

NAIC DESIGNATION HEADLINES

The NAIC Professional Designation Newsletter

THANK YOU DEBBI HOGE

It is with mixed emotions that we announce the retirement of Debbi Hoge, NAIC Designation Program Specialist. Debbi has provided the NAIC with nearly 20 years of devoted service. She is well-known as the face of the NAIC Insurance Regulator Professional Designation Program, having been a pioneer of the Program when it began in 2006.

Her accomplishments are many and include nearly single-handedly creating the Program as well as her tireless work to manage the day-to-day details, plus her ideas for ongoing enhancements – and all have been key in growing the Program to where it is today. The Program had a mere 10 participants in its first year.

Today, Debbi manages the Program with well over 2000 participants – and always doing so with her signature warm and caring professionalism. This is evident at any NAIC event, where Program participants will frequently stop by to give Debbi a hug and inquire about her grandchildren or the newest member of her family, her great-grandbaby!

To say Debbi will be missed is the ultimate understatement, but she has more than earned the right to spend more time with her loved ones. Please join us in extending our warmest wishes to Debbi for a fun and relaxing next chapter!
