NAIC National Meeting Non-Regulator Guest Policy Update

Effective June 15, 2022, the NAIC is implementing a new guest registration policy for national meetings.

Definition

Meeting guests are people who accompany a registered meeting attendee and do not have a business or industry interest in the event, such as friends or family members.

Guest Registration Fee

Non-regulators may register guests for a fee of \$150 per guest. Business colleagues do not qualify for guest registration.

Guest Policy

- Registered guests may attend only the Opening Session, Welcome Reception, and the Executive/Plenary Session. Event staff will be posted at entries to check badges. No badge, no entry.
- Individuals who are not registered as guests are not permitted in any sessions, events, or official meeting areas.
- Only guests of commissioners, directors, and superintendents are permitted to enter the regulator-only dining areas.

The NAIC values the support and involvement of interested parties, industry partners, and other non-regulator participants. We welcome and encourage engagement in national meetings, and we appreciate your understanding our efforts to manage costs and deliver the most valuable experience for all registered meeting attendees.
