

PROPOSED GOALS FOR PRE-DISASTER MITIGATION WORKSTREAM
CLIMATE AND RESILIENCY (EX) TASK FORCE

Goals/Deliverables

1. Identify mitigation measures most effective at reducing losses from common perils (flood, hurricane, severe convective storm, earthquake, winter storm, wildfire).
2. Seek input/gather information on benefit-cost of mitigation measures identified.
3. Work with industry to develop best practices in pricing and consumer outreach to incentivize insureds to reduce risk of loss.
4. Develop/catalog consumer outreach and messaging to encourage risk reduction.
5. Identify community stakeholder organizations that can help spread the work and put plans to action.
6. Contact local stakeholder groups to spread the word.
