

NAIC DESIGNATION HEADLINES

The NAIC Professional Designation Newsletter

REGULATORY LEADERSHIP FORUM

The 2019 Regulatory Leadership Forum was held September 24-26 on Kansas City. Thirteen SPIR candidates attended.

Attendees heard regulatory leadership presentations from the NAIC Officers and several commissioners, in addition to participating in a Media Workshop.

PRACTICAL MANAGER PROGRAM

The Practical Manager class was held in Kansas City at the NAIC Central Office in September 9-10. Eight SPIR Candidates attended.

Attendees learned leadership skills including Personal Leadership, Taking the Lead, Achieving Results Through Others, Feedback and Difficult Discussions, Leading Performance Change Through Training, and many more.

2019 ANNUAL NAIC DESIGNATION PARTICIPANT BREAKFAST!

Join us to enjoy breakfast with other NAIC Designation Program participants and Designation Advisory Board members.

If you are attending the Austin National Meeting, please watch for your invitation email. Hope to see you there!

OUTGOING BOARD MEMBERS

"Retirement is bittersweet as I have to let go of my position on the Board. This wonderful experience opened windows into new friendships, as well as, provided me the means to actively participate in creating and monitoring course work and educational requirements. Such experiences were valuable to managerial roles in MO. I wish continued success to the Program!" - Mary Mealer

"As I approach retirement and reflect on my career as a regulator, I am humbled to have had a hand in improving the regulatory process, particularly during my tenure as the Western Zone Advisory Board Member of the Professional Designation Program. For the last 12 years, I have witnessed the Program grow leaps and bounds under the leadership of the Board, but perhaps most importantly, with the assistance and valuable contributions of the NAIC Education Department, especially Debbi Hoge. This wonderful experience has opened up new friendships and instilled an appreciation of the opportunities and challenges of a program designed specifically to improve and broaden the knowledge base of thousands of state insurance regulators. Our designees have received nation-wide recognition for their accomplishments and I am confident the Board's mission will continue to support that quest for knowledge." - Pat McNaughton
