RE: 2021-11BWG – New Supplement to Detail Direct Exposures Written and Earned  
2021-13BWG – Exhibit of Other Liabilities by Lines of Business

The Blanks (E) Working Group asked the Casualty Actuarial and Statistical (C) Task Force (CASTF) for comment on proposals 2021-11BWB and 2021-13BWG. CASTF met on July 10 to consider a response to each proposal.

Regarding proposal 2021-11BWG, CASTF adopted the following motion:

CASTF is ready to provide guidance regarding the implementation of the Blanks proposal 2021-11BWG if that proposal moves forward. Furthermore, CASTF requests that Birny Birnbaum submit the most current up-to-date version of the proposal for further consideration and suggestions from CASTF.

Regarding proposal 2021-13BWG, CASTF adopted the following motion:

Inform the Blanks Working Group CASTF supports this proposal (with or without modification to the proposed lines of business) but recommends the reporting of IBNR be modified to be reporting of Case Reserves because the IBNR is likely not available at this level of detail.
