NAIC EDUCATION AND TRAINING

The NAIC Education and Training offers professional development courses in insurance regulation for individuals at all levels of their careers and expertise. These courses are for members, government personnel, international regulators and insurance industry representatives.

The NAIC introduced the Insurance Regulator Professional Designation Program in 2006. We created this program in response to regulators requesting a structured professional development path based on the NAIC curriculum.

To learn more about the Designation Program, visit: naic.org/education_designation.htm

Please note dates, locations, tuition and continuing education credits are subject to change. For up-to-the-minute information, please visit us online at naic.org/education.

ACCREDITATION UPDATE

Course Description

Plan to attend this annual webinar to learn the latest updates to the NAIC Accreditation Program. The webinar will cover changes to the accreditation standards including Part A: Laws and Regulations, Part B: Regulatory Practices and Procedures, and Part D: Primary Licensing, Redomestications and Change of Control.

Dates

January 20

Continuing Education

Up to 1.5 credit, DRC, CPE

Webinar Regulator only

What others have said:

Good, straightforward discussion of forthcoming accreditation requirements and the process of their development.

ANNUAL INDUSTRY & RISK ALERT UPDATE

Course Description

This one-hour virtual classroom training provides an overview of the annual results, trends, developments, and current/prospective risks related to the U.S. insurance industry, including Property & Casualty/Title and Life/Accident & Health. Also covered are analytical procedures analysts can use in identifying insurers' risk related to industry results and trends

Dates

June 7

Continuing Education

Up to 2.0 credit, DRC, CPE

Non-Regulator Tuition

\$195

Webinar
Regulator only

BASIC DERIVATIVES

Course Description

The Basic Derivatives non-instructor-led course is a primer on fundamental concepts that regulators can draw upon when reviewing derivative instruments. The course is composed of reading material, six brief lectures and other learning activities designed to equip regulators with the capabilities described in the learning objectives.

Dates

One-week course
Start the first Monday of each month, beginning July 11

Continuing Education

4 Credits

Internet-based Non-instructor-led Regulator only

What others have said:

I'm in the middle of obtaining a master's degree in financial engineering from Columbia University so this was helpful in seeing the insurance industry's use of various derivatives.

THE BASICS OF INVESTING

Course Description

The Basics of Investing is a practical primer on fundamental investment concepts regulators draw upon when reviewing insurance company portfolios. Complementary to NAIC's How to Analyze Insurer Investment Portfolios course, The Basics of Investing applies a laser-like focus on the finer points of investment principles such as the primary goals of investing and investment returns.

This online course is composed of eight instructional units:

- Fundamental Drivers of Investment Analysis
- Investment Analysis & Tools
- Investment Returns
- Investment Selection
- Portfolio Theory
- Bonds
- Structured Securities
- Other Asset Classes
- Stock Investments
- Derivatives

Dates

May 2-9

Continuing Education

14 credits, PIR, DRC

What others have said:

I learned a great deal about the investing processes and how the economic environment affects investing decisions.

BEST PRACTICES IN COMPANY LICENSING

Course Description

This course provides an overview of the Uniform Certificate of Authority Application (UCAA) Company Licensing process. You will learn about best practices for submitting and reviewing Primary, Expansion and Corporate Amendment licensing applications, as well as the securities and safeguards around the UCAA process.

The following topics are covered in the course:

- Why License Insurance Companies?
- The Company Licensing Process
- Safeguards and Security Measures
- Review of a Primary Application
- Review of an Expansion Application
- Review of a Corporate Amendment Application

Dates

Start the first Monday of each month, beginning February 7

Continuing Education

14 credits, PIR, DRC

Internet-based Non-instructor-led Regulator only

What others have said:

I enjoyed it and will definitely be taking more courses from the NAIC in the near future.

CAPITAL MARKETS QUARTERLY UPDATE

Course Description

The Capital Markets Bureau is comprised of a team of experienced financial services professionals who provide support to state insurance departments in terms of capital markets research and insurance company investment activities. The objective of these calls is to give you the benefit of insight and experience from experts following the capital markets, especially as they relate to insurance companies and insurance regulation.

Dates

March 15

June 9

September 8

December 8

Continuing Education

1 credit, DRC, CPE

Webinar Regulator only

What others have said:

Following the presentation, I had a good discussion with my supervisor about the points presented in the webinar and what we should be doing in our examinations of companies. I loved the insights. Thank you for such a good and timely presentation.

CLIMATE CHANGE & RISK-FOCUSED EXAMINATIONS

Course Description

This intermediate-level one-week course provides an overview on the types of risks insurance companies face in relation to severe weather and climate change. It is designed for mid- and senior-level financial examiners in state insurance departments.

Through their study, examiners will develop a better understanding of climate change concepts, the various ways climate changes impact the insurance industry and, in turn, insurance regulation. The class will explore how solvency risks can arise in an insurer's underwriting, investment, and reinsurance practices as a result of this impact. Additionally, the course will cover the effects on solvency when these three risk areas overlap.

Dates

One-week course
Start on any Monday, beginning January 31

Continuing Education

6 credits, DRC

**Internet-based
Non-instructor-led
Regulator only**

What others have said:

*A very informative course
and hope to apply this
knowledge in near future.*

COMPANY LICENSING APPLICATION REVIEW PROCESS

Course Description

This two-week course provides a detailed look at the process for reviewing a Uniform Certificate of Authority Application (UCAA) and includes content for all application types; Primary, Redomestication, Expansion, and Corporate Amendments. The content includes a regulatory review process that covers checking the application for completeness, identifying red flags of issues or concerns, identifying areas of the application where follow-up with the Applicant Company may be necessary, verifying if a company is well capitalized to write business in your state, and making a recommendation for approval or denial of the application.

Prerequisite

It is strongly recommended that you complete the NAIC course Best Practices in Company Licensing before registering for this course.

Dates

Start the first Monday of each month, beginning February 7

Continuing Education

26 credits, PIR, DRC

Internet-based Non-Instructor-led Regulator only

What others have said:

This course was very helpful in adding to my knowledge of processing primary and expansion applications. It helped me see what I am reviewing in a different way and understand how my analysis of the applications is very crucial to the licensing process.

CONSUMER ASSISTANCE TRAINING

Course Description

If you are a consumer services representative or interested in improving the effectiveness with which you manage the complaint handling process from start to finish, this course should be an essential part of your preparation. You will learn how to process complaints, gain familiarity with complaint codes, learn why proper complaint coding is essential for effective regulation, and identify when to communicate issues with various divisions of your insurance department to ensure that consumers receive excellent service and that uniformity in complaint handling is achieved.

Dates

February 21-28
July 11-18
November 14-21

Continuing Education

14 credits, PIR, DRC

**Internet-based
Instructor-led
Regulator only**

What others have said:

I find these courses very beneficial and encourage any employee to consider taking them whether it is in their job description or not.

CORPORATE SECURITIES

Course Description

Few people set out to behave unethically, but circumstances sometimes arise that can present dilemmas insurance professionals must confront and resolve while keeping their personal integrity intact. Our field is under intense scrutiny. To be effective, and to ensure our activities are always above board and compliant with established ethical standards, we need to become familiar with general codes of conduct, guidelines, policies and laws in place that are designed to govern behavior.

Dates

One-week course
February 22 - March 1

Continuing Education

8 credits, IPIR, DRC

Internet-based
Non-instructor-led
Regulator only

DERIVATIVES

Course Description

The Derivatives course is structured around the following instructional units:

- Unit 1: Derivative Definitions
- Unit 2: Practical uses for Insurers
- Unit 3: Risks of Derivatives for Insurers

During the course, learners will participate in a variety of activities including lectures, skill builders exercises and quizzes. Material for the course has been provided by staff from the NAIC's Capital Markets and Investment Analysis Office in New York City.

Dates

July 18-25

Continuing Education

10 credits, IPIR, DRC

**Internet-based
Non-instructor-led
Regulator only**

EFFECTIVE COACHING TECHNIQUES FOR FINANCIAL REGULATORS

Course Description

Do you ever find yourself wanting to give feedback to staff but you hold back because you're just not sure how to do it or how it will be received?

We've developed a class that's designed to help you in this area! The Effective Coaching Techniques class offers insight into the importance of coaching in the workplace and those points to consider when giving feedback or receiving feedback. The class also provides examples of effective supervisory review using both financial analysis and financial examination based situations, making the content directly applicable to what you do.

If you are in a supervisory role in your department or hope to be a supervisor one day, this class is one to consider!

Non-Instructor-Led Dates

One-week course
Start any Monday, beginning February 7

Instructor-Led Dates

One-week course
October 31 - November 7

Continuing Education

14 credits, DRC

**Internet-based
Non-instructor led
or
Instructor led
Regulator only**

What others have said:

Great class. Learned more about coaching and relationship building and examination development than I ever expected to. Thanks!

ETHICAL CONSIDERATIONS OF STATE INSURANCE REGULATORS

Course Description

Few people set out to behave unethically. But circumstances sometimes arise that present dilemmas state insurance regulators must confront and resolve while keeping their personal integrity intact. Our field is under intense scrutiny. To be effective, and to ensure our activities are always above board and compliant with established ethical standards, we need to become familiar with general codes of conduct, guidelines, policies and laws in place that are designed to govern behavior.

Dates

One-week course
Start any Monday, beginning March 7

Continuing Education

2 credits, DRC

**Internet-based
Non-instructor-led
Regulator only**

FINANCIAL ANALYSIS

Course Description

The work of the financial analysts is critical to assessing an insurer's financial condition and identifying and assessing an insurer's current and prospective risks. To aid in this solvency monitoring, several analytical and assessment tools have been developed and maintained by the NAIC.

This course is designed to help analysts learn techniques for effective financial analysis, methods that employ the solvency monitoring tools and support the procedures outlined in the Financial Analysis Handbook.

For some, this class may offer new insight on financial analysis techniques. For others, the course may be a good refresher while providing ideas for areas of improvement.

Dates

Two-week course
Start any Monday, beginning January 24

Continuing Education

26 credits, PIR, DRC

Internet-based Non-instructor-led Regulator only

What others have said:

The course was useful in solidifying my understanding of the analytical tools and approaches, and how the group level analysis and multi-state supervision have evolved.

FINANCIAL ANALYSIS SOLVENCY TOOLS (FAST) ENHANCEMENTS

Course Description

The Financial Analysis Research and Development (E) Working Group and the Financial Analysis Handbook (E) Working Group of the NAIC are sponsoring a webinar to update and train financial analysts on recent revisions to the Financial Analysis Handbook and other financial analysis applications in I-SITE.

Dates

January 25

Continuing Education

Up to 1.5 credits, DRC, CPE

Webinar Regulator only

What others have said:

Very good webinar and an excellent presentation by all the speakers. I truly appreciated the webinar for focusing attention on what needs to be done (and the explanations of what not to do).

FINANCIAL CONDITION EXAMINERS HANDBOOK UPDATE

Course Description

The NAIC will be presenting a webinar on yearly Handbook Updates. This webinar is open to all state regulators and contractors who conduct analysis work.

Dates

February 17, 22

Continuing Education

1.5 credits, CPE, DRC

Webinar Regulator only

What others have said:

The presenters were very effective in their approach, and the material presented was concise and clear. Very good presentation regarding the Handbook updates.

FOUNDATIONS OF INSURANCE REGULATION

Course Description

Foundations of Insurance Regulation is a must-have professional development experience for insurance department staff just beginning their careers, or seasoned regulators desiring some exposure to a broad array of regulatory disciplines. This two-week course is also the perfect foundation on which to build a repertoire of regulatory skills and concepts taught in other NAIC courses such as Introduction to Financial Regulation and Regulation of Insurance Products.

Dates

Two-week course

Start the first Monday of each month, beginning February 7

Continuing Education

26 credits, APIR, DRC

**Internet-based
Non-instructor-led
Regulator only**

What others have said:

The discussions are always interesting since there are entry-level employees along with seasoned vets that have different viewpoints.

HOW TO ANALYZE INSURER INVESTMENT PORTFOLIOS

Course Description

How to Analyze Insurer Investment Portfolios is designed to improve students' analytical skills and walk them through the tools available to financial examiners and analysts who analyze insurer investment portfolios. This course includes an update on investment products and trends relevant to insurer portfolios. Participants will discuss the reporting of invested assets as well as underlying risks that are not readily apparent.

This course is intended for financial examiners and analysts, but any interested regulator is welcome to participate.

Date

October 31 - November 7

Continuing Education

12 credits, PIR, DRC

**Internet-based
Instructor-led
Regulator only**

What others have said:

NAIC did a good job organizing this course for analysts. It was very helpful, and I hope we have more of such courses in the future.

INTRODUCTION TO CRITICAL THINKING

Course Description

“Critical thinking” is a term that’s heard a lot in business settings. Employers want to hire people who can think critically. But what does that actually mean? What is it that critical thinkers do that elevates the level of their thinking that a non-critical thinker does not?

This regulator-only class will explore what it means to be a critical thinker. It will cover the components of the thought process, ways to evaluate how we think, and the role inquiry plays in critical thinking. Anyone who wants to look at “thinking” differently and learn the traits of a critical thinker will benefit from this overview class.

Dates

One-week course

Start any Monday, beginning January 10

Continuing Education

2 credits, DRC

Internet-based Non-instructor-led Regulator only

What others have said:

The class was more difficult than I thought it would be. I really had to think about the responses so I guess that was the intent. Thanks! I got a lot out of this class and will be using that information to enhance my job skills.

INTRODUCTION TO FINANCIAL REGULATION

Course Description

Are you a new financial examiner or analyst looking for a course designed just for you? If you have been in financial regulation two years or less, plan to enroll today in Introduction to Financial Regulation. Through this introductory course, you will gain an overview of several key areas of financial regulation:

- Differences between SAP & GAAP
- Assets and liabilities
- The P&C and life annual statements
- Tools available to you as examiners & analysts
- The financial analysis process
- The risk-focused examination process

Dates

Three-week course

Start the first Monday of each month, beginning February 7

Continuing Education

38 credits, APIR, DRC

Internet-based Non-instructor-led Regulator only

What others have said:

I enjoyed taking this course. I have a very limited background of financial regulation, and this course has taught me a great deal as to how financial regulation works and the role played by examiners and analysts.

MARKET ANALYSIS TECHNIQUES

Course Description

Regulators interested in learning more about the core duties for state market analysts as outlined in the Market Regulation Handbook will not want to miss this important course. Participants will gain hands-on experience navigating, extracting, and analyzing data from NAIC databases, as well as experience running reports from the MIS.

This course will provide a detailed focus on the analysis of complaint data and complaint ratios, an in-depth look at the company market analysis profiles, and an explanation of the relevance of financial data to market analysis. Participants will learn through lectures and case studies what regulatory action should be initiated in response to identified problems at a company.

Dates

March 28 - April 18
October 3-25

Continuing Education

38 credits, PIR, DRC

Internet-based Non-instructor-led Regulator only

What others have said:

I find this course necessary for anyone who plans to perform market analysis as it has been developed. The manual provides a great reference tool for the future to reinforce items learned throughout the course.

MARKET CONDUCT ANNUAL STATEMENT

Course Description

This two-day course will cover all aspects of the Market Conduct Annual Statement (MCAS). Participants will learn the basic history of the MCAS and the process for collecting MCAS data. They will learn about the lines of business and data elements collected through the MCAS, and they will gain an understanding of the roles of NAIC staff and state regulators during the MCAS collection period. The course will also cover MCAS analysis techniques using iSite+ tools and the identification of outliers.

This course is designed for analysts new to market analysis or those wanting to learn methods for incorporating MCAS data into their analysis.

Dates

May 17-18

Continuing Education

11 credits, PIR, DRC

Classroom Regulator only

What others have said:

I liked seeing some of the new technologies that may be available to make analysis more user-friendly going forward.

MARKET CONDUCT EXAMINATIONS

Course Description

This three-week online course will cover all aspects of the Market Conduct Examination. Participants will learn how to use the Market Regulation Handbook when conducting an examination, determine logistical and administrative requirements for an efficient examination, and identify required elements of a Market Conduct Examination Report. The course will also cover how to successfully close a Market Conduct Examination and ensure a confident mindset through the examination process.

Online Only Dates

January 3-24

November 7-28

Hybrid Course Dates

May, meet in Kansas City, MO

Continuing Education

38 credits, PIR, DRC

Internet-based Instructor-led/Hybrid Regulator only

What others have said:

The class was very interesting, informative and worthwhile. I would recommend this online course as a prerequisite to any examiner before conducting the first examination of a company, agency, affiliate of the company, a producer and the like.

MENTAL HEALTH PARITY

Course Description

This Mental Health Parity course was developed to provide regulators an in-depth overview on mental health parity and topics that are currently being discussed in this area.

- Unit 1: Introduction to Mental Health Parity Federal Law
- Unit 2: Financial Requirements and Quantitative Treatment Limits (QTLS)
- Unit 3: Overview of State Filings
- Unit 4: Non-Quantitative Treatment Limit Requirements
- Unit 5: State Panel

During the course, learners will participate in a variety of activities including lectures, skill builders exercises and quizzes. Subject Matter Experts for this course are regulators from around the country.

Dates

February 22 - March 1
September 19-26

Continuing Education

14 credits, DRC

**Internet-based
Non-instructor-led
Regulator only**

MUNICIPAL SECURITIES

Course Description

The Municipal Securities course includes the following units:

- Unit 1: Introduction
- Unit 2: Financial Guarantors and the Municipal Bond Market
- Unit 3: Municipal Default and Bankruptcy
- Unit 4 Fiscal Challenges Facing States and Local Governments

During the course learners will participate in a variety of activities including lectures, skill builders, discussions and quizzes.

Material for this course was developed by staff from the NAIC's Capital Markets and Investment Analysis Office located in the heart of New York City's Financial District. The Capital Markets & Investment Analysis Office examines the credit quality and value of insurer's investment portfolios for the benefit of the regulatory community.

Dates

One-week course

November 7-15

Continuing Education

8 credits, IPIR, DRC

**Internet-based
Non-instructor-led
Regulator only**

NEW FINANCIAL REGULATOR TRAINING

Course Description

Are you new to financial regulation and interested in an opportunity to learn best practices from experienced regulators as well as network with new regulators in other states through a live setting? If you have been involved in financial regulation of insurers for three years or less (regulators or contractors), plan to enroll today in the NAIC's Live New Financial Regulator Training taking place October 6-8, 2020 at the NAIC Central Office in Kansas City, MO.

Dates

TBD

Continuing Education

DRC, CPE

**Classroom
Regulator only**

OTHER INVESTMENT PRACTICES

Course Description

During the Other Investment Practices course you learners will participate in a variety of activities such as lectures, skill builder exercises, Capital Markets Special Report reviews, and accountability partner discussions. Topics covered during this course include:

- Unit 1: Securities Lending
- Unit 2: Insurer Exposure to Securities Lending
- Unit 3: Repurchase Agreements
- Unit 4: Recent Trends

Material for this course was developed by staff from the NAIC's Capital Markets and Investment Analysis Office located in the heart of New York City's Financial District. The Capital Markets & Investment Analysis Office examines the credit quality and value of insurer's investment portfolios for the benefit of the regulatory community.

Dates

One-week course
October 3-11

Continuing Education

6 credits, IPIR, DRC

**Internet-based
Non-instructor-led
Regulator only**

OTHER LONG-TERM INVESTED ASSETS

Course Description

This course will introduce students to important concepts, terms and processes that go along with Other Long-term Invested Assets.

We will cover:

- Background
- Growth, Components, Mix & RBC
- Regulator & Investor Concerns
- Major Components
- Other Regulatory Oversight & Strategies
- Financial Analysis Handbook
- Financial Condition Examiners Handbook
- Look-through

Dates

One-week course

April 4-11

Continuing Education

4 credits, IPIR, DRC

**Internet-based
Non-instructor-led
Regulator only**

PRACTICAL MANAGER PROGRAM

Course Description

The NAIC's Practical Manager Program is an interactive workshop designed specifically for managers, supervisors, and executive-level leaders within state insurance departments. This SPIR-level course uses real world examples and engaging, up-to-date content to develop effective leaders for state departments of insurance.

Modules

- Achieving Results through Others
- Appraising Performance
- Feedback and Difficult Discussions
- Goal Planning & Execution
- Leading Performance Change through Training
- Managing Tasks and Priorities
- Personal Leadership
- Staff Development for more Agile Teams
- Taking the Lead

Note: This program can also be customized to meet your department's needs. Visit the Practical Manager Program webpage or contact Melissa Griffin at mlgriffin@naic.org.

Continuing Education

SPIR

Classroom Instructor-led Regulator only

What others have said:

This course is exactly what it says it is—practical. Managers at all levels can gain insight and helpful strategies to manage their employees as well as their own workload more effectively.

REGULATING FOR SOLVENCY

Course Description

This class is designed to help experienced financial regulators hone their critical thinking skills in identifying and assessing the risks that threaten a company's current and prospective solvency, and then determining the action that should follow. In a broad sense, this class is about taking the information that you know about an insurer, understanding the implications of that information, and determining your next steps as an examiner or analyst.

The class begins with a foundational unit that addresses how solvency is assessed, the key causes of insolvency, and regulatory tools used when identifying and addressing critical risks within the U.S. Solvency Framework Core Principles. The remaining units then address specific risks, the risks that have the tendency to cause the most problems, ones that tend to repeat themselves over and over through different economic cycles.

Note: This class is designed for state insurance financial examiners and analysts with a minimum of three years' experience.

Dates

August 1-15

October 3-18

Continuing Education

26 credits, PIR, DRC

Internet-based Instructor-led Regulator only

What others have said:

I found the class to be very informative. It provided a good overview of the many tools that can be used by regulators when monitoring the solvency of an insurer. It also provided information on other issues relating to solvency.

REGULATING RISK RETENTION GROUPS

Course Description

This class is designed to expose you to a more specialized set of concepts and skills thereby preparing you to better regulate risk retention groups (RRGs), whether you're a financial analyst, product filing or financial examiner, regulatory attorney, or property/casualty actuary.

Dates

October 17-31

Continuing Education

26 credits, PIR, DRC

Internet-based Instructor-led Regulator only

What others have said:

I found the threaded discussions to be the most interesting. It was very enlightening to see other's positions on issues of controversy.

REGULATION OF INSURANCE PRODUCTS

Course Description

How do insurers price the products they sell? How do insurance products differ from other financial services offerings? How do regulators evaluate property and casualty rates submitted by insurers? Since life insurance rates are not regulated, what do regulators do to monitor the sales of life insurance products? Why do states vary in their approaches? So many questions—and we have the answers in this course designed especially for regulators!

Rate and policy form examiners, market analysts, and legal staff will want to attend to learn how to review insurance contracts and acquire the know-how needed to effectively use such regulatory efficiency tools as SERFF, the review standards checklists, uniform product naming standards, and filing metrics.

Dates

Two-week course
Start the first Monday of each month, beginning February 7

Continuing Education

26 credits, APIR, DRC

Internet-based Non-instructor-led Regulator only

What others have said:

This provides us with the necessary framework to face the daily issues and align our direction towards our mission as regulators.

RISK-FOCUSED EXAMINATIONS

Course Description

Learn the basics of the risk-focused exam process in this course for all new examiners.

We have designed the course to teach you the fundamental principles and processes associated with risk-focused examinations. After completing this course, you will be able to better help your state conduct effective financial examinations by focusing your procedures on the areas of greatest risk.

Dates

Two-week course

Start any Monday, beginning March 14

Continuing Education

26 credits, PIR, DRC

**Internet-based
Non-instructor-led
Regulator only**

What others have said:

As a field examiner my primary job is doing risk focus examinations, so this course is invaluable towards that objective.

RISK-FOCUSED IT REVIEW

Course Description

The examination of information technology (IT) utilized by an insurer is an important part of the examination process. As such, a formalized process to complete a general IT review is included in the Financial Condition Examiners Handbook to assist the IT examiner in completing this important piece of the financial condition examination.

This course provides an overview of the IT review process and tools used to complete the review. The course will not only be an overview, but will also give regulators a chance to review its application in real-life situations.

All financial examiners and IT examiners with limited experience in utilizing the IT review process, as well as other regulators* who wish to gain a better understanding of the process and tools utilized in examining an IT environment, will benefit from this course.

*Some experience in conducting a financial examination is expected.

Dates

October 11-25

Continuing Education

26 credits, PIR, DRC

**Internet-based
Instructor-led
Regulator only**

What others have said:

I would recommend this course to financial examiners as a cross-training exercise.

7 PROFESSIONAL WRITING SECRETS

Course Description

Do you struggle to write reports, emails, proposals? Learn to write docs 50% faster—and save 1-2 hours/week with these 7 writing tricks used by professionals, from award-winning national writing expert Paula Peters. In this fast-paced, interactive seminar, you will learn to write better, faster, easier—for any document. Plus, you'll learn how people read content today (hint: it's different from 5 years ago!). Paula has taught executives and officers from U.S. Strategic Command, Capitol Hill, Broadway, the Pentagon—and will show you the "insider" tricks of the trade.

Dates

One-week course

Start the first Monday of each month, beginning January 3

Continuing Education

8 credits, DRC

The NAIC Education and Training Department is excited to partner with Peters Writing Services, Inc., in the offering of this course for a \$295-\$375 fee.

Pricing varies upon course selection.

**Internet-based
Non-instructor-led
Regulator only**

SURPLUS LINES

Course Description

What is Surplus Lines? Simply put, Surplus Lines insurance exists to provide coverage that cannot be filled in the regular admitted market. It might be because the risk is unique or unusual and the traditional insurers decline to write the policy.

That's when the Surplus Lines market steps in. The NAIC in conjunction with the Wholesale & Specialty Insurance Association (WSIA), formerly known as NAPSLO, offers a course designed especially for state insurance regulators to help them understand the Surplus Lines market: its purpose, how it evolved, how it operates, and how it is regulated. Join other regulators for instruction from and interaction with NAIC and NAPSLO Subject Matter Experts during this fascinating one-week course!

Dates

November

Continuing Education

14 credits, PIR, DRC

**Internet-based
Instructor-led
Regulator only**

What others have said:

It was very informative and has given me a better understanding of how the surplus lines market works.

UNDERSTANDING THE FEDERAL LEGISLATIVE & REGULATORY PROCESS

Course Description

Learn how a bill really becomes a law... and so much more!

What strategies are applied to influence legislative and regulatory processes? What statutes are in place to coordinate federal and state regulation of insurance? What role does the NAIC play? If you have ever been confused by the complexities associated with establishing public policy, this is a course you won't want to miss. This one-week course is taught by Government Relations Staff from NAIC's Washington, DC office.

Dates

October 11-18

Continuing Education

14 credits, PIR, DRC

Internet-based Non-instructor-led Regulator only

What others have said:

From taking this course I was able to obtain a more in-depth understanding of how federal legislation and the regulatory process work in conjunction with one another.

US GOVERNMENT SECURITIES

Course Description

Government Securities course provides an overview of Government Securities and examines risks currently facing this class of assets. U.S. Government Securities include; U.S. Treasuries, U.S. Agency Debt, and securities issued by Government Sponsored Entities, such as Fannie Mae, Freddie Mac and the Federal Home Loan Banks.

During the course, learners will participate in a variety of activities including lectures, skill builders exercises and quizzes. Material for the course has been provided by staff from the NAIC's Capital Markets and Investment Analysis Office in New York City.

Dates

One-week course
September 12-19

What others have said:

Overall this was a very good course for beginners as well as for those individuals that needed a refresher course (as I did). Anyone who will be doing the investment reporting for their company will benefit from taking the course.

BASIC FRAUD INVESTIGATIONS

Course Description

This two-week course is designed to assist state insurance officials in detecting, monitoring, and investigating insurance fraud, both by and against consumers. Participants will learn basic terms and concepts, how to use available fraud databases provided by the NAIC and other online search tools in their investigations, and how to investigate agent and consumer fraud. Healthcare and workers compensation will be major areas of focus. Legal considerations will also be highlighted.

Dates

What others have said:

I have relayed what I learned to my reinsurance manager, and they are very impressed with what I have learned from just one basic course.

CORE LEGAL

Course Description

This two-week course is designed to acquaint attorneys new to state regulation with the various laws that govern the insurance industry. The course begins with a historical presentation of milestones and court cases that have shaped our current understanding of insurance and the business of insurance. Attorneys who want a broader understanding of their role within the state regulatory framework should not miss the opportunity to participate in this course.

This course is designed primarily for attorneys and other professionals with less than five years of experience in insurance regulation or compliance. However, veteran attorneys may also benefit from information provided within this course by NAIC legal staff.

Dates

Two-week course
Start any Monday, beginning April 4

What others have said:

There is a lot of information, and it was a welcome challenge. I am sure in the years ahead I will recall this course as an excellent primer.

ETHICAL CONSIDERATIONS OF INSURANCE COMPANIES

Course Description

Few people set out to behave unethically, but circumstances sometimes arise that can present dilemmas insurance professionals must confront and resolve while keeping their personal integrity intact. Our field is under intense scrutiny. To be effective, and to ensure our activities are always above board and compliant with established ethical standards, we need to become familiar with general codes of conduct, guidelines, policies and laws in place that are designed to govern behavior.

What others have said:

A well-prepared presentation. It helped to clarify the role of the actuary and how such role is coordinated with financial exam team.

SCHEDULE P

Course Description

Schedule P is designed to provide insurance company management with information that allows them to monitor the company's loss ratios, the company's performance compared to peer companies, and the experience of its ceded reinsurance. It also provides regulators with information to analyze the effectiveness with which a company determines its reserves. Because of the importance of the information in Schedule P, it is imperative that Schedule P be prepared properly. Yet, Schedule P contains unique insurance data and can pose a challenge to those responsible for its preparation and analysis. If you are responsible for preparing, reviewing or analyzing Schedule P, you are sure to benefit from this course regardless of your particular level of involvement in the process.
