

2025 P&C Statement of Actuarial Opinion Instructions
Draft for discussion by Actuarial Opinion (C) Working Group on 8/29/2024

ACTUARIAL OPINION

1. There is to be included with or attached to Page 1 of the Annual Statement the statement of the Appointed Actuary, entitled “Statement of Actuarial Opinion” (Actuarial Opinion), setting forth his or her opinion relating to reserves specified in the SCOPE paragraph. The Actuarial Opinion, both the narrative and required Exhibits, shall be in the format of and contain the information required by this section of the *Annual Statement Instructions – Property and Casualty*.

Upon initial engagement, the Appointed Actuary must be appointed by the Board of Directors by Dec. 31 of the calendar year for which the opinion is rendered. The Company shall notify the domiciliary commissioner within five business days of the initial appointment with the following information:

- a. Name and title (and, in the case of a consulting actuary, the name of the firm).
- b. Manner of appointment of the Appointed Actuary (e.g., who made the appointment and when).
- c. A statement that the person meets the requirements of a Qualified Actuary (or was approved by the domiciliary commissioner) and that documentation was provided to the Board of Directors.

Once this notification is furnished, no further notice is required with respect to this person unless the Board of Directors takes action to no longer appoint or retain the actuary or the actuary no longer meets the requirements of a Qualified Actuary.

If subject to the *U.S. Qualification Standards*, the Appointed Actuary shall annually attest to having met the continuing education requirements under Section 3 of the *U.S. Qualification Standards* for issuing Actuarial Opinions. As agreed with the actuarial organizations, the Casualty Actuarial Society (CAS) and Society of Actuaries (SOA) will determine the process for receiving the attestations for their respective members and make available the attestations to the public. An Appointed Actuary subject to the *U.S. Qualification Standards* and not a member of the CAS or SOA shall select one of the above organizations to submit their attestation.

The Appointed Actuary shall provide to the Board of Directors qualification documentation on occasion of their appointment directly or through company management. The documentation should include brief biographical information and a description of how the definition of “Qualified Actuary” is met or expected to be met (in the case of continuing education) for that year. The documentation should describe the Appointed Actuary’s responsible experience relevant to the subject of the Actuarial Opinion. The Board of Directors shall document their review of those materials and any other information they may deem relevant, including information that may be requested directly from the Appointed Actuary. It is generally expected that the review of the Appointed Actuary’s qualification documentation should take place at the level within a holding company structure that is responsible for overseeing insurance operations. If a statutory entity is a subsidiary or a non-lead pool member with an Appointed Actuary whose qualifications were reviewed by the pool lead or principal’s Board, the statutory entity’s Board can satisfy the review requirement by acknowledging the parent Board’s review. This can be done by noting in the meeting minutes the name of the principal or lead entity and the date the parent Board reviewed the qualification documentation, or by attaching a copy of the parent Board’s meeting minutes reflecting their review of the qualification documentation. The qualification documentation shall be considered workpapers and be available for inspection upon regulator request or during a financial examination.

If an actuary who was the Appointed Actuary for the immediately preceding filed Actuarial Opinion is replaced by an action of the Board of Directors, the Insurer shall within five (5) business days notify the Insurance Department of the state of domicile of this event. The Insurer shall also furnish the domiciliary commissioner with a separate letter within ten (10) business days of the above notification stating whether in the twenty-four (24) months preceding such event there were any disagreements with the former Appointed Actuary regarding the content of the opinion on matters of the risk of material adverse deviation, required disclosures, scope, procedures, type of opinion issued, substantive wording of the opinion or data quality. The disagreements required to be reported in response to this paragraph include both those resolved to the former Appointed Actuary’s satisfaction and those not resolved to the former Appointed Actuary’s satisfaction. The letter should include a description of each disagreement and the nature of its resolution (or that it was not resolved). Within this same ten (10) business days, the Insurer shall in writing also request such former Appointed Actuary to furnish a letter addressed to the Insurer stating whether the Appointed Actuary agrees with the statements contained in the Insurer’s letter and, if not, stating the reasons for which he or she does not agree. The former Appointed Actuary shall provide a written response to the insurer within ten (10) business days of such request,

2025 P&C Statement of Actuarial Opinion Instructions
Draft for discussion by Actuarial Opinion (C) Working Group on 8/29/2024

and the Insurer shall furnish such responsive letter from the former Appointed Actuary to the domiciliary commissioner together with its own responses.

The Appointed Actuary must report to the Board of Directors each year on the items within the scope of the Actuarial Opinion. The Actuarial Opinion and the Actuarial Report must be made available to the Board of Directors. The minutes of the Board of Directors should indicate that the Appointed Actuary has presented such information to the Board of Directors and identify the manner of presentation (e.g., webinar, in-person presentation, written). A separate Actuarial Opinion is required for each company filing an Annual Statement. When there is an affiliated company pooling arrangement, one Actuarial Report for the aggregate pool is sufficient, but there must be addendums to the Actuarial Report to cover non-pooled reserves for individual companies.

The Actuarial Opinion and the supporting Actuarial Report and workpapers should be consistent with the appropriate Actuarial Standards of Practice (ASOPs), including, but not limited to, ASOP No. 23, ASOP No. 36, ASOP No. 41 and ASOP No. 43, as promulgated by the Actuarial Standards Board.

1A. Definitions

“Appointed Actuary” is a Qualified Actuary (or individual otherwise approved by the domiciliary commissioner) appointed by the Board of Directors in accordance with Section 1 of these instructions.

“Board of Directors” can include the designated Board of Directors, its equivalent or an appropriate committee directly reporting to the Board of Directors.

“Qualified Actuary” is a person who:

- (i) Meets the basic education, experience and continuing education requirements of the Specific Qualification Standard for Statements of Actuarial Opinion, NAIC Property and Casualty Annual Statement, as set forth in the *Qualification Standards for Actuaries Issuing Statements of Actuarial Opinion in the United States (U.S. Qualifications Standards)*, promulgated by the American Academy of Actuaries (Academy);
- (ii) Has obtained and maintains an Accepted Actuarial Designation; and
- (iii) Is a member of a professional actuarial association that requires adherence to the same *Code of Professional Conduct* promulgated by the Academy, requires adherence to the *U.S. Qualification Standards*, and participates in the Actuarial Board for Counseling and Discipline when its members are practicing in the U.S.

An exception to parts (i) and (ii) of this definition would be an actuary evaluated by the Academy’s Casualty Practice Council and determined to be a Qualified Actuary for particular lines of business and business activities.

“Accepted Actuarial Designation” in item (ii) of the definition of a Qualified Actuary, is an actuarial designation accepted as meeting or exceeding the NAIC’s Minimum Property/Casualty (P/C) Actuarial Educational Standards for a P/C Appointed Actuary (published on the NAIC website). The following actuarial designations, with any noted conditions, are accepted as meeting or exceeding basic education minimum standards:

- (i) Fellow of the CAS (FCAS) – Condition: basic education must include Exam 6 – Regulation and Financial Reporting (United States);
- (ii) Associate of the CAS (ACAS) – Conditions: basic education must include Exam 6 – Regulation and Financial Reporting (United States) and Exam 7 – Estimation of Policy Liabilities, Insurance Company Valuation, and Enterprise Risk Management;
- (iii) Fellow of the SOA (FSA), with designation earned under the requirements in effect as of July 2024 – Conditions: basic education must include completion of the general insurance track, including the following optional exams: the United States’ version of the Financial and Regulatory Environment Exam and the Advanced Topics in General Insurance Exam.

Commented [MF1]: <https://www.soa.org/education/exam-req/edu-fsa-req/#fsa-track-gi>

Commented [MF2]: Beginning in 2025, SOA education structure will not have “tracks.” See <https://fsa2025.soa.org/transition-and-timing/> and <https://fsa2025.soa.org/regulatory-material-shift/>.

The SOA is offering transfer credit for the old GI exams (GI RR => GI 101, GI FREU => GI 201, etc., per <https://fsa2025.soa.org/transition-and-timing/>), which makes it seem like the same material will be covered on the new exams. However, organizations give transition credit to avoid disadvantaging candidates, not necessarily because the same material is covered on both the old and new exams. Our Instructions can’t give the same “credit” until the SOA explicitly maps the new exams to each of the P&C knowledge statements and the subject matter experts review the material. We would also need to include the optional regulatory certificate as a requirement. Since this certificate is not available yet, we haven’t been able to review it for reasonableness.

2025 P&C Statement of Actuarial Opinion Instructions
Draft for discussion by Actuarial Opinion (C) Working Group on 8/29/2024

The SOA educational materials for the revised FSA pathway (announced by the SOA on July 26, 2023), including the materials for the optional regulatory certificate, are not available as of July 2024, so regulators are unable to assess the conditions under which an actuary who obtains an FSA designation under the revised pathway would meet the definition of a “Qualified Actuary.”

The table below provides some allowable exam substitutions for (i), (ii) and (iii) in the definition of “Accepted Actuarial Designation.” Noting that CAS exams have changed over time, exceptions for (i) and (ii) provide for FCAS/ACAS designations achieved before an exam was created (e.g. CAS Exam 6-US) or with an earlier version of an exam or exam topic (e.g., 2010 CAS Exam 6 instead of the current CAS Exam 7 Section A). FCAS/ACAS qualified under the 2018 and prior Statement of Actuarial Opinion instructions can use the noted substitution rules to achieve qualification under the new instructions by demonstrating basic and/or continuing education of the required topics including material in CAS Exam 6 (US) and section A of CAS Exam 7 (in the May 2019 CAS syllabus). Exceptions for (iii) for an FSA are also included in the table. The SOA exams completed in the general insurance track in 2019 and prior should be supplemented with continuing education and experience to meet basic education requirements in the *U.S. Qualification Standards*. For purpose of these instructions only, the table also includes specific exams from other organizations that are accepted as substitutes.

Exception for (i), (ii), or (iii)	Exam:	Exam Substitution Allowed*
(i) and (ii)	CAS Exam 6 (US)	<ol style="list-style-type: none"> Any CAS version of a U.S. P/C statutory accounting and regulation exam administered prior to creation of the CAS Exam 6 (US) in 2011. An FCAS or ACAS earned prior to 2021 who did not pass CAS Exam 6 (US) or an allowable exam substitution, may substitute experience and/or continuing education for CAS Exam 6 (US) provided the Appointed Actuary explains in his/her qualification documentation how knowledge of U.S. financial reporting and regulation was obtained. SOA FREU (US) Exam
(ii)	CAS Exam 7	<ol style="list-style-type: none"> Any CAS version of an exam including advanced P/C reserving administered prior to creation of Exam 7 in 2011. An ACAS earned prior to 2021 who did not pass CAS Exam 7 or an allowable exam substitution, may substitute experience and/or continuing education for CAS Exam 7 provided the Appointed Actuary explains in his/her qualification documentation how knowledge of the additional reserving topics in CAS Exam 7 (Section A) in the May 2019 syllabus was obtained. SOA Advanced Topics Exam (Note: The ERM portion of Exam 7 is not needed to meet NAIC educational standards, therefore SOA ERM Exam is not needed for the substitution for this purpose.)
(iii)	SOA FREU (US) Exam	<ol style="list-style-type: none"> CAS Exam 6 (US) Any CAS version of a U.S. statutory accounting and regulation exam administered prior to creation of the CAS Exam 6 in 2011.
(iii)	SOA Advanced Topics Exam	<ol style="list-style-type: none"> CAS Exam 7 Any CAS version of an exam containing the advanced techniques to estimate policy liabilities (i.e., advanced reserving).
*Note: These exam substitutions only apply to these instructions and are not applicable for CAS or SOA exam waivers.		

“Insurer” or “Company” means an insurer or reinsurer authorized to write property and/or casualty insurance under the laws of any state and who files on the Property and Casualty Blank.

“Actuarial Report” means a document or other presentation prepared as a formal means of conveying to the state regulatory authority and the Board of Directors the Appointed Actuary’s professional conclusions and recommendations, of recording and communicating the methods and procedures, of assuring that the parties addressed are aware of the significance of the Appointed Actuary’s opinion or findings, and of documenting the analysis underlying the opinion. The required content of the Actuarial Report is further described in paragraph 7. (Note that the inclusion of the Board of Directors as part of the intended audience for the Actuarial Report does not change the content of the Actuarial Report as described in paragraph 7. The Appointed Actuary should present findings to the Board of Directors in a manner deemed suitable for such audience.)

2025 P&C Statement of Actuarial Opinion Instructions
Draft for discussion by Actuarial Opinion (C) Working Group on 8/29/2024

“Property and Casualty (P&C) Long Duration Contracts” refers to contracts (excluding financial guaranty contracts, mortgage guaranty contracts and surety contracts) that fulfill both of the following conditions: (1) the contract term is greater than or equal to 13 months; and (2) the insurer can neither cancel the contract nor increase the premium during the contract term. These contracts are subject to the three tests of *SSAP No. 65—Property and Casualty Contracts* of the NAIC *Accounting Practices and Procedures Manual*.

“Accident and Health (A&H) Long Duration Contracts” refers to A&H contracts in which the contract term is greater than or equal to 13 months and contract reserves are required. See Schedule H instructions for a description of categories of contract reserves, as well as policy features that give rise to contract reserves. Two specific examples of contracts that typically require contract reserves are long-term care and disability income insurance.

1B. Exemptions

An insurer who intends to file for one of the exemptions under this Section must submit a letter of intent to its domiciliary commissioner no later than December 1 of the calendar year for which the exemption is to be claimed. The commissioner may deny the exemption prior to December 31 of the same year if he or she deems the exemption inappropriate.

A copy of the approved exemption must be filed with the Annual Statement in all jurisdictions in which the company is authorized.

Exemption for Small Companies

An insurer that has less than \$1,000,000 total direct plus assumed written premiums during a calendar year, and less than \$1,000,000 total direct plus assumed loss and loss adjustment expense reserves at year-end, in lieu of the Actuarial Opinion required for the calendar year, may submit an affidavit under oath of an officer of the insurer that specifies the amounts of direct plus assumed written premiums and direct plus assumed loss and loss adjustment reserves.

Exemption for Insurers under Supervision or Conservatorship

Unless ordered by the domiciliary commissioner, an insurer that is under supervision or conservatorship pursuant to statutory provision is exempt from the filing requirements contained herein.

Exemption for Nature of Business

An insurer otherwise subject to the requirement and not eligible for an exemption as enumerated above may apply to its domiciliary commissioner for an exemption based on the nature of business written.

Financial Hardship Exemption

An insurer otherwise subject to this requirement and not eligible for an exemption as enumerated above may apply to the commissioner for a financial hardship exemption. Financial hardship is presumed to exist if the projected reasonable cost of the Actuarial Opinion would exceed the lesser of:

- (i) One percent (1%) of the insurer’s capital and surplus reflected in the insurer’s latest quarterly statement for the calendar year for which the exemption is sought; or
- (ii) Three percent (3%) of the insurer’s direct plus assumed premiums written during the calendar year for which the exemption is sought as projected from the insurer’s latest quarterly statements filed with its domiciliary commissioner.

1C. Reporting Requirements for Pooled Companies

For each company in the pool, the Appointed Actuary shall include a description of the pool, identification of the lead company and a listing of all companies in the pool, their state of domicile and their respective pooling percentages.

2025 P&C Statement of Actuarial Opinion Instructions
Draft for discussion by Actuarial Opinion (C) Working Group on 8/29/2024

Exhibits A and B for each company in the pool should represent the company's share of the pool and should reconcile to the financial statement for that company.

The following paragraph applies to companies that have a 0% share of the pool (no reported Schedule P data). The company shall submit an Actuarial Opinion that reads similar to that provided for the lead company. For example, the IRIS ratio and risk of material adverse deviation discussions, and other relevant comments shall relate to the risks of the lead company in the pool. The Exhibit B responses to question 5 should be \$0 and to question 6 should be "not applicable." Exhibits A and B of the lead company should be attached as an addendum to the PDF file and/or hard copy being filed (but would not be reported by the 0% companies in their data capture).

2. The Actuarial Opinion must consist of an IDENTIFICATION paragraph identifying the Appointed Actuary; a SCOPE paragraph identifying the subjects on which an opinion is to be expressed and describing the scope of the Appointed Actuary's work; an OPINION paragraph expressing his or her opinion with respect to such subjects; and one or more additional RELEVANT COMMENTS paragraphs. These four sections must be clearly designated.
3. The IDENTIFICATION paragraph should indicate the Appointed Actuary's relationship to the Company, qualifications for acting as Appointed Actuary and date of appointment and specify that the appointment was made by the Board of Directors.

If the Appointed Actuary was approved by the Academy to be a "Qualified Actuary," with or without limitation, or if the Appointed Actuary is not a Qualified Actuary but was approved by the domiciliary commissioner, the company must attach, each year, the approval letter and reference such in the identification paragraph.

4. The SCOPE paragraph should contain a sentence such as the following:

"I have examined the actuarial assumptions and methods used in determining reserves listed in Exhibit A, as shown in the Annual Statement of the Company as prepared for filing with state regulatory officials, as of December 31, 20__, and reviewed information provided to me through XXX date."

Exhibit A should list those items and amounts with respect to which the Appointed Actuary is expressing an opinion.

The Appointed Actuary should state that the items in the SCOPE, on which he or she is expressing an opinion, reflect Disclosure items 8 through 13.2 in Exhibit B.

The SCOPE paragraph should include a paragraph such as the following regarding the data used by the Appointed Actuary in forming the opinion:

"In forming my opinion on the loss and loss adjustment expense reserves, I relied upon data prepared by _____ (officer name and title at the Company). I evaluated that data for reasonableness and consistency. I also reconciled that data used directly in my analysis to Schedule P, Part 1 of the Company's current Annual Statement. In other respects, my examination included such review of the actuarial assumptions and methods used and such tests of the calculations as I considered necessary."

Commented [MF3]: Suggested by Chantel Long (IL)

5. The OPINION paragraph should include a sentence that at least covers the points listed in the following illustration:
"In my opinion, the amounts carried in Exhibit A on account of the items identified:

- A. Meet the requirements of the insurance laws of (state of domicile).
- B. Are computed in accordance with accepted actuarial standards.
- C. Make a reasonable provision for all unpaid loss and loss adjustment expense obligations of the Company under the terms of its contracts and agreements."

If the Scope includes material Unearned Premium Reserves for P&C Long Duration Contracts or Other Loss Reserve items on which the Appointed Actuary is expressing an opinion, the Actuarial Opinion should contain language such as the following:

Commented [MF4]: COPLER has requested guidance on whether the Appointed Actuary is expected to opine on the long-duration UEPR when it is not material.

2025 P&C Statement of Actuarial Opinion Instructions
Draft for discussion by Actuarial Opinion (C) Working Group on 8/29/2024

- D. Make a reasonable provision for the unearned premium reserves for P&C Long Duration Contracts and/or <insert Other Loss Reserve item on which the Appointed Actuary is expressing an Opinion> of the Company under the terms of its contracts and agreements.

If there is any aggregation or combination of items in Exhibit A, the opinion language should clearly identify the combined items.

Insurance laws and regulations shall at all times take precedence over the actuarial standards.

If the Appointed Actuary has made use of the analysis of another actuary not within the Appointed Actuary's control (such as for pools and associations, for a subsidiary or for special lines of business) for a material portion of the reserves, the other actuary must be identified by name, credential and affiliation within the OPINION paragraph. If the Appointed Actuary has made use of the work of a non-actuary (such as for modeling) for a material portion of the reserves, that individual must be identified by name and affiliation and a description of the type of analysis performed must be provided.

If the Appointed Actuary has made use of an analysis or opinion of another not within the Appointed Actuary's control for a material portion of the reserves, the Appointed Actuary should disclose whether he or she reviewed the other's underlying analysis. If a review was conducted, the Appointed Actuary should disclose the extent of the review including items such as the methods and assumptions used and the underlying arithmetic calculations.

A Statement of Actuarial Opinion should be made in accordance with one of the following sections (1 through 5). The Appointed Actuary must explicitly identify in Exhibit B which type applies.

1. Determination of Reasonable Provision. When the carried reserve amount is within the Appointed Actuary's range of reasonable reserve estimates, the Appointed Actuary should issue a Statement of Actuarial Opinion that the carried reserve amount makes a reasonable provision for the liabilities associated with the specified reserves.
2. Determination of Deficient or Inadequate Provision. When the carried reserve amount is less than the minimum amount that the Appointed Actuary believes is reasonable, the Appointed Actuary should issue a Statement of Actuarial Opinion that the carried reserve amount does not make a reasonable provision for the liabilities associated with the specified reserves. In addition, the Appointed Actuary should disclose the minimum amount that the Appointed Actuary believes is reasonable.
3. Determination of Redundant or Excessive Provision. When the carried reserve amount is greater than the maximum amount that the Appointed Actuary believes is reasonable, the Appointed Actuary should issue a Statement of Actuarial Opinion that the carried reserve amount does not make a reasonable provision for the liabilities associated with the specified reserves. In addition, the Appointed Actuary should disclose the maximum amount that the Appointed Actuary believes is reasonable.
4. Qualified Opinion. When, in the Appointed Actuary's opinion, the reserves for a certain item or items are in question because they cannot be reasonably estimated or the Appointed Actuary is unable to render an opinion on those items, the Appointed Actuary should issue a qualified Statement of Actuarial Opinion. The Appointed Actuary should disclose the item (or items) to which the qualification relates, the reason(s) for the qualification and the amounts for such item(s), if disclosed by the Company. Such a qualified opinion should state whether the carried reserve amount makes a reasonable provision for the liabilities associated with the specified reserves, *except for* the item (or items) to which the qualification relates. The Appointed Actuary is not required to issue a qualified opinion if the Appointed Actuary reasonably believes that the item (or items) in question are not likely to be material.
5. No Opinion. The Appointed Actuary's ability to give an opinion is dependent upon data, analyses, assumptions, and related information that are sufficient to support a conclusion. If the Appointed Actuary cannot reach a conclusion due to deficiencies or limitations in the data, analyses, assumptions, or related information, then the Appointed Actuary may issue a statement of no opinion. A statement of no opinion should include a description of the reasons why no opinion could be given.

Commented [MF5]: Previously discussed by AOWG in July 2024:

1. Does "affiliation" need to be clarified?
2. Is it necessary to have slightly different disclosure when relying on another actuary vs. a non-actuary?

Commented [MF6]: Comments from Julie Lederer:

This approach would not require the appointed actuary to disclose anything in the opinion that he wasn't already required to disclose under the combination of the old ASOP plus the NAIC instructions. Perhaps this would mitigate concerns over confidentiality. The old ASOP was adopted in 2010, and this is the first we've heard of confidentiality issues.

Note that the old ASOP didn't require the appointed actuary to identify or describe in the opinion the methods, assumptions, and calculations of the other; it only required a disclosure of the extent of the appointed actuary's review, which could involve disclosure of whether the actuary reviewed the assumptions, methods, or calculations. A confusion on this point might be contributing to the concerns.

2025 P&C Statement of Actuarial Opinion Instructions
Draft for discussion by Actuarial Opinion (C) Working Group on 8/29/2024

6. The Appointed Actuary must provide RELEVANT COMMENT paragraphs to address the following topics of regulatory importance.

A. Company-Specific Risk Factors

The Appointed Actuary should include an explanatory paragraph to describe the major factors, combination of factors or particular conditions underlying the risks and uncertainties the Appointed Actuary considers relevant. The explanatory paragraph should not include general, broad statements about risks and uncertainties due to economic changes, judicial decisions, regulatory actions, political or social forces, etc., nor is the Appointed Actuary required to include an exhaustive list of all potential sources of risks and uncertainties.

B. Risk of Material Adverse Deviation

The Appointed Actuary must provide specific RELEVANT COMMENT paragraphs to address the risk of material adverse deviation. The Appointed Actuary must identify the materiality standard and the basis for establishing this standard. The materiality standard must also be disclosed in U.S. dollars in Exhibit B: Disclosures. The Appointed Actuary should explicitly state whether or not he or she reasonably believes that there are significant risks and uncertainties that could result in material adverse deviation. This determination is also to be disclosed in Exhibit B.

C. Other Disclosures in Exhibit B

RELEVANT COMMENT paragraphs should describe the significance of each of the remaining Disclosure items (8 through 14) in Exhibit B. The Appointed Actuary should address the items individually and in combination when commenting on a material impact.

D. Reinsurance

RELEVANT COMMENT paragraphs should address reinsurance collectability, retroactive reinsurance and financial reinsurance.

The Appointed Actuary's comments on reinsurance collectability should address any uncertainty associated with including potentially uncollectable amounts in the estimate of ceded reserves. Before commenting on reinsurance collectability, the Appointed Actuary should solicit information from management on any actual collectability problems, review ratings given to reinsurers by a recognized rating service and examine Schedule F for the current year for indications of regulatory action or reinsurance recoverable on paid losses over ninety (90) days past due. The comment should also reflect any other information the Appointed Actuary has received from management or that is publicly available about the capability or willingness of reinsurers to pay claims. The Appointed Actuary's comments do not imply an opinion on the financial condition of any reinsurer.

Retroactive reinsurance refers to agreements referenced in *SSAP No. 62R—Property and Casualty Reinsurance* of the NAIC *Accounting Practices and Procedures Manual*.

Financial reinsurance refers to contracts referenced in SSAP No. 62R in which credit is not allowed for the ceding insurer because the arrangements do not include a transfer of both timing and underwriting risk that the reinsurer undertakes in fact to indemnify the ceding insurer against loss or liability by reason of the original insurance.

E. IRIS Ratios

If the Company's reserves will create exceptional values under the NAIC IRIS Tests for One-Year Reserve Development to Policyholders' Surplus, Two-Year Reserve Development to Policyholders' Surplus or Estimated Current Reserve Deficiency to Policyholders' Surplus, the Appointed Actuary must include RELEVANT COMMENT on the factors that led to the unusual value(s).

F. Methods and Assumptions

If there has been any significant change in the actuarial assumptions and/or methods from those previously employed, that change should be described in a RELEVANT COMMENT paragraph. If the Appointed Actuary

2025 P&C Statement of Actuarial Opinion Instructions
Draft for discussion by Actuarial Opinion (C) Working Group on 8/29/2024

is newly appointed and does not review the work of the prior Appointed Actuary, then the Appointed Actuary should disclose this.

7. The Actuarial Opinion must include assurance that an Actuarial Report and underlying actuarial workpapers supporting the Actuarial Opinion will be maintained at the Company and available for regulatory examination for seven (7) years. The Actuarial Report contains significant proprietary information. It is expected that the Actuarial Report be held confidential and not be intended for public inspection. The Actuarial Report must be available by May 1 of the year following the year-end for which the Actuarial Opinion was rendered or within two (2) weeks after a request from an individual state commissioner.

The Actuarial Report should be consistent with the documentation and disclosure requirements of ASOP No. 41, Actuarial Communications. The Actuarial Report must contain both narrative and technical components. The narrative component should provide sufficient detail to clearly explain to Company management, the Board of Directors, the regulator or other authority the findings, recommendations and conclusions, as well as their significance. The technical component should provide sufficient documentation and disclosure for another actuary practicing in the same field to evaluate the work. This technical component must show the analysis from the basic data (e.g., loss triangles) to the conclusions.

Actuarial Guideline LI—The Application of Asset Adequacy Testing to Long-Term Care Insurance Reserves (AG 51) in the NAIC *Accounting Practices and Procedures Manual* requires a company with over 10,000 in force lives covered by long-term care (LTC) insurance contracts as of the valuation date to perform a stand-alone asset adequacy analysis for its in force long-term care (LTC) contracts. The Actuarial Report and workpapers summarizing the results, assumptions and testing procedures for the asset adequacy testing of LTC business must be in compliance with AG 51 requirements. When referring to AG 51, the term “Actuarial Memorandum” is synonymous with Actuarial Report and workpapers.

The Actuarial Report should contain disclosure of all reserve amounts associated with A&H Long Duration Contracts reported by the Company; the reserve amounts in the Actuarial Report should tie to the Annual Statement.

The Actuarial Report must also include:

- A. A description of the Appointed Actuary’s relationship to the Company, with clear presentation of the Appointed Actuary’s role in advising the Board of Directors and/or management regarding the carried reserves. The Actuarial Report should identify how and when the Appointed Actuary presents the analysis to the Board of Directors and, where applicable, to the officer(s) of the Company responsible for determining the carried reserves.
- B. An exhibit that ties to the Annual Statement and compares the Appointed Actuary’s conclusions to the carried amounts consistent with the segmentation of exposure or liability groupings used in the analysis. The Appointed Actuary’s conclusions include the Appointed Actuary’s point estimate(s), range(s) of reasonable estimates or both.
- C. An exhibit that reconciles and maps the data used by the Appointed Actuary, consistent with the segmentation of exposure or liability groupings used in the Appointed Actuary’s analysis, to the Annual Statement Schedule P line of business reporting. An explanation should be provided for any material differences.
- D. An exhibit or appendix showing the change in the Appointed Actuary’s estimates from the prior Actuarial Report, including extended discussion of factors underlying any material changes. The exhibit or appendix should illustrate the changes on a net basis but should also include the changes on a gross basis, if relevant. If the Appointed Actuary is newly appointed and does not review the work of the prior Appointed Actuary, then the Appointed Actuary should disclose this.
- E. Extended comments on trends that indicate the presence or absence of risks and uncertainties that could result in material adverse deviation.
- F. Extended comments on factors that led to unusual IRIS ratios for One-Year Reserve Development to Policyholders’ Surplus, Two-Year Reserve Development to Policyholders’ Surplus or Estimated Current Reserve Deficiency to Policyholders’ Surplus, and how these factors were addressed in prior and current analyses.

2025 P&C Statement of Actuarial Opinion Instructions
Draft for discussion by Actuarial Opinion (C) Working Group on 8/29/2024

- G. If the Appointed Actuary has made use of an analysis or opinion of another not within the Appointed Actuary's control for a material portion of the reserves:
- i. The dollar amount of the reserves covered by the other's analysis or opinion and the percentage of the total reserves subject to the Appointed Actuary's opinion that these other reserves represent.
 - ii. If the Appointed Actuary reviewed the other's underlying analysis, the Appointed Actuary's conclusions from the review.

Commented [MF7]: Suggested by Julie Lederer, this makes use of language from the regulatory guidance and would enhance the disclosure requirements beyond what's currently required in the reports.

8. The Actuarial Opinion should conclude with the signature of the Appointed Actuary responsible for providing the Actuarial Opinion and the date when the Actuarial Opinion was rendered. The signature and date should appear in the following format:

Signature of Appointed Actuary
Printed name of Appointed Actuary
Employer's name
Address of Appointed Actuary
Telephone number of Appointed Actuary
Email address of Appointed Actuary
Date opinion was rendered

The same information should be reproduced within the Actuarial Report, along with the date the Actuarial Report was finalized.

9. The Insurer required to furnish an Actuarial Opinion shall require its Appointed Actuary to notify its Board of Directors or its audit committee in writing within five (5) business days after any determination by the Appointed Actuary that the Actuarial Opinion submitted to the domiciliary commissioner was in error as a result of reliance on data or other information (other than assumptions) that, as of the balance sheet date, was factually incorrect. The Actuarial Opinion shall be considered to be in error if the Actuarial Opinion would have not been issued or would have been materially altered had the correct data or other information been used. The Actuarial Opinion shall not be considered to be in error if it would have been materially altered or not issued solely because of data or information concerning events subsequent to the balance sheet date or because actual results differ from those projected. Notification is required when discovery is made between the issuance of the Actuarial Opinion and Dec. 31 of that year. Notification should include a summary of such findings.

If the Appointed Actuary learns that the data or other information relied upon was factually incorrect, but cannot immediately determine what, if any, changes are needed in the Actuarial Opinion, the Appointed Actuary and the Company should quickly undertake procedures necessary for the Appointed Actuary to make such determination. If the Insurer does not provide the necessary data corrections and other support (including financial support) within ten (10) business days, the Appointed Actuary should proceed with the notification to the Board of Directors and the domiciliary commissioner.

An Insurer who is notified pursuant to the preceding paragraphs shall forward a copy of the amended Actuarial Opinion to the domiciliary commissioner within five (5) business days of receipt of such and shall provide the Appointed Actuary making the notification with a copy of the letter and amended Actuarial Opinion submitted to the domiciliary commissioner. If the Appointed Actuary fails to receive such copy within the five (5) business day period referred to in the previous sentence, the Appointed Actuary shall notify the domiciliary commissioner within the next five (5) business days that an amended Actuarial Opinion has been finalized.

No Appointed Actuary shall be liable in any manner to any person for any statement made in connection with the above paragraphs if such statement is made in a good faith effort to comply with the above paragraphs.

Draft for discussion by Actuarial Opinion (C) Working Group on 8/29/2024

10. The net reserves for losses and loss adjustment expenses for the Company's share of voluntary and involuntary underwriting pools' and associations' unpaid losses and loss adjustment expenses that are included in reserves shown on the Liabilities, Surplus and Other Funds page, Losses and Loss Adjustment Expenses lines \$ _____
11. The net reserves for losses and loss adjustment expenses that the Company carries for the following liabilities included on the Liabilities, Surplus and Other Funds page, Losses and Loss Adjustment Expenses lines *
- 11.1 Asbestos, as disclosed in the Notes to Financial Statements (Notes, Line 33A03D, ending net asbestos reserves for current year) Electronic Filing Col 5 \$ _____
- 11.2 Environmental, as disclosed in the Notes to Financial Statements (Notes, Line 33D03D, ending net environmental reserves for current year), Electronic Filing Col 5 \$ _____
12. The total claims made extended loss and loss adjustment expense, and unearned premium reserves (Greater than or equal to Schedule P Interrogatories)
- 12.1 Amount reported as loss and loss adjustment expense reserves \$ _____
- 12.2 Amount reported as unearned premium reserves \$ _____
13. The net reserves for the A&H Long Duration Contracts that the Company carries on the following lines on the Liabilities, Surplus and Other Funds page:
- 13.1 Losses \$ _____
- 13.2 Loss Adjustment Expenses \$ _____
- 13.3 Unearned Premium \$ _____
- 13.4 Write-In (list separately, adding additional lines as needed, and identify (e.g., "Premium Deficiency Reserves", "Contract Reserves other than Premium Deficiency Reserves" or "AG 51 Reserves")) \$ _____
14. Other items on which the Appointed Actuary is providing relevant comment (list separately, adding additional lines as needed) \$ _____

* The reserves disclosed in item 11 above, should exclude amounts relating to contracts specifically written to cover asbestos and environmental exposures. Contracts specifically written to cover these exposures include Environmental Impairment Liability (post 1986), Asbestos Abatement, Pollution Legal Liability, Contractor's Pollution Liability, Consultant's Environmental Liability, and Pollution and Remediation Legal Liability.

Commented [MF8]: To be discussed: What is this intended to be?

- A)Reserves assumed from underwriting pools (net of pool's reinsurance)
- B)Also net of the Company's reinsurance that applies to these reserves?
- C)Also less reserves ceded by the Company to underwriting pools?
