Surplus Lines (C) Task Force
The Surplus Lines (C) Task Force did not meet at the Summer National Meeting

Title Insurance (C) Task Force
Aug. 11, 2022
1. Held an educational roundtable discussion on the various approaches states use to regulate rates. Ohio and Louisiana require prior approval of title insurers’ rates and forms and use statistical agents. The Ohio Title Insurance Rating Bureau (OTIRB) is the statistical agent for Ohio. The Louisiana Title Statistical Services Organization is the statistical agent for Louisiana. Texas employs an extensive body of rules, forms, and a promulgated rate that is set at a hearing approximately every five years. Title insurance rates in Texas include costs associated with the title search and transaction, but not the escrow fees. Kansas uses a file-and-approve system. While the Kansas Insurance Department reviews filings for compliance, it does not regulate title insurance rates.
2. Heard a presentation on new title insurance-like alternatives that use attorney opinion letters backed by an errors and omissions policy through the surplus lines market. These products protect the lender, but there are limited closing protections for the consumer.

**Workers’ Compensation (C) Task Force**

1. Discussed presumptions and whether they are creating inequity in the workers’ compensation system. Most states have let their COVID-19 presumptions expire. There are, however, a handful of states that have extended the presumptions. There has been activity for presumptions regarding post-traumatic stress disorder, as well as in the areas of hazardous waste exposure.

2. Discussed the future of work and how the hybrid workforce is affecting claims frequency. Items affecting the future workforce include remote work arrangements, job shifting, gig work, and automation. Twenty-five percent of the workforce works remotely on a full- or part-time basis. Thirty-one percent of gig workers hold gig work as their main job.

3. Discussed how the states are recruiting and training with the departments of insurance (DOIs). Several DOIs allow remote work, which has helped them to hire and retain employees. The DOIs are also having good results with recruiting new employees from local colleges and universities.
