ACCOUNTING AND REPORTING

Annual Statement Investment Schedules

This course is designed to assist insurance industry professionals in determining correct reporting categories for various types of invested assets. Accounting issues for the various investments are also presented and discussed.

Online, Self-Paced

Offered weekly beginning in December

Credit Type: DRC

Health Annual Statement Preparation

This course provides practical guidance in the preparation of this year's health statement and any current accounting changes. The topics covered include Assets, Liabilities, Statement of Revenue, Cash Flow, Analysis of Operations, and a basic overview of investment reporting.

Online, Self-Paced

Offered in September

Credit Type: DRC

Introduction to Statutory Accounting Principles

This course is designed for regulators who are new to statutory accounting and insurance companies' guidelines concerning financial statement preparation. Enrollees generally have less than two years' experience applying statutory accounting principles. This two-week online course serves as a foundational introduction to the NAIC's SAP series of learning coursework.

Online, Self-Paced

Offered Weekly

Credit Type: DRC

P&C Annual Statement Preparation

This course, designed for those with one to five years of insurance experience, gives the most up-to-date statutory accounting and reporting requirements for Property & Casualty insurers. Topics covered include balance sheet, income statement, and loss reserves reporting along with the supporting schedules and exhibits.

Online, Self-Paced
Offered in September
Credit Type: DRC

SAP Webinar (A) Updates & Hot Topics

This webinar presents recent updates and information for Statutory Accounting Principles. This webinar assists learners in identifying new and revised statutory accounting guidance and covers hot topics being considered by the Statutory Accounting Principles (E) Working Group.

Webinar
Offered in June and December
Credit Type: CPE, DRC

SAP Webinar (B) Reporting Updates

This webinar presents recent updates and information for reporting Statutory Accounting Principles. The webinar will help learners identify adopted annual reporting changes, discuss the Notes to Financial Statement proposed changes and the related SSAPs and cover annual statement changes that have been exposed for comment.

Webinar
Offered in September
Credit Type: CPE, DRC

Schedule P

This course provides regulators with a foundation for analyzing the effectiveness of a company's reserve determinations. It also provides insurance company management with information allowing them to monitor the company's loss ratios, performance compared to peer companies, and the experience of its ceded reinsurance.

Online, Self-Paced
Offered weekly starting in September
Credit Type: DRC

GENERAL INSURANCE

Introduction to Catastrophe Modeling

This introductory-level course is designed to provide a broad, foundational understanding of catastrophe model theory. It serves as a starting point in your catastrophe model learning journey.

The principles and concepts of this course are designed for regulators with no prior experience in the complex field of catastrophe modeling. However, it is beneficial to have a basic understanding of insurance principles and regulatory frameworks before enrolling.

This course focuses solely on property and casualty lines of business.

Please note: This course uses introductory terminology which may differ from verbiage used in specific professions and industries.

Online, Self-Paced
Offered Weekly
Credit Type: DRC

Introduction to the Insurance Industry

This text-based course is designed to provide the fundamentals of insurance for those new to the insurance industry. The course provides a working knowledge of insurance, including its regulation and marketing. The course also offers a systems-oriented view of how insurance industry professionals and regulators work together to protect and meet the needs of consumers.

Online, Self-Paced
Offered Weekly
Credit Type: DRC

GENERAL REGULATORY COMPLIANCE

Ethical Considerations of Insurance Companies

Circumstances sometimes arise that present dilemmas insurance industry professionals must confront and resolve while keeping their personal integrity intact. This course is designed for you to become familiar with general codes of conduct, guidelines, policies, and laws so that personal integrity is kept above board and compliant with established ethical standards.

Online, Self-Paced
Offered Weekly
Credit Type: DRC

Ethical Considerations of State Insurance Regulators

Circumstances sometimes arise that present dilemmas state insurance regulators must confront and resolve while keeping their personal integrity intact. This course is designed for you to become familiar with general codes of conduct, guidelines, policies and laws so that personal integrity is kept above board and compliant with established ethical standards.

Online, Self-Paced
Offered Weekly
Credit Type: DRC

Essential Learnings of the Surplus Lines Market

This course will build your knowledge of the surplus lines market and provide you with an understanding of how it operates. You will learn how and when brokers utilize the surplus lines market. The week-long course provides information including an overview of the surplus lines market, the market's framework and distribution system, Lloyd's of London, and state and federal regulation.

Online, Self-Paced
Offered in December
Credit Type: DRC, PIR

GOVERNMENT/POLICY/ INTERNATIONAL

Mental Health Parity

This course provides regulators an in-depth overview of mental health parity and topics that are being discussed in this area.

Online, Self-Paced
Offered in March and September
Credit Type: DRC

Understanding the Federal Legislative & Regulatory Process

This course is designed to help regulators get a basic understanding of the United States Congress and how laws are made. This course also provides information regarding strategies used to influence the legislative and regulatory process as they relate to insurance as well as statutes the insurance industry must abide by and the role the NAIC plays in insurance regulation.

Online, Self-Paced
Offered Monthly
Credit Type: DRC

HUMAN RESOURCES/LEADERSHIP/ PROFESSIONAL SKILLS

7 Professional Writing Secrets— to Write Better, Faster, Easier

Do you struggle to write reports, emails, proposals? Learn to write docs 50% faster—and save 1-2 hours/week with these 7 writing tricks used by professionals, from award-winning national writing expert Paula Peters. In this fast-paced, interactive seminar, you will learn to write better, faster, easier—for any document. Plus, you'll learn how people read content today (hint: it's different from 5 years ago!). Paula has taught executives and officers from U.S. Strategic Command, Capitol Hill, Broadway, the Pentagon—and will show you the “insider” tricks of the trade.

Online, Self-Paced
Offered Monthly
Credit Type: DRC

Foundations of Diversity, Equity, and Inclusion for Regulators

You may be wondering, “Why is diversity, equity, and inclusion (DE&I) important to me?” Studies have shown that an understanding of DE&I concepts create an opportunity to:

- Eradicate prejudice
- Enhance levels of creativity and innovation
- Improve profitability
- Boost employee engagement and retention
- Improve company reputation
- Enhance brand recognition

Online, Self-Paced
Offered Weekly
Credit Type: DRC

Introduction to Critical Thinking

This course is designed to provide a comprehensive definition of critical thinking. The units of study incorporate critical thinking, inquiry, and logical fallacies.

Online, Self-Paced
Offered Weekly
Credit Type: DRC

Practical Manager Program

The Practical Manager Program is an interactive workshop designed specifically for managers, supervisors, and executive-level leaders within state insurance departments. This NAIC Insurance Regulator Professional Designation Program, Senior Professional in Insurance Regulation (SPIR) level course uses real world examples and engaging, up-to-date content to develop effective leaders for state departments of insurance. Modules are delivered in person within a classroom-style setting.

Live, In-Person
Offered On Demand
Credit Type: DRC, SPIR

INVESTMENTS

Basic Derivatives

This course is a primer on fundamental concepts regulators can draw upon when reviewing derivative instruments. The course is designed to equip regulators to explain derivatives and how they are used in investment portfolios, as well as understand the different types of derivative products found on an insurer's financial statement.

Online, Self-Paced

Offered Monthly

Credit Type: DRC

Basics of Investing

This course lays the foundation to understand fundamental investment concepts regulators draw upon when reviewing insurance company portfolios. It focuses on the finer points of investment principles, such as the primary goals of investing and investment returns. **Online, Self-Paced**

Offered in May

Credit Type: DRC, PIR

Capital Markets Quarterly Updates

The NAIC's Capital Markets Bureau holds webinar updates on a quarterly basis. The Capital Markets Bureau is comprised of a team of experienced financial services professionals who provide support to state insurance departments in terms of capital markets research and insurance company investment activities.

The quarterly webinars include presentations on recent trends and developments in the financial markets. After that, presenters engage with learners with a question-and-answer session regarding the presentation or other investment related topics of interest.

The objective is to give learners the benefit of insight and experience from experts following capital markets, especially as they relate to insurance companies and insurance regulation.

Webinar

Offered Quarterly

Credit Type: CPE, DRC

Corporate Securities

During the course, you will participate in a variety of activities such as lectures, special report article reviews, skill builder exercises and quizzes.

Online, Self-Paced

Offered in March

Credit Type: DRC, IPIR

Derivatives

This course builds off material covered during the Basic Derivatives online course. This course takes an in-depth look at derivative definitions, practical uses of derivatives for insurers and look at common risks of derivatives for insurers.

Online, Self-Paced

Offered in July

Credit Type: DRC, IPIR

How to Analyze Insurer Investment Portfolios

This course is designed to improve analytical skills and walk regulators through the tools available to financial analysts when reviewing an insurers investment portfolio. This course provides updates on investment products and covers trends relevant to insurer portfolios.

Online, Self-Paced

Offered in October

Credit Type: DRC, PIR

Municipal Securities

This course provides an overview of Municipal Securities, discusses financial guarantors and how they are related to the municipal bond market, covers municipal default and bankruptcy, and looks at fiscal challenges currently facing state and local governments.

Online, Self-Paced

Offered in November

Credit Type: DRC, IPIR

Other Long-Term Invested Assets

This course introduces important concepts, terms, and processes associated with other long-term invested assets. Throughout the course, you will cover various aspects, starting with a background overview.

You will delve into growth, components, mix, and regulatory capital requirements. Additionally, this course explores regulatory and investor concerns surrounding these assets. Major components and other regulatory oversight and strategies will be thoroughly discussed to provide a comprehensive understanding. You will also examine the Financial Analysis Handbook and the Financial Condition

Examiners Handbook, shedding light on their relevance to these assets.

Online, Self-Paced

Offered in April

Credit Type: DRC, IPIR

U.S. Government Securities

This course provides an overview of Government Securities and will examine risks currently facing this class of assets.

U.S. Government Securities include U.S. Treasuries, U.S. Agency Debt, and securities issued by Government Sponsored Entities, such as Fannie Mae, Freddie Mac, and the Federal Home Loan Banks.
