REPORT OF THE EXECUTIVE (EX) COMMITTEE TASK FORCES

Climate and Resiliency (EX) Task Force—The Climate and Resiliency (EX) Task Force will meet Aug. 15 and anticipates the following action: 1) adopting its Spring National Meeting minutes; 2) hearing an update from the Solvency Workstream; 3) hearing a presentation from the Bermuda Institute for Ocean Sciences (BIOS) on rising sea levels; 4) hearing from Ceres on inclusive insurance; 5) hearing from Munich Re on coral reef insurance; and 6) hearing from California on atmospheric rivers.

Government Relations (EX) Leadership Council—The Government Relations (EX) Leadership Council did not meet at the Summer National Meeting. The Leadership Council meets weekly in regulator-to-regulator session, pursuant to paragraph 8 (consideration of strategic planning issues) of the NAIC Policy Statement on Open Meetings, to discuss federal legislative and regulatory developments affecting insurance regulation.

Long-Term Care Insurance (EX) Task Force—The Long-Term Care Insurance (EX) Task Force conducted an e-vote that concluded Aug. 9, in lieu of the Summer National Meeting, and took the following action: 1) adopted its Spring National Meeting minutes. The Task Force also met May 16 in regulator-to-regulator session, pursuant to paragraph 3 (specific companies, entities, or individuals) of the NAIC Policy Statement on Open Meetings, to continue work on its goals.

Special (EX) Committee on Race and Insurance—The Special (EX) Committee on Race and Insurance will meet Aug. 14 and anticipates the following action: 1) adopting its Spring National Meeting minutes; 2) hearing an update on health equity; 3) hearing an update on the Member Diversity Leadership Forum; and 4) receiving a status report from its workstreams. At the end of last year, the Special Committee voted to disband Workstream One and Workstream Two (focused on diversity within the insurance industry, the insurance regulatory community, and the NAIC) and rename its remaining workstreams by product line—property/casualty (P/C), life, and health.

- **Property/Casualty (P/C) Workstream**—The P/C Workstream of the Special Committee has been looking at potential bias in marketing, access to insurance, underwriting, rating, and claims handling. The Workstream recently met with industry representatives to focus on underwriting and rating, having previously met to focus on marketing issues. These discussions help to inform the workstream as it looks at potential algorithmic bias and explores industry best practices.

- **Life Workstream**—The Life Workstream of the Special Committee met July 20 to discuss its next steps. The Workstream plans to continue its focus on “marketing, distribution, and access to life insurance products in minority communities, including the role that financial literacy plays” by developing a resource guide for regulators. The guide is intended to be a resource for information helpful to all insurance departments looking to take action to improve access and understanding in underserved communities. The Workstream plans to work in cooperation with the NAIC Diversity, Equity, and Inclusion (DE&I) Division and the State Diversity Leaders. A list of questions was distributed during the State Diversity Leaders Forum on July 24 to start to catalog state activity. The Workstream also plans to hear additional presentations. There are stakeholders interested in sharing resources and information for possible inclusion in the resource guide. The Workstream anticipates hearing a presentation from Colorado, as well as hearing presentations from consumer representatives and industry stakeholders that expressed an interest in presenting.
- **Health Workstream**—The Health Workstream of the Special Committee met in regulator-to-regulator session after the Spring National Meeting to consider its activities and initiatives for 2023. During that meeting, the Workstream decided to hold at least three meetings to continue its education on benefit design relating to preventive care and mental health coverage (beyond pure parity). The Health Workstream also plans to meet about the evolution of the federal Affordable Care Act (ACA) Section 1332 waivers. Additionally, it is considering additional meetings to hear about innovative programs and initiatives that states are doing that are designed to promote health equity. The Workstream is also working to finalize a collaborative space on NAIC Connect to provide a platform in which Workstream members can share with other NAIC members the information it has captured during its meetings on removing barriers to health insurance for historically disadvantaged communities. The thought is that the Workstream’s NAIC Connect page would be a living resource for the NAIC membership, and the Workstream can continue to build content and other tools for the states on this site. In addition, the Workstream hopes that this site could also serve as a platform for discussion and conversations related to health equity and other related topics.
Model Law Development Report

Amendments to the Model Regulation to Implement the Accident and Sickness Insurance Minimum Standards Model Act (#171)—Amendments to Model #171 are required for consistency with the federal Affordable Care Act (ACA) and the revisions to its companion model act, the Supplementary and Short-Term Health Insurance Minimum Standards Model Act (#170). The Accident and Sickness Insurance Minimum Standards (B) Subgroup completed the revisions to Model #170 in late 2018, which the Executive (EX) Committee and Plenary adopted in February 2019. Therefore, they did not require approval of a Request for NAIC Model Law Development by the Executive (EX) Committee.

Soon after completing its work on Model #170, the Subgroup began considering revisions to Model #171. The Subgroup met every two weeks until it lost one of its co-chairs in December 2019. After a long hiatus since late 2019 because of the loss of a co-chair and the COVID-19 pandemic, as well as other resource issues, the Subgroup resumed its meetings in June 2021. The Subgroup has been meeting on a regular basis to discuss the comments received on Model #171. During the last few months of 2022, the Subgroup’s discussions focused on Section 8—Supplementary and Short-Term Health Minimum Standards for Benefits. This section establishes minimum standards for benefits for the products subject to the model, including accident-only coverage, hospital indemnity or other fixed indemnity coverage, and disability income protection coverage. The revisions also include a new section establishing minimum benefits for short-term, limited-duration (STLD) plans. The Subgroup completed its discussions of Section 8 in December 2022, including developing a new subsection establishing minimum benefit standards for STLD plans.

The Subgroup resumed its meetings in February 2023 and plans to continue meeting on a regular basis to continue its discussions and plans to work on the following Model #171 sections in this order: 1) the remainder of Section 8, including revisiting the proposed new subsection on STLD plans to discuss the Feb. 24 comments received on that section; 2) Section 7—Prohibited Policy Provisions; 3) revisit Section 5—Definitions and Section 6—Policy Definitions to reconcile any inconsistencies that may have arisen after the Subgroup’s review of the substantive provisions of Model #171; and 4) Section 9—Required Disclosure Provisions. The Subgroup is completing work on Section 9—Required Disclosure Provisions. The Subgroup hopes to finish its work to develop an initial draft of comments on Model #171 for public comment by the end of the year.
