RE: Comments on 2025 Charges

Dear Commissioner Conway,

On behalf of the National Association of Mutual Insurance Companies<sup>1</sup> (NAMIC) members, this letter is submitted to express appreciation for the formalized creation of the Homeowners Market Data Call (C) Task Force, rendering it subject to all NAIC Open Meetings policies and procedures. We appreciate this positive development in the name of transparency, while NAMIC would prefer that NAIC first conduct an analysis to determine its ongoing necessity, we look forward to engaging with the Task Force as it transitions the Homeowners Data Call into a streamlined process for regulators to collect the market information they need. We appreciate that the new charges indicate the Task Force will be evaluating the processes and procedures of last year's data call. We can be helpful in participating in this evaluation in order for it to be a productive exercise for carrier compliance while bound by appropriately noted statutory authority and confidentiality standards for continued strength of state based competitive marketplaces. NAMIC continues to strive to be a helpful partner with the NAIC and state regulators to support compliance.

Thank you for the opportunity to comment, we look forward to working with the Committee and Task Force.

Erica Weyhenmeyer, CPCU, MCM, AIE  
Policy Vice President- Market Regulation and Workers' Compensation  
National Association of Mutual Insurance Companies (NAMIC)

---

<sup>1</sup> NAMIC Membership includes more than 1,500 member companies. The association supports regional and local mutual insurance companies on main streets across America and many of the country's largest national insurers. NAMIC member companies write \$323 billion in annual premiums. Our members account for 67 percent of homeowners, 55 percent of automobile, and 32 percent of business insurance markets. Through our advocacy programs we promote public policy solutions that benefit NAMIC member companies and the policyholders they serve and foster greater understanding and recognition of the unique alignment of interests between management and policyholders of mutual companies.
