=====**Detail Eliminated To Conserve Space**=====

**** Columns 21 through 27 will be electronic only. ****

Column 21 – Investments Involving Related Parties

Required for all investments involving related parties including, but not limited to, those captured as affiliate investments. This disclosure intends to capture information on investments held that reflect interactions involving related parties, regardless of whether the related party meets the affiliate definition, or the reporting entity has received domiciliary state approval to disclaim control/affiliation.

Enter one of the following codes to identify the role of the related party in the investment.

1. Direct loan or direct investment (excluding securitizations) in a related party, for which the related party represents a direct credit exposure.
2. Securitization or similar investment vehicles such as mutual funds, limited partnerships and limited liability companies involving a relationship with a related party as sponsor, originator, manager, servicer, or other similar influential role and for which 50% or more of the underlying collateral represents investments in or direct credit exposure to related parties.
3. Securitization or similar investment vehicles such as mutual funds, limited partnerships and limited liability companies involving a relationship with a related party as sponsor, originator, manager, servicer or other similar influential role and for which less than 50% (including 0%) of the underlying collateral represents investments in or direct credit exposure to related parties.
4. Securitization or similar investment vehicles such as mutual funds, limited partnerships and limited liability companies in which the structure reflects an in-substance related party transaction but does not involve a relationship with a related party as sponsor, originator, manager, servicer or other similar influential role.
5. The investment is identified as related party, but the role of the related party represents a different arrangement than the options provided in choices 1-4.
6. The investment does not involve a related party.

Report the fair value level that represents the inputs used to determine fair value. Whenever possible, the reported fair value shall reflect level 1, followed by level 2, and then level 3. In all situations fair value shall be determined in accordance with SSAP No. 100R—Fair Value. ~~Whenever possible, fair value should represent the price at which the security could be sold, based on market information. Fair value should only be determined analytically when the market based value cannot be obtained.~~

The following is a listing of valid fair value level indicators to show the fair value hierarchy level.

“1” for Level 1

“2” for Level 2

“3” for Level 3

The following is a listing of the valid method indicators to show the method used by the reporting entity to determine the Rate Used to Obtain Fair Value.

“a” for securities where the rate is determined by a pricing service.

“b” for securities where the rate is determined by a stock exchange.

“c” for securities where the rate is determined by a broker or custodian. The reporting entity should obtain and maintain the pricing policy for any broker or custodian used as a pricing source. In addition, the broker must either be approved by the reporting entity as a counterparty for buying and selling securities or be an underwriter of the security being valued. (Reporting entities shall utilize source “c” to capture any other method used by the reporting entity to obtain observable inputs resulting in a hierarchy Level 1 or Level 2. Documentation of this source shall then be included in Column 22.)

“d” for securities where the rate is determined by the reporting entity or a third party contracted by the reporting entity. The reporting entity is required to maintain a record of the pricing methodology used.

“e” for securities where the rate is determined by the unit price published in the NAIC *Valuation of Securities*.

Enter a combination of hierarchy and method indicator. The fair value hierarchy level indicator would be listed first and the method used to determine fair value indicator would be listed next. For example, use “1b” to report Level 1 for the fair value hierarchy level and stock exchange for the method used to determine fair value.

The guidance in *SSAP No. 100R—Fair Value* allows the use of net asset value per share (NAV) instead of fair value for certain investments. If NAV is used instead of fair value leave blank.

Column ~~22~~23 – Source Used to Obtain Fair Value

For Method Code “a,” identify the specific pricing service used.

For Method Code “b,” identify the specific stock exchange used.

The listing of most **stock exchange codes can be found in the Investment Schedules General Instructions.**

For Method Code “c,” identify the specific broker or custodian used.

For Method Code “d,” leave blank.

For Method Code “e,” leave blank.

If net asset value (NAV) is used instead of fair value, the reporting entity should use “NAV” to indicate net asset value used instead of fair value.

Column 23 – ~~Legal Entity Identifier (LEI)~~

~~Provide the 20-character Legal Entity Identifier (LEI) for any issuer as assigned by a designated Local Operating Unit. If no LEI number has been assigned, leave blank.~~

Column 24 – Postal Code

Use only for securities included in the following subtotal lines.

~~Non-Registered Private Funds with Underlying Assets Having Characteristics of:~~

~~Mortgage Loans~~

~~Unaffiliated..... 1199999~~

~~Affiliated..... 2299999~~

~~Mortgage Loans~~

~~Unaffiliated..... 2399999~~

The postal code(s) reported in this column should reflect the location of the underlying property. For U.S. states, territories and possessions, use the five-digit ZIP code and not the ZIP+4 code. Outside the U.S. states, territories and possessions, use that country’s equivalent to the ZIP code. Multiple postal codes should be entered if the underlying properties are located in more than one postal code and listed from highest to lowest value associated with the underlying properties separated by commas.

Example two U.S. postal codes and one United Kingdom postal code (51501,68104,E4 7SD).

Column 25 – Property Type

- Mortgage participation certificates and similar holdings should be classified as fixed income assets.
- Gas and oil production and mineral rights have potential variability of return and should be categorized as equity investments.
- Partnership investments should be classified as fixed or equity investments or as equity real estate, depending on the purpose of the partnership. The maximum AVR factor would be that appropriate for the asset classification.
