Admittance - Tax Planning Strategies

36. SSAP No. 101 provides that tax-planning strategies are required to be considered in the valuation allowance analysis and may be considered in determining the admission of DTAs under SSAP No. 101, paragraph 11. For reporting entities that are part of a consolidated tax return group, tax planning strategies impacting the CAMT are determined at a group level, as long as the tax planning strategies at the group level do not conflict with tax planning strategies at the reporting level and vice versa. For reporting entities that are separate tax return filers, a reporting entity must consider tax-planning strategies in making the valuation allowance analysis required under this interpretation.

Transition Guidance

37. Even though the CAMT was enacted in 2022 and generally became effective January 1, 2023, the requirements for statutory tax accounting for the CAMT have effectively been deferred by INT 22-02. This paragraph provides the applicable transition rules for year-end 2023 statutory accounting for requests for a timely-filed tax allocation agreement amendment or a new tax allocation agreement for the 2023 taxable year.

- a. Because the CAMT was newly enacted effective for 2023, tax allocation agreements in effect for periods prior to the 2023 taxable year include no explicit provisions relating to the CAMT. Thus, applicable reporting entities (with and without tax allocation agreement exclusions) may need to amend tax allocation agreements to deal with the CAMT effective for the entire 2023 taxable year. A reporting entity would file a request for amendment to a tax allocation agreement or a new tax allocation agreement on Form D – Prior Notice of a Transaction as required under the *Insurance Holding Company System Regulatory Act* (Model #440) and the related regulation, (Model #450) with its applicable domiciliary regulator(s) and commercial domiciliary regulator(s).
- b. Time is of the essence in both requesting and approving tax allocation agreement amendments or a new tax allocation agreement relating to the CAMT for the 2023 taxable year to be applicable to the 2023 reporting period. Accordingly, if a reporting entity files the applicable Form D request(s) for tax allocation agreement amendment or a new tax allocation agreement prior to the end of 2023 to address the CAMT for 2023 and subsequent taxable years, and the domiciliary regulator has confirmed in writing that they have no objections to using the new tax allocation agreement amendment or new tax allocation agreement, while under review. The reporting entity shall be allowed to account for the tax allocation agreement as applicable for the entire 2023 reporting period.
- c. If the final approved tax allocation agreement differs in its treatment of the CAMT allocation from the tax allocation agreement originally requested on the Form D, the difference shall be recorded as follows:
 - i. If Form D approval occurs subsequent to the balance sheet date, but before the issuance of the statutory financial statements and before the date the audited financial statements are issued, or available to be issued, such approval shall be considered a Type I subsequent event within the meaning of *SSAP No. 9— Subsequent Events*.

⁹ See paragraph 2.9 of the *SSAP No. 101 Q&A* for similar requirements in the context of grouping of assets and liabilities for measurement.
