Asset-Backed Securities – Investments that qualify for Schedule D, Part 1, Section 2 pursuant to SSAP No. 43R:

Financial Asset-Backed Securities - Self-Liquidating — A self-liquidating security is a design where the terms of the underlying collateral has contractual principal (and interest, if applicable) that results with a conversion into cash over a period of time (e.g., receivables or other such assets). (For example, a mortgage loan backing a mortgage-backed security, where the loan balance is reduced as payments are made and is ultimately fully paid off by the borrower, or a collateralized loan obligation (CLO) backed by bank loans that is reduced as the loan is paid off.) A financial asset is defined within SSAP No. 103R — Transfers and Servicing of Financial Assets and Extinguishments of Liabilities as cash, evidence of an ownership interest in an entity, or a contract that conveys to one entity a right (a) to receive cash or another financial instrument from a second entity or (b) to exchange other financial instruments on potentially favorable terms with the second entity. As a point of clarity, for the purposes of the bond definition and reporting on Schedule D, Part 1, financial assets do not include assets for which the realization of the benefits conveyed by the above rights depends on the completion of a performance obligation (e.g., leases, mortgage servicing rights, royalty rights, etc.). These assets represent non-financial assets, or a means through which non-financial assets produce cash flows, until the performance obligation has been satisfied.

Agency Residential Mortgage-Backed Securities - Fully Guaranteed (Exempt from RBC):

Include 'agency' residential mortgage-backed securities where the mortgages or bonds are guaranteed (i.e., they are backed by the full faith and credit of the U.S. Government) as to principal and interest by federal and federally sponsored agencies such as the Government National Mortgage Association (GNMA). Also include loans guaranteed by the U.S. Department of Veteran Affairs or the U.S. Department of Agriculture's Rural Development Housing and Community Facilities Programs. Government Sponsored Mortgage Referenced Securities shall not be captured within this category.

Agency Commercial Mortgage-Backed Securities - Fully Guaranteed (Exempt from RBC):

Include 'agency' commercial mortgage-backed securities where the mortgages or bonds are guaranteed (i.e., they are backed by the full faith and credit of the U.S. Government) as to principal and interest by federal and federally sponsored agencies such as the Government National Mortgage Association (GNMA). Also include loans guaranteed by the U.S. Department of Veteran Affairs or the U.S. Department of Agriculture's Rural Development Housing and Community Facilities Programs. Government Sponsored Mortgage Referenced Securities shall not be captured within this category. This category shall also include ABS securities that are fully and unconditionally guaranteed or insured as to the timely payment of principal and interest by the full faith and credit of the U.S. government that do not qualify for reporting as RMBS. Only fully and unconditionally guaranteed or insured structures shall be captured in this reporting line. Please refer to the Purpose and Procedures Manual of the NAIC Investment Analysis Office for determination of fully guaranteed structures.

Agency Residential Mortgage-Backed Securities - Not/Partially Guaranteed (Not Exempt from RBC):

Include residential mortgage-backed securities issued by an agency that is not or partially guaranteed (i.e., they are not backed by the full faith and credit of the U.S. Government) as to principal and interest by federal or federally sponsored agencies such as Federal National Mortgage Association (FNMA) or Federal home Loan Mortgage Corporation (FHLMC). This category shall include mortgage-referenced securities issued by a government-sponsored enterprise (e.g., FNMA or FHLMC) in the form of a credit-risk-transfer in which the security is tied to a pool of residential mortgages. These items reflect instruments in which the payments received are linked to the credit and principal payment risk of the underlying mortgage loan borrowers captured in the referenced pool of mortgages. For these instruments, the holder may not receive a return of their full principal as repayment is contingent on repayment by the mortgage loan borrowers in the referenced pool of mortgages.

Agency Commercial Mortgage-Backed Securities - Not/Partially Guaranteed (Not Exempt from RBC):

Include commercial mortgage-backed securities issued by an agency that is not or partially guaranteed (i.e., they are not backed by the full faith and credit of the U.S. Government) as to principal and interest by federal or federally sponsored agencies such as Federal National Mortgage Association (FNMA) or Federal Home Loan Mortgage Corporation (FHLMC). This category shall include mortgage-referenced securities issued by a government-sponsored enterprise (e.g., FNMA or FHLMC) in the form of a credit-risk-transfer in which the security is tied to a pool of commercial mortgages. These items reflect instruments in which the payments received are linked to the credit and principal payment risk of the underlying mortgage loan borrowers captured in the referenced pool of mortgages. For these instruments, the holder may not receive a return of their full principal as repayment is contingent on repayment by the mortgage loan borrowers in the referenced pool of mortgages. This category shall also include ABS securities that are agency-issued and not fully and unconditionally guaranteed or insured as to the timely payment of principal and interest by the full faith and credit of the U.S. government (excluding RMBS).

Financial Asset-Backed Securities – Not Self-Liquidating – Include all financial asset-backed securities where the structure does not represent a design where the terms of the underlying collateral has contractual principal (and interest, if applicable) that results with a conversion into cash over a period of time (e.g., receivables or other such assets)

Column 10 - Fair Value Hierarchy Level and Method Used to Obtain Fair Value Code

Report the fair value level that represents the inputs used to determine fair value. Whenever possible, the reported fair value shall reflect level 1, followed by level 2, and then level 3. In all situations fair value shall be determined in accordance with SSAP No. 100R—Fair Value. Whenever possible, fair value should represent the price at which the security could be sold, based on market information. Fair value should only be determined analytically when the market-based value cannot be obtained.

The following is a listing of valid fair value level indicators to show the fair value hierarchy level.

- "1" for Level 1
- "2" for Level 2
- "3" for Level 3

The following is a listing of the valid method indicators to show the method used by the reporting entity to determine the Rate Used to Obtain Fair Value.

- "a" for securities where the rate is determined by a pricing service.
- "b" for securities where the rate is determined by a stock exchange.
- "c" for securities where the rate is determined by a broker or custodian. The reporting entity should obtain and maintain the pricing policy for any broker or custodian used as a pricing source. In addition, the broker must either be approved by the reporting entity as a counterparty for buying and selling securities or be an underwriter of the security being valued.
- "d" for securities where the rate is determined by the reporting entity or a third part contracted by the reporting entity. The reporting entity is required to maintain a record of the pricing methodology used.
- "e" for securities where the rate is determined by the unit price published in the NAIC *Valuation of Securities*.
