Change Authentication Method

Remove or change authentication method on your device (phone).

Open Okta User Dashboard:  [https://authenticate.naic.org](https://authenticate.naic.org)

1. Enter your login credentials.
2. Click ▼ in the upper right corner > Click Settings.
3. Click Edit Profile.
Follow prompts relating to verification process previously set up.

4. Enter password > Click Verify.

5. Locate Extra Verification area to Remove or Set up an alternate verification option.

NOTE: Click drop-down ▼ to select a different verification method.
