverage is provided. Where there is reinsurance coverage, the corresponding funds received or receivable are reported in Lines 12.1 through 12.3.

- Columns 1 – Individual Coverage Insured and
- Columns 2 – Individual Coverage Uninsured }

Report here the amounts for coverage written through individual contracts. Amounts treated as insured business pursuant to INT 05-05 should be reported in column 1. Amounts treated as uninsured business pursuant to INT 05-05 should be reported in column 2.

- Columns 3 – Group Coverage Insured and
- Columns 4 – Group Coverage Uninsured }

Report here the amounts for coverage written through group contracts and certificates, including coverage of employer groups as described above. Amounts treated as insured business pursuant to INT 05-05 should be reported in column 3. Amounts treated as uninsured business pursuant to INT 05-05 should be reported in column 4.

- Column 5 – Total Cash

Report here the totals of Columns 1 through 4 for the indicated lines. This column is intended to measure the cash flow impact of the Part D coverage on the reporting entity (i.e., including both insured and uninsured business).

- Line 1 – Premiums Collected
- Line 1.11 – Standard Coverage with Reinsurance Coverage
- Report the Beneficiary Premium (Standard Coverage Portion), Low-Income Subsidy (Premium Portion) and Direct Subsidy amounts received for PDPs that are subject to Reinsurance Coverage. These amounts represent the premium as approved by CMS (including the effect of the “health status risk adjustments”) for the Part D coverages that qualify as Standard Coverage. Note that the actual coverage does not have to be identical to the “standard coverage” as defined by the MMA but may instead be coverage approved as actuarially equivalent by CMS.
- Line 1.12 – Standard Coverage without Reinsurance Coverage
- Report the Beneficiary Premium (Standard Coverage Portion), Low-Income Subsidy (Premium Portion), Direct Subsidy and Part D Payment Demonstration amounts received for PDPs that are not subject to Reinsurance Coverage. These amounts represent the premium as approved by CMS (including the effect of the “health status risk adjustments”) for the Part D coverages that qualify as Standard Coverage. Note that the actual coverage does not have to be identical to the “standard coverage” as defined by the MMA but may instead be coverage approved as actuarially equivalent by CMS.
- Line 1.13 – Standard Coverage, Risk Corridor Payment Adjustments

- Exclude any receivable or payable for Risk Corridor Payment Adjustments, which should be reported on Lines 4.1 and 4.2. Note that, per the reference in INT 05-05 to SSAP No. 84, receivables from CMS are not subject to the 90-day rule for non-admission.
- Line 4 – Risk Corridor Payment Adjustments – Change
- The reporting entity will need to estimate the Risk Corridor Payment Adjustment that is receivable (Line 4.1) or payable (Line 4.2) at year-end for each PDP, consistent with the reported experience through year-end. The receivable or payable should exclude any amounts already settled in cash, which should be reported in Line 1.13. An increase in a receivable or a decrease in a payable should be reported as a positive amount; a decrease in a receivable or an increase in a payable should be reported as a negative amount.
- Line 5 – Earned Premiums
- Earned premium = Premiums Collected +

- Line 12 – Reinsurance Coverage and Low-Income Cost-Sharing
- Line 12.1 – Claims Paid Net of Reimbursements Applied

- The table shall cover a three-year period, although companies may phase in the required disclosures over the first three years of reporting.

MARKET CONDUCT ANNUAL STATEMENT (MCAS) PREMIUM EXHIBIT FOR YEAR

*** Fraternal Benefit Societies are not currently required to file an MCAS and should answer “No” to Interrogatory 36 on the Life/Fraternal Statement’s Supplemental Exhibits and Schedules Interrogatories.***

This exhibit is required to be filed no later than March 1.

The purpose of this exhibit is to identify premiums that are reportable for Market Conduct Annual Statement purposes. Refer to the Data Call and Definitions document for each individual line of business, found on the MCAS webpage:

http://www.naic.org/mcas_main.htm. Indicate a “Yes” in the premium column for the lines of business in which the reporting entity has met the MCAS premium thresholds, otherwise indicate a “No”.

A schedule must be prepared and submitted for each jurisdiction in which the company answered “Yes” to having MCAS Reportable Premiums/Considerations. Supplement pages should not be filed for any state or jurisdiction where the company would file all “No” responses.

APPENDIX

INSTRUCTIONS FOR USE OF BARCODES

It is the responsibility of the company to prepare and utilize barcodes correctly.

The upper right-hand corner of the jurat page, and other pages and forms as identified on the Document Identifier Codes listing, will be the location of a 17-digit barcode symbol. The barcode standard to be utilized is the 3 of 9 (or 39) methodology. The barcode should be printed using at least a 24-point font. In addition to the barcode symbols, the name of the reporting entity, the year, and the document code should be printed on the barcode label. When the barcode is printed as part of the page rather than an affixed label, the reporting entity's name need not be printed above the barcode.

The barcode consists of the entity identifier (5 digits), the year (YYYY-4 digits), the document identifier (3 digits), the state code (2 digits), if state specific page, the data indicator (1 digit) and a filing type identifier (1 digit).

This 17th digit should utilize the following codes:

- 0 to represent the annual filings
- 1 to represent the March quarterly filing
- 2 to represent the June quarterly filing
- 3 to represent the September quarterly filing
- 4 to represent the Health Maintenance Organization's fourth quarter filing
- 5 to represent amended annual filings
- 6 to represent amended March quarterly filing
- 7 to represent amended June quarterly filing
- 8 to represent amended September quarterly filing

For filings of a reporting entity, the entity identifier is the NAIC company code number.

The year is represented as the last four digits of the filing year. For the 2024 annual statement due March 1, 2025, the year would be 2024.

The document identifier represents what page, schedule, exhibit, etc., is being filed. The respective identifiers for those documents requiring a barcode are included on the document identifier listing.

The state code represents if the document identifier can be filed for each individual state (e.g., the state business pages). The two-digit code would be the same as used on Schedule T. If it is not a state-specific form, the state code is 00. The state code Other is 58, and the code for Grand Total is 59. If the reporting entity has nothing to report on any state-specific supplemental schedule or exhibit, the barcode included in the Supplemental Exhibits and Schedules Interrogatories should contain a state code of 59.

The data indicator represents if the document contains data. For filings containing data place a one (1) in this field. If the document is a NONE, place a zero (0) in this field.

The filing type identifier is used to indicate the filing of NAIC filing components or state mandated (state specific) filing requirements other than those required by the NAIC. For NAIC filing requirements, the type code is 0. For state filing requirements, the type code is 1.

If forms which are required to have a separate barcode as identified on the Document Identifier Codes listing are bound in the statement, these forms **MUST** have the barcode affixed to them. If a reporting entity submits with the March 1 filing a page requiring a barcode and that page has not been completed due to a later filing date, the barcode should not be affixed for the March filing. If the filing includes a page listing none schedules (and the state in which you are filing permits such a filing) and any of these schedules fall within that listing that requires a barcode, the barcode must be placed to the right of the name of the page, exhibit or schedule. On those forms which are completed on a by-state basis and are marked none because the company does not write that type of business or that particular state page is none, place the appropriate identifier with the data indicator of zero (0). State pages which have values reported must use the appropriate state barcode identifier from Schedule T. If any state requires the filing of a none “by-state basis” page, the name of the appropriate state must still be printed on the hard copy after “For the State of _____.”

A listing of the Document Identifier Codes can be found at https://content.naic.org/cmte_e_app_blanks.htm.

The reporting entity is required to affix the appropriate barcode next to the respective Supplemental Interrogatory using the document identifier code provided. Note that it is only Supplemental Interrogatories to which the reporting entity has responded “NO” that it does not have to file a particular exhibit or form, and for which the physical page or form is marked none that the appropriate barcode be affixed. For supplements that are state specific, the only instance a barcode should be affixed is when that type of business is not written at all in any state.

DEFINITIONS OF LINES OF BUSINESS – ACCIDENT AND HEALTH

Riders/Endorsements/Floaters:

If a rider, endorsement or floater acts like a separate policy with separate premium, deductible and limit, then it is to be recorded on the same line of business as if it were a stand-alone policy regardless of whether it is referred to as a rider, endorsement or floater. If there is no additional premium, separate deductible or limit, the rider, endorsement or floater should be reported on the same line of business as the base policy.

Comprehensive (Hospital & Medical):

Business that provides for medical coverage including hospital, surgical, & major medical. Includes State Children's Health Insurance Program (SCHIP) Medicaid Program (Title XXI) risk contracts. Also includes medical only programs that provide medical only benefits without hospital coverage. Does not include self-insured business as well as federal employee's health benefit programs (FEHBP), Medicare & Medicaid programs, and dental only business.

Medicare Supplement:

Business reported in the Medicare Supplement Insurance Experience Exhibit of the annual statements. Does not include Medicare (Title XVIII) or Medicaid (Title XIX) risk contracts.

Dental-Only:

Policies providing for dental only coverage (dental treatment benefits such as routine dental examinations, preventive dental work, and dental procedures needed to treat tooth decay and diseases of the teeth and jaw) issued as stand-alone dental or as a rider to a medical policy that is not related to the medical policy through, premiums, deductibles or out-of-pocket limits. If dental benefits are part of a comprehensive medical plan, then include data under comprehensive/major medical category. Does not include self-insured business, as well as federal employee's health benefits plans (FEHBP), or Medicare and Medicaid programs.

Vision-Only:

Policies providing for vision only coverage issued as stand-alone vision or as a rider to a medical policy that is not related to the medical policy through, premiums, deductibles or out-of-pocket limits. Does not include self-insured business, federal employee's health benefit plans (FEHBP), or Medicare and Medicaid programs.

Federal Employees Health Plans (FEHBP):

Business allocable to the Federal Employees Health Benefit Plan premium that are exempted from state taxes or other fees by Section 8909(f)(1) of Title 5 of the United States Code. Does not include Medicare & Medicaid programs.

Medicare Cost:

Contracts with the Centers for Medicare & Medicaid Services (CMS) to provide services that are paid a pre-determined monthly amount per member based on a total estimated budget. The beneficiary can use providers outside the provider network. Does not include policies providing stand alone Medicare Part D Prescription Drug Coverage which are reported within the Other Health line of business.

Medicare Risk:

Contracts with the Centers for Medicare & Medicaid Services (CMS) whereby managed care is paid a per capita premium per member. Assume full financial risk for all care provided to Medicare Risk members. With the exception of emergency and out-of area urgent care, members must receive all of their care through the managed care plan; however, an out-of network option can be provided. Does not include policies providing stand alone Medicare Part D Prescription Drug Coverage which are reported within the Other Health line of business.

Medicare Other:

Health Care Prepayment Plans (HCPP) – similar to Medicare Cost. Contracts with the Centers for Medicare & Medicaid Services (CMS) but only covers part of the Medicare Benefit package. HCCP's do not cover Medicare Part A services (inpatient hospital care, skilled nursing, hospice and some home health care).

Medicare +Choice –Contracts with the Centers for Medicare & Medicaid Services (CMS) and a variety of different managed care and fee-for-service entities (i.e., HMO, PPO, PSO) with benefits to members similar to Medicare Risk as defined under the Balanced Budget Act of 1997.

Does not include policies providing stand alone Medicare Part D Prescription Drug Coverage which are reported within the Other Health line of business.

Medicaid Cost:

A PPO arrangement can be insured or uninsured

There are several ways POS can be provided:

Group life contract:

Life insurance:

The primary purpose is to provide financial assistance to a beneficiary at the insured’s death.

Net cash surrender value:

The maximum amount payable to the policyowner upon surrender.

An annuity contract that establishes a life insurer's obligation to make periodic payments for the annuitant's lifetime at the time designated investments, which are not owned or held by the insurer, are depleted to a contractually defined amount due to contractually permitted withdrawals, market performance, fees and/or other charges. A CDA is an insurance product that provides protection against underperforming and downward performing markets in the form of an income guarantee on outside investment accounts owned by an insured. The income guarantee is provided through the collection of ongoing fees from within these outside investment accounts. The insured must agree to certain portfolio restrictions and must first deplete their outside investment account assets at the CDA guaranteed income amount and rate according to the contract and prior to the insurer's assumption of this amount. A CDA is considered a living benefit added to an investment account.

Fixed annuity:

A fixed annuity is a policy or contract that has a specified crediting rate periodically and unilaterally adjusted by the company not below minimum contract rate.

Guaranteed Interest Contracts (GICs):

Contracts that guarantee principal and interest for a specified period of time and include the option to purchase immediate annuities that depend on the survival of the annuitant.

Supplementary contracts with life contingencies:

A type of agreement between the insurance company and either the insured or the beneficiary, usually to provide for full or partial settlement of the amount payable upon the termination of an original contract.
