RE: Proposed Purposes and Procedures Manual Amendment to Require Private Rating Letter Rationale Reports to Contain Analytical Substance

DATE: March 4, 2025

Summary: Since January 1, 2024, all PL securities (other than waived submission PLR securities, as defined in the *Purposes and Procedures Manual of the NAIC Investment Analysis Office* (the “P&P Manual”)) have required a corresponding “private rating letter rationale report” to be eligible for the Filing Exemption process. Based on ongoing discussions with the Task Force chairs and industry, the SVO proposes the following amendment to the P&P Manual to clarify what is expected for a private rating letter rationale reports filed with the SVO.

As defined in the P&P Manual in Part Three, paragraph 13, “*The phrase “private rating letter rationale report” means an analytical review of the privately rated security explaining the transaction structure, methodology relied upon, and, as appropriate, analysis of the credit, legal and operational risks and mitigants supporting the assigned NAIC CRP rating, in a report issued by an NAIC CRP on its letterhead or its controlled website to an issuer or investor, obtained by an insurer in its capacity as an investor in the issuance or by following the confidentiality process established by the NAIC CRP.*” Unfortunately, the SVO has received rationale report filings that do not meet this minimum expectation.

Recommendation – Private rating letter rationale reports should possess sufficient analytical content that an independent party can form their own opinion as to a NAIC credit rating providers’ (“CRPs”) assessment of investment risk. To enable the SVO to better monitor CRP analysis for privately rated securities, which are otherwise opaque, the SVO recommends requiring insurers to file a full private rating letter rationale report that contains sufficient analytical substance to enable an independent party to form an opinion as to the investment risk for any annual, or mid-year, rating action, affirmation, confirmation, or change, even if the CRP’s own policies do not require a full analysis.

Proposed Amendment –The proposed changes to the current P&P Manual are shown below with additions in red underline font color, and deletions in ~~red strikethrough~~.

PART THREE
SVO PROCEDURES AND METHODOLOGY FOR PRODUCTION OF NAIC
DESIGNATIONS

PL SECURITIES

...

Definitions

13. For purposes of this section:

...

- The phrase “private rating letter rationale report” means an analytical review of the privately rated security explaining the transaction structure, methodology relied upon, and, as appropriate, analysis of the credit, legal and operational risks and mitigants supporting the assigned NAIC CRP rating, in a report issued by an NAIC CRP on its letterhead or its controlled website to an issuer or investor, obtained by an insurer in its capacity as an investor in the issuance or by following the confidentiality process established by the NAIC CRP. A private rating letter rationale report ~~should mirror~~ shall be no less comprehensive than the work product that a CRP would produce for a similar publicly rated security and always include sufficient analytical content to enable an independent party to form a reasonable opinion of the basis for the CRP’s assessment of investment risk.

...

Producing NAIC Designations for PL Securities

21. The SVO shall produce NAIC Designations for securities subject to private letter ratings as follows:

- The insurance company shall file a copy of the private rating letter with the SVO if not included in the applicable NAIC CRP Rating feed(s) (or other form of direct delivery from the CRP) noted above in Conditions to Filing Exemption for PL Securities and the supporting private rating letter rationale report, if the SVO has not received it directly from the CRP, within the initial filing deadline for newly acquired securities or securities in transition (as explained in “SVO Analytical Department Symbols” in Part Two of this Manual) and each calendar year thereafter ~~(so long as such rationale update would normally be produced by the CRP for a comparable publicly rated security)~~ along with any changes in PL Securities rating. In instances where the PL security is included in the applicable NAIC CRP Rating feed(s), the SVO shall follow the procedure for Filing Exempt (FE) securities only after the SVO receives both the private rating letter and private letter rationale report either directly or through a NAIC CRP Rating feed(s), and the SVO deems the privately rated security eligible to receive an NAIC Designation with an NAIC CRP Credit Rating.
