Current:

SSAP No. 9—Subsequent Events

SSAP No. 101—Income Taxes

INT 22-02 Issue

Key Provisions of the Inflation Reduction Act

1. The Inflation Reduction Act (Act) was enacted on August 16, 2022, and included a new corporate alternative minimum tax (CAMT). The Act and the CAMT go into effect for tax years beginning after 2022. Reporting entities shall refer to the Act and the resulting regulations and other tax guidance to determine application, but a non-authoritative high-level summary based on information at the time of initial INT discussion regarding the CAMT is as follows:

- a. The CAMT is 15% of the corporation's "adjusted financial statement income" for the tax year, reduced by corporate alternative minimum foreign tax credit.
- b. The CAMT will only apply to corporations (determined on an affiliated group basis) with average adjusted financial statement income in excess of \$1 billion for the three prior tax years. This threshold is reduced to \$100 million in the case of certain foreign-parented corporations. When a corporation becomes subject to the CAMT, it remains an applicable to the CAMT, even if its average adjusted financial statement income is less than \$1 billion, unless an exception applies.
- c. A corporation's adjusted financial statement income is the amount of net income or loss the corporation reports on its applicable financial statement. The income is adjusted for various purposes including certain adjustments in the case of consolidated returns or for foreign income.
- d. The Act includes references to the tax codes which provides a hierarchy for determining the "applicable financial statement." At a high level, the first choice is U.S. generally accepted accounting principles (GAAP) financial statements; the second choice is international financial reporting standards (IFRS) financial statements. If GAAP and IFRS financial statements are not available, the financial statements filed by the taxpayer with any other regulatory or government body is acceptable. If the taxpayer is part of an affiliated group of corporations filing a consolidated return, the adjustable financial statement income for the group considers the group's applicable financial statement.
- e. To determine its U.S. federal income tax liability, a corporation will need to compute taxes under both systems—the regular tax system and the CAMT system. The CAMT is payable to the extent the tentative CAMT exceeds the regular corporate income tax. Any CAMT

paid is available indefinitely as a credit carryover that could reduce future regular tax in future years if the regular tax liability is in excess of CAMT tax liability.

- f. The Act directs the Treasury to issue regulations and other guidance relate to implementing the CAMT, so several issues are pending detailed clarifications including clarifying the definition of an applicable corporation, and providing guidance on the starting point for, and adjustments to, adjusted financial statement income, as well as the handling of separate company tax returns when required under current tax law that are unique to the insurance industry.

Interpretation Issues

2. This interpretation is focused on addressing third quarter 2022 transition accounting and reporting aspects of the new CAMT. While most insurers will not be subject to the CAMT, for those that know that they are subject, and those that could be subject to the CAMT, there are a variety of reporting uncertainties, particularly regarding reporting for third quarter 2022.

3. The CAMT is effective for the tax years on or after 2023.

4. Both statutory accounting principles and U.S. GAAP require the effects of tax changes on deferred taxes, including the valuation allowance (future realizability of existing DTAs) in the period in which the legislation is enacted (third quarter 2022). *SSAP No. 101—Income Taxes*, paragraph 7.e. requires the statutory valuation allowance adjustment as a direct reduction in the gross DTA if, based on the weight of available evidence, it is more likely than not that some or all of the gross DTAs will not be realized. Gross DTA less the statutory valuation allowance results in adjusted gross DTAs. The statutory valuation allowance adjustment is not reported as a separate line in the statutory financial statements (it is an off-balance sheet item that reduces the gross DTAs). The statutory valuation allowance is disclosed.

5. The statutory accounting calculation for admissible DTAs is determined using adjusted gross DTAs (gross DTAs reduced by the valuation allowance). For statutory accounting, admittance of adjusted gross DTAs in *SSAP No. 101* depends on a three-component calculation, for which the second step limits admittance of adjusted gross DTAs to those that are expected to be realized in a timeframe that does not exceed three years. The actual number of years permitted depends on specifics for each reporting entity (type and other information about the reporting entity), but the maximum timeframe is three years. The last step admits DTAs which can be offset by DTLs.

6. Guidance in *SSAP No. 9—Subsequent Events* requires consideration of Type I and Type II¹ subsequent events through the date of the statutory financial statements and the date of issuance of the audited financial statements, or the date in which audited financial statements are available to be issued. For subsequent events identified after the statutory financial statements are filed (example, March 1), but before the audited financial statements are issued (example, June 1), reporting entities are generally required by their domestic state to amend their filed statutory financial statements to ensure that the statutory financial statements and the audited financial statements are consistent. Under this guidance, as additional information is made available on the impact of the Act, or information becomes available to update estimates and assessments, under existing statutory accounting guidance in *SSAP No. 9*, reporting entities would need to identify updated estimates as a Type I subsequent event in the audited financial statements.

¹ A Type I subsequent event relates to an event or transaction that provides additional evidence with respect to conditions that existed at the date of the balance sheet, including the estimates inherent in the process of preparing financial statements. Under *SSAP No. 9*, entities shall recognize in the financial statements the effects of all material Type I subsequent events. A Type II subsequent event pertains to events or transactions that provide evidence to conditions that did not exist at the balance sheet date but arose after that date. Type II events are disclosed in the financial statements.

Issue 1 – Consideration of the Act for Third Quarter 2022 Financial Statements

7. During the period of enactment (third quarter 2022) reporting entities filing statutory financial statements would normally have to consider the applicability of the CAMT and if applicable, determine the impact on the statutory valuation allowance as well as assess DTAs for admissibility (e.g., realization timeframe). These elements will be collectively referred to as “calculations impacted by the Act” or “calculations impacted by the CAMT.”

8. This interpretation will address the issue for what reporting entities are required to report or disclose regarding the calculations impacted by the CAMT for September 30, 2022, financial statements.

Issue 2 – Consideration of Subsequent Events for Third Quarter 2022 Financial Statements

9. SSAP No. 9 requires consideration of subsequent events through the date of the statutory financial statements and the date of issuance of the audited financial statements, or the date in which audited financial statements are available to be issued.

10. For reporting entities that materially revise or establish calculations impacted by the CAMT subsequent to September 30, 2022 (including the statutory valuation allowance, the timing of determination of net admitted DTAs, and the determination of the applicability of the CAMT), this interpretation will address the extent a Type I or Type II subsequent event assessment is required for third quarter 2022 financial reporting.

INT 22-02 Discussion

11. The Statutory Accounting Principles (E) Working Group consensuses to the noted issues are included below.

Response: Issue 1 – Consideration of the Act for Third Quarter 2022 Financial Statements

12. Reporting entities that are aware they will be subject to the CAMT would normally reflect the effects of the Act on the calculations impacted by the CAMT if reasonably estimable for third quarter 2022. Because of the timing of the adoption of the Act and the considerable number of unknown variables for September 30, 2022, reporting, the Working Group has determined that a reasonable estimate is not determinable for third quarter 2022 interim financial statements for the calculations impacted by the CAMT.

13. Because reasonable estimates of calculations impacted by the CAMT are not determinable, reporting entities shall not recognize impacts related to CAMT for third quarter 2022 financial statements, but shall make the following disclosures regarding the CAMT and the Act:

- a. The Act was enacted during the reporting period on August 16, 2022.
- b. A statement regarding whether the reporting entity (or the controlled group of corporations of which the reporting entity is a member) has determined if it expects to be liable for CAMT in 2023. For example:
 - i. The reporting entity (or the controlled group of corporations of which the reporting entity is a member) has determined that it does not expect to be liable for CAMT in 2023.
 - ii. The reporting entity (or the controlled group of corporations of which the reporting entity is a member) has not determined as of the reporting date if it will be liable

for CAMT in 2023. The third quarter 2022 financial statements do not include an estimated impact of the CAMT because a reasonable estimate cannot be made.

- iii. The reporting entity (or the controlled group of corporations of which the reporting entity is a member) has determined that it expects to be liable for CAMT in 2023. The third quarter 2022 financial statements do not include an estimated impact of the CAMT, because a reasonable estimate cannot be made.

Response: Issue 2 – Consideration of Subsequent Events for Third Quarter 2022 Financial Statements

14. For third quarter 2022 reporting, CAMT updated estimates or other calculations affected by the Act determined subsequent to third quarter statutory financial statement or filing date shall not be recognized as Type I subsequent events. Meaning, amended financial statements are not required to reflect updated estimates subsequent to the third quarter filing date and prior to the filing the third quarter financial statements. With the disclosure required under Issue 1, additional subsequent event disclosure (such as what would be required for Type II event) is not required.

15. Reporting entities shall be working in good faith to complete the accounting for the changes adopted under the Act.

INT 22-02 Status

16. The consensuses in this interpretation were adopted to provide reporting guidance regarding the calculations impacted by the CAMT and provide limited-scope, limited-time exceptions to the valuation allowance and DTA calculations in response to legislation under SSAP No. 101 as well as Type I subsequent event requirements in SSAP No. 9 for September 30, 2022, statutory reporting. As detailed, the exceptions to SSAP No. 101 and SSAP No. 9 are effective for third quarter 2022. Due to the short-term nature of the SSAP No. 9 exception, this interpretation will be automatically nullified on December 1, 2022, and will be included as a nullified INT in Appendix H – Superseded SSAPs and Nullified Interpretations in the *As of March 2023 Accounting Practices and Procedures Manual*.

17. Further discussion is planned.
