The Privacy Protections (H) Working Group met Dec. 1, 2023. During this meeting, the Working Group:

1. Adopted its Summer National Meeting minutes with one edit that clarified the input from one of the interested parties about the gap that results when federal flood coverage is not adequate.
2. Received updates from NAIC staff on state privacy legislation and federal privacy activities.
3. Discussed the Working Group's process for moving forward with its drafting of the new *Insurance Consumer Privacy Protections Model Law (#674)*.
4. Discussed a referral from the Risk Retention Group (E) Task Force about risk retention groups (RRGs) and privacy requirements.
5. Heard part of a presentation from Consumers' Checkbook on access to data, costs, and inherent privacy risks in legacy systems versus non-legacy systems. The presenter described the cost of maintaining data in both systems prior to WebEx connectivity outages so frequent that the presentation had to be stopped and everyone participating virtually released. The Working Group will continue this presentation in its entirety during a future meeting.
