On behalf of the 2020 participating states, the NAIC will send a call letter to each company that may be required to file an MCAS in one or more participating states.

Additional Information:

- Each company in a holding company system must file separately for each state in which it does business. Data for the members of a group or insurance holding company cannot be combined into a single filing for the purposes of this project. Data must be reported separately for each group member unless it involves only inter-company arbitration.
- If your company received a call letter but is currently inactive in all of the states requesting data, you are still required to participate if there is business in force for the state(s) and lines requested. If you have

questions about your company's status with a participating state, contact the [state MCAS Contact](#) to determine your participation status.

- Companies waived from filing in previous years are not automatically waived from filing this year. To request a waiver, you must submit your request using the 2020 Waiver and Extension Request form within the MCAS Submission Tool, once it is available to accept MCAS filings for the 2020 data year. You must advise each state of the reason you are requesting an exemption. Requests for exemption should be made as early as possible. Do not wait until the data is due.
- If two or more companies merged during the reporting period, the companies should report under the corporate structure that is in effect as of the last day of the reporting period. If the merger was effective before or during the review period, then the surviving company should do the combined reporting. Any of the non-surviving companies that received a call letter should contact the state that sent the letter and inform them of the change. If the merger will be effective after the reporting period, the companies involved should file separate reports.
- If your company received a call letter and the company is in rehabilitation, the company is not required to participate. However, you must contact the participating state that sent the call letter to request a waiver.
- If your company received a call letter and the company is under an Order of Supervision, you may request a waiver from each participating state that sent the company a letter. Waivers will be determined on an individual state basis and may consider items such as whether the company is continuing to write new business, premium volume, etc.
- Companies that wish to request a waiver based on an Order of Supervision are encouraged to provide the name of the state that issued the order when submitting their waiver request and should include a list of all states where a waiver is being requested.
