HOW THE COVID-19 PANDEMIC HAS IMPACTED THE DESIGNATION PROGRAM

Together we are experiencing unprecedented times, and the COVID-19 situation is changing rapidly every day. Many departments heed the advice of national and local leaders along with trusted medical professionals, limiting close personal contact, thus many are working remotely. For some, the current work situation may cause little to no impact on day to day operations. However, for our Designation Program Candidates, that is not the case.

We are offering a temporary exception to the exam process. The exception is to allow Candidates and proctors to utilize a video conferencing tool of their choice to monitor exams. The NAIC Education & Training Department will not support technical issues or recommend a specific application. All policy and procedures will remain in effect, with some modifications for this exception.

We believe that this temporary opportunity will allow Candidates to remain on track, minimizing disruptions, while working toward earning their designation during this uncertain time.

These changes are posted on the Designation site under Features & News. If you have additional questions contact Designation@naic.org.

DELAY ON AWARDS & CERTIFICATES

We are taking every precaution to minimize the spread of this virus which includes suspending all shipments for award packets (framed certificate, award letter and pin). We want to ensure the best possible care and look forward to the day these well-deserved awards are in your hands or proudly hanging on your wall.
