8. Derivative Instruments

Instruction:

Disclose the following information by category of derivative financial instrument:

A. Derivatives under *SSAP No. 86—Derivatives*

Disclose the following information by category of derivative financial instrument:

- (1) A discussion of the market risk, credit risk and cash requirements of the derivative.
- (2) A description of the reporting entity’s objectives for using derivatives, i.e., hedging, income generation or replication, as well as a description of the context needed to understand those objectives and its strategies for achieving those objectives, including the identification of the category, e.g. fair value hedges, cash flow hedges, or foreign currency hedges, and for all objectives, the type of instrument(s) used.
- (3) A description of the accounting policies for recognizing (or reasons for not recognizing) and measuring the derivatives used, and when recognized and where those instruments and related gains and losses are reported.
- (4) Identification of whether the reporting entity has derivative contracts with financing premiums. (For purposes of this term, this includes scenarios in which the premium cost is paid at the end of the derivative contract or throughout the derivative contract.)
- (5) The net gain or loss recognized in unrealized gains or losses during the reporting period representing the component of the derivative instruments’ gain or loss, if any, excluded from the assessment of hedge effectiveness.
- (6) The net gain or loss recognized in unrealized gains or losses during the reporting period resulting from derivatives that no longer qualify for hedge accounting.
- (7) The reporting entity shall disclose its accounting policy for where cash flows associated with derivative instruments and their related gains and losses are presented in the statement of cash flow.
- ~~(7)~~ For derivatives accounted for as cash flow hedges of a forecasted transaction, disclose:
 - a. The maximum length of time over which the entity is hedging its exposure to the variability in future cash flows for forecasted transactions excluding those forecasted transactions related to the payment of variable interest on existing financial instruments; and
 - b. The amount of gains and losses classified in unrealized gains/losses related to cash flow hedges that have been discontinued because it was no longer probable that the original forecasted transactions would occur by the end of the originally specified time period or within 2 months of that date.
- ~~(8)~~ Disclose the aggregate, non-discounted total premium cost for these contracts and the premium cost due in each of the following four years, and thereafter. Also disclose the aggregate fair value of

derivative instruments with financing premiums, excluding the impact of the deferred or financing premiums.

(910) Disclose information on the aggregate excluded components by category: Time Value, Volatility Value, Cross Currency Basis Spread and Forward Points. The aggregate amounts reported should include the following (as applicable): current fair value, recognized unrealized gain/loss, the fair value reflected in Book/Adjusted Carry Value, the aggregate amount owed at maturity, current year amortization, and remaining amortization.

- Current Fair Value – The fair value of the excluded component at the reporting date regardless how the excluded component is reported.
- Recognized Unrealized Gain (Loss) – This represents the change in fair value reported as an unrealized gain (loss). Where the reporting entity does not have a specific excluded component or the excluded component is not required to be held at fair value, an amount of \$0 may be input.
- Fair Value Reflected in BACV – The fair value of the excluded component that is reflected in the reported book/adjusted carry value. Not applicable for foreign currency forwards and currency swaps where the forward points or cross-currency basis, respectively, are the excluded component.
- Aggregate Amount Owed at Maturity – The total value of forward points (premium) at trade inception.
- Current Year Amortization – The forward point (premium) amortization year to date.
- Remaining Amortization – The forward point (premium) for outstanding trades as of reporting date.

11. Debt

Instruction:

C. For unused commitments and lines of credit, the reporting entity shall separately disclose the following disaggregated by short-term and long-term, in the notes to financial statements:

- (1) The amount and terms of unused commitments for financing arrangements (including commitment fees and the conditions under which commitments may be withdrawn);
- (2) The amount and terms of unused lines of credit for financing arrangements (including commitment fees and the conditions under which lines may be withdrawn) and the amount of those lines of credit that support commercial paper borrowing arrangements or similar arrangements.

In addition to the tabular disclosure shown in the illustration section, the reporting entity must also disclose the terms and conditions of unused commitments and lines of credit for financing arrangements in a narrative format as per the disclosure requirements in SSAP No. 15—Debt and Holding Company Obligations.
