

2022 Courses of Interest to International Regulators

NAIC Education & Training is pleased to offer several courses that appeal to a global audience. Additional information can be found online at education.naic.org. Please contact us with any questions at education@naic.org or 816-783-8200.

Classroom

Traditional classroom setting. Classroom courses held at the NAIC Central Office may have a maximum of 30 students; classroom courses open to the public held in other locations generally have no limitations on the number of registrations. For regulator-only courses, the number of international regulators is limited to no more than two from a country, with a maximum of four international regulators—until the registration deadline closes. If space remains, additional international regulators will be accepted on a space-available basis.

COURSES	AUDIENCE	LEVEL	DATE	LOCATION
Practical Manager	Regulator Only	Senior	TBD	Kansas City
Encompasses proven organizational leadership methods and reflects NAIC's own unique leadership philosophy. Master best practices in the areas of hiring, performance management and change management, among others.				

Internet-Based, Instructor-Led

Length ranges from one to three weeks. These are facilitated, asynchronous, online courses requiring 2-3 hours of time per day during the course. Participants will have access to coursework 24 hours a day, seven days a week. Depending on the course, activities may include listening to lectures, reading, small group work, online discussions and other activities. Enrollment is limited to allow for a quality learning experience. For regulator-only courses, the number of international regulators is limited to no more than two from a country, with a maximum of four international regulators—until the registration deadline closes. If space remains, additional international regulators will be accepted on a space-available basis.
