

Okta Verify

Add Okta Verify Multi Factor Authentication (MFA) App to your device.

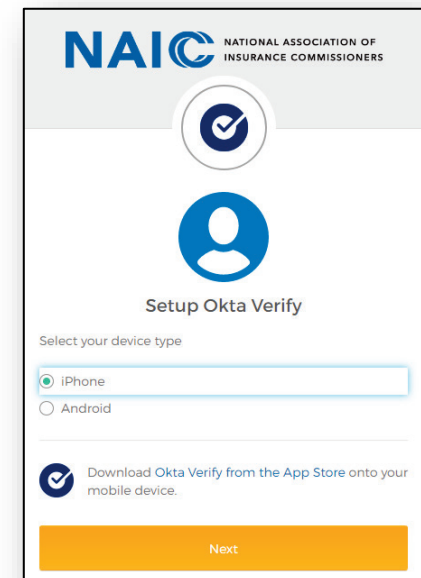

Refer to 'MFA - Getting Started' instructions before selecting Okta Verify Authentication Setup.

1. Use **App Store** (Apple IOS) or **Google Play** (Android) to download and install **Okta Verify App**.
2. Open Okta Verify App on your device.
3. On computer, follow below instructions after clicking **Set Up** under **Okta Verify**.
4. Click **Configure factor**.

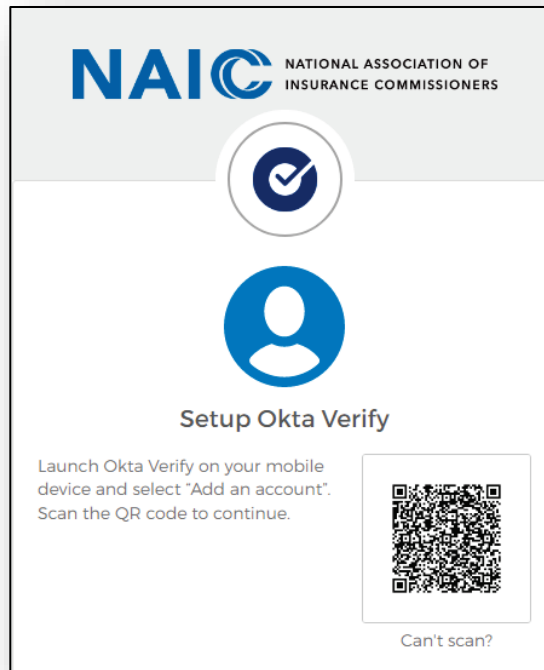

5. Next, select device type (iPhone or Android). Click **Next**.

This starts the process of adding your NAIC MFA account to the Okta Verify app on your phone.

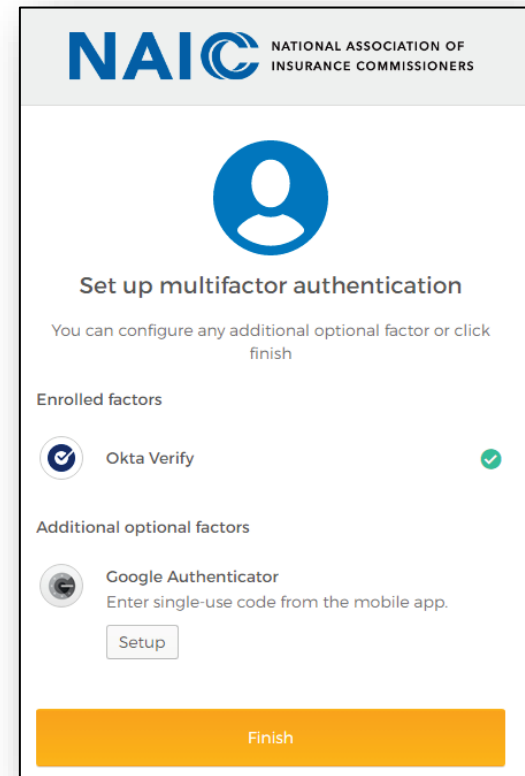

Use the Okta Verify app on your device to:

6. Scan the **QR code** displayed on your computer.
(Do Not Use a QR Scan app)

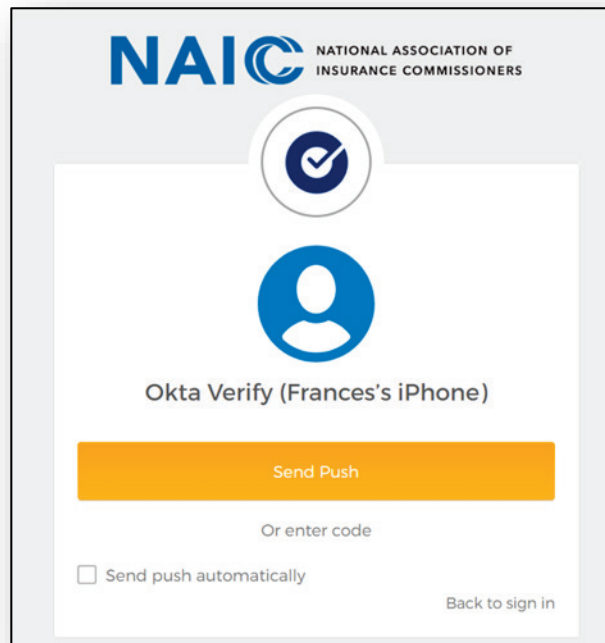

NOTE: If you have difficulty scanning the QR Code, click **Can't Scan?** link below the QR code and follow the instructions.

7. After successfully scanning the QR code > click **Finish**.

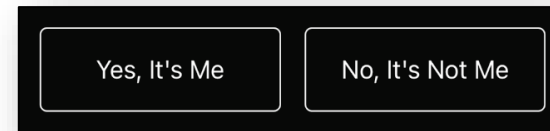

When you login to a NAIC application, you will be asked to verify access as shown.

1. Click **Send Push**.

Okta Verify on your phone will ask you to verify.

2. Answer with '**Yes, It's Me**' and you will be logged into the application.

NOTE: Send push automatically - click this box to enable push notification to be automatically sent when logging into your NAIC application.
