Schedule 2—Homeowners Claims Activity, Counts Reported by Claimant and by Coverage

Report the number of reserves/lines/features opened for each coverage part per claim. For example, if one claim results in a reserve/line/feature opened for two liability claimants, two medical payment claims, one dwelling claim for the insured, and one personal property claim for the insured, you would report as follows: Dwelling – 1; Personal Property – 1; Liability – 2; Medical Payments – 2. The number of days to final payment (if payment is made) would be calculated separately for each claimant.

ID	Description
2-21	Number of claims open at the beginning of the period
2-22	Number of claims opened during the period
2-23	Number of claims closed during the period, with payment
2-24	Number of claims closed during the period, without payment
2-25	Number of claims open at the end of the period
2-26	Median days to final payment
2-27	Number of claims closed with payment within 0-30 days
2-28	Number of claims closed with payment within 31-60 days
2-29	Number of claims closed with payment within 61-90 days
2-30	Number of claims closed with payment within 91-180 days
2-31	Number of claims closed with payment within 181-365 days
2-32	Number of claims closed with payment beyond 365 days
2-33	Number of claims closed without payment within 0-30 days
2-34	Number of claims closed without payment within 31-60 days
2-35	Number of claims closed without payment within 61-90 days
2-36	Number of claims closed without payment within 91-180 days

Schedule 4— Homeowners Attestation

By completing the attestation information, those named understand, agree and certify on behalf of the named company that:

1. They are authorized to submit the Market Conduct Annual Statement on behalf of the named company and to bind the company to the statements in this attestation;
2. They are knowledgeable of the information required to be provided in the Market Conduct Annual Statement filed by this company and have reviewed this filing;
3. To the best of their knowledge and belief, this filing represents a full and accurate statement of the information required to be provided in the Market Conduct Annual Statement pursuant to the applicable instructions; and
4. They are aware that the state insurance department(s) receiving the data may initiate regulatory action as authorized by law in a specific jurisdiction if the data submitted in the MCAS is inaccurate, incomplete, or found to be materially false, misleading or omissive.
5. They affirm that the company is able to accurately trace the data as reported to its source within the company and if necessary, recreate the MCAS results as reported in this filing.

NOTE: The company must provide the name for at least two individuals who are able to attest that the criteria listed above have been met, and attest to the overall accuracy of the MCAS filing. Both attestors should have participated in the review and validation of the filing. We recommend that one person be the individual with operational responsibility for the source data such as a responsible individual from claims, underwriting or compliance. We recommend that the second person should be a responsible IT person that participated in the creation of the data in the filing.

ID	Description
4-58	First Attestor Information (First Name, Middle Name, Last Name, Suffix, Title)
4-59	Second Attestor Information (First Name, Middle Name, Last Name, Suffix, Title)
4-60	Overall Comments for the Period

Definitions:

In determining what business to report for a particular state, unless otherwise indicated in these instructions, all companies should follow the same methodology/definitions used to file the Financial Annual Statement (FAS) and its corresponding state pages. Exclude lender-placed or creditor-placed policies.

Please note: In the Underwriting Section there are questions asking for policies in-force by type of policy. These are asking for a count of the policies in-force that meet the specifications to be included on the MCAS. Please use the following as a guide to determine which policy types should be reported for each question:

Property & Casualty Market Conduct Annual Statement

Homeowner Data Call & Definitions

- (3-45) Number of dwelling fire policies in force at the end of the period.
Include dwelling policies that meet the definition of a dwelling policy as defined within this document. This would typically include policies written on forms DP-1, DP-2 and DP-3.
- (3-46) Number of homeowner policies in force at the end of the period.
Include homeowner policies that meet the definition of a homeowner policy as defined within this document. This would typically include policies written on forms HO-1, HO-2, HO-3, HO-5, HO-7 and HO-8.
- (3-47) Number of tenant/renter/condo policies in force at the end of the period.
Include tenant/renter/condo policies that meet the definition of a tenant/renter/condo policy as defined within this document. This would typically include policies written on forms HO-4 and HO-6.
- (3-48) Number of all other residential property policies in force at the end of the period.
Include other policies that meet the specifics of MCAS reporting, but that do not fall into one of the categories requested in questions 3-45, 3-46 and 3-47. If your company only write policies that fall into the forms specified for questions 3-45, 3-46 and 3-47, this number will be 0.

Cancellations – Includes all cancellations of the policies where the cancellation effective date is during the reporting year. The number of cancellations should be reported on a policy basis regardless of the number of dwellings insured under the policy.

Report cancellations separately for:

- Policies cancelled for non-payment of premium or non-sufficient funds.
 - These should be reported every time a policy cancels for the above reasons. (i.e., if a policy cancels for non-pay three times in a policy period, and is reinstated each time; each cancellation should be counted.)
- Policies cancelled at the insured's request.
- Policies cancelled for underwriting reasons.

Exclude:

- Policies cancelled for 're-write' purposes where there is no lapse in coverage.

Cancellations within the first 59 days – Company-initiated cancellations for new business where the notice of cancellation was issued within the first 59 days after the original effective date of the policy.

- The calculation of the number of days is from the original inception date of the policy, not the renewal date.
- This time frame should be used regardless of individual state requirements related to the 'underwriting' period for new business.
- The notice of cancellation is the date the cancellation notice was mailed to the insured.

Cancellations from 60 to 90 days – Company-initiated cancellations where the notice of cancellation was issued 60 to 90 days after the original effective date of the policy.

Property & Casualty Market Conduct Annual Statement

Homeowner Data Call & Definitions

- The calculation of the number of days is from the original inception date of the policy, not the renewal date.
- This time frame should be used regardless of individual state requirements related to the 'underwriting' period for new business.
- The notice of cancellation is the date the cancellation notice was mailed to the insured.

Cancellations greater than 90 days – Company-initiated cancellations where the notice of cancellation was issued more than 90 days after the original effective date of the policy.

- The calculation of the number of days is from the original inception date of the policy, not the renewal date.
- This time frame should be used regardless of individual state requirements related to the 'underwriting' period for new business.
- The notice of cancellation is the date the cancellation notice was mailed to the insured.

Claim - A request or demand for payment of a loss that may be included within the terms of coverage of an insurance policy. Each claimant/insured reporting a loss is counted separately.

Include:

- Both first and third party claims.

Exclude:

- An event reported for "information only".
- An inquiry of coverage if a claim has not actually been presented (opened) for payment.
- A potential claimant if that individual has not made a claim nor had a claim made on his or her behalf.

Claims Closed With Payment – Claims closed with payment where the claim was closed during the reporting period regardless of the date of loss or when the claim was received. The number of days to closure, however, should be measured as the difference between the date of the final payment and the date the claim was reported or between the date of the final payment and the date the request for supplemental payment was received. See also "Date of Final Payment".

Exclude:

- Claims where payment was made for company loss adjustment expenses if no payment was made to an insured/claimant.
- Claims that are closed because the amount claimed is below the insured's deductible.

Clarification:

- If a claim is reopened for the sole purpose of refunding the insured's deductible, do not count it as a paid claim.
- For claims where the net payment is \$0 due to subrogation recoveries, report the number of claims in which any amount was paid to the insured; do not net the payment with subrogation recoveries when counting the number of paid claims

Property & Casualty Market Conduct Annual Statement

Homeowner Data Call & Definitions

Calculation Clarification:

- For each coverage identifier, the sum of the claims closed with payment across each closing time interval should equal the total number of claims closed with payment during the reporting period.

Handling Additional Payment on Previously Reported Claim / Subsequent Supplemental Payment for claims closed with payment during the reporting period:

- If a claim is reopened for a subsequent supplemental payment, count the reopened claim as a new claim. Calculate a separate aging on that supplemental payment from the time the request for supplemental payment was received to the date of the final payment was made.

Claims Closed Without Payment – Claims closed with no payment made to an insured or third party. The number of days to closure is the difference between the date the claim was closed and the date the claim was reported and/or reopened. See also “Date of Final Payment”.

Include:

- All claims that were closed during the reporting period regardless of the date of loss or when the claim was received.
- Claims where no payment was made to an insured/claimant even though payment was made for company loss adjustment expenses.
- A demand for payment for which it was determined that no relevant policy was in-force at the time of the loss if a claim file was set up and the loss was investigated.
- Claims that are closed because the amount claimed is below the insured’s deductible.

Calculation Clarification:

- For each coverage identifier, the sum of the claims closed without payment across each closing time interval should equal the total number of claims closed without payment during the reporting period.

Complaint – any written communication that expresses dissatisfaction with a specific person or entity subject to regulation under the state's insurance laws. An oral communication, which is subsequently converted to a written form in order to be analyzed and acted upon, will meet the definition of a complaint for this purpose.

Include:

- Any complaint regardless of the subject of the complaint (claims, underwriting, marketing, etc.)
- Complaints received from third parties.

Coverage - Dwelling (includes – Other Structures) – Coverage for dwellings under Homeowners Policies and Dwelling Fire and Dwelling Liability Policies. It includes coverage for Other Structures.

Coverage - Loss of Use – Loss of Use provided under Homeowners Policies.

Coverage - Personal Property – Personal Property provided under Homeowners Policies.

Property & Casualty Market Conduct Annual Statement

Homeowner Data Call & Definitions

Coverage - Liability – Liability insurance provided under Homeowners Policies.

Coverage - Medical Payments – Medical Payments provided under Homeowners Policies.

Date of Final Payment – The date final payment was issued to the insured/claimant.

Calculation Clarification:

- If partial payments were made on the claim, the claim would be considered closed with payment if the final payment date was made during the reporting period regardless of the date of loss or when the claims was received.
- Report a claim as “closed with payment” or “closed without payment” if it is closed in the company’s claims system during the reporting period (even if the final payment was issued in a prior reporting period).
- If a claim remains open at the end of the reporting period (even though a final payment has been issued) it should be reported as open. Only when the claim is closed in the company’s claims system, would you report the days to final payment.

Example:

- A claim is open on 11/1/00 and final payment is made on 12/1/00. The claim is left open until 2/1/01 to allow time for supplemental requests.
 - The claim would be reported as open in the “00” MCAS submission and closed in the “01” MCAS submission.
 - The number of days to final payment would be calculated as 30 days and reported in the “01” MCAS submission.

Date the Claim was Reported – The date an insured or claimant first reported his or her loss to either the company or insurance agent.

Direct Written Premium - The total amount of direct written premium for all policies covered by the market conduct annual statement (new and renewal) written during the reporting period.

Calculation Clarification:

- Premium amounts should be determined in the same manner as used for the financial annual statement.
- If premium is refunded or additional premium is written during the reporting period (regardless of the applicable policy effective date), the net effect should be reported.
- If there is a difference of 20% or more between the Direct Written Premium reported for market conduct annual statement and the Direct Written Premium reported on the financial annual statement, provide an explanation for the difference when filing the market conduct annual statement in order to avoid inquiries from the regulator receiving the market conduct annual statement filing.

Property & Casualty Market Conduct Annual Statement

Homeowner Data Call & Definitions

- Reporting shall not include premiums received from or losses paid to other carriers on account of reinsurance assumed by the reporting carrier, nor, shall any deductions be made by the reporting carrier for premiums added to or for losses recovered from other carriers on account of reinsurance ceded.

Dwelling – A personally occupied residential dwelling.

Calculation Clarification:

- A 2 or 3 family home covered under one policy would be considered 1 dwelling.

Dwelling Fire Policies – Coverage for dwellings and their contents. It may also provide liability coverage and is usually written when a residential property does not qualify according to the minimum requirements of a homeowner's policy, or because of a requirement for the insured to select several different kinds of coverage and limits on this protection.

Include:

- Dwelling Fire and Dwelling Liability policies should be included ONLY IF the policies written under these programs are for personally occupied residential dwellings, not policies written under a commercial program and/or on a commercial lines policy form.

Homeowners Policies – Policies that combine liability insurance with one or more other types of insurance such as property damage, personal property damage, medical payments and additional living expenses.

Include:

- Mobile/Manufactured homes intended for use as a dwelling regardless of where [or what line] on the Statutory Annual Statement state page associated premium is reported.
- Renters insurance, Policies covering log homes, land homes, and site built homes are included.
- Inland Marine or Personal Articles endorsements.
- Include policies written on the HO-1, HO-2, HO-3, HO-5, HO-7 and HO-8 policy forms.

Exclude:

- Farmowners is not included as it is considered to be Commercial Lines for purposes of this project.
- Umbrella policies.
- Lender-placed or creditor-placed policies.

Inland Marine or Personal Articles Endorsements – Provides coverage via endorsement to a homeowners policy for direct physical loss to personal property as described in the endorsement.

Exclude:

- Stand-alone Inland Marine Policies.

Property & Casualty Market Conduct Annual Statement

Homeowner Data Call & Definitions

Lawsuit – A court proceeding to recover a right to a claim, including lawsuits for arbitration cases.

Exclude:

- Subrogation claims where lawsuit is filed by the company against the tortfeasor.
- Non-lawsuit legal activity or litigation filed by an insurer, including, but not limited to: request to compel an independent medical examination, an examination under oath, and declaratory judgment actions filed by an insurer.

Calculation Clarification:

- Lawsuits should be reported on the same basis as claims. One lawsuit should be reported for each / claimant / coverage combination, regardless of the number of actual suits filed.
- One lawsuit with two claimants would be reported as two lawsuits as any awards/payments made would be made to the claimants individually.
- One lawsuit filed seeking damages for multiple coverages should be reported as one lawsuit for each applicable coverage.
- Lawsuits should be reported in the state in which the claim was reported on this statement.
- Treatment of class action lawsuits: Report the opening and closing of a class action lawsuit once in each state in which a potential class member resides. Include an explanatory note with your submission state the number of class action lawsuits included in the data and the general cause of the action.

Lawsuits Closed During the Period with Consideration for the Consumer—A lawsuit closed during the reporting period in which a court order, jury verdict, or settlement resulted in payment, benefits, or other thing of value, i.e., consideration, to the claimant in an amount greater than offered by the reporting insurer before the lawsuit was brought.

Liability Insurance – Coverage for all sums that the insured becomes legally obligated to pay because of bodily injury or property damage, and sometimes other torts to which an insurance policy applies.

Loss Of Use – Coverage for additional living expenses incurred by the insured or fair rental value when the insured dwelling becomes uninhabitable as the result of an insured loss or when access to the dwelling is barred by civil authority.

Median Days to Final Payment – The median value for all claims closed with payment during the period.

Calculation for losses with one final payment date during the reporting period:

- Date the loss was reported to the company to the date of final payment.

Property & Casualty Market Conduct Annual Statement

Homeowner Data Call & Definitions

Calculation for losses with multiple final payment dates during the reporting period:

- Date the request for supplemental payment received to the date of final payment (for each different final payment date.)

Exclude:

- Subrogation payments.

Calculation Clarification / Example:

- To determine the Median Days to Final Payment you must first determine the number of days it took to settle each claim. This is the difference between the date the loss was reported to the company, or the date the request for supplemental payment was received, to the date of final payment. The Median Days to Final Payment is the median value of the number of days it took to settle all claims closed with payment during the period.

Median - A median is the middle value in a distribution arranged in numerical order (either lowest to highest or highest to lowest). If the distribution contains an odd number of elements, the median is the value above and below which lie an equal number of values. If the distribution contains an even number of elements, the median is the average of the two middle values. It is not the arithmetic mean (average) of all of the values.

Consider the following simple example of the number of days it took to settle each of the following seven claims:

Claim	Nbr 1	Nbr 2	Nbr 3	Nbr 4	Nbr 5	Nbr 6	Nbr 7
Days to Settle	2	4	4	5	6	8	20

In this situation, the Median Days to Final Payment would be 5 because it is the middle value. There are exactly 3 values below the median (2, 4, & 4) and 3 values above the median (6, 8, & 20). If the data set had included an even number of values, then the median would be the average of the two middle values as demonstrated below.

Claim	Nbr 1	Nbr 2	Nbr 3	Nbr 4	Nbr 5	Nbr 6
Days to Settle	2	4	5	6	8	20

$$\text{Median Days to Final Payment} = (5 + 6)/2 = 5.5$$

The median should be consistent with the paid claim counts reported in the closing time intervals.

Example: A carrier reports the following closing times for paid claims.

Property & Casualty Market Conduct Annual Statement

Homeowner Data Call & Definitions

Closing Time # of Claims

< 30	22
31-60	13
61-90	18
91-180	11
181-365	12
>365	15

The sum of the claims reported across each closing time interval is 91, so that the median is the 46th claim. This claim falls into the closing time interval "61-90 days." Any reported median that falls outside of this range (i.e. less than 61 or greater than 90) will indicate a data error.

Medical Payments Coverage – Provides coverage for medical expenses resulting from injuries sustained by a claimant regardless of liability.

NAIC Company Code – The five-digit code assigned by the NAIC to all U.S. domiciled companies which filed a Financial Annual Statement with the NAIC.

NAIC Group Code – The code assigned by the NAIC to identify those companies that are a part of a given holding company structure. A zero indicates that the company is not part of a holding company.

New Business Policy Written – A newly written agreement that puts insurance coverage into effect during the reporting period.

Exclude:

- 'Re-written' policies unless there was a lapse in coverage.

Non-Renewals – A policy for which the insurer elected not to renew the coverage for circumstances allowed under the "non-renewal" clause of the policy.

Include:

- All company-initiated non-renewals of the policies where the non-renewal effective date is during the reporting period.

Exclude:

- Policies where a renewal offer was made and the policyholder did not accept the offer.
- Instances where the policyholder requested that the policy not be renewed.

Calculation Clarification:

- The number of nonrenewals should be reported on a policy basis regardless of the number of dwellings insured under the policy.

Property & Casualty Market Conduct Annual Statement

Homeowner Data Call & Definitions

Other Structures – Structures on the residence premises (1) separated from the dwelling by a clear space or (2) connect to the dwelling by a fence, wall, wire, or other form of connection but not otherwise attached.

Personal Property Damage Coverage – Provides coverage for damage to dwelling contents or other covered personal property caused by an insured peril.

Personally Occupied – A dwelling in which the person owning the policy personally occupies the dwelling and lives there.

Property Damage Coverage – Provides coverage for damage to the dwelling and/or other insured structures caused by an insured peril.

Policy In-force – A policy in which the coverage is in effect as of the end of the reporting period.

Tenant/Renters/Condo Policies – Policies that provide coverage for the personal property of tenants, renters, condominium and cooperative unit owners. Include policies typically written on the HO-4 and HO-6 policy forms.
