	Regulator or IP	IDENTIFICATION OF SPEED TO MARKET TOOL SUGGESTED FOR CHANGE	DESCRIPTION OF SUGGESTED TOOL CHANGE	REASON OR JUSTIFICATION FOR SUGGESTED CHANGE	ADDITIONAL THOUGHTS TO CONSIDER WHEN EVALUATING THE SUGGESTION?	
1	Regulator	Uniform Life, Accident and Health, Annuity, Credit Product Coding Matrix	<p>MS10 Individual Medicare Supplement-Standard and 2010 Standard Plans</p> <p>MS10.000 Individual Medicare Supplement-Standard and 2010 Standard Plans</p> <p>Description - A package filing containing individual Medicare standard plans issued before 6/1/2010 and 2010 Medicare standard issued 6/1/2010 and later.</p>	<p>Plans issued before 6/1/2010 (1990 plans) have similar benefits to those plans with the same letter issued after 6/1/2020 (2010 plans). Therefore it makes sense for companies to pool some or all of the experience for the 1990 and 2010 plans. If a company submits rates and supporting documentation for both 1990 and 2010 plans, the existing TOIs and Sub-TOIs do not account for this. If a company does not pool the 1990 and 2010 plans, they can still use the existing TOIs and Sub-TOIs.</p>	<p>Would these new TOIs be applicable to rate filings only? Are more sub-TOIs needed at a plan level rather than one generic sub-TOI?</p>	
2	Regulator	Uniform Life, Accident and Health, Annuity, Credit Product Coding Matrix	<p>MS11 Group Medicare Supplement- Standard and 2010 Standard Plans</p> <p>MS11.000 Group Medicare Supplement- Standard and 2010 Standard Plans</p> <p>Description - A package filing containing group Medicare standard plans issued before 6/1/2010 and 2010 Medicare standard issued 6/1/2010 and later.</p>
