REVISIONS TO
2021 NAIC ANNUAL STATEMENT INSTRUCTIONS – HEALTH
DEC 2021

PAGE 431:
SCHEDULE D, PART 2, SECTION 1
Revision: Modify the instructions for Column 8, Book/Adjusted Carrying Value, to require perpetual preferred stocks at fair value not to exceed the call price regardless of whether AVR is maintained or not.

PAGE 584:
ACCIDENT AND HEALTH POLICY EXPERIENCE EXHIBIT
Revision: Fix crosscheck for Column 6 (Direct Incurred Claims Amount)
Reason: Crosscheck did not properly reflect using the change in the reserve from Exhibit 6 for Life/Fraternal companies.

EDITOR’S NOTE:
The above changes are highlighted on the revised pages that follow.

Recent Blanks (E) Working Group agenda items (exposure drafts) may be viewed in detail at the following website: www.naic.org/cmte_e_app_blanks.htm.
Column 3 – Code

Enter “^” in this column for all assets that are bifurcated between the insulated separate account filing and the non-insulated separate account filing.

If preferred stocks are not under the exclusive control of the company as shown in the General Interrogatories, they are to be identified by placing one of the codes identified in the Investment Schedules General Instructions in this column.

**Separate Account Filing Only:**

If the asset is a bifurcated asset between the insulated separate account filing and the non-insulated separate account filing, the “^” should appear first, immediately followed by the appropriate code (identified in the Investment Schedules General Instructions).

Column 4 – Foreign

Insert the appropriate code in the column based on the list provided in the Investment Schedules General Instructions.

Column 7 – Rate Per Share

Insert the market rate for preferred stocks not in good standing.

Column 8 – Book/Adjusted Carrying Value

The chart below details the appropriate valuation method for this column. The Purposes & Procedures Manual of the NAIC Investment Analysis Office and SSAP No. 97—Investments in Subsidiary, Controlled and Affiliated Entities may allow other valuation methods for preferred stock investments in Subsidiary, Controlled or Affiliated (SCA) companies.

Deduct: Cash dividends paid on Payment In Kind stock during the stock dividend period.

A direct write-down for a decline in the fair value of a stock that is other-than-temporary.
