1	Regulator	Uniform Property and Casualty Transmittal Document	Change" Effective Date of Last Rate Revision" on page 4 of the paper documet and the Rate/Rule Schedule of SERFF to either "Renewal Effective Date of Last Rate Revision" or add a field and capture both New and Renewal Effective dates for last rate revision.	This change would be helpful since this state limits rate changes during a renewal cycle.	Every state looks at these fields a little differently, what about adding instructions to the state General Instructions and to use the Objection process with Quick Text to request these fields be updated with a Post Submission Update.

Additionally Quick Text could be used at Disposition explaining which type of date is being approved.

Note that this differs from the NAIC Annual Statement, where force-placed business is filed on the same pre-defined lines of business as business placed by borrower or creditor for the same coverage.	This language would futher clarify where the product should be reported on the annual statements	The existing note in the PCM is applicable to the annual statement column. It does indicate there is a difference between the PCM TOI and the annual statement reporting.
