Mar. 8, 2021

To: All Companies Listed in Appendix A of The Data Call Letter

Re: Addendum 1 - Oregon 2020 Wildfire Catastrophe Claims & Fire Marshal Premium Assessment Data Call

### **Commercial Multiple Peril Reporting Change**

Accompanying this addendum is a new Part 2 reporting template. The only change made is to combine the Commercial Multiple Peril (non-liability portion) and Commercial Multiple Peril (liability portion) tabs into a single Commercial Multiple Peril tab.

### **Notifying DFR when unique policies are being reported under more than one line of business**

We recognize there may be instances when a policy and associated premium may be reported under multiple lines of business. If your group or company is reporting any policies under more than one line of business you must send an email notifying DFR as outlined below.

Refer to the FAQs issued by DFR regarding the proper reporting of policies by line of business.

**Please note:** This notification is only required if policies are being reported under more than one line of business.

Notifications must provide the following information.

1. Total number of unique policies being reported on the Part 2 template
2. Narrative identifying the lines of business where a unique policy has been reported more than once.

Please submit these notifications to <[INS.MrktSurv@oregon.gov](mailto:INS.MrktSurv@oregon.gov)>.

All information outlined in this addendum is required under ORS 731.296. All information submitted in response to this request shall be confidential and shall not be disclosed except as provided in ORS 705.137. Failure to respond or delay in responding or incompletely responding to this letter within the time allowed is in violation of ORS 731.296 and may be subject to enforcement action.

Sincerely,

Brian J. Fordham
