EXHIBIT 3A – ANALYSIS OF HEALTH CARE RECEIVABLES

The purpose of this exhibit is to analyze health care receivables collected and accrued for the current year compared to the prior year.

This exhibit is based on the gross health care receivable, not just the admitted portion.

Report the total asset (health care receivable) in this exhibit not just the admitted portion. Amounts are gross of reinsurance.

Refer to *SSAP No. 84—Health Care and Government Insured Plan Receivables* for accounting guidance. (See reporting guidance at https://content.naic.org/cmte_e_app_blanks.htm.)

In this exhibit, the term “accrued” is analogous to the term “incurred” on the U&I Exhibit, Part 2B. Accrued pertains to the health care receivable asset, whereas incurred pertains to the claim liability.

Columns 1 and 2:

Enter separately in Columns 1 and 2, Lines 1 through 6, all amounts collected or offset during the year accrued prior to the current year and accrued during the current year. Record only those amounts actually collected including offsets, that meet the offset conditions of *SSAP No. 64—Offsetting and Netting of Assets and Liabilities*.

Line 3 includes amounts charged against those gross health care receivables, such as loans or advances to non-related party hospitals, established as prepaid assets that are not expensed until the related claims have been received from the provider as the claims have not been paid as of the statement date.

All amounts collected, including offsets, related to prior year receivables accrued should be reported in Column 1. All amounts collected, including offsets, related to current year receivables accrued should be reported in Column 2.

Columns 3 and 4:

Enter separately in Columns 3 and 4 the gross health care receivables accrual amount between those accrued prior to the current year and those accrued during the year. All amounts accrued related to prior year receivables accrued should be reported in Column 3. All amounts accrued related to current year receivables accrued should be reported in Column 4.

For each of Lines 1 through 7, the sum of Columns 3 through 4 should agree to Exhibit 3, Health Care Receivables, sum of Columns 6 and 7, for each type of health care receivable and in total.

Column 5:

Enter the sum of Columns 1 and 3. This is the amount collected or offset during the current year on health care receivables that were accrued prior to the current year, plus amounts still accrued at the end of the current year, related to the health care receivable accrued at the end of the prior year.

Column 6:

Column 6 reports the amounts of prior year-end accounting accrual for gross health care receivables.

The comparison between Columns 5 and 6 is to the total receivables, not just the portion that is an admitted asset.

Line 6 – Other Health Care Receivables

Include: Receivables from Medicare Part D Prescription Payment Plan participants – Refer to INT 24-02: Medicare Prescription Payment Plan for accounting guidance. Note that amounts that are over 90 days overdue based on Medicare Prescription Payment Plan guidelines are nonadmitted.
