#### IDENTIFICATION OF ITEM(S) TO CHANGE

This item proposes new reporting requirements for investment transactions with related parties. In addition to capturing direct loans in related parties, it will also capture information involving securitizations (or other similar investments) where the related party is a sponsor / originator along with whether the underlying investment is in a related party.

#### REASON, JUSTIFICATION FOR AND/OR BENEFIT OF CHANGE\*\*

Pursuant to recent discussions, regulators desire additional information on investment transactions involving related parties, regardless of whether the related party is "affiliated" pursuant to Model #440. To preserve the affiliate definition and reporting categories for affiliated investments, these additional proposed reporting elements will be captured outside of the current affiliate reporting requirements. The new electronic columns will capture investments issued by a related party or acquired through a related party transaction or arrangement, regardless if the specific affiliate definition has been met or if there has been a disclaimer of affiliation / control.
