   A. Adopted its Jan. 25, 2021; Jan. 6, 2021; Dec. 28, 2020; Dec. 18, 2020; Dec. 8, 2020; and Nov. 12, 2020, minutes. The interim minutes included the following adoptions to Appendix B—Interpretations of Statutory Accounting Principles (INTs):
      1. Extended INT 20-03: Troubled Debt Restructuring Due to COVID-19 and INT 20-07: Troubled Debt Restructuring for Certain Debt Instruments Due to COVID-19 through Jan. 1, 2022, or the date that is 60 days after the date on which the national emergency concerning the COVID-19 outbreak terminates.
      2. INT 20-10: Reporting Nonconforming Credit Tenant Loans: This INT allows nonconforming credit tenant loans (CTLs) to continue to be reported on Schedule D, Part 1 – Long-Term Bonds if filed with the NAIC Securities Valuation Office (SVO) by Feb. 15, 2021. The provisions within this INT and the ability to continue reporting nonconforming CTLs on Schedule D, Part 1 with an SVO-assigned NAIC designation are limited time exceptions that extend only to Oct. 1, 2021.
      3. INT 20-11: Extension of Ninety-Day Rule for the Impact of 2020 Hurricanes, California Wildfires and Iowa Windstorms: This INT provides a 60-day extension from the 90-day rule for uncollected premium balances, bills receivable, and amounts due from agents and for policies directly affected by the noted events. This INT expires Feb. 28, 2021.
   B. Adopted the following nonsubstantive revisions to statutory accounting guidance:
      1. Statement of Statutory Accounting Principles (SSAP) No. 5R—Liabilities, Contingencies and Impairments of Assets, SSAP No. 72—Surplus and Quasi-Reorganizations, and SSAP No. 86—Derivatives: Revisions reject Accounting Standards Update (ASU) 2020-06, Debt—Debt with Conversion and Other Options (Subtopic 470-20) and Derivatives and Hedging—Contracts in Entity’s Own Equity (Subtopic 815-40), Accounting for Convertible Instruments and Contracts in an Entity’s Own Equity for statutory accounting. (Ref #2020-41)
      2. SSAP No. 25—Affiliates and Other Related Parties: Revisions clarify that an ownership greater than 10% in a reporting entity results in a related party designation, regardless of any disclaimer of control or affiliation. Additionally, the agenda item requires disclosure of such instances and identification of an insurer’s ultimate controlling party, as requested by the Group Solvency Issues (E) Working Group. (Ref #2019-34)
      3. SSAP No. 26R—Bonds:
         a. Revisions clarify that perpetual bonds are within the scope of SSAP No. 26R, and they are subject to the yield-to-worst concept. Additionally, perpetual bonds that possess a future call date will retain bond accounting (i.e., accounted for at amortized cost); however, if a perpetual bond does not possess a future call date, fair value accounting is required, regardless of NAIC designation. (Ref #2020-22)
         b. Revisions expand the current called bond disclosures to also include bonds terminated early through a tender offer. (Ref #2020-32)
      4. SSAP No. 32R—Preferred Stock and SSAP No. 86: Revisions direct that publicly traded preferred stock warrants are in the scope of SSAP No. 32R, and they shall be reported at fair value. (Ref #2020-33)
      5. SSAP No. 43R—Loan-Backed and Structured Securities: Revisions incorporate minor scope modifications to reflect recent changes to the Federal Home Loan Mortgage Corporation (Freddie Mac) Structured Agency Credit Risk (STACR) and Federal National Mortgage Association (Fannie Mae) Connecticut Avenue Securities (CAS) programs, which allow credit risk transfer securities from these programs to remain in the scope of SSAP No. 43R when issued through a real estate mortgage investment conduit (REMIC) structure. (Ref #2020-34)
      6. SSAP No. 71—Policy Acquisition Costs and Commissions: Revisions clarify the guidance in SSAP No. 71 regarding levelized commissions, with a Dec. 31, 2021, effective date. The Working Group affirmed the nonsubstantive classification of these revisions as consistent with the original intent of SSAP No. 71. In addition, the Working Group exposed a new annual statement general interrogatory to identify the use of a third party for the payment of commission expenses, which will be concurrently exposed with the Blanks (E) Working Group. (Ref #2019-24)
      7. Appendix D—Nonapplicable GAAP Pronouncements: Revisions reject ASU 2020-07, Not-for-Profit Entities (Topic 958): Presentation and Disclosures by Not-for-Profit Entities for Contributed Nonfinancial Assets as not applicable for statutory accounting. (Ref #2020-42)
8. Appendix F—Policy Statements: Revisions to the NAIC Policy Statement on Maintenance of Statutory Accounting Principles clarify the existing process regarding the Working Group’s issuance and adoption of accounting interpretations. (Ref #2020-39)

9. Preamble: Revisions clarify that while any state in which a company is licensed can issue prescribed practices, the prescribed practices directed by the domiciliary state: a) shall be reflected in the financial statements filed with the NAIC; and b) are the financial statements subject to independent audit requirements. (Ref #2020-40)

C. Exposed the following nonsubstantive revisions to statutory accounting guidance:

1. SSAP No. 2R—Cash, Cash Equivalents, Drafts and Short-Term Investments: Exposed the interpretative guidance provided by INT 21-01T: Statutory Accounting Treatment for Cryptocurrencies, which clarifies that cryptocurrencies do not meet the definition of cash in SSAP No. 2R, and they are nonadmitted assets for statutory accounting. Requested comments on the level of interest and ownership of cryptocurrencies. (Ref #2021-05)

2. SSAP No. 26R—Revisions reject ASU 2020-08, Codification Improvements to Subtopic 310-20, Receivables – Nonrefundable Fees and Other Costs for statutory accounting. (Ref #2021-02)

3. SSAP No. 47—Uninsured Plans: Revisions reject ASU 2021-02, Franchisors – Revenue from Contracts with Customers (Subtopic 952-606): Practical Expedient in SSAP No. 47. (Ref #2021-08)

4. SSAP No. 86: Interpretative revisions expose a temporary (optional) expedient and exception guidance for ASU 2021-01, Reference Rate Reform (Topic 848): Scope, with an expiration date of Dec. 31, 2022. The optional expedients would expand the current exceptions provided by INT 20-01: ASU 2020-04 – Reference Rate Reform. The exceptions allow for the continuation of the existing hedge relationship, and thus not requiring hedge dedesignation for derivative instruments affected by changes to interest/reference rates due to reference rate reform, regardless of whether they reference the London Interbank Offered Rate (LIBOR) or another rate that is expected to be discontinued. The exception in INT 20-01 would apply for affected derivatives used for discounting, margining or contract price alignment. (Ref #2021-01)

5. SSAP No. 97—Investments in Subsidiary, Controlled and Affiliated Entities: Exposed this agenda item with the intent to dispoze without statutory edits. NAIC staff note that the long-standing, required statutory adjustments to SSAP No. 97, paragraph 8.b.iv. – Foreign Insurance SCA Entities could result in negative equity valuation, as assets held in a foreign subsidiary should not be valued in a more favorable manner than had they been held directly by the insurer. Industry comments are requested regarding detailed instances of negative value subsidiary, controlled and affiliated entities (SCAs). (Ref #2021-04)

6. SSAP No. 103R—Transfers and Servicing of Financial Assets and Extinguishments of Liabilities: Revisions propose data-captured templates for existing disclosures in SSAP No. 103R, which are currently only completed in narrative form. Data-capturing of such items will permit state insurance regulators to submit system inquiries to determine the extent to which reporting entities have transferred (sold), but still retain, a material participation with said assets. A blanks proposal will be concurrently exposed with the Working Group’s exposure. (Ref #2021-03)

7. SSAP No. 107—Risk-Sharing Provisions of the Affordable Care Act: Revisions include state Affordable Care Act (ACA) reinsurance programs, which are using Section 1332 waivers in the scope of SSAP No. 107. The revisions continue to follow the hybrid accounting approach for the state ACA programs, as they operate in a similar manner. (Ref #2021-09)

8. SSAP No. 108—Derivatives Hedging Variable Annuity Guarantees: Re-exposed this agenda item to provide additional time for interested parties to develop a proposal for establishing accounting and reporting guidance for derivatives hedging the growth in interest for fixed indexed products. (Ref #2020-36)

9. Appendix D: Revisions reject ASU 2020-11, Financial Services—Insurance (Topic 944): Effective Date and Early Application for statutory accounting. This ASU was issued to address the effective dates of ASU 2019-09, Financial Services – Insurance (Topic 944): Effective Date and ASU 2018-12, Financial Services – Insurance (Topic 944): Targeted Improvements to the Accounting for Long-Duration Contracts, both of which were previously rejected by the Working Group. (Ref #2021-07)

10. Blanks:
   a. Re-exposed this agenda item for a concurrent exposure with the Blanks (E) Working Group of blanks agenda item 2021-03BWG to modify the current General Interrogatory instructions and require that a distinct disaggregated product identifier be used for each product represented. The disaggregation will require that each separate account product filing or policy form be separately identified. The instructions will also indicate that companies may eliminate proprietary information; however, the elimination will still require the use of a unique reporting identifier. (Ref #2020-37)
b. Re-exposed this agenda item for a concurrent exposure with the Blanks (E) Working Group. The Working Group is sponsoring blanks agenda item 2021-03BWG to clarify reporting by each separate product filing or policy form and add product identifiers, specifically for Pension Risk Transfer (PRT) and Registered Index-Linked Annuity (RILA) transactions in the Separate Account General Interrogatories. (Ref #2020-38)

D. Exposed the following editorial revisions (Ref #2021-06EP):
2. SSAP No. 97: Revisions correct grammatical errors in paragraph 54.
3. SSAP Glossary: Revisions remove the footnote in the Glossary title and replace it as an opening paragraph with updated verbiage.

E. Disposed the following without revisions to statutory accounting guidance:
1. Agenda item 2020-35: SSAP No. 97 – Audit Opinions was disposed without statutory revisions, as the issue of nonadmittance due to the inability to quantify a departure from U.S. generally accepted accounting principles (GAAP) was not deemed prevalent. (Ref #2020-35)

F. Received an update on the following projects and referrals:
1. Received an update that NAIC staff, industry, and key state insurance regulators have made significant progress on agenda item 2019-21: SSAP No. 43R – Investment Classification Project. While discussions remain ongoing, it is anticipated that a public exposure will occur via an interim call prior to the Summer National Meeting. The exposure will include additional concepts on which investments are eligible for reporting on Schedule D as a bond.
2. Received an update that INT 19-02: Freddie Mac Single Security Initiative remains in full effect. The Freddie Mac Single Security Initiative remains an ongoing program, and it does not appear to be subject to termination in the foreseeable future.
3. Received an update on agenda item 2019-49: Retroactive Reinsurance Exception. This agenda item addresses an ongoing program, and it does not appear to be subject to termination in the foreseeable future.
4. Received an update on the reporting and extinguishment of loans received from the federal Paycheck Protection Program (PPP). For statutory accounting, the authoritative guidance in SSAP No. 15—Debt and Holding Company Obligations paragraph 11 provides that debt is recognized until extinguished, including formally being forgiven. In addition, per SSAP No. 15 paragraph 25, gains on termination of debt are recognized as capital gains.
5. Received an update on the Valuation of Securities (E) Task Force discussion regarding revisions to the Purposes and Procedures Manual of the NAIC Investment Analysis Office (P&P Manual) as coordination regarding the revisions to SSAP No. 105R—Working Capital Finance Investments adopted by the Working Group in May 2020 (agenda item 2019-25). At its Nov. 18, 2020, meeting, the Task Force directed a referral to the Working Group, which is still pending. NAIC staff anticipate addressing this referral when received.
6. Received an update on current U.S. GAAP exposures/invitations to comment, noting that no comments by the Working Group are planned during the exposure periods.

NAIC/CONSUMER LIAISON COMMITTEE
April 8, 2021

This presentation is important to consumers and state insurance regulators because it recommended actions for the states to implement using additional funding provided by the federal American Rescue Plan Act of 2021 (ARPA) to enable uninsured persons to obtain health plans with no cost-sharing, especially those in underserved communities, such as immigrants and their family members.
2. Heard a presentation on the enforcement needed to ensure health plan compliance with HIV preventative drug requirements. This presentation is important to consumers because it highlighted the inadequacy of plans to make the regimen of pre-exposure prophylaxis (PrEP) affordable and/or available for zero cost, especially to Black and Hispanic/Latino communities that are disproportionately affected by HIV, as a preventative that reduces the risk of contracting HIV by approximately 99%.
3. Heard a presentation on how state insurance regulators can help improve maternal health outcomes for Black, Native American and Latina women experiencing disparities in maternal and infant health care, coverage and community due to bias and a lack of education and understanding of cultural differences. This presentation is important to consumers because it helps the states to identify areas of inadequacy in maternal care that need attention.
4. Heard a presentation on addressing coverage losses among kids, which is important to the states and consumers because it emphasized that the number of uninsured children has risen drastically, affecting millions of low-income, Black, Hispanic/Latino and immigrant children. New policies implemented in Colorado and Utah have promoted much-needed coverage and care for many of these children and provided templates that other states could utilize for uninsured children in their own communities.
5. Heard a presentation on a comprehensive approach to addressing systemic racism in insurance. This presentation is important to consumers, the industry and the states because it educates them about how racial bias can be inadvertently included in the algorithms used for rating insurance products. It explained the differences between disparate impact and proxy discrimination in insurance.
6. Heard a presentation on the short-term and long-term recovery of Texas in the aftermath of catastrophic disaster. This presentation is important to consumers, industry, and states because it explored collaboration opportunities for optimizing disaster recovery assistance by facilitating the flow of accurate information and insurance dollars to overwhelmed, traumatized people. The National Association of Insurance Commissioners (NAIC) is the U.S. standard-setting and regulatory support organization created and governed by the chief insurance regulators from the 50 states, the District of Columbia and five U.S. territories. Through the NAIC, state insurance regulators establish standards and best practices, conduct peer review, and coordinate their regulatory oversight. NAIC staff supports these efforts and represents the collective views of state regulators domestically and internationally. NAIC members, together with the central resources of the NAIC, form the national system of state-based insurance regulation in the U.S.
